There were purchased during the year 60,000 shares of the capital stock of the Mohawk Valley Company, 2,416.96 shares of the capital stock of the Little Falls & Dolgeville Railroad Company, 5,748 shares of the common capital stock of the Boston & Maine Railroad Company and 128 shares of the capital stock of the Merchants' Despatch Transportation Company.

The construction work in New York City and vicinity in connection with the change of motive power from steam to electricity has progressed steadily. On September 30 1906 the first train operated by electricity made a successful trial trip from Highbridge to Grand Central Station. On December 11 1906 regular service by electric traction was inaugurated, certain trains being thus operated between Grand Central Station and the temporary terminal at Highbridge and thence by steam to Yonkers. It is expected that full operation by electricity, between Grand Central Station and the temporary terminals at Highbridge and Wakefield, will be accomplished early in 1907.

The temporary station for passenger traffic at Lexington Avenue and 43rd Street was opened on December 13 1906.

Continued progress has been made at different points on the line in the abolition of grade crossings, revision of grades, new alignments, etc., and extensive improvements in yards at important terminal points on the system.

Balance, December 31 1906			$14,631,553 66

* 1906, 5¼ % on 1,491,978 shares: 1905, 5 % on 1,322,500 shares.

The gross earnings were $92,089,768 77, an increase of $5,994,166 75 over the previous year.

The freight earnings were $54,824,282 77, an increase of $2,511,951 55. There was a heavy decrease in coal tonnage, due to a four months' strike in the bituminous fields and the subsequent inability to concentrate the scattered car supply for coal movement. A large additional tonnage of merchandise freight hauled, however, gave a resulting increase in the average rate per ton per mile, while the average number of miles each ton was carried shows a decrease.

Passenger earnings were $28,568,778 01, an increase of $2,807,391 26. This was due to the larger volume of both long-haul local and commutation traffic.

The earnings from express traffic and the transportation of mail were $6,129,791 44, an increase of $549,505 10.

The expenses of operation were $64,953,695 33, an increase of $4,985,666 42.

Maintenance of way and structures increased $734,498 01, of which $317,333 25 was in repairs of roadway and $332,-713 78 in repairs and renewals of buildings, the balance of the increase being generally distributed throughout the other items of expense in this group.

Maintenance of equipment increased $1,330,932 90, principally on account of repairs. Continued heavy charges for replacements were slightly in excess of those of previous year.

Conducting transportation increased $2,907,368 29. With the exception of a decrease in per diem and mileage, due to larger collections from other roads for the use of this company's equipment, almost all of the items in this group show increases, caused by the greater volume of business and the general advance in the cost of labor, material and fuel throughout the year.

The net earnings were $25,827,812 94, an increase of $1,232,961 67.

First charges were $22,567,904 01, an increase of $325,-401 51, the principal item being additional taxes on real estate. The decrease in charges for taxes on capital stock is due to the adjustment of accruals in 1905 on account of the change of date in the close of the fiscal year in 1904.

The profit from operation for the year, after payment of five and one-quarter per cent (5¼%) dividend upon 1,491,-978 shares of capital stock, was $3,134,762 20. From this sum there was authorized a deduction of $2,800,000 as a special fund for new equipment and betterments.

Extraordinary expenditures during the year were as follows:

For additions to property, charged to cost of road and equipment	$9,100,293 90
For construction and equipment of leased lines and Grand Central terminal improvement, to be charged in part against funds provided by lessor companies	7,561,802 75
For additions and improvements to roadway and structures, strengthening of bridges, etc., charged to current income	1,308,260 50
For replacements of equipment, charged to operating expenses	2,823,340 04
For new equipment and betterments, charged against special improvement fund	1,669,476 04
Total	$22,563,173 23

Details are shown in pamphlet report.

MICHIGAN CENTRAL RAILROAD COMPANY.

SIXTY-FIRST ANNUAL REPORT—FOR THE YEAR ENDED DECEMBER 31 1906.

To the Stockholders of The Michigan Central Railroad Company:

The Board of Directors herewith submits its report for the year ended Dec. 31 1906, with statements showing the results for the year and the financial condition of the company.

The report covers the operation of the following mileage:

Main line	270.07 miles.
Proprietary lines	343.93 "
Lines leased	1,117.34 "
Lines operated under trackage rights	14.00 "
Total road operated	1,745.34 "

The capital stock authorized and issued to December 31 1906 was $18,738,000

The funded debt outstanding on Dec. 31 1905 was $25,295,000
It has been decreased during the year ended Dec. 31 1906 as follows:
Michigan Central—Jackson Lansing & Saginaw 3½% gold bonds of 1951, purchased and canceled by the trustees of the Land Grant Fund of the Jackson Lansing & Saginaw RR. Co. 30,000
Total funded debt Dec. 31 1906 $25,265,000

On Jan. 2 1906 this company leased direct the property of the Toledo Canada Southern & Detroit Railway Co., one of the railroads of the Canada Southern Railway System, included in the agreement of Aug. 15 1903, for the period of its corporate existence. Under the terms of the lease this company agrees to pay the principal and interest on $4,500,000 4% first mortgage bonds as they may be issued in accordance with its provisions. The date of maturity of these bonds is fifty years from Jan. 1 1906 and the amount now outstanding is $3,100,000. Of this amount $1,500,000 is held by the Canada Southern Railway Co. in accordance with the terms of the lease, and will not draw interest while in the possession of the Canada Southern Co. The interest on the balance of the outstanding $1,600,000 of bonds is paid by this company. Under the terms of the lease, in consideration of this company's guaranteeing both principal and interest of the $4,500,000 bond issue, the Canada Southern Co. is to deliver to the Michigan Central Co. on March 1 1913 the $1,500,000 bonds held by that company and the entire capital stock of the Toledo Canada Southern & Detroit Railway Co.

On Dec. 27 1906 this company acquired a majority of the capital stock of the Chicago Kalamazoo & Saginaw Railway Co., the road of which extends from Pavilion, Mich., to Woodbury, Mich., a distance of 55.30 miles, passing through the city of Kalamazoo.

On April 9 1906 this company acquired 30,000 shares of the common stock, and on Sept. 26 1906 purchased $3,000,000 4% first mortgage bonds of the Chicago Indiana & Southern Railroad Co.

On Sept. 25 1906 Articles of Association of the St. Clair & Western Railroad Co., succeeding the Michigan Midland & Canada Railroad Co., a proprietary line of the Canada Southern Railway Co., were filed.

Cost of road and equipment on Dec. 31 1905 was	$35,363,838 08
Less—Premium received on Michigan Central 3½% gold bonds of 1952, credited to construction account	150,580 99
Total cost of road and equipment to Dec. 31 1906	$35,213,257 09
This represents per mile owned (270.07 miles) $130,386.	
Terminal Railroad, Chicago (Indiana Harbor Line), construction account was increased	$98,260 43

General expenses	556,775 99	541,434 79	+15,341 20
Total expenses	$21,730,263 99	$18,865,916 43	+$2,864,347 56
Net earnings	$4,545,324 14	$4,417,951 81	+$127,372 33
Other income	402,003 85	315,812 16	+86,191 69
Gross income	$4,947,327 99	$4,733,763 97	+$213,564 02
First Charges.			
Interest on funded debt	$2,073,850 55	$2,015,320 29	+$58,530 26
Rentals of leased lines	566,310 00	561,202 47	+5,107 53
Taxes	1,001,740 70	962,002 50	+39,738 20
Interest on loans, notes and bills payable	317,599 22	221,784 99	+95,814 23
Total	$3,959,500 47	$3,760,310 25	+$199,190 22
Balance available for div'd	$987,827 52	$973,453 72	+$14,373 80
Cash dividends (in 1906, 5%; in 1905, 4%)	936,900 00	749,520 00	+187,380 00
Surplus	$50,927 52	$223,933 72	—$173,006 20

To the surplus for the year	$50,927 52
There should be added—	
Net amount transferred to the credit of profit and loss, in adjustment of sundry accounts	97,877 43
Amount to credit of Profit and Loss Dec. 31 1905	8,864,156 94
Balance Dec. 31 1906	$9,012,961 89

The gross earnings were $26,275,588 13, an increase of $2,991,719 89 over the previous year.

The freight earnings were $18,650,229 56, an increase of $2,394,748 67. This was due to an increased movement in nearly all commodities and in the average distance of each ton carried.

The passenger earnings were $5,928,874 02, an increase of $703,345 76, due to a general increase in both local and interline business.

The express earnings were $901,415, a decrease of $71,870 19.

The expenses of operation were $21,730,263 99, an increase of $2,864,347 56.

Maintenance of way and structures showed an increase of $70,448 76.

Maintenance of equipment increased $1,155,651 36, due to renewal charges on account of cars and locomotives.

Conducting transportation increased $1,622,906 24.

The principal fluctuations were as follows:

"Fuel for locomotives," increase $349,063 08.

"Rents for tracks, yards and terminals," increase $286,157 32.

"Car mileage and per diem" increase $203,067 12.

"Engine and round-house men," increase $158,573 14.

"Station service," increase $149,240 75.

"Train service," increase $114,471 13.

"Switchmen, flagmen and watchmen," increase $105,025 96.

The net earnings were $4,545,324 14, an increase of $127,372 33.

Other income was $402,003 85, an increase of $86,191 69, due to increased revenue from securities and interest on advances.

First charges, $3,959,500 47, increased $199,190 22, the principal items being interest on additional bonds issued and interest on loans.

The profit from operation for the year, after payment of 5% in dividends upon the capital stock, was $50,927 52, which has been carried to the credit of Income Account.

Union Bag & Paper Co.—*Report.*—See "Annual Reports" on a preceding page.

New Directors.—Chauncey Marshall, New York; Alexander McLaurin, Montreal, and John S. Riegel, Philadelphia, have been elected directors to fill vacancies. John H. Derby has been made Second Vice-President.—V. 83, p. 1596.

United Box Board & Paper Co.—*Sale of Bonds—Unprofitable Plants Sold.*—The following has been officially revised:

The additional offerings of bonds to the shareholders are meeting a ready sale. The company desires to sell about $600,000 of the $914,000 general mortgage treasury bonds and has already disposed of between $450,000 and $500,000. The proceeds received will liquidate the debt to O. C. Barber.

The company has decided to dispose of its obsolete plants. Three have already been sold and all of the other unprofitable mills will be sold as rapidly as buyers can be found.

A circular, dated April 11 and signed by President Sidney Mitchell and Sec.-Treas. Hyatt Cox, refers to the amicable transfer of the control to the Chicago interests and their plan for financing the company's requirements by the sale of general mortgage 6% bonds, and adds:

Mr. Barber has turned over to the company a large portion of the treasury bonds which he held as security against his endorsements and loans to the company. Our company has now in its treasury $914,000 general mortgage bonds. These we offer to you at 80 and interest to provide working capital. We found the company indebted to Mr. Barber to the amount of $460,000. This accommodation Mr. Barber has consented to continue for a reasonable time pending the sale of the bonds.

(The balance sheet of Feb. 23 1907 shows liabilities as follows: Bonds and mortgages, $4,110,900, including $914,000 general 6% bonds in treasury; accounts and bills payable, $840,509, this last being offset by cash, $31,575; accounts and bills receivable, $458,583, and merchandise and supplies, $384,282.—Ed.)—V. 84, p. 453, 512, 630, 808.

United States Steel Corporation.—*Favorable Decision.*—See Shelby Steel Tube Co., above.—V. 84, p. 808, 755.

United States Title Guaranty & Indemnity Co.—*New President.*—George J. Gillespie, a New York attorney, who represents a number of large estates, has been elected President and will take office on May 1.—V. 83, p. 912.

Wason Manufacturing Co. of Springfield, Mass.—*Sale.*—The "Boston Financial News" on April 2 said:

The entire $300,000 stock was yesterday transferred by sale to the J. G. Brill Co. of Philadelphia. (Compare V. 84, p. 751.) The price paid is said to have been $1,200,000.

—In the organization of the Farwell Trust Company of Chicago and the consequent dissolution of the stock and bond firm of Granger Farwell & Co., the following changes occur: Mr. G. A. McClellan, the New York partner and Stock Exchange member, on May 1st becomes an active partner in the firm of Harris, Winthrop & Co. Mr. R. G. Elsten, Manager New York office, goes with Mr. McClellan to the new firm. Mr. J. O. Hinkley, Manager of the Stock Department of Farwell & Co., and Mr. J. K. Witzel, long associated with the house, both assume important positions in the Chicago office of Harris, Winthrop & Co.

—A. E. Ames & Co., Toronto, have issued a booklet of 72 pages entitled "Canadian Bank Shares as Investments." There are 35 banking institutions in the Dominion doing business at over 1,700 branches, each branch being under the direction of the head office. These 35 institutions are each analyzed at length in the booklet, showing their growth during the past ten years. There is much other interesting data on the subject of Canadian banks.

—The banking house of Francke, Thompson & Robb at 43 Exchange Place and in the Bristol Building, Fifth Avenue and 42d Street, is particularly well equipped to quote and deal in Cuban securities. This concern now makes a specialty of all Cuban securities and is in a position at the present time to handle that class of business. Daniel F. Downs is the head of its bond department.

—The firm of Bond & McCauley, 67 Exchange Place, was dissolved this week and the new firm of Bond & Buttfield organized to continue its business. The members are: Allan Bond and W. J. Buttfield. Frank M. Cronise and Albert A. Johnson, formerly of the firm of Lathrop & Smith, 37 Broad Street, will be associated with Bond & Buttfield.

—Mr. Alfred Graham Miles, formerly connected with H. N. Whitney & Sons, has been admitted to membership in the New York Stock Exchange firm of Millett, Roe & Hagen, of 3 Broad Street, this city, and 10 Post Office Square, Boston. This house deals in high-grade bonds.

—Bonds and certificates of all kinds, and at varying cost, are produced by Albert B. King & Co., whose card appears in another column. Long experience and exceptional facilities enable them to prepare such work correctly and quickly.

—Fisk & Robinson, who obtained approximately three-quarters of the recent issue of Porto Rico 4% bonds, have been unable to fill the later applications for the bonds, having sold the entire amount practically within 24 hours.

Peabody, Houghteling & Co., Chicago, in a page advertisement in our current issue, invite the attention of investors to the various class of securities in which they deal. Descriptive circulars will be sent on application.

—The Boston office of N. W. Harris & Co. has been removed from 67 Milk Street to the John Hancock Building. The firm occupies the first floor, their quarters extending from Federal Street to Devonshire Street.

—The Philadelphia banking house of Graham & Co. announces its removal to 607 Chestnut Street, pending the construction of a new office building at their former address, 435 Chestnut Street.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, April 12 1907.

Continued activity in iron and steel seems to be only a typical instance of general activity in other manufactures and a prosperous condition of trade generally throughout the country, accompanied by well-sustained prices. There is a widespread feeling, too, that prosperity is not likely for some time to come to be disturbed by any serious re-action. Speculation, as heretofore, is for the most part quiet.

LARD on the spot has been dull and easier. Small jobbing sales have been made of late at 8.50c. for city and 8.85c. for Western. Refined lard has been steady, with trade stagnant. Refined Continent 10.40c., South America 10.25c. and Brazil in kegs 11.25c. The market for lard futures at the West has been active and irregular. Early in the week many longs liquidated, but of late the tone has been firmer, owing to smaller receipts of live hogs than had been expected and strong prices for live hogs. Leading Chicago packers have been buying and commission house business has shown an increase. The dulness of the spot trade has had no effect upon the course of future prices.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Frl.
May delivery	8.87½	8.62½	8.75	8.85	8.67½	8.67½
July delivery	8.85	8.75	8.87½	8.95	8.80	8.81
September delivery	8.97½	8.87½	8.97½	9.07½	8.92½	8.90

PORK on the spot has been irregular, but as a rule the changes have been slight. The demand has been confined to small jobbing lots. Mess $17 50@$18 25, clear $17 75@$19 and family $19@$19 50. Cut meats have been steady with trade quiet and of a hand-to-mouth character. Pickled shoulders 9¼@10c., pickled hams 12@12½c., and pickled bellies, 14@10 lbs., 10¼@11c. Tallow has declined to 6⅜c. with trade dull and supplies larger. Stearines have been dull and steady. Oleo 9½c. and lard 10c. Butter has been fairly active and steady; creamery extras 30½@31c. Cheese has been in moderate demand and steady; State factory, fancy, 15c. Eggs have advanced on active buying and decreasing offerings; Western firsts 17½@18c.

OIL.—Cottonseed has been dull and steady; prime summer yellow 46c. and prime winter yellow 51@52c. Linseed has been dull but firm, owing to the strength of the seed market. City, raw, American seed, 42@43c.; boiled 43@44c.; Calcutta, raw, 70c. Lard has been easier with trade dull. Prime 76@78c. and No. 1 extra 58@60c. Olive has been firm with trade more active and supplies light; yellow 80@90c. and green 70@75c. Cocoanut has been moderately active with Cochin firm at 10¾c. and Ceylon easier at 9⅜@9½c. Peanut has been quiet and steady; yellow 50@60c. Cod has been moderately active and firm; domestic 38@40c.; Newfoundland 40@42c.

COFFEE on the spot has been dull and easy. Rio No. 7, 6⅞c. and Santos No. 4, 8@8⅛c. West India growths have been moderately active and steady; fair to good Cucuta 8½@9½c. The market for future contracts has declined with the trading on a very restricted scale. The principal depressing factors have been declining foreign markets, continued large receipts at the Brazilian ports, local and foreign liquidation, the stagnation of the spot trade and the persistent dulness of the speculation.

The closing prices were as follows:

April	5.60c.	August	5.45c.	December	5.45c.
May	5.65c.	September	5.45c.	January	5.50c.
June	5.55c.	October	5.45c.	February	5.50c.
July	5.50c.	November	5.45c.	March	5.50c.

SUGAR.—Raw has advanced, owing to increased buying by refiners. Supplies are light. Centrifugal, 96-degrees test, 3.73c.; muscovado, 89-degrees test, 3.23c.; and molasses, 89-degrees test, 3.04c. Refined has advanced, owing to an increased demand and the rise in raws. Granulated 4.70@4.80c. Teas have been quiet and steady. Spices have been moderately active and firm. Hops have been quiet and steady.

PETROLEUM.—Refined has been active and firm. Some are expecting a further advance in quotations in the near future. Refined, barrels, 8.20c.; bulk, 4.75c., and cases, 10.65c. Naphtha has been fairly active and firm; 73@76 degrees, 18c., in 100-gallon drums. Gasoline has been active and firm; 86 degrees, 21c., in 100-gallon drums. Spirits of turpentine has been fairly active and firm at 75c. Rosin has been in moderate demand and firm; common to good strained $4 55@$4 65.

TOBACCO.—Trade in domestic leaf has continued quiet, but prices have generally remained firm with supplies light. Havana has been in moderate demand at firm quotations. Crop accounts have been conflicting. At the fourth Sumatra inscription at Amsterdam somewhat lower prices prevailed, though some lots sold at the highest prices thus far reported. The total offerings amounted to some 16,000 bales, of which 3,000 were taken for American account.

COPPER has been quiet and steady; lake 21¾@25c. and electrolytic 23@24¼c. Lead has been dull and easier at 6c. Spelter has been quiet and steady at 6.75@6.80c. Tin has been dull and steady; Straits 40¾c. Iron has been active and steady; No. 1 Northern $22 20@$23 70; No. 2 Southern, $22 75@$24.

COTTON.

Friday Night, April 12 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 113,585 bales, against 109,008 bales last week and 136,702 bales the previous week, making the total receipts since the 1st of September 1906, 9,034,066 bales, against 6,856,598 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,177,468 bales.

Speculation in cotton for future delivery has kept within such narrow bounds and the daily fluctuations have been so restricted that the week has been, on the whole, devoid of incidents of very striking interest. Nevertheless, under the lead of the Liverpool market prices have advanced moderately. The English advices have suddenly become of quite a bullish character, Liverpool's spot sales mounting to 12,000 and 15,000 bales a day, and the May-June option showing a good deal of activity and strength at premiums over the later deliveries, which show a tendency to increase; so much so as to give rise to rumors of a possible squeeze in May-June later on. However that may be, prominent Liverpool interests have been buying May-June delivery, it is said, on quite a large scale, and its firmness has been one of the most noticeable features across the water. In New York itself the dulness of speculation and the fact that the receipts have not fallen off as much as had been expected have had a tendency to neutralize bullish news of any kind. Some stress has been laid on reports of dry weather in Texas and of frosts in the eastern and central portions of the belt, but they have had far less influence than the Liverpool advices, especially as the season is apparently more forward than usual, and so far as can now be gathered an increase in the acreage seems highly probable. The movement of the crop, in the Southwest in particular, has exceeded expectations, the New York stock is steadily increasing and at times there has been a certain amount of Southern selling here, said to be against future shipments to New York. Another factor which has militated more or less directly against the market was the passage during the week of an anti-option bill by Texas. This makes six States in the cotton belt which have enacted similar laws that naturally have a tendency to cut down speculative business in futures with the South and to keep hedging transactions, already small enough, owing to the low prices ruling here, within still narrower limits. Of late, however, Liverpool and Southern buying, partly to cover shorts, and the noteworthy strength and activity of the Liverpool market, have had a more or less bracing effect on prices here, especially as the weather at the South has been regarded as in some respects unfavorable. The large exports have also attracted attention and the same may be said of the firmness of the cotton goods market, all of which confirm the belief of many that the consumption this season is unusually large. It is believed, too that it is likely to continue so for some time to come, and in that case it is felt that another large crop may be necessary. Speculation, however, is stagnant and it may continue so until something striking happens to awaken it into new life. To-day prices advanced, owing partly to an active and higher market in Liverpool (where the "spot" sales were 15,000 bales, a small New Orleans estimate, and buying by Liverpool), New Orleans and local operators. Besides, there was rain in the eastern section of the belt, where it has latterly been cold, with frosts. The weather in Texas was reported dry and there was some manipulation of the May option by local bulls. Cotton on the spot has been dull at unchanged quotations. Middling closed at 11c.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

The above totals show that the interior stocks have *decreased* during the week 15,472 bales, and are to-night 2,476 bales more than at the same time last year. The receipts at all the towns have been 16,701 bales more than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

April 12—	1906-07		1905-06	
Shipped—	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Via St. Louis	12,046	d691,493	12,335	424,780
Via Cairo	3,876	200,541	3,148	183,416
Via Rock Island	2,595	70,984	79	40,423
Via Louisville	1,616	72,769	1,958	83,012
Via Cincinnati	570	47,931	927	47,925
Via other routes, &c.	8,478	402,302	7,783	220,743
Total gross overland	29,181	1,486,020	26,230	1,000,209
Deduct shipments—				
Overland to N. Y., Boston, &c.	3,961	146,874	2,121	125,718
Between interior towns	8,592	77,333	324	17,672
Inland, &c., from South	1,894	50,614	659	35,613
Total to be deducted	14,447	274,821	3,104	179,003
Leaving total net overland	a14,734	1,211,199	23,126	821,206

a Including movement by rail to Canada. d 6,516 bales added as correction since Sept. 1

The foregoing shows the week's net overland movement has been 14,734 bales, against 23,126 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 389,903 bales.

In Sight and Spinners' Takings.	1906-07		1905-06	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices this evening from the South are, on the whole, fairly favorable. From some sections, however, there are complaints that the cold weather early in the week interfered with cotton, and in Texas it is claimed that rain is needed to assist seed in germinating. As a rule farm work has progressed well.

Galveston, Texas.—Moisture is needed throughout Texas to assist seed in germinating. Dry here all the week. The thermometer has averaged 69, the highest being 78 and the lowest 60.

Palestine, Texas.—Rain has fallen on one day of the week, the precipitation being thirty-four hundredths of an inch. The thermometer has averaged 67, ranging from 48 to 86.

Fort Worth, Texas.—It has been dry all the week. The thermometer has ranged from 44 to 90, averaging 67.

Taylor, Texas.—There has been no rain during the week. Average thermometer 69, highest 96, lowest 42.

San Antonio, Texas.—There has been no rain the past week. The thermometer has averaged 73, the highest being 100 and the lowest 46.

Corpus Christi, Texas.—There has been no rain during the week. The thermometer has averaged 72, ranging from 56 to 88.

Abilene, Texas.—It has been dry all the week. The thermometer has ranged from 46 to 92, averaging 69.

New Orleans, Louisiana.—There has been no rain during the week. The thermometer has averaged 70.

Shreveport, Louisiana.—There has been rain on one day during the week, the rainfall reaching eighty-five hundredths of an inch. The thermometer has averaged 63, ranging from 43 to 83.

Vicksburg, Mississippi.—We have had rain on two days during the week, the rainfall reaching twenty-eight hundredths of an inch. Thermometer has averaged 63, the highest being 80 and the lowest 45.

Helena, Arkansas.—Weather rather cool for farming. We have had rain on one day of the week, the rainfall reaching twenty-two hundredths of an inch. The thermometer has averaged 56.5, ranging from 39 to 73.

Little Rock, Arkansas.—Weather clear and favorable for farm work, but temperature too low. We have had rain on one day during the week, the rainfall reaching four hundredths of an inch. The thermometer has ranged from 40 to 72, averaging 56.

Memphis, Tennessee.—Weather cool and less favorable for farm work. Rain has fallen on three days of the week, to the extent of ninety-six hundredths of an inch. Average thermometer 55.2, highest 69.1, lowest 41.8.

Mobile, Alabama.—Rain in the interior early in the week and showery in part later. Weather too cold. Cotton planting has made fair progress with some re-planting on account of the cold wave of last week. There has been rain on one day during the week, the rainfall reaching one inch and ten hundredths. The thermometer has averaged 67, ranging from 51 to 83.

Montgomery, Alabama.—Crops are not doing so well, the cold snap having been a retarding influence. It is turning warmer to-day. There has been rain on three days during the week, the rainfall reaching forty-five hundredths of an inch. Thermometer has ranged from 43 to 81, averaging 61.

Madison, Florida.—There has been rain on two days during the week, the precipitation being seventy-five hundredths of

an inch. The thermometer has averaged 63, the highest being 82 and the lowest 44.

Augusta, Georgia.—It has rained on three days during the week, the precipitation being one inch and twenty-six hundredths. The thermometer has averaged 54, ranging from 33 to 78.

Savannah, Georgia.—It has rained on four days of the week, the precipitation reaching sixty-nine hundredths of an inch. The thermometer has ranged from 40 to 79, averaging 59.

Charleston, South Carolina.—It has rained on four days during the week, the rainfall being one inch and thirty-nine hundredths. Average thermometer 57, highest 74, lowest 39.

Greenwood, South Carolina.—Rain has fallen on one day of the past week to the extent of ten hundredths of an inch. The thermometer has averaged 50, the highest being 62 and the lowest 39.

Stateburg, South Carolina.—Sharp frosts have probably done some damage to crops and gardens and cotton reported to have been planted by unwise farmers last week has undoubtedly been killed, if up. It has rained on three days during the week, the rainfall being eighty-two hundredths of an inch. Average thermometer 52, highest 79, lowest 32.

Charlotte, North Carolina.—It has rained on one day of the week, the precipitation reaching nine hundredths of an inch. The thermometer has ranged from 31 to 73, averaging 49

WORLD'S SUPPLY AND TAKINGS OF COTTON.

The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

Cotton Takings. Week and Season.	1906-07.		1905-06.

BREADSTUFFS.

Friday, April 12 1907.

Prices for wheat flour have remained stationary as a rule during the week, with the trading stagnant. Kansas mills are said to be asking advances of five to ten cents, owing to the continued dry weather in that State and the advance in wheat. But quotations are to a large extent nominal. Reports from all the principal milling centres of the country are of a decidedly unsatisfactory character. Exporters have continued to hold aloof from the market, and the clearances from the seaboard for Europe have been extremely light. Corn meal and rye flour have been dull and steady.

Wheat has advanced, mainly owing to reports of damage to the crop in the Southwest by dry weather and green bugs. Some damage is also said to have occurred in parts of Kansas, Nebraska and Missouri, and these reports have been sufficiently persistent to have some effect, though some of the advices have been of a directly opposite nature. The Government report on the 10th inst. was regarded as bullish, though it stated the condition of winter wheat on April 1 at 89.9%, against 89.1% on the same date last year and 85.3 as the ten-year average on April 1. The opinion of not a few was that the report, as it could not take account of the damage which has been done since April 1, failed to show the real state of affairs. Bulls assert that this has been serious, and though the damage has possibly, as usual, been exaggerated, it has caused a good deal of covering of shorts and encouraged not a little buying for the rise, despite the fact that local statisticians interpret the Government report as pointing to a crop of 493,974,000 bushels, against 492,888,000 bushels, the final figures last year, 428,462,831 in 1905 and 332,935,349 in 1904. Some of the crop reports from Spain have also been unfavorable, though it is to be remarked that these, too, have been contradicted. There have been complaints of cold weather in Germany. Some private reports are to the effect that the Russian crop is not in as good condition as some had supposed, and others are to the effect that the purchases of Durum wheat in this country for export to Europe are likely to be very large during the present year. Latterly, too, the foreign markets have advanced somewhat in response to reports of damage in Kansas, Oklahoma and Texas, as well as Missouri and Nebraska. But, on the other hand, the export demand has been small, the Northwestern receipts have continued large, stocks there are still increasing and the flour trade is dull. The increase in the world's available supply last week amounted to 4,534,000 bushels, as against a decrease for the same week last year of nearly half a million bushels. The world's stock of wheat is now stated in round numbers at 166,000,000 bushels, or some 10,000,000 bushels more than a year ago. To-day prices again advanced, owing to dry weather in Kansas, damage reports from the Southwest, predictions of freezing temperatures over the winter-wheat belt, covering of shorts, an absence of selling pressure and general buying.

DAILY CLOSING PRICES OF WHEAT FUTURES IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Frl.
No. 2 red winter	83 ½	84	83 ⅝	84 ⅜	84	85 ⅛

September delivery in elevator	79 ½	80 ⅝	80 ⅛	81 ⅛	81 ⅛	82 ¾

Indian corn futures have advanced, though the trading has been rather quiet. The market, however, has been dominated largely by the strength of wheat and oats. The offerings have been slight, leading Chicago interests have bought at times and shorts have covered. Moreover, the cash markets have advanced, with the demand fairly active. The receipts at Chicago have been small and have included very little contract corn, a fact which has tended to check selling, especially as the stock of contract grade at Chicago is light. To-day prices advanced, owing to the rise in wheat, reports of unfavorable weather for plowing, covering of shorts and bull support.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Frl.

July delivery in elevator	46 ¼	46 ½	46 ⅜	47 ¼	47	47
September delivery in elevator	46 ¾	47 ⅛	47 ¼	47 ¾	47 ⅝	48 ¼

Oats for future delivery in the Western market have advanced, with the trading active. Prices have made new high records for the season under the stimulus of reports of damage to the crop in the Southwest from drought and green bugs. In some sections the crop is said to be a failure. Leading Chicago bulls have acted aggressively at times and shorts have covered freely. The receipts have been small and the stock of contract grade at Chicago continues light. Eastern shippers have been buying cash oats at Chicago of late and cash prices have advanced. To-day prices advanced owing to the rise in wheat, predictions of a cold wave, bull manipulation and covering of shorts. The trading was active and excited.

THE DRY GOODS TRADE.

New York, Friday Night, April 12 1907.

A much stronger tone has developed in the dry goods market this week, the increased activity in forward purchasing being a noteworthy feature. Inclement weather in the fore part of the week restricted jobbing trade in seasonable lines, especially prints and wash fabrics, but the lull was only temporary. Retailers continue to press jobbers for deliveries now long overdue of goods urgently needed for their spring trade. Out-of-town merchants have been reordering freely for summer requirements, and manifest a willingness to pay high prices for early shipments; stocks in practically all lines, however, are so well cleaned up that it is exceedingly difficult to secure spot or near-by deliveries, even by paying premiums. Reports from credit sources have been more satisfactory, while the improvement in the monetary situation and outlook has also been an important factor, especially in forward business, since buyers now show less hesitancy in covering fall needs; on the other hand, many sellers are unwilling to book large future orders in some lines until deliveries improve. Selling agents are already showing fine cotton goods for spring 1908; the unusually early opening of these lines is due to the fact that the 1907 products of mills are entirely sold up; cutters-up have been inquiring for 1908 goods and appear willing to operate a year in advance so as to assure satisfactory deliveries. Demand at both first and second hands for knit goods has further depleted stocks and emphasized the pronounced scarcity of these goods, especially spring and summer underwear. Supplies of hosiery in the secondary market are reported practically exhausted, with little prospect of additional shipments from mills; tan shades are in particular request. There is a steady call for woolen and worsted dress goods for fall. Silk piece goods are in unabated demand, scarcer and tending upward. Linens show little, if any, change. Export trade continues very slow.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending April 6 were 2,060 packages, valued at $190,690, their destination being to the points specified in the table below.

	——1907——		——1906——	
New York to April 6.	*Week.*	*Since Jan. 1.*	*Week.*	*Since Jan. 1.*
Great Britain	34	752	95	361
Other European	68	238	31	565
China	----	6 191	2	27,136
India	----	4,022	1	3,730
Arabia	----	14,733	415	8,636
Africa	----	2,989	----	2,548
West Indies	406	6,910	415	6,723
Mexico	68	700	22	623
Central America	246	4,736	279	4,698
South America	822	13,877	666	15,789
Other countries	416	11,547	428	4,399
Total	2,060	66,695	2,354	75,208

The value of these New York exports since Jan. 1 has been $4,170,343 in 1907, against $4,265,657 in 1906.

There has been an increased inquiry for domestic cottons this week, the demand for staples, such as sheetings, drills, &c., being stimulated by the approach of the summer season, when deliveries are apt to be more uncertain than at present. Stocks of fine and unbleached cottons and fancy wash fabrics have been reduced to a very low level in first hands, and only a portion of the business tendered can be accepted. Bleached goods are firmer. An exceptionally good business has been put through on cotton dress goods for the light-weight season, and the attention of agents is now directed mostly to fall lines and advance business for the spring of 1908. Prints have been sold in large volume and further lines placed at value. A price of 10½c. has been named on Toile du Nord ginghams for fall 1907. The print cloth market has shown greater activity; there has been a stronger movement of narrow goods, while converters showed renewed interest in wide goods; they have been covering needs for the first quarter of 1908, sales of 39-inch, 68x72s, having been made at 6½c. for January-March delivery, and other constructions on that basis. The increased demand is due largely to the unusual activity in prints. Linings continue remarkably active and scarce; kid-finished cambrics, silesias, sateens, percalines, &c., are well sold up practically unavailable for spot or near-by delivery. The shortage of white goods is acute. The export trade has been extremely quiet; advices from China state that stocks in that market are sufficient for several months. Some inquiries have been received from Red Sea ports, South America and the West Indies, but asking prices are claimed to be too high. A sale of cotton goods for Siberia, the first direct shipment from here to that market, is noted.

WOOLEN GOODS.—Trade in woolens and worsteds in men's and women's wear for fall has been well sustained. In men's wear indications are that high-class clothiers are turning to fine grade fancy worsteds in the belief that fancy woolens have been given too much prominence; and the progress of this movement will be carefully watched. A somewhat stronger business has been done in overcoatings in plain staples, meltons, kerseys, oxfords and friezes, while fancy overcoatings in medium and heavy-weights in grays, browns and mixtures also show improvement. On heavy-weight suitings, however, clothiers have been inclined to hold back supplementary orders for this fall in expectation of lower prices. There has been an increased call for dress goods for fall; heavy-weight materials are firmly held and some lines show substantial advances. Staple cheviots, serges, wool suitings and plain worsteds are well under order, while plain panamas and piece dyes are well situated. Fine grade broadcloths continue in strong request for fall and winter 1907. Lines of dress goods for the present spring season are well cleaned up.

FOREIGN DRY GOODS.—Imported woolens and worsteds continue to move in satisfactory volume, heavy orders having been placed especially for broadcloths. Linens show no improvement from the buyers' standpoint. Stocks are unprecedentedly low and great difficulty is experienced in obtaining prompt shipments. Business is naturally restricted by the shortage of desirable goods; buyers are willing to pay the exceedingly high prices, but supplies are not available. Heads of linen departments have started for the primary market to secure additional goods, if possible, and to cover requirements for fall and the spring of 1908. Importers are being urged by buyers to forward substitutes where original orders cannot be filled. Under a very active demand, burlaps are still advancing, and supplies, particularly of light-weight Calcutta goods, are about exhausted.

Importations and Warehouse Withdrawals of Dry Goods.

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JAN. 1 1907 AND 1906.

STATE AND CITY DEPARTMENT.

With to-day's issue of the "Chronicle" we send to our subscribers a new number of our "State and City" section revised to date. This semi-annual publication is issued this time in April instead of in May, owing to the contemplated removal in the near future of our offices to a new building, involving very extensive preliminary work in preparation for the transfer of type-setting plant and other machinery. The next number of the "State and City" section will appear in November.

Among the editorial discussions in the present issue will be found an article on "Wealth, Taxation and Population in the United States," dealing with the statistics contained in a recent Census Bulletin, and another article on the "Municipal Bond Sales of 1906." The latter is accompanied by a full page tabular statement showing the bond disposals for the twelve months by States and geographical groups and according to rates of interest and purposes for which issued.

News Items.

Montana.—*Appropriation to Pay Interest on Certain Illegal Bonds.*—The Legislature of 1907 passed an Act providing for the payment of all back interest and all interest that will become due on or before Jan. 1 1909 on those bonds issued by the State Board of Land Commissioners under the name of the State University, State Normal School, Agricultural College and Deaf and Dumb School of the State of Montana. The above-mentioned bonds, it will be remembered, were issued against land grants and were declared illegal by the State Supreme Court in Jan. 1906 (V. 82, p. 231), which decision was upheld by the United States Supreme Court in an opinion rendered Jan. 28 1907. The Act appropriating funds for the payment of the interest due on these illegal bonds is of such importance to the holders of the bonds, showing, as it does, a desire on the part of the State to protect their interests, that we print the measure in full below. The bill also makes provision for the calling of these bonds, or of part of them, out of any funds in the general funds not otherwise appropriated for the two years ending February 1909.

An Act entitled "An Act to appropriate money to pay to the owners of bonds heretofore issued by the State Board of Land Commissioners, under the names of the State University, State Normal School, Agricultural College and Deaf and Dumb School of the State of Montana, an amount equal to the interest due and accruing on the interest coupons attached to said bonds and maturing on or before January 1st 1909 and to authorize the State Board of Examiners to call in said bonds in the order of their issuance and to pay and cancel the same, and to appropriate money for such purpose.

Be it Enacted by the Legislative Assembly of the State of Montana:

Section 1. That the sum of Forty Thousand and Sixty Dollars be, and the same is, hereby appropriated out of any funds not otherwise appropriated for the year ending on the last day of February 1908 to pay an amount equal to the interest due and accruing on or before January 1st 1909 on interest coupons attached to bonds heretofore issued by the State Board of Land Commissioners under the name of the State University, State Normal School, Agricultural College and Deaf and Dumb School of the State of Montana, and now held by persons other than the State of Montana; and that the sum of Twenty Thousand Dollars be, and the same is, hereby appropriated out of any funds not otherwise appropriated for the year ending on the last day of February 1909 for the purpose of paying the amounts named in said interest coupons maturing on or before January 1st 1909.

Section 2. The amount named in said interest coupon mentioned in Section One of this Act shall be paid by the State Treasurer only upon the presentation and surrender of the same at his office in the State Capitol.

Section 3. All money in the general fund to an amount not exceeding Two Hundred Thousand Dollars, which is not otherwise appropriated fo executive, judicial or other purposes, is hereby appropriated for the two years ending on the last day of February 1909 for the purpose of paying, as hereinafter provided, the amount named in any of said bonds mentioned in Section One of this Act.

Whenever the State Board of Examiners shall find that there is Ten Thousand Dollars or more to the credit of the general fund over and above all sums otherwise appropriated for executive, judicial and other purposes, they are authorized and empowered to direct the State Treasurer to notify the owners of said bonds bearing the earliest date of issue and the lowest numbers of the series still outstanding; that the amount named in such bonds, which must be described in the notice, to the amount directed by the State Board of Examiners, and stated in said notice, will be paid, and that from and after a date to be designated and mentioned in said notice no interest will be allowed or paid on such sums. The Treasurer shall give such notice by publication once a week for four successive weeks in a newspaper of general circulation published in the City of Helena, Montana, and a like newspaper published in the City of New York, New York, and upon such publication interest on the amounts named in the bonds described in said notice shall cease from and after the date named in said notice as the date on which interest will cease.

Upon presentation to the State Treasurer of the bonds described in said notice he shall pay the sums mentioned therein; provided, that he shall not pay more than the face value together with accrued interest, and that a tender of the face value of any bond, together with accrued interest, shall constitute a full satisfaction of the amount mentioned in such bond and interest thereon.

Section 4. This Act is not intended and shall not be construed to create a legal liability on the part of the State of Montana to pay any of said bonds or interest coupons, nor to in any manner validate such outstanding bonds, it being only intended hereby to restore to the owners of said bonds the amount advanced by them for the use and benefit of the State institutions of learning with interest thereon at the rate named in said bond.

Section 5. All Acts and parts of Acts in conflict herewith are hereby repealed.

Section 6. This Act shall be in full force and effect from and after its passage and approval.

It is proper to say, however, that our advices are that the Legislature, having appropriated all moneys in the General Fund on hand and estimated to be received for the next two years, there is no probability of the bonds being redeemed under the provision of Section 3 of the Act above, unless the assessed valuation of the State is very materially increased for 1907 and 1908, or there should be an increased income from other sources.

Nashville, Tenn.—*Tennessee Central Subscription Ordered Paid.*—On April 8 the Mayor signed resolutions passed by the City Council directing the delivery to J. M. Overton, President of the Tennessee Central Railroad Company, of the $1,000,000 coupon bonds voted on Aug. 8 1901 in aid of the Nashville & Clarksville RR—now Tennessee Central RR. The delivery of these bonds has long been prevented by litigation, all decisions, however, being favorable to the issue. The resolutions provide for bonds of $1,000 each, to mature May 1 1924. Interest at the rate of 4% will be payable semi-annually. Under the terms of subscription part of the bonds was to be delivered when a certain amount of the work was done and part when certain other conditions were fulfilled. The first condition was met, it is claimed, on Nov. 1 1903 and the second on May 16 1906. As bonds could not then be issued, owing to litigation, an agreement has been made between the railroad company and the city whereby May 1 1904 has been fixed upon arbitrarily as the date upon which the subscription should have been paid, and the city obligates itself to pay the $100,000 interest which accrued to Nov. 1 1906 as follows: $40,000 during the year 1907, $30,000 in 1908 and $30,000 in 1909. See V. 84, p. 584; V. 82, p. 1397, 525; V. 81, p. 739; V. 76, p. 1419.

Bond Proposals and Negotiations this week have been as follows:

Abington Township, Montgomery County, Pa.—*Bond Sale.*—On April 10 this township awarded $75,000 4% gold coupon road-improvement bonds to Brown Bros. & Co. of Philadelphia at 100.67. Denomination $1,000. Date May 1 1907. Interest semi-annual. Maturity May 1 1937, subject to call $15,000 after May 1 1912, $20,000 after May 1 1917, $20,000 after May 1 1922 and $20,000 after May 1 1927. Bonds are tax-exempt.

Adams County (P. O. West Union), Ohio.—*Bond Sale.*—On April 6 the $68,000 3½% coupon 15-year turnpike bonds described in V. 84, p. 763, were awarded to the Wilson Worthy Poor Fund Trustees for a premium of $4,182.

Allegheny, Pa., Seventh Ward School District.—*Bond Offering.*—Proposals will be received until 8 p. m. May 2 by Adolph Mayer Jr., Secretary, for $75,000 4% coupon school-building-addition bonds. Denomination $1,000. Interest semi-annually at the Real Estate Savings & Trust Co. of Allegheny. Maturity $25,000 on March 1 1927, $25,000 on March 1 1932 and $25,000 on March 1 1937. Certified check for $1,000, payable to the district, is required.

Allegheny County (P. O. Pittsburgh), Pa.—*Bond Sale.*—We are advised that $100,000 of the $500,000 4% 30-year coupon road-improvement bonds offered but not sold on March 20 (V. 84, p. 705) have been awarded at private sale to N. W. Harris & Co. of New York City at 100.25.

Antwerp, Paulding County, Ohio.—*Bond Sale.*—On April 5 the $8,000 4% 11¾-year (average) coupon town-hall bonds described in V. 84, p. 644, were awarded to the Antwerp Exchange Bank of Antwerp at 100.101 and accrued interest—a basis of about 3.99%. A bid based on 4½% bonds was also received from Albert Kleybolte & Co. of Cincinnati.

Ashland School District, Ashland County, Ohio.—*Bids.*—On April 1 the following bids were received for the $20,000 5% school-house-building bonds awarded, as stated in V. 84, p. 826, to the First National Bank of Ashland.

First Nat. Bk., Ashland	$22,010 00	F. L. Fuller & Co., Cleve	$21,605 00
Farmers Bank, Ashland	21,965 00	Prov. Sav.Bk.&Tr.Co., Cin	21,575 00
Seasongood & Mayer, Cin	21,733 20	W. J. Hayes & Sons, Cleve	21,559 00
Well, Roth & Co., Cin	21,712 00	MacDonald,McCoy&Co.,Cin	21,505 50
Somerset Bank, Somerset	21,703 00	Brighton-Ger. Bk., Cin	21,402 50
Sec.Sav.Bk.&Tr.Co., Tol	21,703 00	Lamprecht Bros.&Co., Cle	21,371 00
Ashland Bk.&Sav.Co., Ash	21,690 00	W. R. Todd & Co., Cin	20,950 00

Barre, Vermont.—*Temporary Loan.*—This city recently borrowed $7,500 from the Granite Savings Bank of Barre at 4.78%. Loan matures Aug. 10 1907.

Basil, Fairfield County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. May 1 by C. C. Leitnaker, Village Clerk, for $1,000 4% municipal-building bonds. Authority Sections 2835 and 2836 of the Revised Statutes. Denomination $100. Date March 7 1907. Interest annual. Maturity $100 yearly on March 7 from 1908 to 1917 inclusive. Accrued interest to be paid by purchaser. Certified check for 5% of bonds bid for, payable to the Village Treasurer, is required.

Beach City, Stark County, Ohio.—*Bonds Not Sold.*—No sale has yet been made of the $600 5% electric-light bonds offered on March 16. See V. 84, p. 405, for description of bonds.

Bethel Township School District, Clark County, Ohio.—*Bond Offering.*—Proposals will be received until 1:30 p. m.

April 19 by J. E. Johnson, Clerk Board of Education (P. O. New Carlisle), for $2,990 4% coupon school-house-improvement bonds. Authority Section 3994 of the Revised Statutes of Ohio. Denomination $500, except one bond for $490. Date April 19 1907. Interest semi-annually at the office of the Clerk of the Board of Education. Maturity April 19 1911. Certified check for $500 is required. Accrued interest to be paid by purchaser. The district has no debt at present. Assessed valuation 1906 $1,500,000.

Big Spring Township (P. O. New Riegel), Seneca County, Ohio.—*Bond Sale.*—On April 8 the $11,000 4½% coupon road-improvement bonds a description of which was given in V. 84, p. 645, were awarded to the Tiffin National Bank of Tiffin.

Bound Brook School District (P. O. Bound Brook), N. J.—*Bond Sale Not Consummated.*—We are informed that the sale on Feb. 13 of $10,000 4% coupon school-building bonds to the Somerville Dime Savings Bank of Somerville was never consummated. These bonds, together with others, were re-offered as 4½s on April 2 and sold as follows:

Bond Sale.—On April 2 $62,000 4½% school-building bonds were disposed of; $36,000 bonds maturing $1,000 yearly on Feb. 1 from 1908 to 1917 inclusive and $2,000 yearly on Feb. 1 from 1918 to 1930 inclusive, to John D. Everitt & Co. of New York City, and $26,000 bonds maturing $2,000 yearly on Feb. 1 from 1931 to 1943 inclusive to the Somerville Dime Savings Bank of Somerville. Interest semi-annual.

Bowling Green, Warren County, Ky.—*Bond Sale.*—On April 10 the $20,000 public-school-building and $25,000 city-hall-building 4% 30-year bonds, described in V. 84, p. 826, were awarded, it is stated, to the Citizens' National Bank of Bowling Green.

Bristol County (P. O. Taunton), Mass.—*Note Offering.*—Proposals will be received until 10 a. m. April 23 by George T. Durfee, Chairman County Commissioners, for $100,000 4½% bridge notes. Authority Chapter 462, Acts of 1903. Denomination $20,000. Date April 24 1907. Interest semi-annually. Maturity April 24 1911.

Brown City School District (P. O. Brown City), Sanilac County, Mich.—*Bond Sale.*—On April 5 the $5,000 coupon school-building-improvement bonds described in V. 84, p. 764, were awarded to the Brown City Savings Bank of Brown City at 101 and accrued interest for 4½s—a basis of about 4.40%. Bonds are dated May 1 1907. Following are the bids:

Brown City Savings Bank, Brown City (for 4½s)	$5,050
Bumpus, Stevens Co., Detroit (for 4½s)	5,000
Thomas J. Bolger Co., Chicago (for 5s)	5,005

Bryan, Williams County, Ohio.—*Bond Sale.*—This village recently awarded the $30,000 coupon water and light-plant-improvement bonds described in V. 84, p. 705, to the First National Bank of Bryan for $30,700 (102.333) and accrued interest for 4¾s.

Cambridge, Guernsey County, Ohio.—*Bond Sale.*—On April 1 the $55,955 street-paving assessment bonds (nine issues) described in V. 84, p. 585, were awarded to Otis & Hough of Cleveland at 101.608 and interest. The following bids were received:

Otis & Hough, Cleveland	$56,855 00	New First Nat. Bk., Col	$56,584 45
W. R. Todd & Co., Cin	56,705 00	W. J. Hayes & Sons, Cle	56,455 00
Sec. Sav. Bk. & Tr. Co., Tol	56,658 00	Lamprecht Bros. & Co., Cle	56,378 00
MacDonald, McCoy & Co., Cin	56,655 00	Hoehler & Cummings, Tol *h*	32,201 50
		Weil, Roth & Co., Cincin *a*	23,040 50

NEW LOANS.

$1,000,000

CITY OF CHARLESTON, S. C.,

4% 30-Year Bonds

The City of Charleston proposes to offer One Million Dollars ($1,000,000) of 30-year bonds, with interest at 4 per cent, payable semi-annually, on the 1st of July and January, under the authority of an Act of the General Assembly, entitled,

An Act to authorize the City Council of Charleston, S. C., to issue Coupon Bonds at a rate of interest not exceeding 4 per cent per annum, for the purpose of taking up or exchanging the 4 per cent coupon bonds of said city, maturing on January 1 and July 1, 1909," approved on the 13th day of February, 1907.

And of an Ordinance of the City of Charleston entitled, "An Ordinance to provide for issuing Coupon Bonds with interest at the rate of 4 per cent per annum for the purpose of taking up or exchanging the 4 per cent Coupon Bonds maturing on January 1 and July 1, 1909," ratified on the 12th day of March, 1907; "in exchange for One Million Dollars ($1,000,000) of the aforesaid 4 per cent City of Charleston 4 Per Cent Coupon Bonds, maturing January 1 or July 1, 1909, with all coupons on the said bonds falling due subsequent to July 1, 1907, and for this purpose invites the following:

Sealed bids will be received by the City Treasurer on or before 12 o'clock on WEDNESDAY, MAY 15, 1907.

FIRST.—For the purchase of all or any portion of an issue of $1,000,000 of the aforesaid 30-year 4 Per Cent Bonds; the principal payable in 4 Per Cent Coupon Bonds of the City of Charleston, maturing January or July, 1909, with all Coupons thereon falling due subsequent to July 1, 1907; and any premium bid payable in cash; settlements to be made on July 1, 1907.

SECOND.—For the purchase of all or any portion of an issue of $1,000,000 of the aforesaid 30-year 4 Per Cent Bonds, payable in cash; said bonds, however, to be issued upon cancellation of similar amounts of the 4 Per Cent Coupon Bonds of the City of Charleston, falling due January 1 or July 1, 1909, which may be held by the City of Charleston, or purchased under the terms of the bid next hereafter called for.

THIRD.—For the sale of portion of the present issue of 4 Per Cent Coupon Bonds of the City of Charleston maturing July 1 or January 1, 1909, not exceeding $1,000,000, with all Coupons thereto attached falling due after July 1, 1907, payable in cash on the first day of July, 1907.

In the event of over-subscription at acceptable figures in any of the above cases a proportionate allotment will be made.

Each successful bidder will be required to deposit with City Treasurer within 24 hours a satisfactory Surety Bond or a certified check for 5 per cent of the amount of bid awarded to him as security for his compliance with the terms of the bid; and in the event of non-compliance, sealed bids to be called for at a period not less than 15 days for the amount defaulted on, and any loss to the city by reason of the re-sale to be deducted out of the deposit or to be paid by the makers or sureties on the bonds of bidders.

In the event of any bidder not depositing a certified check or a bond within 24 hours, the city to have the right either of canceling the said bid and of accepting that of another bidder, or of holding the bidder liable thereon.

The city further reserves the right to reject any or all bids made.

These Bonds are exempt from State, County and City Taxes, and in the hands of banks in Charleston exempt their shareholders from all taxes to the extent of the holding as is now the case with 4½ per cent Brown State Bonds.

NEW LOANS

$28,000

Borough of Tarentum Pa.,

Coupon Bonds

Sealed bids will be received until MONDAY, APRIL 22, 2 o'clock p. m., by W.A. Gibson, Secretary of the Borough of Tarentum, Tarentum, Pa., for the purchase of $28,000 coupon bonds, dated May 1st, 1907, denomination $1,000 each, numbered consecutively from 415 to 442, bearing interest at 4½% per annum, payable semi-annually from date hereof, free of tax to holder, and shall mature as follows: Bonds numbered from 415 to 424 inclusive May 1 1927; Bonds numbered from 425 to 434 inclusive, May 1, 1932. Bonds numbered from 435 to 442 inclusive, May 1, 1937, for the payment of costs, damages and expenses of grading, curbing and paving and for sewering of the streets and alleys of said Borough of Tarentum.

A certified check in the sum of $500 must accompany each proposal, payable to order of Mr. A. J. Fulton, Borough Treasurer. The Borough of Tarentum reserves the right to reject any or all bids.

Waynesboro, Augusta County, Va.—*Bonds Voted.*—This place, according to local reports, has voted to issue $10,000 street-improvement bonds.

Webster County (P. O. Red Cloud), Neb.—*Bond Election.*—An election will be held April 30 to vote on the question of issuing $75,000 court-house bonds.

Wellington, Lorain County, Ohio.—*Bonds Defeated.*—An election held March 26 resulted in the defeat of a proposition to issue $28,000 paving bonds by a vote of 114 "for" to 280 "against."

West Allis, Milwaukee County, Wis.—*Bond Offering.*—Proposals will be received until 2 p. m., April 20, by the Finance Committee and F. E. Walsh, Mayor, for the $20,000 4½% coupon school-building bonds mentioned in V. 84, p. 176. Denomination $1,000. Date May 1 1907. Interest semi-annually, February and August, at the German-American Bank, Milwaukee. Maturity $1,000 yearly on Feb. 1 from 1908 to 1927 inclusive.

West New York, Hudson County, N. J.—*Bonds Not Sold.*—No bids were received on April 2 for the $200,000 4½% 30-year coupon or registered improvement certificate funding bonds, a description of which was given in V. 84, p. 769.

West Seneca (Town), Erie County, N. Y.—*Bond Offering.* Proposals will be received until 4 p. m. April 25 by Henry C. Lein, Town Supervisor, at the Town Clerk's office on the Boulevard near South Park Avenue, for $225,000 5% registered or coupon sewer bonds. Authority Chapter 816, Laws of 1895, and amendments thereto. Date April 1 1907. Interest semi-annually at the Lackawanna National Bank of West Seneca. Maturity $37,500 on April 1 1913 and $7,500 yearly on April 1 from 1914 to 1938 inclusive. An unconditional certified check for 2% of bonds bid for, drawn upon some incorporated bank or trust company, is required. The town has no bonded debt at present. Assessed valuation 1906, $7,162,240.

Willoughby, Lake County, Ohio.—*Bond Sale.*—On April 1 the $2,000 4½% 3¾-year (average) Erie Street improvement bonds (village's portion) described in V. 84, p. 651, were awarded to W. C. Collester of Willoughby at 101.05—a basis of about 4.175%; while the $6,500 4½% 5¼-year (average) Erie Street improvement assessment bonds offered on the same day were awarded to the Cleveland Trust Co. of Cleveland at 101.40—a basis of about 4.187%. The following bids were received:

	$2,000 Erie St. Imp. Bds.	$6,500 Erie St. Imp. Bds.
W. C. Collester, Willoughby	$2,021 00	------
The Cleveland Trust Co., Cleveland	2,020 00	$6,591 00

$1,000,000

City of Chattanooga, Tenn.,

IMPROVEMENT BONDS

SEALED BIDS will be received until 3 o'clock p. m., on Tuesday, May 7th, 1907, for one thousand thirty-year 4½ per cent semi-annual coupon bonds of the City of Chattanooga, Tennessee, for one thousand dollars each, dated July 1, 1907, principal and interest payable at National City Bank, New York City. All of said issue of bonds will be denominated "Public Improvement Bonds of the City of Chattanooga of 1907." They are issued for the following purposes:

For funding indebtedness for purchase of wharf, City Hall lot, etc	$100,000
For Streets	250,000
For Sewers	350,000
For City Hall	200,000
For Parks	50,000
For Fire Halls and Police Equipment	50,000

Bids will be received for the entire issue, $250,000 to be delivered and paid for on July 1, 1907, and the remainder in installments of $250,000, at intervals of six months from July 1, 1907.

Bids will also be received for the entire issue to be delivered and paid for on July 1, 1907.

Separate bids will also be received for any part of said issue, the bidder indicating the number of bonds for which he bids, or if he desires, specifying the maximum and minimum number he will take at the price offered by him.

Each bidder may bid on any or all of the plans indicated.

All proposals must be accompanied by a certified check, payable to the order of T. J. Gillespie, City Treasurer, for one per cent of the amount of bonds bid for, the same to be forfeited if the bidder shall fail to accept and pay for bonds awarded.

The successful bidder or bidders will be required to settle for the bonds at or before 12 o'clock m., Monday, July 1, 1907.

The right to reject any and all bids is reserved.

Seven cities, 5 days	$2,030,793,957	$2,214,624,352	—8.3
Other cities, 5 days	407,692,386	355,488,691	+14.7
Total all cities, 5 days	$2,438,486,343	$2,570,113,043	—5.1
All cities, 1 day	503,274,108	601,269,172	—16.3
Total all cities for week	$2,941,760,451	$3,171,382,215	—7.2

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, April 13, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a loss of 2.0%. Outside of New York the increase over 1906 is 9.5%.

THE FINANCIAL SITUATION.

As one after another of the apparent hindrances to a restoration of public credit to high favor is removed without effecting a permanent cure, the number of the impatient traders increases with each new disappointment. In this way it has come to pass that the removal of the high rates for money which were so long looked upon as the very last obstruction to business recovery has failed to satisfy the supposed need. For it has now happened since April began that the last vestige of dear money has fled and extremely easy money on call has taken its place, even time money for the present being no longer troublesome. This abundance, as we said last week, opened trading in securities to the more venturesome buyers again, and stocks went kiting up. Still, we repeat, no refuge from the old instability has been found. The progress prevailing a year or more ago was anticipated to follow, but no sign of it has appeared. Cheap money has become an assured condition, continuing even the current week, affecting with its influence the world over, but the upward movement in stocks turned out to be merely an advance for the speculative buyers to sell on, leaving also a choice gradient down which to engineer a decline, to be succeeded by frequent fluctuations. Evidently this situation proved that dear money was not the ultimate obstruction to a permanent restoration of confidence. A harsher and deeper economic irregularity is what the doctors have to deal with before real recovery will be under way.

Then, too, since this relief from stringency has continued along the lines we referred to a week ago, further emphasizing the singularity of the relapse on our Stock Exchange, it has stimulated the search for the reason why the rise in stocks has not been more permanent. The thought was a very short time since that if our interior sections would stop drawing on this centre and Europe open its doors wider to our monetary requirements, life must be infused into all our security markets. It has seemed recently as if the wished-for opportunity had been reached. A feature of the week was a further material drop of the open market rates in London, one day to below the official minimum of the Bank of England, encouraging the belief in a reduction of the official discount rate of the Bank; this condition in London and the assurance that the Bank was in the way of procuring, without a rival, the large amount of gold bullion weekly offered from South Africa and other gold-producing centres, encouraged the opinion that the Bank would this week further reduce its official discount rate. Later it became evident that a present demand from Paris and the German loan would for the time being defer that expectation, but that a lower Bank minimum was sure to come shortly.

Since money has changed from high to low rates without securing the recovery in confidence anticipated, the public is reduced to the necessity of seeking some other hindrance to progress; and in that contingency damage to crops has been urged as a disturbing influence. The Government report issued on the 10th instant gave the condition of winter wheat on April 1 1907 at 89.9% against 89.1% on April 1 1906. here is no warrant in those figures for stories of crop disaster. Hence the harm wrought must have been of recent date. Reports of damage the last three weeks come mainly from the Southwest, especially from parts of Texas, Oklahoma, Kansas, and also Nebraska. No doubt these rumors have been exaggerated. Besides, rains the current week in the Southwest have put a different aspect on crop affairs in those sections. It should be remembered, too, as the season is very late, all growth is backward and in favorable shape to float rumors of crop disaster. They are liable now to be of weekly occurrence, but as the annual planting of breadstuffs in this country has reached such a wide extent of territory, covering such a variety of climatic factors, it is less possible than it was a few years ago for any given crop to turn out an absolute disaster. Indeed, we might almost say, there is a degree of truth in the boast sometimes heard based on the condition referred to above that this country never can suffer from a lack of a surplus of wheat for export.

Our foreign trade statement for March gives emphasis to the remarks we made a month ago about the steady expansion in the volume of imports. In fact important gains, in comparison with previous years, in the inflow of merchandise from abroad have been the leading feature of these monthly statements for some time past. Each month since August 1904 the total of imports has shown improvement over the corresponding period of the preceding year, and latterly augmentation has been especially large. The March 1907 aggregate of $133,323,085 not only shows an increase of $19,725,508 over the month of 1906, but very closely approaches the record total of $134,349,760 made in December last. Merchandise exports, on the other hand, while continuing in excess of imports, exhibit a much lower ratio of increase compared with corresponding months and contrast rather unfavorably with recent preceding similar periods, the March 1907 total of $162,689,950 being but three million dollars greater than February—a short month—and much below January or December. Furthermore, the gain over 1906 ($17,179,243) shown in March comes, as in earlier months, from increased cotton shipments. The balance of trade in our favor on the merchandise movement, moreover, although $29,366,865, is less than was shown in the month of the preceding year, and for the nine months of the current fiscal year stands at only $385,845,060 against $430,346,993 in 1905-06, and is a smaller balance than for the nine months in any fiscal year of the last decade, excepting only 1902-03 and 1904-05.

Analyzing the details of these foreign trade figures, we quickly discern in what particulars or direction our export movement has been checked or accelerated thus far this fiscal year. Increased raw cotton shipments explain 75% of the augmentation of $108,002,881 in exports over the nine months of 1905-06, and copper, iron and wood collectively make up an amount greater than the remaining addition. Per contra, such important items as breadstuffs, provisions, oils and cotton manufactures show greater or less losses, most surprise being occasioned by the falling off in the first-named commodity. When, however, we turn to a consideration of the import details, it is found that increases over 1906 are not confined to any special commodities. The inflow of three staple articles—coffee, tea and sugar—was practically the same in the

nine months of both 1906-07 and 1905-06 and in a few minor items there were unimportant decreases. But in articles of luxury, such as diamonds, silks, linens and feathers, there are conspicuous percentages of increase; and larger receipts of chemicals, copper, cotton manufactures, leather, paper, &c., helped materially to swell the total.

As intimated above, cotton shipments have furnished the greater part of the gain in exports thus far the current fiscal year and the movement of that staple in April to date indicates a further increase for this month. But as the outward movement is already full two million bales greater than for the like period last season, it is apt to ease off perceptibly at any time. With foodstuffs also going out less freely than a year ago, what is there to prevent a less favorable situation in our foreign trade affairs?

The immigration statement for the month of March, just issued, furnishes evidence that the spring influx of intending new citizens has set in in earnest. The arrivals of aliens in March 1907 numbered 139,118 against 133,245 in 1906 and 126,932 in 1905, of which approximately 111,000 in each of the last two years came through the port of New York. For the three months ending March 31 this year the arrivals were 259,076, which contrasts with 253,068 in the same period of 1906 and 244,019 in 1905.

Moreover, during the elapsed portion of the current month immigration through the port of New York has been very heavy. For the eighteen days ended with Thursday, vessels entering have reported approximately 75,000 steerage passengers, practically all of whom class as aliens, and steamers on the way due to arrive before the first of May are stated to have full cabins. It is therefore quite certain that arrivals for the full month at this port will exceed those of a year ago—118,665—and that for the whole country a record aggregate will be made, a total exceeding the 150,000 mark set in April and May 1906. In fact, there is reason to believe that for the months of April, May and June immigration will be far in excess of any record, as on July 1 the new law becomes operative, and under it many who can now come in may be excluded or subjected to much delay and annoyance before being permitted to enter.

We say may be excluded, because many of them may be members of agricultural colonies in this country, and it is reported that the Bureau of Immigration is at a loss how to proceed in handling immigrants destined to become members of agricultural colonies in this country, especially in the South. We referred to this feature March 30, page 719. Under the present law it has been held that an immigrant who, before sailing for this country, has leased lands in any part of the United States which he purposes to cultivate after his arrival, is not an alien contract laborer. Consequently, many thousands of aliens have been brought to the Southern States by this plan. Recently the Bureau's attention was brought to the inquiry whether this would be proper under the new law, which is much more rigid than the old.

One important incident of the week was the announcement on Wednesday of the issue of $50,000,000 in German Imperial and of a like amount in Prussian Treasury bills, bearing 4% interest and redeemable in five years. It would seem that preparations have been made by the Reichsbank for this issue, for, since the beginning of the month, this institution has been accumulating cash, the last two statements of the bank showing a gain of nearly £5,402,000. Though it is officially denied that the German consols are about to be quoted on the Paris Bourse, and thus be in competition with French rentes, it seems probable that French bankers have had in contemplation either trading or investments therein, in anticipation of the issue, and that this will account for the recent withdrawals by these bankers of their balances from London. Such withdrawals this week resulted in a reduction in exchange at Paris on the British capital to 25 francs 21 centimes, and also to the shipment from London to Paris of £200,000, though the gold-import point at the French capital on London is 25 francs 12½ centimes. While this week's quotation for exchange at Berlin on London is 20 marks 48 pfennings, it appears likely that, should British investments in the new German consols be large, they may result in such a reduction in the Berlin exchange rate as to carry it to the gold-import point of 20 marks 34 pfennings. Foreign bankers regard it as probable that the loan will be successfully negotiated, and it is understood that subscriptions have already been made, in anticipation of the issue, not only in London but at Paris, to an amount which will insure its success; the interest rate is attractive and the loan is of such a character as to appeal strongly to investors.

There have already been refunded into 2% consols about $36,000,000 4s of 1907 out of the $50,000,000 which were set apart for this purpose by the Secretary of the Treasury in his circular of April 2. Though, since the exchange for 2% consols of those of the 4s which were held as pledge for circulation has been effected, the results of refunding have been comparatively small, it seems probable that nearly the whole of the 4s selected for refunding will be exchanged, possibly by or before the end of May. The redemptions of the 4s, under the Treasury circular of March 14, which called for the surrender of $25,000,000, have thus far amounted to about $19,000,000, leaving $6,000,000 yet to be redeemed. When this amount shall be surrendered, redemptions will probably be terminated and on July 2 whatever sum shall remain outstanding will be redeemed.

Deposits of public funds in national banks continue to be made, and they have now reached $164,151,174, an increase since April 1 of about $10,000,000, and since March 11 of $23,000,000. There has been no change in the deposits in local depositories since the sum of $17,510,000 was placed therein. Deposits now being made are effected by the Assistant Treasurer at New York placing with the correspondent in this city of the interior bank the sum allotted to such institution, and the funds so placed are held by the correspondent at the disposition of the depository.

Secretary Cortelyou on Thursday had an informal conference with a few New York bankers, during which the matter of public deposits in the banks was discussed. From what was said it is regarded as probable that if any change shall be deemed advisable in the manner of making these deposits, none will be made at present. Withdrawals of such deposits from the banks, now that

the money market has been relieved, have not yet been considered.

The removal last Saturday of the "Evening Post" of this city to its new building on Vesey Street is an event of more than local interest. The "Post" has a history extending back more than a century and it has become an important organ of public opinion. Alexander Hamilton was one of its founders and it has had an array of editorial talent which in brilliancy and prominence has probably not been surpassed, if it has been matched, by any other daily paper in the country. The list comprises such eminent names as William Cullen Bryant, Parke Godwin, John Bigelow, Carl Schurz, Horace White and E. L. Godkin. In the conduct of the paper a high standard has always been maintained and from the first it has catered to the best thoughts and the most advanced ideas. Its methods in dealing with public measures and public men have often differed from those that commend themselves most to us. We believe in argument and persuasion as the most effective weapons rather than in hammer and tongs, and we like to credit men with good motives until it is clearly shown that the motives are bad. But there can be no doubt that the "Post" has always striven after high ideals and has steadfastly adhered to principles which it believed sound and for the best interests of mankind. As far as we have been able to see, it has never sought to appeal to popular prejudice or yielded to popular clamor. In fact, its editorial policy, being controversial, the fact that a thing was, or might be, popular never counted for anything with the Editor. Indeed we should judge that those in control rather delighted in being on the unpopular side, granting only that in their estimation it was the right side. There can be no doubt that if pecuniary considerations had governed, the opposite policy would have been pursued, for every manager of a newspaper knows that he can add to circulation of his paper by advocating the things which for the time being tickle the public fancy or accord with public sentiment, even though they be wrong to the point of being monstrous. It can also be truthfully affirmed that the "Post" has always been a clean paper. It has never dressed up scandal in inviting garb and has not made it a practice to resort to sensationalism to increase the number of its readers. It is now controlled by the sons of the late Henry Villard, who during his lifetime contributed as a railroad man in no small degree to the industrial development of important parts of the country. They have allowed no deterioration in the standard of the paper, and it is gratifying to know that this policy has been attended with such success that they have been able to erect a new home for the use of the "Post" where it will be better equipped for continuing its work than ever before.

In view of the course of the Cincinnati and Dayton Chambers of Commerce in arraying themselves on the side of public hostility to railroad interests (and which we review in a separate article on another page), it is refreshing to have the action this week of the Philadelphia Board of Trade on behalf of fair and rational treatment of these transportation agencies. This influential commercial body is fearful lest the general prosperity of the country receive a sudden and serious check if the present hostile attitude against railroad and other corporate interests be continued. The recommendations of the Board were contained in a report submitted by William H. Castle, Chairman of the Committee on Inland Transportation. The resolutions adopted, and which are urged on the attention of other commercial bodies, express regret that the criticism of railroads and the large amount of suggested and enacted legislation, much of it hostile, should have produced the alarm among investors which seriously curtails the ability of railroads to make absolutely necessary improvements. With much force it is pointed out that at no time in the history of the nation has there been such need for an immediate and large increase of the country's transportation facilities. The fact is emphasized by the widespread demand of merchants and shippers for relief from the freight congestion which is claimed to be crippling the industries of all sections. It is certainly to be deplored that at the very time of this urgent and legitimate demand for increased efficiency in railroad service, moneyed classes should have come to regard with disfavor investments in railway securities. Such a disposition checks the necessary development of our vast railway system and thereby curtails all branches of industrial life and seriously restricts commerce.

Reference is also made to the circumstance that the railroads are very large employers of labor, both directly and indirectly, and enormous consumers of iron and steel, coal and other supplies. Furthermore, that the railroads and most other corporations are not owned principally by the men who manage them. Confidence is declared to be the foundation stone of all business prosperity, and nothing tends to destroy confidence more than uncertainty as to the future. A fear exists that the many vague insinuations and suggestions as to what is yet to be done to correct real or imaginary wrongs in corporate management may hamper and interfere with the economical and practical handling of business so as to obstruct it and restrict legitimate profits. These are sensible and timely words, and heed should be paid to them. We notice, too, that at the dinner given Thursday by the Buffalo Chamber of Commerce some of the speakers gave expression to somewhat similar views. For instance, Vice-President Brown of the New York Central declared that the blow to the credit of our railroads has resulted not so much from what has been done as from the manner and temper in which it has been done, and the fear of what may follow.

One of the sad events of the week was the sudden death last Sunday morning of James H. Eckels of Chicago. Mr. Eckels had for over a dozen years filled a prominent place in the public eye. For a period of somewhat over four years, during the exceedingly critical and trying times of the second Cleveland Administration, he filled the office of Comptroller of the Currency and performed his duties in a very acceptable manner. Mr. Eckels was less than forty-nine years of age at the time of his death and was, of course, fourteen years younger at the time of his appointment as Comptroller by President Cleveland in 1893. Little was known about him at that early date, but he quickly justified the confidence reposed in him by Mr. Cleveland and demonstrated that the right man had been selected for the position. He did not sink into obscurity when he retired from public

office in 1897, but by assuming the presidency of the Commercial National Bank of Chicago and developing its business, and raising it to a position of great prominence and influence, demonstrated that he possessed business ability of a high order. His new duties were very engrossing, but he found time to deliver many speeches and public addresses. He was much in demand for this purpose and spoke at length before bankers' conventions and other public gatherings. In this way he rendered an important public service, for in what he said he never failed to inculcate sound views. Though a Democrat, he refused to support Mr. Bryan on a silver platform, and in the Presidential election of 1896 joined the Gold Democratic wing of the party. He always took an active interest in the discussion of banking and financial questions. In that respect his work was educational. There are never too many men of this stamp in a community and the loss of any one of them leaves a distinct void.

Albany dispatches report that it seems unlikely that the Public Utilities Bill can come before the two Houses of the State Legislature from the committees having the measure in charge until after May 1. This ought to give time for careful reflection and deliberation, for no proposed legislative enactment was ever more in need of scrutiny and examination. We hope the committees of the two Houses will give proper weight to the objections that are being urged against certain features of the bill. In particular it seems important that the bill should be so amended as to give the corporations that will come under the dominion of the proposed Commission that inalienable right of court review that is accorded to the humblest citizen of the State. Mr. Walker D. Hines has prepared an argument against this portion of the bill which is now printed in pamphlet form and which serves to emphasize the strikingly radical and exceptional character of the proposed Act in that respect. Section 54 of the bill provides as follows: "Every order of a Commission shall take effect at a time therein specified and shall continue in force for a period therein designated unless earlier modified or abrogated by the Commission or unless declared by a court of competent jurisdiction to be unauthorized by this or any other Act, or to be in violation of a provision of the Constitution of the State or of the United States." Thus though the carrier may in a court of competent jurisdiction seek review of an order of the Commission, argues Mr. Hines, the bill contemplates that the carrier must observe the Commission's order pending the court's final determination of the question whether the order is illegal. The language is that the order shall be in effect until *declared* by a court to be unauthorized by law or unconstitutional, and of course such unqualified declaration cannot be made in any preliminary hearing. Section 57 of the bill provides that for every violation of any order of the Commission the carrier shall forfeit not to exceed $5,000 for each offense, and that in case of a continuing violation each day's continuance shall be a separate offense; and provides further that every officer, or agent, of the common carrier who aids or abets any such violation shall be guilty of a misdemeanor. This last would mean imprisonment, or a fine, or both combined. In view of these penalties, Mr. Hines says it is doubtful if the carrier could, pending judicial review, avoid in any way compliance with the Commission's order, no matter how confiscatory.

Mr. Hines gives many reasons why this provision of the measure should be changed, but we have not space to go into details here. He also contends that such a provision would be unconstitutional and he quotes from the opinion of Justice Brewer in the case of Cotting vs. Kansas City Stock Yards Co. (183 U. S. 79) in support of the statement. Justice Brewer said.

"It is doubtless true that the State may impose penalties such as will tend to compel obedience to its mandates by all, individuals or corporations, and if the extreme and cumulative penalties are imposed only after there has been a final determination of the validity of the statute, the question would be very different from that here presented. But when the Legislature, in an effort to prevent any inquiry of the validity of a particular statute, so burdens any challenge thereof in the courts that the party affected is necessarily constrained to submit rather than take the chances of the penalties imposed, then it becomes a serious question whether the party is not deprived of the equal protection of the laws."

Mr. Hines also shows what an anomalous position this State would hold with such a law on its statute book. For in practically all other States every railroad commission measure which has been passed the last two years has contained the reasonable provisions respecting judicial review which are now being resisted in this State. The Alabama, Ohio and Washington statutes provide for a judicial review of the reasonableness of all the commission's orders. The Oregon and Wisconsin statutes provide for a judicial review of the reasonableness of the commission's orders with respect to regulations, practices and service. The Vermont statute makes the commission a court and provides for an appeal therefrom to the Supreme Court for the correction of errors in procedure or in the form or substance of its orders. The Indiana statute does not define the scope of the judicial review and places no limitation upon it. In every one of these States express provision is made for suspending the commission's order pending the judicial review. In view of these citations by Mr. Hines, is there any good reason why the State of New York should not be at least equally fair with the carriers?

There was no change in official rates of discount by any of the European banks this week; compared with last week unofficial or open market rates were ⅜ of 1% lower at London and at Berlin and Frankfort and steady at Paris. It was announced this week, as elsewhere noted, that the loan requirements of Germany and Prussia are to be met by an issue of 4% Treasury bonds, to the amount of $100,000,000, redeemable in 1912. The emission will be brought out on April 25 and it is understood by foreign bankers that large subscriptions thereto have already been made. The foreign discount markets appeared to be only temporarily influenced by the announcement, probably because it had been anticipated; there was a decline in the rate for exchange at Paris on London immediately previous to the publication of the decision to issue the bonds, indicating preparations for subscriptions thereto, through the withdrawal of balances from the British capital. On the following day, however, there was a fractional recovery in such rate. Possibly the announcement of the bond issue and the low rate for Paris exchange may have had some influence upon

the Governors of the Bank of England, inducing them to defer action in the reduction of the official rate so as not to encourage withdrawals of gold for shipment to Berlin.

The notable feature of the statement of the New York Associated Banks last week was the almost unprecedented increase in loans by $36,968,300 and in deposits by $44,948,800. The changes in these items were largely due to the abstention of loaning by trust companies, because of the fact that rates for call money were ruling so low as to make it more advantageous for these companies to leave their balances in the banks undisturbed instead of withdrawing them for employment at rates possibly no greater than those which were paid by the banks for such balances. The cash gain, shown by the statement, was $7,648,900, or much in excess of that which was estimated, and the reserve requirements were augmented $11,237,200, so that the surplus was reduced by $3,588,300 to $15,852,925.

Loans on call, representing bankers' balances were quoted at the Stock Exchange during the week at 3% and at 1¾%, averaging about 2¼%; banks and trust companies loaned at 2% as the minimum. On Monday loans were at 2½% and at 1¾% with the bulk of the business at 2¼%. On Tuesday transactions were at 2½% and at 2% with the majority at 2¼%. On Wednesday loans were at 3% and at 2% with the bulk of the business at 2¼%. On Thursday transactions were at 3% and at 2% with the majority at 2½%. On Friday loans were at 3% and at 2% with the bulk of the business at 2¾%. Time contracts on good mixed Stock Exchange collateral were 3½@4% for thirty to sixty days, 4@4½% for ninety days to four months and 5% for five to six months. Commercial paper is in good demand, with the inquiry chiefly from the interior, and rates are 5¾@6% for sixty to ninety day endorsed bills receivable, 5¾@6% for prime and 6@6½% for good four to six months' single names.

The Bank of England rate of discount remains unchanged at 4½%. The cable reports discounts of sixty to ninety day bank bills in London, 3¼@3⅜%. The open market rate at Paris is 3¼% and at Berlin and Frankfort it is 4⅝@4¾%. According to our special cable from London, the Bank gained £438,252 bullion during the week and held £35,894,896 at the close of the week. Our correspondent further advises us that the gain was due mainly to purchases in the open market. The details of the movement into and out of the Bank were as follows: Imports, £357,000 (of which £6,000 from Australia, £5,000 from Paris and £346,000 bought in the open market); exports, £200,000 (wholly to Paris), and receipts of £281,000 *net* from the interior of Great Britain.

The foreign exchange market was quiet and generally firm this week and without important feature. Offerings of bills were moderate and the demand until Friday was not urgent. There was an entire absence of shifting of loans from London to New York, which has been the feature in recent weeks, thus creating a demand for remittance to pay off foreign obligations; such loans this week were permitted to remain undisturbed, because there was comparatively little difference in loan rates between the two centres. The more confident feeling abroad regarding the American situation seemed to check liquidation in securities, and hence the demand to remit for such properties was light. There was some buying, at intervals, of stocks for London account, which contributed to a temporary supply of bills. A little inquiry was noticed for long sterling for investment, but buying therefor was limited because of expectations of a reduction in the English Bank rate; when such rate was left unchanged on Thursday, the demand for investment subsided. Cotton bills were in fairly good supply, but they were promptly absorbed; though grain moved forward freely, drafts against the staple were small in amount. There was some speculation in futures but the condition of the market was such as not to encourage extensive operations of this character, and sales were promptly covered as often as there were indications of the development of a firmer tone. With the exception of a slight response in francs to the change in the rate for checks at Paris on London, Continental exchange was inactive.

Nominal quotations for sterling exchange were 4 83½ for sixty day and 4 86½ for sight. On Saturday of last week the market was dull and easier in tone in expectation of a light demand for remittance, there being no fast mail steamer until Wednesday. Compared with the previous day, long was 10 points lower at 4 8240@4 8250, short was unchanged and cables declined 5 points to 4 86@4 8605. On Monday long recovered 10 points to 4 8250@4 8255, short fell 5 points to 4 8545@4 8550 and cables 20 points to 4 8580@4 8585. On Tuesday long was 5 points lower at 4 8245@4 8250, short 5 points at 4 8540@4 8545 and cables were 10 points higher at 4 8590@4 8595. On Wednesday long and cables were unchanged and short rose 5 points to 4 8545@4 8550. On Thursday buying for Saturday's mail caused an advance in long of 15 points to 4 8255@4 8265, in short of 5 points to 4 8550@4 8555 and in cables of 5 points to 4 8590@4 86. The market was strong on Friday in response to a demand for remittance and also because of a small supply of bills. Long rose 30 points, short 20 and cables 25 points.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

		Fri.. Apr. 12	*Mon.. Apr. 15*	*Tues.. Apr. 16*	*Wed.. Apr. 17*	*Thurs.. Apr. 18*	*Fri.. Apr. 19*
Brown Bros. & Co.	60 days	4 83½	83½	83½	83½	83½	83½
	Sight	4 86½	86½	86½	86½	86½	86½
Baring & Co.	60 days	4 83½	83½	83½	83½	83½	83½
	Sight	4 86½	86½	86½	86½	86½	86½
Bank British North America	60 days	4 83	83½	83½	83½	83½	83½
	Sight	4 86½	86½	86½	86½	86½	86½
Bank of Montreal	60 days	4 83	83½	83½	83½	83½	83½
	Sight	4 86½	86½	86½	86½	86½	86½
Canadian Bank of Commerce	60 days	4 83	83½	83½	83½	83½	83½
	Sight	4 86½	86½	86½	86½	86½	86½
Heidelbach, Ickelheimer & Co.	60 days	4 83½	83½	83½	83½	83½	83½
	Sight	4 86½	86½	86½	86½	86½	86½
Lazard Freres	60 days	4 83½	83½	83½	83½	83½	83½
	Sight	4 86½	86½	86½	86½	86½	86½
Merchants' Bank of Canada	60 days	4 83½	83½	83½	83½	83½	83½
	Sight	4 86½	86½	86½	86½	86½	86½

The market closed on Friday at 4 8285@4 83 for long, 4 8570@4 8575 for short and 4 8615@4 8625 for cables. Commercial on banks 4 8240@4 8250 and documents for payment 4 81¾@4 82⅜. Cotton for payment 4 81¾@4 82; cotton for acceptance 4 8240@4 8250, and grain for payment 4 82⅛@4 82⅜.

The following gives the week's movement of money to and from the interior by the New York banks

Week ending April 19 1907.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$6,461,000	$6,889,000 Loss	$428,000
Gold	642,000	1,206,000 Loss	564,000
Total gold and legal tenders	$7,103,000	$8,095,000 Loss	$992,000

With the Sub-Treasury operations the result is as follows.

Week ending April 19 1907.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$7,103,000	$8,095,000 Loss	$992,000
Sub-Treasury operations	30,600,000	26,200,000 Gain	4,400,000
Total gold and legal tenders	$37,703,000	$34,295,000 Gain	$3,408,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	April 18 1907.			April 19 1906.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.
	£	£	£	£	£	£
England	35,894,896	-------	35,894,896	33,795,396	-------	33,795,396
France	103,347,473	39,221,404	142,568,877	118,218,520	42,008,530	160,227,050
Germany	33,151,000	11,050,000	44,201,000	35,229,000	11,743,000	46,972,000
Russia	119,527,000	5,888,000	125,415,000	90,063,000	4,914,000	94,977,000
Aus.-Hun.	45,460,000	12,458,000	57,918,000	46,112,000	12,777,000	58,889,000
Spain	15,455,000	25,148,000	40,603,000	15,096,000	23,709,000	38,805,000
Italy	32,335,000	5,097,200	37,432,200	28,360,000	3,886,700	32,246,700
Neth'lands	5,155,200	5,615,500	10,770,700	6,053,100	5,890,700	11,943,800
Nat. Belg.	3,235,333	1,617,667	4,853,000	3,526,000	1,763,000	5,289,000
Sweden	4,152,000	-------	4,152,000	3,833,000	-------	3,833,000
Total week	397,712,902	106,095,771	503,808,673	380,286,016	106,691,930	486,977,946
Prev. week	394,716,764	105,103,753	499,820,517	382,762,305	106,436,500	489,198,805

THE PEACE CONFERENCE.

It was only natural that a conference, called for so general a purpose as that of the Peace Convention held this week in this city, should develop wide variation of opinion, and a good deal of eccentric argument and theory. On such a question as a movement in behalf of world peace, there naturally exist differences of opinion, not only as to what can be done, but as to what ought to be done. The questions of disagreement, however, seem to us to arise from lack of common understanding of the main proposition. This is, perhaps, illustrated by the argument of Dr. Dix of this city, to the effect that if we were to abolish our armies, then, on the same principle, we ought also to abolish our police—which would be manifestly absurd. The inference was correct enough, granting the premises; but we do not suppose that any well-balanced person has seriously argued for outright abolition of armies. So with the navies; the need of a police power along the coast, keeping in touch with trans-oceanic dependencies, was abundantly proved by the incident of the Jamaica earthquake a few months ago.

Much the same comment might be made on the statement of Mr. Van Cleve, the delegate from Holland, that "to be prepared for war is the most effective means of preserving peace." The audience seemed to assume that this axiom meant perpetual increase in the facilities for offensive as well as defensive warfare. It might be twisted into such a meaning, and, unfortunately, many statesmen have so construed it; but as it stands, the statement in reality involves no such conclusion. We do not imagine that any one who admits the usefulness, from any point of view, of an army or a navy, would contend for anything else than the keeping of such armament in the hghest state of efficiency. As well might he, to use Dr. Dix's comparison again, concede the necessity for a police force, but refuse to allow that force to be so drilled and equipped that it could deal effectively with criminals. The real question obviously lies, not in the question whether or not a nation should keep its armament in a state of preparedness, but what that state of preparedness is to be, and how far the power of a standing armament, in the way of actually provoking war, can be restricted by international agreement. With these high questions of public policy, even Professor Munsterberg's assertion that the German people willingly accept the two years' compulsory service in the army, has little to do. That assertion was disputed, and we think correctly, by Mr. Carnegie, who adduced the very important point that his own experiences in Pittsburgh showed the majority of German immigrants to have left their own country in order to avoid such service for themselves or for their children.

But, waiving these really minor considerations, it seems to us that even the different points of view voiced in the Conference speeches showed that in their main purpose all advocates of the peace movement are united. The resolutions adopted in the end were notably free from the ideas of fanatic or impracticable meaning; they contained such extremely practical recommendations as the following:

"*Resolved*, That the Congress records its indorsement of the resolution adopted by the Interparliamentary Union at its conference last July, that in case of disputes arising between nations which it may not be possible to embrace within the terms of an arbitration convention, the disputing parties before resorting to force shall always invoke the services of an international commission of inquiry, or the mediation of one or more friendly powers;

Resolved, That our Government be requested to urge upon the coming Hague Conference the adoption of the proposition, long advocated by our country, to extend to private property at sea the same immunity from capture in war as now shelters private property on land;

Resolved, That the time has arrived for decided action toward the limitation of the burdens of armaments, which have enormously increased since 1899, and the Government of the United States is respectfully requested and urged to instruct its delegates to the coming Hague Conference to support with the full weight of our national influence the proposition of the British Government, as announced by the Prime Minister, to have, if possible, the subject of armaments considered by the Conference."

These wholesome resolutions leave the principal question open: how much can actually be done? Baron d'Estounelles, the French Ambassador, summed up the matter thus: The Hague tribunal can at this time practically take up three questions—first, the development of arbitration; second, general affirmation of the necessity of all nations not to increase their armaments, and, third, the organization of conciliation. Undoubtedly the second of these practical topics is that on which the attention of the world, between now and the next Hague Conference, will converge. The discussion has been somewhat impeded by the unfortunate use of the word "disarmament"—which, for obvious reasons, is something to which neither our own country nor any European country could possibly assent. But, on the other hand, nothing is more certain than that a limitation, if not actually of the size of armies and navies, at all events of the annual increase in size, is an absolute necessity to the financial well-being of all the nations. As Secretary Root pointed out in his speech, the Hague Conference itself, at its first gathering, expressed the formal wish "that the governments, taking into consideration the proposals made at the Conference, may examine the possibility of an agreement as to limitations of armed forces by land and sea and of the war budgets."

The necessity of some such action is admitted not only by the diplomats, but notably by the Finance Ministers of the various governments, and by bankers who raised their money for them. We do not go too far in asserting that the positive conviction of these high experts is that increase, at the rate of recent years, in the army and navy expenditure of the various European nations must result in the eventual bankruptcy of at least some of them. In recent years this increase has been out of proportion, not only to the increase in population of such countries, but to their accumulation of capital; it must therefore follow, sooner or later, that the governments' demands for such purposes will interfere with the natural relations of productive industry and the money market. That serious impairment of government credit and increased difficulty of raising money will be another necessary result, we imagine hardly needs demonstration.

The principal difficulty, naturally, will be to devise means to restrict such increase which will satisfy all parties. Great Britain still asserts that its navy must equal in size and efficiency those of any two other possibly hostile Powers. This claim, not wholly unreasonable in view of England's colonial empire, has been the stumbling block in most negotiations on the subject. Nevertheless, the very fact that such a ratio, as between England's and the Continental armaments, has been accepted as a practical fact during many years, indicates that formal agreement is by no means out of the question. We believe, in short, that President Roosevelt's view, in his letter to this week's Conference, that the most feasible step "would be an agreement limiting the size of all ships hereafter to be built" for naval purposes, greatly underestimates the possibilities of the coming Hague Conference. It ought to insist upon much more. To the ends recommended in the Conference resolutions, including the humane purpose of restricting the power of belligerents to injure peaceful commerce, whether it flies the flag of the enemy or not, we trust that the convention of diplomats will in due course devote their attention, with the hope of accomplishing positive results.

THE NEW YORK CENTRAL SYSTEM.

Last week we had the annual report of the New York Central & Hudson River Railroad Company for the late calendar year and reviewed the same in these columns. The present week the company has given out a summary statement showing the combined operations and accounts of all the roads owned or controlled, giving us the results for what may be termed the New York Central System. We have always felt that a combined statement of this kind would be useful as affording an indication of the vast extent of the mileage and business under the domination of the Central Company. Separate reports of the different roads owned or controlled have always been issued, but it has never previously been possible to get the combined figures. The Pennsylvania Railroad has long made it a practice to furnish in its annual report a brief summary indicating the income and traffic of the Pennsylvania system as a whole, comprising all lines operated, owned or controlled, both East and West of Pittsburgh and Erie.

The action of the New York Central management is, therefore, to be regarded as a welcome departure. In reality, this is the third year that the figures have been compiled, but in the two preceding years the compilations were reserved for the use of the Company's officials. Now, for 1906, it has been determined to make the results public; and they afford interesting food for reflection and study. The statistics given are really quite elaborate and go much further in the information they furnish than do the summaries contained in the report of the Pennsylvania Railroad. The latter confines itself to giving totals of earnings and expenses and of traffic, passenger and freight. The New York Central exhibits comprise practically all the details and items contained in the reports of each of the separate companies, whether relating to traffic, expenses, income, balance sheets, locomotive and car and engine mileage, inventory of equipment or the numerous other items to be found in the different reports. In this way the compilations are brought up to a high state of perfection and usefulness.

In our railroad news columns will be found some extended comparisons drawn from the statistical analyses now submitted and the reader is referred to these comparisons for details. We wish to refer here only to a few general facts which must prove of wide interest. In the first place, it will no doubt be news to a great many to hear that the New York Central System now comprises over 12,000 miles of road; 12,159 is the precise figure. In 1905 the total was a little less, being then 12,029 miles. But in 1904 it was only 11,183 miles. In the two years, therefore, about one thousand additional miles of line have been acquired or built. At 12,159 miles the New York Central System embraces really more length of road than the Pennsylvania, which in its latest report showed 11,081 miles operated.

The Central report reviewed by us last week indicated that the Central Company by itself in the calendar year 1906 earned gross of over 92 million dollars, far surpassing in that respect the very best previous total. But the Central "System" shows gross of over 225½ million dollars—$225,591,500—with net earnings of $55,617,629 after charging expenses with $12,595,440 spent for new construction and new equipment. Of course these aggregates, though large, fall below those of the Pennsylvania System, which possesses an immense advantage by reason of the enormous tonnage it gets in coal and other minerals from the lines that gridiron the coal and iron districts of the Middle States and the Middle West. The total gross for the entire Pennsylvania System in 1906 was $295,898,165 and total net $84,354,399. But the Central's lines are increasing their earnings very fast, the addition the last two years particularly having been heavy, as may be seen from the following:

	Miles of Road.	*Gross Earnings.*	*Operating Expenses.*	*Net Earnings.*	*Surp. above chgs. & divs.*
1906	12,159	$225,591,500	$169,973,871	$55,617,629	$6,969,012
1905	12,029	206,728,132	156,168,015	50,560,117	4,508,662
1904	11,183	187,274,529	139,691,628	47,582,901	2,872,788
1903	11,163	189,602,486	140,768,701	48,833,785	4,252,324

Note.—Operating expenses include $12,595,440 spent for new construction and new equipment in 1905; $13,705,869 in 1904; $10,521,782 in 1904; $11,068,368 in 1903.

In 1904, it will be observed, earnings, both gross and net, fell off somewhat on account of the reaction in trade experienced at that time. In the two years since then, however, gross earnings have gained in a very noteworthy way, the total in the two years having risen from $187,274,529 to $225,591,500, an increase of 38 1-3 million dollars, or considerably over 20%.

In the net earnings the growth has been less striking, the Central's experience having been parallel with that of other roads in the matter of the heavy augmentation in expenses. In 1904 the amount of the net was $47,582,901; for 1906 it is $55,617,629. The table above contains one other item, namely the year's surplus. This means the surplus not only above fixed charges but also above the dividends paid by the respective companies. The amount of said surplus for 1906 was $6,969,012, which is considerably better than in any of the earlier years. Of that amount, it is proper to say, there was applied $5,331,384 in contributions to special improvement funds and in reduction of the value of assets, &c. It is significant of the policy pursued in the administration of these properties that besides the $5,331,384 appropriated in the way mentioned, the sum of $12,595,440 was spent in the same period of twelve months for new construction and new equipment, this being directly included in the expenses. The two together make almost $18,000,000 taken out of earnings during the year.

We have prepared one other table to show that the growth in traffic has been even more marked than the growth in revenues, that important advances have been made in operating achievements, and that no portion of the increase in income has been derived from an increase in rates—that, on the contrary, the average charge to shippers for the transportation services rendered them has diminished. The table is as follows.

	Freight Movement One Mile			Rate per ton		Passengers	Rate per
Calendar Year.	Revenue Freight. Tons.	Company Freight. Tons.	Total. Tons.	per mile. Cents.	Tr'n load* Tons	Carried One Mile. No.	pass. p. m. Cents.
1906	24,710,142,995	2,032,710,560	26,742,853,555	0.603	490	2,982,486,546	1.83
1905	23,000,966,676	2,036,862,074	25,037,828,750	0.595	471	2,698,076,286	1.83
1904	19,940,530,596	1,767,677,079	21,708,207,675	0.620	445	2,597,168,692	1.86
1903	20,354,145,402	1,735,973,293	22,090,118,695	0.624	442	2,501,566,445	1.90

Note.—The trains earned $2.73 per mile run in 1906; $2.58 in 1905; $2.53 in 1904, and $2.54 in 1903. * Including company freight.

In the matter of the traffic, it will be noted that the totals are of huge dimensions. The number of tons of freight moved one mile for 1906 was no less than 26,742,853,555 tons, having been raised to that figure from 21,708,207,675 tons in only two years. The number of passengers carried one mile in 1906 was 2,982,486,546, against 2,597,168,692 in 1904. Both passenger and freight rates have declined, the rate per ton per mile in 1906 having been 6.03 mills, against 6.20 mills in 1904 and 6.24 mills in 1903; and the rate per passenger per mile having been 1.83 cents, against 1.86 cents in 1904 and 1.90 cents in 1903.

It is evidence of the efficiency with which these properties are being administered that the trains have been made to haul an increased load with each succeeding year. In 1903 the average train-load was 442 tons; in 1904 this was increased to 445 tons; in 1905 to 471 tons and in 1906 to 490 tons. By enlarging the train loads the management have succeeded in adding to the earnings of the trains, notwithstanding the decline in average rate. In 1904 the trains earned $2.53 per mile run; in 1906 they earned $2.73 per mile.

A further feature in the affairs of the combined lines attracts attention. We have seen that shippers and patrons of the road have been given the benefit of lower rates; furthermore, that in 1906 alone almost $18,000,000 of earnings were put back into the properties for their improvement and betterment, which was also a step for the benefit of the public. It remains to be seen how much new capital has been invested in the properties and what additions have been made to their carrying capacity. From the combined balance sheet it appears that in the two years from Dec. 31 1904 to Dec. 31 1906 the capital stock of the companies was increased from $326,894,698 to $408,157,700, and funded debt from $460,480,579 to $534,068,672. Thus, the increase in capitalization in the two years has been $154,851,095. To the extent that the Central has increased its stock and bond holdings in the other companies, there would necessarily be a duplication of the capitalization; but the amount involved would in any event be relatively small and in a general way the increase in capitalization may be taken to represent the amount of new money raised.

The additions which have been made to the equipment in the two years give an idea of how a part of the new capital has been applied. At the end of 1906 there were 4,919 locomotives, against only 4,095 at the end of 1904; 4,300 cars in the passenger service, against 3,883; 187,639 freight cars, against 154,309, and 8,187 cars in the companies' service, against 5,379. Thus in the two years 824 locomotives have been added, while the number of cars of all kinds has been increased from 163,571 to 200,126. It must also be remembered that the new cars are of much larger type than the old cars, and that hence the increase in the capacity of the equipment has been much greater than is indicated by the mere increase in numbers. Such figures are of great significance at this juncture, for they show that at a time when there has been much complaint that United States railroads had failed to enlarge their facilities fast enough, the New York Central lines have in a very notable manner been preparing for future growth in business. Obviously, therefore, disregard of public needs cannot be imputed to them.

AN ANTI-RAILROAD PRESENTMENT.

Whatever comes from the Chamber of Commerce of a commercial city has unquestionable title to respectful consideration, but on the other hand is rather more than ordinarily open to criticism if it is defective in its statement of facts or in the reasoning based upon the facts. It seems proper and needful to say this before speaking of the memorial concerning transportation which has been issued by the Cincinnati Chamber, has just been taken up and adopted by the like commercial body of Dayton, Ohio, and has been sent out to the President, to the Inter-State Commerce Commission and to the presidents of the leading railroads of the United States. This is the opening paragraph:

"The value of transportation depends upon the promptness with which it is rendered. Common carriers are entitled to reasonable compensation for transportation service rendered within a reasonable time. The quicker and better the transportation service, the more valuable it is. Hence, express charges are higher than freight charges, telephone charges higher than telegraph charges, and telegraph charges higher than postage rates, all because of the time saved."

This is an erroneous statement; it comes near to having the defects of mere half-truths. Transportation value does not "*depend*" on promptness alone; speed is the chief factor only in case of perishable commodities, such as fruits. Express carriage involves a collection and delivery service between sender and receiver which covers part of its higher cost. Granting the broad statement that telephone rates are higher than telegraph rates, the telephone involves

a special plant of wiring and a special outlay in "exchanges" which account for the difference without bringing in the factor of speed—a factor which might even be questioned when distance is considered. Mail-carrying is not a commercial business for profit, and its unlikeness to the telegraph makes all comparisons inapplicable. The lack of point in these illustrations rather makes against than assists the charge of want of promptness which the memorial proceeds to bring against the railroads.

The memorial next cites the admitted fact that the leading railroads are at present unable to meet the demands of service and must expend largely in order to provide facilities for handling the vast volume of business expeditiously. Much business now offered, we are told, is refused, and shipments already accepted which ought to go through in four or five days are occupying thirty to ninety days. One would naturally suppose that when traffic has so outgrown facilities as to require further investment in railroad plant, there would be a disposition to encourage capital to come forward for such further investment. But the memorialists actually cite the situation as proving fault on part of the roads and as suggesting a punitive treatment. To quote their own language:

"The present rates of freight, wherever they can be justified as being reasonable, are only reasonable when the transportation service is performed within a reasonable time. Carriers cannot even justify the present rates for the transportation of property which cannot be and is not moved within a reasonable time. Notwithstanding the executive officers of many lines admit that the present volume of business cannot be moved within a reasonable time, and that their facilities are totally inadequate, yet, in the face of this, rates have been advanced on a number of articles and there are intimations that there will be a general advance in rates in all sections of the country."

This argues, by implication, that the situation calls for reduction rather than justifies any increase in rates. The declaration of the memorialists that "the present freight rates, which, *in our opinion, are ample,*" to meet the real needs of the roads,can not be increased without serious injury to business, is not entitled to weight, in the lack of proof that the opinion is both expert and dispassionate. The matter of increase of wages by the roads is dismissed by saying that it is "largely a restoration of the former scale"—a statement which would have no relevancy if it were correct, because the bearing of a specific wage-scale to-day is the same whether it was or was not in effect some years ago. It is quite conceivable that an enormous and unforeseen expansion of traffic might concur in point of time with such increased expenses as would make existing rates too low for toleration without impairing financial health. Such a condition is quite near the fact at present. Is it not too much to ask that railroads shall always keep up to or a little in advance of traffic demands in a rapidly developing country like ours? Increasing cost of most materials used by the roads, and increased wages (emphasized by the general strike which has been threatened during this past week) are causes of rate advance which the memorialists pass over too lightly and dismiss as negligible, while they fail to allude to the 2-cent bills passed and in progress towards passage by the States. Of course, they do not touch on the practical question of how railroads are to get on if, when rates are cut by law in one department and materials and wages go up, they are to be debarred from raising rates in another department, on no better ground than that traffic has outgrown their present facilities.

As for the great stress laid on transportation within "reasonable" time, it is evident that there is no fixed and precise standard of reasonableness. Like every other business, a railroad must sink money unless it can keep its instruments of service pretty steadily employed; this requires return freights, and in the effort to find load for returning cars the roads have sometimes offered barely cost rates in order to get or even to create business, and then have been accused of discriminations for doing it. It is self-evident that no conceivable quantity of rolling-stock could suffice for the needs of traffic if cars are to be unduly withheld by consignees or shippers or to be so packed on sidings as to impede movement of trains. What Mr. Harriman recently told of his own observation of cars held in the town of Groton, Mass., while consignees handled the coal in them according to their own convenience, can hardly have been forgotten yet, and this is only one instance of what is going on more or less all the time and all over the country. The average individual's idea of prompt and reasonable service by the carriers is likely to be that, when he is about to have a carload shipment, a car or cars shall be supplied him very early, so that he cannot possibly have to wait an hour, and then, the cars being ready for him, if he happens to take a few days extra in loading, this little matter for his own convenience should not count. The consignee is liable to have about the same notion of the subject as the shipper, and the men who would agree most warmly with the contention of these memorialists that the railroads have hardly a full right to existing freight rates because they do not render prompt and reasonable service might be loudest to complain of any demurrage charge made upon themselves for detention of cars.

Here might be recalled to mind the coal famine of a few months ago in one or two Western States. The usual outcry was made, only the charge was that the railroads would not (not that they could not) supply coal to the troubled sections. But investigation showed that the fault was with the local coal dealers, who, for reasons satisfactory to themselves, had omitted to lay in their stocks during the customary season for so doing.

All matters in this world ought to go according to righteous and lasting principles, and the binding force of such principles does not have anything to do with the manner in which they happen to bear upon the particular case in which some individual man is concerned. Nevertheless, it is in human nature to view subjects—sometimes unconsciously so—according to their relation to one's own immediate interests or to the habit of the hour. Our Cincinnati friends must pardon us for saying, without disrespect, that their memorial seems to reduce, as to the essence of it, to substantially the story of the Berwick fish-dealer, who said that he did not care how the railroads might be affected by it, but what he wanted was lower rates on fish. Moreover, this document illustrates how good business men, by falling in with an unhappy habit of denunciation of corporations (especially of common carriers), and by arguing with their emotions and by what seems an immediate personal

interest, instead of arguing with their reason, can be led into most indiscriminating and unbusiness-like deductions. If considered carefully, this document refutes itself.

One more observation might be made: that this illustrates again how artificial and causeless is this whole anti-railroad proceeding into which the country has been drawn. The last few years have been years of unprecedented prosperity, with crops even too large to handle, so that, as somebody has said, we have so much abundance nationally that we do not know what to do with it. So we lose our heads, thrash about wildly, and turn against the essential instruments of our prosperity. There have always been grumbling individuals and always will be, and there are instances of railroad conduct (as of conduct by others) which are not fair and justifiable; but these exceptions can be ignored in the general statement that the railroads were serving the public well and that nobody complained or had particular reason for complaint. But some persons have made the discovery of a vast oppression of which there are no visible results, and they have harped upon the theme until a public emotion has been stirred up of which the 2-cent laws by the States are the latest evidence. It is all both a needless and an unhappy disturbance. Persisted long enough and far enough, and we shall relieve ourselves of too much prosperity; but, furtunately, there are already signs of a growing reaction to the return of sound, old-fashioned common sense.

THE COUNTRY'S ENORMOUS STEEL PRODUCTION.

Statistics of the production of open-hearth steel for the calendar year 1906 have been made public this week by Mr. James M. Swank of the American Iron & Steel Association and they surpass the most sanguine expectations. Steel production by the open-hearth process has made tremendous strides in the United States in recent years and some further increase in 1906 had been looked forward to, but no one, we think, was prepared for any such large additions as the official figures now disclose. Estimates of the probable increase had been made with caution, in view of the fact that the addition in 1905 had been of such large extent, the output in that year having risen from 5,908,166 tons to 8,971,376 tons. But now it is discovered that on top of the 3,000,000 tons gain in 1905 there has been a further increase of 2,000,000 tons in 1906, making an addition for the two years of over 5,000,000 tons. In other words, in 1906 we produced in the United States by the open-hearth method alone (we mean independent of the make of Bessemer steel, crucible steel and other kinds of steel) almost 11,000,000 tons—in exact figures 10,970,998 tons.

It is only a few years since the preponderating proportion of the country's steel production consisted of Bessemer steel; and the open-hearth product constituted a relatively unimportant portion of the whole. The Bessemer steel output has not failed to expand in the interval, but the advance in the make of open-hearth steel has been so phenomenal that the total of the latter has been fast overtaking the Bessemer aggregate, and now the open-hearth product is almost as large as the Bessemer product. Perhaps the best way to indicate the expansion in the open-hearth figures is to note that in 1906 the amount exceeded the Bessemer product of 1905, which last had never previously been equaled. With the rate of progress of the last two years continued (and there is nothing to indicate any check) 1908 will find the United States actually making more open-hearth steel than Bessemer steel.

It was not until 1895 that we made as much as a million tons of open-hearth steel in any calendar year and not until 1898 that we made as much as 2 million tons of open-hearth product and not until 1900 that we made 3 million tons. From this the increase in six years to 11 million tons, roughly, in 1906 represents development obviously of a very unusual kind. We may add that in all the last dozen years it has never happened once that a succeeding year failed to show an increase over the year preceding. As has been pointed out by us on previous occasions, even in 1903 and 1904, when depression in the steel industry was so marked, and when, as a consequence, the Bessemer product underwent marked contraction, the open-hearth product continued to increase, though of course only in a small way. In the following we show the open-hearth product for each year back to 1894. Of the total of 10,970,998 tons for 1906, it is proper to say 713,157 tons were direct castings and 10,257,847 tons were ingots, and of the whole amount 9,649,385 tons were made by the basic process and 1,321,613 tons by the acid process.

OPEN-HEARTH STEEL PRODUCTION.

Year.	*Tons.*	*Year.*	*Tons.*	*Year.*	*Tons.*
1894	784,936	1899	2,947,316	1903	5,829,911
1895	1,137,182	1900	3,398,135	1904	5,908,166
1896	1,298,700	1901	4,656,309	1905	8,971,376
1897	1,608,671	1902	5,687,729	1906	10,970,998
1898	2,230,292				

With the make of open-hearth steel so decidedly increased and with the Bessemer steel product also considerably enlarged, the country's total steel production for 1906 is brought up to figures which only a short time since would have been deemed visionary. The country made 12,275,253 tons of Bessemer steel in 1906 against 10,941,375 tons in 1905 and 7,859,140 tons in 1904, and it made, as we have just seen, 10,970,998 tons of open-hearth steel against 8,971,376 tons and 5,908,166 tons respectively. There is also a little crucible steel made and a little steel of miscellaneous forms. In 1905 the product of crucible and the various minor kinds of steel was 111,196 tons. There are no data as yet for these kinds of steel for 1906, but assuming that the amount in that year will be the same as for 1905, namely 111,196 tons, our total steel production is raised to 23,357,447 tons, which is 3 1-3 million tons more than the aggregate for 1905. In 1904 the total make of steel in this country was only 13,859,887 tons, and the increase in two years to 23,357,447 tons represents an achievement which has no parallel in the annals of trade. In the table we now present we indicate the production of each kind of steel since 1899.

STEEL PRODUCTION IN UNITED STATES IN GROSS TONS.

Calendar Year.	*Bessemer Steel.*	*Open-Hearth*	*All Other Steel.*	*Total Ingots and Castings.*
1899	7,586,354	2,947,316	106,187	10,639,857
1900	6,684,770	3,398,135	105,421	10,188,329
1901	8,713,302	4,656,309	103,984	13,473,595
1902	9,138,363	5,687,729	121,158	14,947,250
1903	8,592,829	5,829,911	112,238	14,534,978
1904	7,859,140	5,908,166	92,581	13,859,887
1905	10,941,375	8,971,376	111,196	20,023,947
1906	12,275,253	10,970,998	*a*111,196	23,357,447

a No data for 1906; taken same as previous year.

The increase of nearly 9½ million tons in two years in the country's annual make of steel and the extraordinary total attained attest and explain the wonderful activity which has been experienced in the iron

and steel industry in this period and the unexampled prosperity of trade and business as a whole. In the face of such figures and such a record and achievement it is not surprising that confidence in the future of our industries should remain unimpaired, notwithstanding the presence of a number of serious obstacles which would appear to militate against the continuance, unchecked, of the era of prosperity with which the country has been blessed for so many years. As an impressive indication of the magnitude of the total of 23 1-3 million tons of steel, we may state that the British product of Bessemer and open hearth for the same period of twelve months was 6,462,274 tons and the German product was probably in the vicinity of 11½ million tons—no official figures being yet available in this case.

RAILROAD GROSS AND NET EARNINGS FOR FEBRUARY.

Our compilation of railroad earnings for February is of the same character as all other recent exhibits. That is to say, there is little cause for complaint as far as gross earnings are concerned, which show satisfactory gains. But operating cost is increasing in such a way that the augmentation in expenses completely overtops the improvement in the gross revenues. In a word, our statement shows $8,797,150 increase in gross as compared with a year ago, but this has been attended by $10,447,751 increase in expenses, thus leaving a loss of $1,650,601 in the net.

	February. (94 *roads.*)			*January* 1 *to February* 28. (94 *roads.*)		
	1907.	1906.	*Inc. or Dec.*	1907.	1906.	*Inc. or Dec.*
	$	$	$	$	$	$
Gr. earns	123,920,810	115,123,660	+8,797,150	256,741,027	237,836,790	+18,904,237
Op. exp.	93,251,728	82,803,977	+10,447,751	190,005,979	168,816,081	+21,189,898
Net earn	30,669,082	32,319,683	—1,650,601	66,735,048	69,020,709	—2,285,661

It is important to note, too, that these figures do not include three or four large systems which it is known have sustained exceptionally heavy losses in net. We refer particularly to the Northern Pacific and the Great Northern, both of which still suffered from snow blockades in February, almost completely tying up parts of their lines. These roads cannot be included in our statements of gross and net, since, though they furnish reports of gross, they never make public figures of net. The Great Northern fell $531,386 behind in its gross and the Northern Pacific sustained $407,950 decrease in gross in that month. The losses in net must have been very much heavier in both instances. It follows, therefore, that with these losses added on, the showing would be very much poorer than it now appears.

On the other hand, the fact should not be lost sight of that comparison is with extraordinarily favorable results in February of last year, in part as a consequence of the extremely mild weather experienced at that time. In the gross the improvement in February 1906 reached no less than $25,102,733, or 26.25%, and in the net the increase was $13,549,271, or 67.96%. In view of this phenomenal record last year, and considering the unfavorable influences the roads have had to contend with the present year, it must be considered as gratifying that the roads have on the whole done so well. In the following we show the February totals back to 1896. It will be observed that the very large gains in 1906 were to a small extent a recovery of what had been previously lost, but that in most of the years the comparisons showed gains in both gross and net.

Year.	*Gross Earnings.*			*Net Earnings.*

1907	256,741,027	237,836,790	+18,904,237	66,735,048	69,020,709	—2,285,661

Note.—Includes for February, 130 roads in 1896; 124 in 1897; 136 in 1898; 125 in 1899; 123 in 1900; 131 in 1901; 117 in 1902; 106 in 1903; 104 in 1904; 98 in 1905; 101 in 1906, and 94 in 1907. And from Jan. 1 to Feb. 28, 129 roads in 1896; 123 in 1897; 135 in 1898; 123 in 1899; 123 in 1900; 131 in 1901; 116 in 1902; 106 in 1903; 104 in 1904; 98 in 1905; 99 in 1906, and 94 in 1907. Neither the Mexican roads nor the coal-mining operations of the anthracite coal roads are included in any of these totals.

In the case of the separate roads the circumstances and influences enumerated above are very plainly reflected. In the gross there is an important body of gains, some for large amounts, while the losses are few and comparatively unimportant. On the other hand, in the net the list of increases is a short one, while the decreases are numerous and some of them quite heavy. The Pennsylvania Railroad is typical of a great many others. It reports for the combined lines, East and West, $1,181,300 gain in gross but $244,700 loss in net. This follows, however, no less than $3,093,100 increase in gross and $1,396,600 increase in net in February 1906. Southwestern roads have very favorable returns as a rule, and the Southern Pacific in particular is distinguished for $2,055,254 gain in gross and $1,148,521 gain in net. It is presumed that the exceptional character of the exhibit in the case of this road is in part due to the deflection of through traffic from the Northern trans-continental lines to the Southern Pacific route. In the following we show all changes for the separate roads, whether increases or decreases, for amounts in excess of $30,000.

PRINCIPAL CHANGES IN GROSS EARNINGS IN FEBRUARY.

As already indicated, in addition to the roads furnishing returns of both gross and net, there are a number which supply only figures of gross. These latter comprise some other important systems besides the Northern Pacific and the Great Northern, already mentioned. Starting with the total of the gross in the above, we add on, in the table we now present, all other roads for which we have comparisons of gross, thus giving us a total of the gross comprising every road in the country from which it has been possible to procure figures.

Total (122 roads)	162,283,992	152,555,191	10,756,191	1,027,390
Net increase (6.37%)			9,728,801	

In this way the amount of the increase in gross for the month is found to be $9,728,801, or 6.37%. Last year there was an increase, according to the same method of computation, in the extraordinary sum of $29,761,285, or 26.36%. As already stated, in view of this striking improvement in 1906, the further increase the present year must be regarded as a decidedly encouraging feature.

THE USE OF ACCEPTANCES.

The following comes to us from a correspondent on the other side of the ocean, and we print it because it serves to direct attention to the advantages which London possesses over New York in the matter of bank acceptances—at least as far as foreign trade is concerned:

Lombard Street, London, Eng., April 1 1907.

Sir.—Will you kindly grant me space in your journal to offer some observations bearing on your recent interesting article?

On the domestic side of the question I do not, of course, presume to express any opinion, but if, as I infer from your editorial, and the subsequent letters on the subject from Mr. de Lima and Mr. Warburg, the business of accepting bills by your banks and bankers is intended to have an international application, then I venture to say that the introduction of such a feature to American banking as at present practiced can only meet with moderate success.

It hardly needs saying that the obligations of the American banks and bankers likely to engage in this class of business are just as certain of fulfilment as those of English banks and bankers. This point is not in dispute; but on the question whether a bill drawn on a New York accepting bank would be as marketable when offered for sale either in New York or at its source—say, in Manila, Yokohama, Calcutta, Shanghai or Rio de Janeiro—as a like bill on a London accepting bank, the decision must, I think, be given in favor of the London bill, which has always enjoyed a preference not accredited to bills drawn on any other financial centre, for reasons sufficiently well known not to need reiteration here.

The practical question, then, for your banking community is whether this preference for the London bill can be overcome to the extent at least of giving the draft on New York some considerable share in the high prestige the former enjoys. Having regard to what have heretofore been the distinguishing financial features in the two centres, I cannot help thinking that the answer must be in the negative.

Until the waste and depreciation of capital consequent on the war in South Africa and subsequent contributory causes made themselves felt, ours was—and had long been—the cheapest money market in the world. To that position we shall, I am confident, return again, although it may be by slow and halting steps.

We are rich, and under normal conditions possessed of far more wealth than we can employ in our home trade. You, on the other hand, can use all and more money than you can get for the development of your great country's resources. Here in London we have a broad and elastic discount market, where a wealthy community of firms and corporations make a business of buying the immense lines of bills drawn on London from all the trade centres of the world. The great banks—British and foreign alike—invest largely in these bills, and in addition lend readily to the bill-broking fraternity against bills lodged as security. There is nothing quite like it anywhere else in the world; and, furthermore, when for any reason the banks and discount houses may be temporarily disinclined or unable to loan money or buy bills, these can be taken to our central institution—the Bank of England—where loans can be obtained upon them or the bills can be discounted at the official rate if the currency is not too long. These latter are invaluable privileges at times. The banker in South America, India, China, Japan or the Philippines knows that the bills he buys and remits to his correspondent here are always marketable, and can unhesitatingly be drawn against forthwith.

Supposing, however, the bills were drawn on New York and remitted to his correspondent there for immediate discount, is it equally certain that the same quick and ready market would await them always? I venture to think not. It is no disparagement of your splendid banking institutions to say that they would not invariably be ready purchasers of such bills, and I can conceive it would often be a comparatively unprofitable form of investment in a country whose constantly growing developments must frequently provide many more important channels for the remunerative employment of banking funds.

So it seems to me, for the above reasons, among several others which cannot be enlarged upon now, that the introduction of New York bank acceptances to take the place of London acceptances in financing the import trade of the United States cannot under prevailing conditions be very largely developed. The foreign merchant will continue his preference for a London credit because our lower and steadier money market will enable him to sell his London bill at a better rate of exchange than a bill on New York; and the foreign banker—whose immense turn-over in exchange necessitates that a quick market should exist for the drafts he buys—will be equally averse to large dealings in bills to which attaches some risk of delay in their sale, and not an inconsiderable risk also of loss of interest in having to sacrifice them to provide funds at a time when your money market is seized with one of its not infrequent spasms of pressure.

I must apologize for the length of this letter, but I think you will agree that the points I have raised are not unworthy of consideration in connection with the suggested enlargement of your banking activities.

Your obedient servant,
D. A. HORNER.

WORLD'S WHEAT CROP IN 1906.

The Department of Agriculture has made public recently its compilation covering the world's wheat crop in 1906, and we give it in detail below. The fact of leading interest brought out by the statement is that the aggregate production for the year was 3,423,704,000 bushels, or about 106½ million bushels greater than in 1905, which was the previous record season. It will be observed that of the grand subdivisions of the world North America alone shows a record total. Europe runs ahead of 1905 and 1904, but exhibits a small loss from 1903. Australasia, Africa and Asia contributed more to the world's supply than in 1905 but less than in 1904. How the results for the various countries for 1906 compare with the figures for 1905, 1904, 1903 and 1902 is indicated in the following:

WHEAT CROP OF THE WORLD.

The aggregate yield of the world for each year since complete statistics were first compiled by our Agricultural Department is appended:

AGGREGATE WHEAT CROP OF WORLD.

	Bushels.		*Bushels*
1906	3,423,704,000	1898	2,942,439,000
1905	3,337,748,000	1897	2,234,461,000
1904	3,163,845,000	1896	2,506,320,000
1903	3,221,251,000	1895	2,593,312,000
1902	3,125,227,000	1894	2,660,557,000
1901	2,954,763,000	1893	2,559,174,000
1900	2,640,620,000	1892	2,481,805,000
1899	2,783,889,000	1891	2,432,322,000

The average annual product for the fifteen years, 1891 to 1905 inclusive, was 2,974,110,000 bushels. The 1906 crop, therefore, shows a gain over that average of 449,594,000 bushels, or 15%, and compared with 1905 the increase is 45,956,000 bushels, or only a little over 1¼%.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—No bank stocks were sold at auction this week, and only 160 shares were sold at the Stock Exchange. The auction sales of trust companies stocks reach a total of 45 shares.

x Sold at the Stock Exchange.

—A New York Stock Exchange membership was reported transferred this week for $78,500, an increase of $3,500 over the last previous sale.

—Two resolutions amending the present regulations of the New York Clearing House are to be offered for adoption at the next meeting of the Association. One of these resolutions, it will be observed, makes it necessary for non-member banks to maintain a cash reserve of 25%. They are as follows:

"Resolved, That foreign checks on which are now printed 'Payable at the —— National Bank, New York,' and are now being cleared by New York Clearing House banks, shall not be cleared after the adoption of this resolution unless they are certified by the local bank in the city from which they emanate;

"Resolved, That any institution clearing through a member of the New York Clearing House must maintain an amount in its own vaults equal to twenty-five per cent of its net deposits."

—The City Bank & Trust Company of New Orleans, which was obliged to withdraw from the New Orleans Clearing House Association because of its operation as a night-and-day bank, has again become a member of the association, having discontinued its feature of night banking. In effect the bank found it impossible to continue business under the complete severance of relations with the other New Orleans banks, which would have been necessary had it adhered to its course. The bank introduced night hours on January 31, and that being in conflict with the rules of the association it was forced to withdraw from membership in that organization. For this, of course, the institution was prepared, but subsequently the Clearing House forbade the associated banks of New Orleans to accept on deposit checks drawn on a non-member of the Clearing House Association. That was more than the bank could stand. The institution therefore decided to discontinue night banking and come back into the fold.

—In the death of James H. Eckels this week Chicago loses a highly esteemed citizen and the Commercial National Bank a most efficient head, while the country suffers the loss of one of its ablest and most successful financiers. Mr. Eckels's death was unexpected, and occurred between Saturday night and Sunday morning. As Comptroller of the Currency during one of the most trying periods in the country's history, Mr. Eckels, who was supposed to have had but little knowledge of banking at the time of his appointment, displayed exceptional ability, winning for himself an enviable reputation. Mr. Eckels was born in Princeton, Ill., in 1858. With the idea of fitting himself for the bar, he entered an Albany (N. Y.) law school in 1879, from which he was graduated the following year. He returned to Illinois and in 1881 began the practice of law at Ottawa, Ill. He also became actively interested in politics, and in 1893, when but thirty-five years old, came into National prominence through his nomination by President Cleveland as Comptroller of the Currency. The appointment was confirmed by the Senate on April 3 1893, and Mr. Eckels served in that office four and a half years, retiring December 31 1897. Shortly after entering upon his duties the panic of 1893 occurred and in ten weeks 165 national banks failed; he assisted in re-opening 115 of these. Upon retiring as Comptroller, Mr. Eckels assumed the presidency of the Com-

mercial National Bank of Chicago, and the growth of that institution is indicative of his administrative ability. He was also identified at the time of his death with a number of other interests, having been one of the receivers of the Chicago Union Traction Company, Vice-President and director of the Hewitt Manufacturing Company, Treasurer and director of the Featherstone Foundry & Machine Company, member of the Chicago Clearing House Committee, and director or trustee of the following: Allis-Chalmers Company, American & British Securities Company, American Surety Company of New York, Bankers Trust Company of New York, Oakland National Bank of Chicago, Fay-Sholes Company, member of the Western Board of Control of the Audit Company of New York, &c. Suitable resolutions with respect to his death were adopted this week by a number of organizations with which he was connected, including the Chicago Clearing House.

—Owing to impaired health, and acting under the advice of his physician, Henry C. Deming has resigned as President of the Mercantile Trust Company of this city. The resignation was accepted with much regret by the directors on Wednesday. Mr. Deming had been connected with the institution for twenty-seven years. For fifteen years, from 1880 to 1895, he served as Secretary and Treasurer; in 1895 he was elected Second Vice-President, and in January 1903 was chosen to the presidency, succeeding General Louis Fitzgerald. By virtue of his office of First Vice-President, John T. Terry is Acting President until a successor to Mr. Deming is elected. Mr. Terry is eighty-four years of age, and has been identified with the company for the last twenty-five years. With Mr. Deming's resignation rumors are revived of a possible consolidation of the Mercantile and Equitable trust companies.

—The Corporation Trust Company, now at 135 Broadway, this city, will remove about May 1 to 37 Wall Street.

—The stockholders of the new National Copper Bank of this city elected directors last Tuesday. The board is as follows: William A. Paine and F. Lathrop Ames of Boston; Charles F. Brooker of Ansonia; F. W. Roebling of Trenton; Robert C. Pruyn of Albany; Henry H. Rogers Jr., Adolph Lewisohn, James Jourdan, H. O. Havemeyer Jr., James M. Beck, James C. Bishop, George R. Sheldon, R. M. Stuart Wortley and Charles H. Sabin of New York. The officers chosen are: Charles H. Sabin, President; John D. Ryan, Thomas F. Cole and Urban H. Broughton, Vice-Presidents; Walter F. Albertsen, Cashier, and Joseph S. House, Assistant Cashier. The institution will begin business about May 1 in the Trinity Building, 115 Broadway, with a capital and surplus of $2,000,000. Subscribers to the stock have been called on to pay the full amount of their shares (at $205) on or before the 25th inst.

—The Fourteenth Street Bank of this city has been admitted as a member of the New York Clearing House Association. It will begin clearing April 29. As noted last week, the institution has a capital of $1,000,000 and surplus of $350,000.

—Frederick Fowler has resigned as a Vice-President and director of the New York County National Bank of this city to accept a position as Vice-President and director of the Bank of Commerce & Trust Company of Memphis, Tenn., a leading institution in the Southwest. He will assume his new duties the latter part of this month. In his new office Mr. Fowler, who originally came to New York from Memphis, succeeds J. A. Omberg, who lately became President of the First National Bank of that city. The Bank of Commerce & Trust has a capital of $1,500,000; surplus of $500,000 and deposits of about $6,200,000.

—The stockholders of the Nineteenth Ward Bank of this city on Wednesday ratified the proposition to increase the capital from $200,000 to $300,000. The issuance of the new stock will give an addition of $300,000 to the working capital, the selling price of the shares being $300 each.

—Announcement of the suspension of the Stock Exchange house of W. L. Stow & Co. of this city was made on the Stock Exchange on Monday. The firm was organized in 1899 and was composed of W. L. Stow and Henry Coolidge, both of whom are members of the Exchange. The largest creditor, it is said, is Lawrence Waterbury, whose claim is reported to be in excess of $300,000. This is the second time the firm has been obliged to suspend. The previous failure occurred in July 1903. The firm was reinstated to membership in the Exchange in January 1904.

—William T. Fields has resigned as President of the National Tradesmen's Bank of New Haven, Conn. The resignation is said to be due to the fact that as trustee of various estates Mr. Fields had made injudicious investments; it is added, however, that the bank's funds are not affected in the slightest degree.

—The proposed increase in the capital of the Western National Bank of Philadelphia, referred to some weeks ago, was authorized by the stockholders on Monday. In addition to enlarging the capital, which is to be increased from $100,000 to $1,000,000, it has also been decided to change the par value of the shares from $50 to $100 and to increase the directorate from nine to eighteen members.

—The proposition to increase the capital of the Merchants' National Bank of Philadelphia was ratified on Tuesday. In this case the addition is $400,000, or from $600,000 to $1,000,000. The new stock will be issued the coming month and will be offered pro rata to present shareholders at $150 per share of $100. Payment will be made in six monthly installments of $25 each, beginning May 15. A resolution providing for a board of seventeen members was also favorably acted upon.

—The directors of the Tradesmen's National Bank of Philadelphia have elected Howard A. Loeb to the newly created office of Second Vice-President.

—The Farmers' National Bank of Westchester, Pa., has commenced the erection of a new building on the site of its former home, the institution in the meanwhile occupying temporary quarters at 20 North High Street. The construction will be mainly of steel and concrete. The first floor of the structure and the mezzanine gallery will be occupied jointly by the bank and the Farmers' & Mechanics' Trust Company—the latter a new organization. There will be about seventy-five offices on the upper floors; the basement will be devoted principally to storage vaults. The new building, it is expected, will be ready for occupancy in a year. The Farmers' National has adopted the policy of keeping open on Saturday night.

—The Farmers' & Mechanics' Trust Company of Westchester, Pa., incorporated on Jan. 17, opened for business on the 1st inst. in temporary quarters at 18 North High Street. It has been organized with $250,000 capital and $150,000 surplus. P. M. Sharples is President; P. S. Darlington, Vice-President, and H. J. Haas, Secretary and Treasurer.

—George A. von Lingen, who was elected President of the Commercial & Farmers' National Bank of Baltimore last December, succeeding Walter A. Mason, has resigned the post on account of ill health. The directors have elected James M. Easter to the presidency; Harry M. Mason, heretofore Cashier, has been chosen Vice-President, and Frank V. Baldwin, previously Assistant Cashier, has been elected Cashier. The new President had served as Vice-President since December.

—J. H. Painter of Kittanning, Pa., has been appointed permanent receiver of the new Castle Savings & Trust Company of New Castle, Pa., which suspended February 9.

—The Cleveland Trust Company of Cleveland, Ohio, has taken over the Dollar Savings Bank of Painesville, Ohio. The latter has a capital of $100,000 and deposits of about a million dollars. Controlling interest in the Pioneer Savings & Trust Company of Painesville was secured by the Cleveland Trust nearly a year ago, and this has since been operated as a branch.

—The Central National Bank of Cleveland under the last call of the Comptroller (March 22) reported deposits of $6,402,827, surplus and profits of $572,289 and total resources of $9,725,617. Two years ago these several items were reported at respectively $1,972,768, $115,021 and $7,007,289; on February 15 1900 deposits stood at $1,100,745, surplus and profits at $256,652 and total resources at $5,537,397.

—The New First National Bank of Columbus, Ohio, o which Charles R. Mayers is President, furnishes a comparative statement of its resources covering the past ten years, as follows:

Year.	Resources.	Year.	Resources.
1907	$5,692,084	1901	$4,080,791
1906	5,416,529	1900	3,481,945
1905	5,196,697	1899	2,609,085
1904	4,875,490	1898	2,065,515
1903	4,643,042	1897	1,484,138
1902	4,316,413		

As the above table shows, aggregate resources increased from $1,484,138 in 1897 to a total of $5,692,084 in 1907. The institution is one of the largest dealers in high-grade municipal bonds in the West; it has just issued for distribution a booklet of 42 pages, giving the principal facts concerning some of the issues which it offers.

—W. A. Julian has resigned as President of the Queen City Savings Bank & Trust Company of Cincinnati.

—The Bankers' National Bank, capital $200,000, is about to be organized in Evansville, Ind., the Comptroller having approved the application made by its projectors. The latter are S. T. Heston, Hugo C. Rothert, William L. Barker, John O. Davis, James R. Riggs, George R. Alsop, J. M. Mitchell and John W. Skeavington.

—The application to organize the National Bank of Commerce of Detroit, referred to in this department March 30, was approved by the Comptroller of the Currency on April 12. The institution is to have a capital of $500,000.

—The transfer of the assets of the American Savings Bank Company of Toledo (capital $50,000) to the Continental Trust & Savings Bank of Toledo has been completed. The stockholders of the American were given the privilege of selling their holdings at par ($50) or surrendering two shares of stock for one share of the Continental. The latter has a capital of $200,000 and was formed a month or two ago through the union of the Central Savings Bank Company and the Lucas County Savings Bank Company; $100,000 of its capital was allotted to the shareholders of the Central, and $100,000 to those of the Lucas County; the stock to be received by the shareholders of the American, about $25,000 in all, will be surrendered, it is stated, by those promoting the merger.

—Edward D. Keys, heretofore Cashier, has been elected President of the Farmers' National Bank of Springfield, Ill., succeeding the late S. Mendenhall. A. O. Peterson has been chosen Cashier.

—S. B. Thomas has resigned his office of Vice-President of the Colonial Trust & Savings Bank of Chicago to engage in private business. He retains his holding of stock in the banking institution and remains on the board of directors. His successor has not yet been appointed.

—The annual convention of the South Carolina Bankers' Association is to be held on June 25, 26 and 27 at the Seashore Hotel, Isle of Palms. The visitors will be entertained by the bankers of Charleston. Giles L. Wilson of Spartanburg is Secretary and Treasurer of the association.

—The Bankers' Trust Company of Memphis, Tenn., which last month absorbed the Security Bank of Memphis, has filed an application for an amendment to its charter, changing its name to the Security Bank & Trust Company.

—It is reported that the Southern Bank & Trust Co. of Natchez, Miss., capital $150,000, will retire from the banking field, having sold its business to the Britton & Koontz Bank of that city.

—Lynn P. Talley has been elected to succeed Beverly D. Harris, resigned, as Cashier of the City National Bank of Dallas, Texas.

—The State Bank & Trust Company of San Antonio, Texas, began business on March 26. The institution was organized on February 18 with an authorized capital of $100,000, which, we are advised, is fully paid. The stock was sold at par, namely, $100 per share. W. T. McCampbell is President; Aug. Briam Jr. and A. J. Bell are the Vice-Presidents, and J. H. Haile is Cashier.

—The Dakota Bank & Trust Company of Aberdeen, So. Dak., has been converted into the Dakota National Bank, capital $50,000. The officers are J. H. Holmes, President; J. W. Clarey and C. J. Hezel, Vice-Presidents, and J. H. Weber, Cashier.

—The capital of the Silver Bow National Bank of Butte, Mont., is to be increased from $100,000 to $200,000. The new stock will be absorbed by the present shareholders of the institution, and its selling price will increase the surplus to $50,000. F. Augustus Heinze lately secured a controlling interest in the institution. Robert Smith has succeeded Fayette Harrington as its Cashier.

—Indictments against President Charles E. Billingsley and Vice-President James C. Robb of the failed Capitol National Bank of Guthrie were dismissed on the 12th inst. by Judge Burford, who held that the indictments were not sustained by the evidence. The institution suspended in April 1904.

—The Union Trust Company of Spokane, Wash., organized more than a year ago, opened March 18 in the building with the Old National Bank. The company has a capital of $200,000 and a surplus of $20,000. It does not operate a banking department, directing its attention to a trust, real estate and abstract business. Its officers are D. W. Twohy, President; W. J. C. Wakefield, Vice-President, and James C. Cunningham, Secretary and Treasurer.

—The stockholders of the Germania National Bank of San Francisco at a meeting on March 19 voted to place the institution in voluntary liquidation. This practically completes the union of the bank with the Central Trust Company announced several months ago.

—The Farmers' Exchange Bank of San Bernardino, Cal., has been reorganized as the Farmers' Exchange National Bank. The capital is $100,000 and the officers are: A. L. Drew, President; John Andreson, Vice-President; John Andreson Jr., Cashier, and Fred. C. Drew, Assistant Cashier.

—The Sovereign Bank of Canada (head office Toronto) announces the following appointments: L. P. Snyder, late Inspector, has been appointed Superintendent of Branches; Robert Cassels, late Manager of the Canadian Bank of Commerce, Yonge Street Branch, Toronto, has become Chief Inspector of the Sovereign Bank, with headquarters in Toronto; and A. H. B. Mackenzie, late of the Canadian Bank of Commerce, Montreal, has been made Inspector, with headquarters in Montreal.

—A first dividend of 1¼% quarterly, for the three months ending April 30, has been declared by the directors of the Sterling Bank of Canada (head office Toronto). It is payable May 15. The bank began business on May 1 1906 and has a paid-in capital of $674,704. A branch of the institution has just been opened in Montreal under the management of W. D. Hart.

—The directors' report of the Chartered Bank of India, Australia and China, submitted to shareholders at the 53d annual meeting, held in London last Wednesday, showed the corporation's net profit to be £350,369 for the year ending Dec. 31 1906, including £86,111 brought forward from the previous year. An interim dividend of 6½ per cent (£52,000) was paid last October, and a further sum of £18,000 has been appropriated to pay a bonus of 10% on the salaries of the staff. Out of the amount now available, £280,369, the directors proposed to pay a final dividend of 6½% and to add £100,000 to the Reserve Fund, which will then stand at £1,075,000. The directors also recommend an addition of £10,000 to the Officers' Superannuation fund, to write off £25,000 from Premises Account, and to carry forward the balance of £93,369.

DEBT STATEMENT MARCH 31 1907.

The following statements of the public debt and Treasury cash holdings of the United States are made up from official figures issued March 31 1907. *For statement of Feb.* 28 1907, *see issue of March* 23 1907, *page* 669; *that of March* 31 1906, *see April* 21 1906, *page* 906.

INTEREST-BEARING DEBT MARCH 31 1907.

Title of Loan—	*Interest Payable.*	*Amount Issued.*	*Amount Outstanding—Registered.*	*Coupon.*	*Total.*

Monetary and Commercial English News

(From our own correspondent.)

London, Saturday, April 6 1907.

On the re-opening of the Stock Exchange on Tuesday morning—it had been closed since the preceding Thursday evening—there was a general inclination to put up prices. But the upward movement did not last long, partly because the intelligence from New York was not considered quite satisfactory, but mainly because of the weakness of both Paris and Berlin. Regarding New York, the best opinion here undoubtedly is that the worst is over, that the liquidation, if not completed, at all events is nearing its end, and that a comparatively quiet time may be expected. Furthermore, the rise in the New York exchange upon London has reassured the money market. It was feared that once the financial year here was over money might become comparatively easy, and that then a very large amount of gold would be taken by New York. As a matter of fact, at the beginning of this week about £900,000 worth of gold was offered in the open market. At first half a million sterling was bought for New York. But since then, in consequence of the rise in exchange, £150,000 of the amount has been sold to the Bank of England. Thus New York not only for the moment is not taking gold out of the Bank, but it is not even retaining all the gold it had bought in the open market. It is hoped, therefore, that the measures taken by Mr. Cortelyou will succeed in maintaining ease in the market, and that gradually the Bank of England will be able to strengthen itself adequately.

The position in Germany is creating somewhat more apprehension. It will be recollected that there was a sharp crisis in Germany at the end of 1900, that the depression

which followed lasted little more than two and a half years, and that since then there has been a very rampant speculation. The fear is entertained that the liquidation in 1900 was not completed, that much bad business has been nursed ever since, and therefore that the state of things in Germany is not as sound as it looks on the surface. In addition to this, it is known that vast quantities of goods were imported previous to the coming into force of the new commercial treaties on the 1st of March 1906. These goods have been carried on borrowed money, and there is doubt entertained whether even yet they have all been sold. Furthermore, business has been so exceedingly active that manufacturers have been increasing their premises and their plants in every direction, and it is said that the new business has not come quite up to their expectations. To cap all, the reports of the banks for the year 1906 show that they have all locked up an uncomfortably large proportion of their capital in securities which for the time being are not salable.

For all these reasons there is a certain amount of apprehension respecting the state of things in Germany. At all events, money in Germany is exceedingly scarce and dear. At the end of March everybody was prepared to find an extraordinary demand for banking accommodation. And the expectation has been quite realized. The Imperial Bank, to prepare itself, had obtained a good deal of gold from the Austro-Hungarian Bank. Yet the return just issued shows that the cash in hand fell during the week considerably over 7 millions sterling, bringing it down to under 39 millions sterling, and as over 9 millions sterling is in silver the real gold held was under 30 millions sterling. On the other hand, the note circulation increased very nearly 19 millions sterling and at the end of the quarter considerably exceeded 86½ millions sterling.

In Paris where the monthly liquidation has been going on during the week, there has been a sharp fall. Speculation there has been running rampant during the past few months, operators being encouraged by the happy ending, in the first place, of the Algeciras Conference; and, in the second place, of the separation of Church and State. Even the action of the Bank of France in raising its rate of interest first and its rate of discount afterwards from 3 to 3½% has not succeeded in stopping the speculation. Consequently the carry-over was found to be difficult this week. There was a sharp fall in all kinds of securities, more particularly in copper securities.

The tendency is for money to become easier. Indeed, early in the week the supplies in the open market in consequence of the large Treasury disbursements at the end of March had been so much augmented that the open market was able to pay off what debts fell due to the Bank, and there was an inclination to put down rates. Subsequently there was a fear that the Bank of England might take measures to protect its reserve and rates somewhat steadied. For the moment, therefore, it is not easy to gauge the market. Yesterday and to-day the Bank of England paid out large amounts, and for a week or two it is probable that money will be very plentiful and very easy. But if the demand for gold for New York should increase or if measures should be taken to obtain gold for the Imperial Bank of Germany, there will be a sharp recovery.

The India Council offered for tender on Wednesday 50 lacs of bills, and the applications exceeded 500 lacs, at prices ranging from 1s. 4 3-32d. to 1s. 4 5-32d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 5-32d. per rupee were allotted about 10% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years.

Messrs. Pixley & Abell write as follows under date of April 4:

GOLD.—Some £900,000 in bars has arrived this week, of which about £550,000 was taken for New York at 77s. 10½d., whilst India took about £190,000. The balance has been bought by the Bank, but yesterday New York re-sold £100,000, and the quotation has now fallen to 77s 9¾d. Since our last the Bank has bought £348,000, of which £189,000 is in bars and £145,000 from Paris. The only withdrawal is £25,000 for South America. £364,000 is due to arrive next week from South Africa. Arrivals—Cape, £790,000; Australia, £231,000; Bombay, £104,000; Vera Cruz, £8,000; West Africa, £12,000; Brazil, £12,000; West Indies, £19,000; total, £1,176,000. Shipments—Singapore, £20,000; Bombay, £79,850; total, £99,850.

SILVER.—The market has again fallen ¾d. during the past week on further sales on China account and by the Indian Bazaars, and spot is now quoted at 30 1-16d The lowest point touched was yesterday, when 30d. was quoted, but a few speculative buying orders and some "bear" covering have to-day caused a reaction of 1-16d. Forward has been quoted from 3-16d. to 5-16d. under cash, and closes at the former difference. The Bombay quotation is now Rs. 76 9-16 per 100 Tolahs. Arrivals—New York, £116,000; West Indies, £3,000; total, £119,000. Shipments—Colombo, £2,698; Bombay, £133,450; total, £136,148.

MEXICAN DOLLARS.—There is nothing to report in them. Arrivals—New York, £15,000. Shipments—Bombay, £46,500.

The quotations for bullion are reported as follows:

Commercial and Miscellaneous News

FAILURES FOR FIRST QUARTER OF 1907.—The following figures, prepared from Messrs. R. G. Dun & Co.'s statement, show the number of failures in the United States and Canada during the quarter ending March 31 1907. For purposes of comparison like figures for the corresponding periods of the preceding year are given:

States and Territories—	—Quarter ending— March 31 1907. No. of Failures.	Amount of Liabilities.	—Quarter ending— March 31 1906. No. of Failures.	Amount of Liabilities.
New England States	321	$2,941,883	373	$3,386,782
Middle States	757	12,192,812	655	8,410,065
Southern States	687	6,421,536	597	7,081,660
Southwestern States	286	2,489,137	305	2,537,067
Central Western States	509	4,172,708	549	8,159,450
Far Western States	339	1,815,637	342	2,466,174
Pacific States	237	2,041,878	281	1,719,909
Aggregate United States	3,136	$32,075,591	3,102	$33,761,107
Dominion of Canada	311	$2,915,645	387	$2 919,720
Banking failures in U. S. (not included in above)	12	$6,985,219	13	$1,260,094

STOCK OF MONEY IN THE COUNTRY.—The following table shows the general stock of money in the country, as well as the holdings by the Treasury, and the amount in circulation, on the dates given. *The statement for April 1 1906 will be found in our issue of April 7 1906, page 785.*

BANK NOTES—CHANGES IN TOTALS OF, AND IN DEPOSITED BONDS, &c.—We give below tables which show all the monthly changes in bank notes and in bonds and legal tenders on deposit. *The statement for March 1906 will be found in our issue of April. 14 1906, page 848.*

1906-07.	Bonds and Legal-Tenders on Deposit for Bank Circulation. Bonds.	Legal-Tenders.	Circulation Afloat Under Bonds.	Legal-Tenders.	Total.
	$	$	$	$	$
Mch. 30	550,137,900	49,579,000	547,633,063	49,579,000	597,212,063
Feb. 28	552,955,950	46,605,649	549,737,373	46,605,649	596,343,022
Jan. 31	553,253,550	46,498,995	549,698,547	46,498,995	596,197,542
Dec. 31	551,263,840	46,882,385	549,280,084	46,882,385	596,162,469
Nov. 30	549,750,830	46,399,102	546,981,447	46,399,102	593,380,549
Oct. 31	539,653,180	46,238,816	536,933,169	46,238,816	583,171,985
Sept. 29	530,772,270	46,134,184	527,768,924	46,134,184	573,903,108
Aug. 31	526,944,030	45,413,143	524,439,160	45,413,143	569 852,303
July 31	520,388,610	44,907,646	516,573,399	44,907,646	561,481,045
June 30	520,605,210	43,264,611	517,847,749	43,264,611	561,112,360
May 31	519,265,530	43,093,514	516,036,146	43,093,514	559,129,660
April 30	516,387,410	42,222,763	514,423,519	42,222,763	556,646,282

For full explanation of the above table see the issue of Dec. 14 1901, page 1232, the first item in Financial Situation. The following shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositories on March 30.

Bonds on Deposit March 30 1907.	U. S. Bonds Held March 30 1907 to Secure Bank Circulation.	Public Deposits in Banks.	Total Held.
2 per cents, Panama Canal	$16,828,080	$12,838,000	$29,666,080
4 per cents, Funded 1907	27,471,750	9,644,200	37,115,950
4 per cents, 1895, due 1925	7,546,900	5,403,750	12,950,650
3 per cents, 1908-1918	4,460,220	6,577,500	11,037,720
2 per cents, Consols 1930	493,830,950	56,523,100	550,354,050
3.65 per cents, Dist. of Colum., 1924	----------	1,003,000	1,003,000
State, City and Railroad bonds	----------	72,883,310	72,883,310
Hawaiian Islands bonds	----------	1,711,000	1,711,000
Philippine loan	----------	9,741,000	9,741,000
Total on deposit March 30 1907	$550,137,900	$176,324,860	$726,462,760

The foregoing does not include the bonds held in the New York Sub-Treasury against deposits in banks.

The following shows the amount of national bank notes afloat and the amount of the legal-tender deposits Mar. 1 and Apr. 1, and their increase or decrease during the month of March.

National Bank Notes—Total Afloat—		
Amount afloat March 1 1907		$596,343,022
Amount issued during March	$7,731,254	
Amount retired during March	6,862,213	$869,041
Amount of bank notes afloat April 1 1907		$597,212,063
Legal-Tender Notes—		
Amount on deposit to redeem national bank notes March 1 1907		$46,605,649
Amount deposited during March	$5,311,430	
Amount of bank notes redeemed in March	2,338,079	2,973,351
Amount on deposit to redeem national bank notes April 1 1907		$49,579,000

The portion of legal-tenders deposited (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

Legal Tenders.	Dec. 1.	Jan. 1.	Feb. 1.	March 1.	April 1.
	$	$	$	$	$
Deposits by—					
Insolvent banks	1,323,811	1,283,376	1,236,276	1,172,621	1,119,171
Liquidating banks	16,059,871	15,671,376	15,547,136	15,185,670	15,681,220
Reducing under Act of 1874*	29,015,420	29,927,633	29,715,583	30,247,358	32,778,609
Total	46,399,102	46,882,385	46,498,995	46,605,649	49,579,000

* Act of June 20 1874 and July 12 1882.

FOREIGN TRADE OF NEW YORK—MONTHLY STATEMENT.—In addition to the other tables given in this department, made up from weekly returns, we give the following figures for the full months, also issued by our New York Custom House. The first statement covers the total imports and exports of merchandise and the Customs receipts for the nine months of the last two seasons:

Month.	Merchandise Movement to New York. Imports. 1906-07.	Imports. 1905-06.	Exports. 1906-07.	Exports. 1905-06.	Customs Receipts at New York. 1906-07.	1905-06.
	$	$	$	$	$	$
July	62,679,926	51,186,894	44,601,647	40,183,484	17,955,839	14,538,886
August	62,182,906	54,208,572	56,153,299	48,845,396	19,081,828	17,507,283
September	58,644,148	58,143,285	49,638,991	45,900,930	17,161,861	17,030,037
October	69,513,980	68,407,750	55,658,846	49,281,991	18,946,438	17,869,567
November	70,307,143	58,785,883	52,503,128	50,593,921	17,792,149	15,883,365
December	83,875,573	62,084,602	50,934,135	59,600,112	19,608,553	16,255,884
January	75,330,156	65,414,702	54,687,930	57,601,992	19,070,981	18,703,721
February	73,357,409	63,034,102	51,324,211	48,721,595	18,096,641	16,322,548
March	82,162,921	67,654,570	55,793,585	53,287,717	18,595,668	18,038,705
Totals	638,354,153	548,920,360	471,195,772	454,017,168	167,209,958	152,149,996

The imports and exports of gold and silver for the nine months have been as follows:

Month.	Gold Movement at New York. Imports. 1906-07.	Imports. 1905-06.	Exports. 1906-07.	Exports. 1905-06.	Silver—New York. Imports. 1906-07.	Exports. 1906-07

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending April 13. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks (000s omitted).	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Reserve.
	$	$	$	$	$	$	%

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on April 13 to $4,026,000; on April 6 to $3,783,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending April 13; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods	$3,154,629	$2,934,156	$2,748,087	$2,279,412
General Merchandise	13,475,231	12,692,497	11,820,020	8,554,248
Total	$16,629,860	$15,626,653	$14,568,107	$10,833,660
Since January 1.				
Dry Goods	$60,807,054	$53,605,069	$46,592,228	$40,338,838
General Merchandise	207,053,830	172,693,340	179,634,742	145,287,527
Total 15 weeks	$267,860,884	$226,298,409	$226,226,970	$185,626,365

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending April 13 and from Jan. 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week	$14,897,719	$12,152,985	$10,189,404	$8,128,543
Previously reported	175,199,464	174,918,622	146,715,044	137,551,843
Total 15 weeks	$190,097,183	$187,071,607	$156,904,448	$145,680,386

The following table shows the exports and imports of specie at the port of New York for the week ending April 13 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1	Week.	Since Jan. 1
Great Britain	-----	-----	$316,323	$2,457,949
France	-----	-----	-----	331,087
Germany	-----	-----	-----	1,155,297
West Indies	-----	$354,000	8,375	113,179

Wall Street, Friday Night, April 19 1907.

The Money Market and Financial Situation.—The volume of business at the Stock Exchange has been further reduced. Owing to this fact and the almost entire absence of outside interest in the market, the relatively narrow movement of prices has small significance and attracts little attention. The limited amount of business transacted suggests a mid-summer period of dulness and has rarely been equaled at this season of the year.

Among the influences which may have had a tendency to restrict operations in Wall Street have been railway traffic reports, some of which, notably that of Baltimore & Ohio, has been sufficiently unfavorable to arouse comment and call for an explanation. Also there have been rumors, more or less vague of course, about damage to the winter-wheat crop in the Southwest.

Aside from these the chief topic of interest has been the money market. The latter has changed in character very little during the week and lack of available funds is no longer regarded as a hindrance to progress or development in any direction.

In view of these facts it seems that causes for the lack of interest in the security markets which now prevails must be sought elsewhere than in the financial situation.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1¾ to 3%. To-day's rates on call were 2@3%. Prime commercial paper quoted at 5¾@6% for endorsements and 5¾@6% for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £438,252, and the percentage of reserve to liabilities was 44.65, against 43.55 last week.

This discount rate remains as fixed April 11 at 4½%. The Bank of France shows a decrease of 500,000 francs in gold and an increase of 3,350,000 francs in silver.

The New York City Clearing-House banks, in their statement of April 13, showed an increase in the reserve held of $7,648,900 and a surplus over the required reserve of $15,852,925, against $19,441,225 the previous week.

	1907. April 13.	Differences from previous week.	1906. April 14.	1905. April 15.
	$	$	$	$
Capital	128,100,000	----------	116,472,700	115,972,700
Surplus	159,990,500	----------	148,305,000	137,656,500
Loans and discounts	1,099,657,100	Inc. 36,968,300	1,009,275,200	1,099,611,100
Circulation	50,238,600	Dec. 160,200	51,452,300	44,407,900
Net deposits	a1,081,661,900	Inc. 44,948,800	981,861,600	1,139,702,000
Specie	212,966,300	Inc. 6,008,300	172,704,700	210,954,800
Legal tenders	73,302,100	Inc. 1,640,600	77,533,200	83,323,100
Reserve held	286,268,400	Inc. 7,648,900	250,237,900	294,277,900
25% of deposits	270,415,475	Inc. 11,237,200	245,465,400	284,925,500
Surplus reserve	15,852,925	Dec. 3,588,300	4,772,500	9,352,400

a $31,356,600 United States deposits included, against $30,389,700 last week and $12,280,700 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $23,692,075 on April 13 and $27,038,650 on April 6.

Note.—Returns of separate banks appear on the preceding page

Foreign Exchange.—The market was quiet this week, though generally firm, with narrow fluctuations until Friday, and there was no important feature. The tone was strong at the close.

To-day's (Friday's) nominal rates for sterling exchange were 4 83½ for sixty day and 4 86½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8285@4 83 for long, 4 8570@4 8575 for short and 4 8615@4 8625 for cables. Commercial on banks 4 8240@4 8250, and documents for payment 4 81¾@4 82⅜. Cotton for payment 4 81¾@4 82; cotton for acceptance 4 8240@4 8250, and grain for payment 4 82⅛@4 82⅜.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 21¼*a*@5 21¼ for long and 5 18¾*a*@5 18¾*d* for short. Germany bankers' marks were 94⅜@94 7-16 for long and 94⅞@94⅞*x* for short. Amsterdam bankers' guilders were 40 17@40 19 for short.

Exchange at Paris on London to-day 25f. 21½c. Week's range 20f. 22½c. high and 25f. 21c. low.

The week's range for exchange rates follows:

	Long	Short	Cables
Sterling Actual—			
High	4 8285 @ 4 83	4 8570 @ 4 8575	4 8615 @ 4 8625
Low	4 8240 @ 4 8250	4 8540 @ 4 8545	4 8580 @ 4 8585
Paris Bankers' Francs—			
High	5 21¼*a* @ 5 21¼	5 18¾*a* @ 5 18¾*d*	----------
Low	5 22½ @ 5 21⅞	5 19⅜*d* @ 5 19⅜	----------
Germany Bankers' Marks—			
High	94⅜ @ 947-16	94⅞ @ 94 15-16	----------
Low	93⅞ @ 94	94 13-16 @ 94⅞	----------
Amsterdam Bankers' Guilders—			
High	----------	40 17 @ 40 19	----------
Low	----------	40⅛ @ 40 3-16	----------

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the under-mentioned cities to-day: Savannah buying 50c. per $1,000 discount; selling 75c. per $1,000 premium. Charleston selling $1 per $1,000 premium. New Orleans bank 40c. per $1,000 discount; commercial 70c. per $1,000 discount. Chicago 25c. per $1,000 discount. St. Louis 25c. per $1,000 premium. San Francisco 20c. per $1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to $2,000 Virginia 6s deferred trust receipts at 23.

The most prominent characteristic of the market for railway and industrial bonds has been the exceptionally small aggregate of transactions. The total on Tuesday was barely $1,000,000, par value, and on the most active day did not exceed $1,500,000. In most cases changes in quotations are too slight to merit comment.

Almost the only exceptional features are Colorado Industrial 5s, which, on limited transactions, have advanced over a point, and Brooklyn Rapid Transit 4s and Inter.-Metro. 4½s, which are lower. United States Steel 5s have been among the most active issues and among those without net change.

United States Bonds.—Sales of Government bonds at the Board include $10,000 4s coup., 1925, at 130⅝ and $3,000 3s, coup., 1908-18, at 103¾. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—The stock market has been dull and irregular. The downward movement which was in progress at the close last week continued until Monday, and many prominent issues added from 3 to 6 points to the decline then noted. Since Monday there has been some recovery, but closing prices are generally an average of about 2 points lower than last week.

Among the exceptional features are Canadian Pacific and North-West, which have covered a range of 5 and 4 points respectively. The latter is the only railway issue that closes with a net gain. Delaware & Hudson, on the other hand, has lost 4½ points of its recent advance. Reading and Union Pacific have been leaders of the market, both in the matter of activity and wide fluctuation.

Industrial issues have attracted no unusual attention. The copper stocks have been decidedly irregular. Smelting & Refining has covered a range of 9 points. Anaconda, Steel preferred and New York Air Brake close with fractional net gains.

For daily volume of business see page 922.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

STOCKS. Week ending April 19.	Sales for Week.	Range for week. Lowest.		Highest.		Range Since Jan. 1. Lowest.		Highest

Outside Market.—Beyond a fair amount of activity in a few of the copper shares, business in the "curb" market has been almost at a standstill. Price changes, with few exceptions, have been insignificant and accompanied by more or less irregularity. An unfavorable verdict in Chicago against the Standard Oil Co., making that company liable to heavy fines, was responsible for a drop in the price of the stock from 550 to 518, the final sale to-day being at 519. American Writing Paper was favorably affected by a decision upholding the action of the directors in declaring a dividend on the preferred stock, the price advancing from 20½ to 25½. It subsequently re-acted to 23. American Tobacco lost 15 points to 310 but subsequently advanced to 320. Havana Tobacco common opened the week at 13, declined to 11⅞ and recovered to 12. International Mercantile Marine preferred sold down from 23½ to 22. Waterbury Company common sank from 45½ to 43, advanced to 46, and then dropped to 44½. Business in the mining department was dull, even the copper stocks sharing in the general apathy. Boston Consolidated Copper, after fluctuating between 24½ and 25½, jumped to 27⅝ on Thursday, easing off to-day to 27. Butte Coalition from 25½ moved down to 24¾ and up again to 26, receding to-day to 25½. Davis-Daly Estates dropped a point to 12½ but advanced sharply on Thursday to 14⅞ and to-day to 16. Douglas Copper, after an early advance from 11½ to 11⅞, sank to 10, subsequently reacting to 10⅜. Greene Consolidated Copper opened the week at 23½, moved up to 25 and back to 23½, recovering finally to 24. United Copper common sold down from 62⅝ to 60, but advanced to-day to 62.

Outside quotations will be found on page 922.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings.			July 1 to Latest Date	
	Week or Month.	Current Year.	Previous Year.	Current Year.	Previous Year.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get a return of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say, about the 20th of the month.

	—Gross Earnings— Current Year.	Previous Year.	—Net Earnings— Current Year.	Previous Year.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

d The company now includes earnings of the Denver Enid & Gulf RR., Pecos Valley system and Santa Fe Prescott & Phoenix Ry. in both years. For February taxes and rentals amounted to $189,354, against $199,259 in 1906, after deducting which, net for February 1907 was $2,197,145, against $2,484,295 last year. From July 1 to Feb 28 1907 taxes and rentals were $1,664,079, against $1,614,134 last year.

h For February 1907 additional income was $6,006, against $5,903 in 1906, and from July 1 to Feb. 28 was $35,779 in 1907, against $38,500 in '06.

k For February 1907 additional income was $9,767, against $7,266 in 1906, and from July 1 to Feb. 28 was $164,229 in 1907, against $121,091 in 1906.

o Including other income, total income (exclusive of results of coal companies) for February is $496,407 in 1907, against $548,093 in 1906, and for period from July 1 to February 28 is $9,640,641 in 1907, against $8,986,181 in 1906. Deductions from total income for additions and improvements were $93,168 in February 1907, against $23,218 in 1906, and for July 1 to February 28 were $1,355,904 in 1907, against $904,186 last year.

n These figures represent 30 % of gross earnings.

p For Feb. 1907 additional income was $3,244, against $551; and from July 1 to Feb. 28 was $25,026 in 1907, against $15,256 last year.

s Includes $426 other income for Feb. 1907, against $430 in 1906, and $3,662 from July 1 to Feb. 28 1907, against $3,656 last year.

y For January additional income and net profits from coal, &c., were $97,755 this year, against $103,054 last year, and from July 1 to January 31 were $381,458 this year, against $476,475 last year.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges:

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. b Figures are from Feb. 1. c These figures are for consolidated company. d These are results for main line. f Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. h These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept. 5 1906.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of March 30 1907. The next will appear in the issue of April 27 1907.

ANNUAL REPORTS.

Annual Reports.—The following is an index to all annual reports of steam railroads, street railways and miscellaneous companies which were published in last week's "Chronicle." The other reports cited since the last editions of the "Railway and Industrial" and "Street Railway" sections were shown in the index last week.

Railroads—	Page.
Chicago Indiana & Southern	865
Long Island	865
Michigan Central	864, 874
N. Y. Central & Hudson Riv.	864, 872
Industrials—	
American Grass Twine	867
Ingersoll-Rand	867
Industrials—(Concluded.)	
Philadelphia Electric	871
Rubber Goods Manufacturing	866
Union Bag & Paper	866
Street Railways—	
New Orleans Railway & Light	868
United Rys. & Elec. Co. of Balt	869

New York Central & Hudson River Railroad.

(*Combined Results of Allied Lines for Calendar Years* 1904 *to* 1906.)

The following statement has been compiled showing the combined results of the allied lines for the calendar years 1903 to 1906, both inclusive. See also statistics of operations in editorial remarks on a preceding page.

COMPANIES INCLUDED.

N. Y. Central & Hudson River RR.
Dunkirk Allegheny Val. & Pitts. RR.
Lake Shore & Michigan Southern Ry.
Lake Erie Alliance & Wheeling RR.
Michigan Central RR.
Lake Erie & Western RR.
Chicago Indiana & Southern RR.
Indiana Harbor RR.
Cleve. Cin. Chic. & St. Louis Ry.
Peoria & Eastern Ry.
Cincinnati Northern RR.
New York Chicago & St. Louis RR.
Pittsburgh & Lake Erie RR.
Rutland RR.

New York Chicago & St. Louis RR.

(Report for Fiscal Year ending Dec. 31 1906.)

President W. H. Canniff says in substance:

Debentures Authorized but None Issued.—A resolution was adopted Feb. 15 1906 providing for an issue of $10,000,000 25 year 4% gold debenture bonds for the general purposes of the company. None of these bonds was issued during the year.

General Results.—The gross earnings increased $793,179, or 8.71%, over the previous year. The freight earnings show an increase of $815,292, or 10.82%; and the passenger earnings a decrease of $49,614, or 3.45%. The expenses of operation increased $463,798 and the net earnings $234,132, compared with last year. The profit from operation for the year, after payment of 5% dividend upon the first preferred stock and 4% dividend upon the second preferred stock, was $397,702. From this sum there was authorized a deduction of $350,000 as a special fund for new equipment and betterments.

Improvements and Additions.—There was charged to expenses for additions to equipment and improvements to roadway and structures during the year, $632,889.

The special improvement funds on Dec. 31 1905 amounted to $867,676, to which there was added during the year 1906 $1,245,000; total, $2,112,676. The expenditures therefrom during the year aggregated $858,808 viz.: bridge renewals, $346,854; ballast, $66,723; new tracks, $24,154; new equipment, $411,557; separation street crossing grades, $9,520; balance available, $1,253,868.

The additions to property charged to cost of road and equipment aggregate $847,524, as follows: Improvements in yard tracks and sidings, $91,704; second track, $239,761; additional shop facilities, $56,460; land at Cleveland for additional yard facilities, $70,374; new equipment, 500 gondola cars, $350,776; and appliances for additional new cars under construction, $25,871; expenses in connection with new bond issue, $12,579.

Lake Erie & Western RR.

(Report for Fiscal Year ending Dec. 31 1906.)

President W. H. Newman says in substance:

The gross earnings were $5,212,812, an increase of $175,517 over last year. The freight earnings were $4,006,831, an increase of $204,397, due to an increased movement of low class commodities. The passenger earnings were $931,312, a decrease of $55,913, due to decrease in number of passengers on account of increased competition of electric lines and to the two cent rate law in the State of Ohio. The express earnings were $98,363, an increase of $4,603. The expenses of operation were $3,773,230, an increase of $178,077.

Maintenance of way and structures showed a decrease of $13,971, due to reduced expenditures for general repairs to roadway and track. Maintenance of equipment showed a net decrease of $60,515, principally due to decrease of $187,825 in renewals of locomotives, $12,801 in repairs of passenger cars, $15,547 in repairs of freight cars and an increase of $135,887 in renewals of freight cars. Conducting transportation increased $243,3.6; the locomotive fuel expense increased $137,018, due to increase in quantity used and in the average cost per ton; the balance of increase was distributed through the various accounts affected by the larger volume of business.

The net earnings were $1,352,489, a decrease of $19,514; other income was $11,736, an increase of $3,126; fixed charges, $1,001,1.7, decreased $5,641. The profit from operation for the year, after payment of 3% dividends upon the preferred stock, was $7,868.

There was expended and charged to income for the year for improvements to roadway and structures, largely in connection with renewal and strengthening of bridges, and in addition to the ordinary maintenance expenses, the sum of $87,092. There was charged to cost of road for additions to the property, including second main track between Lafayette and Ralls, Ind., and for reconstruction of bridge over the Wabash River at Lafayette, Ind., the sum of $178,117, and to cost of equipment for new cars and engines, in addition to renewal requirements, the sum of $221,216, making a total charge to cost of road and equipment of $402,333. There was charged to profit and loss on account of new equipment $210,271, and for adjustment of taxes and reduction in value of assets, $131,148. The capital stock and funded debt remain unchanged.

During the year 7 miles of main track were renewed with 7[illegible] lb. steel rail; 6.70 miles of main track were ballasted and surfaced with gravel; [illegible] miles of new sidings were built, 3.60 miles of sidings were removed and 328.07 cross ties and 282 sets of switch ties were laid.

Pennsylvania Company.

(*Report for Fiscal Year ending Dec.* 31 1906.)

This company, whose entire outstanding share capital is owned by the Pennsylvania *Railroad* Company, operates, under lease or otherwise, all the system of the Pennsylvania *Railroad* west of Pittsburgh.

President James McCrea, Pittsburgh, March 13 1907, writes in substance:

Mileage.—The following shows the mileage of the lines in your system operated either directly by your company or through their own organizations (Compare map on page 118 of "Railway & Industrial Section." —Ed.)

Directly by Pennsylvania Co	1,339.21	By Gr. Rap. & Ind. Ry. Co.	571.83
By Pittsburgh Cincinnati Chicago & St. Louis Ry. Co.	1,371.98	By auxiliary companies under their own organizations	796.17
By Vandalia Railroad Co.	801.44	Under trackage rights	167.92

Total mileage operated (an increase of 7.2 miles) 5,048.55

General Results.—The income account of the company shows the largest gross and net earnings in its history, the net earnings, after deducting rental of the roads operated on the basis of net earnings, being $10,188,877, an increase of $1,237,824 over the previous year. The income from investments, of which a detailed statement is attached to the report, and from general interest and rents,was $9,247,081, an increase of $1,854,674, making the total income $19,435,958, an increase of $3,092,499 over 1905. After deducting all fixed charges, interest and other liabilities, there was a net income of $8,933,888, or $2,611,467 in excess of the net income of 1905. From this net income there were paid contributions to sinking funds aggregating $343,481, the sum of $1,334,000 to pay gold loan certificates of 1901 drawn for redemption Nov. 1 1906, $267,990 on account of principal of car trusts, and a dividend of 6 % upon the capital stock, leaving a balance of $3,388,417. From this last amount there was transferred to the fund for extraordinary expenditures the sum of $2,500,000, to provide for additions and improvements not properly chargeable to capital account, and the balance, $888,417, was transferred to the credit of profit and loss account.

The large volume of traffic was handled promptly and without congestion at any point, thus fully justifying the policy you have pursued of greatly increasing your facilities of all kinds in the last three years. The only failure in the furnishing of facilities was in the matter of car supply, and this was due to the fact that, under existing conditions, it was impracticable to enforce the prompt return of our cars by other roads.

The tonnage of the lines directly operated by your company was 81,739,043 tons, an increase of 10,892,701 tons, or 15.38 %; and the aggregate tonnage moved upon your entire system was 142,370,099 tons, an increase over 1905 of 17,184,429 tons, or 13.73 %. The aggregate tonnage mileage was 11,559,983,492, as compared with 10,115,689,192 in 1905, an increase of 1,444,294,300 ton miles, or 14.28 %. The number of passengers carried on all lines was 30,413,560, an increase of 2,153,125 passengers, or 7.62 %. The aggregate passenger mileage was 909,147,561, an increase of 85,785,678 passenger miles, or 10.42 %. The average rate received per ton mile on all lines was 6.4 mills, the same as in 1905; there was a decrease in the cost of movement of 1-10 of a mill, so that the net earnings were 1.8 mills, as compared with 1.7 mills in 1905. There was an increase of 2-10 of a mill in the average rate received per passenger per mile, while the cost was the same as in 1905, the loss per passenger mile being 1.8 mills, a decrease of 2-10 of a mill as compared with 1905.

The increases in expenses, while large, were not disproportionate to the earnings, the increases on account of conducting transportation being due to the increased traffic, and of maintenance of way and maintenance of equipment to outlays necessary to maintain the track and equipment in a condition to meet the requirements of the traffic. In the case of freight car repairs, the high cost is incident to the transition period during which the old wooden cars are being replaced by heavier steel cars.

Improvements.—The work on the track elevation on the Pittsburgh Fort Wayne & Chicago Ry. in Chicago involved heavy expenditures, as did the re-arrangement of the main and yard tracks following the abolition of the grade crossings in the city of Allegheny. The elevation of the tracks of the Cleveland & Pittsburgh RR. in Cleveland from the eastern city limits to Jones Ave. was nearly completed, and large expenditures were made on the Pittsburgh Youngstown & Ashtabula Ry. for increased dock facilities at Ashtabula Harbor and for additional tracks to meet the demands of the increasing traffic in coal, ores and manufactured products.

In order to facilitate the interchange of coal in car loads, and other commodities, between your system and the Canadian Pacific Ry., a car ferry was established to operate between the port of Ashtabula Harbor, on the American side, and Port Burwell, on the Canadian side of Lake Erie, and a large steel steam ferry boat with a capacity of thirty standard cars, and in which your company has a one-third interest, was put into service early in the summer and was successfully operated.

On the Southwest system, aside from the construction of sections of third and fourth tracks at points on the Pittsburgh division, the expenditures were largely for extension of the second track between Columbus and Bradford and between Logansport and Chicago. There are now two tracks in service between Logansport and Chicago and the greater portion of the road between Columbus and Bradford will be double-tracked by the close of 1907. It will be necessary to continue this work until the double-tracking of the line between Columbus and Chicago shall have been completed. There was a large increase in the locomotive and freight car equipment on both systems.

New Securities.—In order to furnish this company with the capital necessary to meet the demands made upon it by its leased, operated and controlled lines, for additional tracks, equipment, yards and other terminal facilities required to properly handle the greatly increased traffic, an issue was made on April 21 1906 of $20,000,000 of its 4 % collateral trust certificates running for 25 years, with the right of redemption at any time after 15 years. These certificates were sold on advantageous terms and the greater part of the proceeds is still available. (V. 82, p. 281, 335; V. 83, p. 1229.)

The Pennsylvania RR. Co., having expended large sums upon its low-grade freight and relief lines, upon terminal yards and branches, in the completion of its four-track system, and for other facilities required, to a great extent, to accommodate the business passing between the lines controlled and operated by your company and the lines east of Pittsburgh, through which expenditure your company will be greatly benefited, and having also contracted for a very large number of freight cars for use on the lines of your company as well as on the Pennsylvania system east of Pittsburgh, it was deemed proper for your company to utilize the powers given it under its charter to obtain the necessary funds for these and similar purposes, and the following obligations were issued by your company:

(1) On May 1 1906, $50,000,000 of its 4 ½% 18 months collateral notes guaranteed by the Pennsylvania RR. Co. (V. 82, p. 1157; V. 83, p. 156, 214).

(2) Under date of June 15 1906 there was issued through the Girard Trust Co. of Philadelphia, trustee, 250,000,000 francs, or about $48,000,000, of its 3 ¾% trust obligations, these obligations running for 15 years, but subject to redemption at par and interest on June 15 1918 or at any interest period thereafter, and also guaranteed by the Pennsylvania RR. Co. (V. 82, p. 1439.)

The proceeds of these notes and certificates were turned over to the Pennsylvania RR. Co. in exchange for car trust and water certificates and other securities of an amount substantially equal to the obligations incurred. These securities mature at such dates as will furnish this company for a number of years with a large part of the funds required for capital expenditures on its leased and controlled lines. [See list below of securities owned.—Ed.]

Constituent Properties.—The operations of the Vandalia RR. Co. and the Grand Rapids & Indiana Ry. appear in their annual reports (shortly to be cited in the "Chronicle."— Ed.), and the report of the Pittsburgh Cincinnati Chicago & St. Louis Ry. Co. (In V. 84, p. 800, 812) gives full details.

New Lease.—The Pittsburgh Youngstown & Ashtabula RR. Co. and the New Castle & Beaver Valley RR. Co., having been consolidated into the Pittsburgh Youngstown & Ashtabula Ry., a new agreement of lease was entered into, effective Jan. 1 1906, between this company and the new company, by which the railway of the latter was leased to this company under practically the same provisions as contained in the lease of the Pittsburgh Youngstown & Ashtabula RR. Co. dated Dec. 12 1887.

Wages.—A general advance of 10 %, taking effect Dec. 1 1906, was made in the salaries and wages of employees permanently in the service and receiving less than $200 per month. This advance was made in consideration of the increased cost of living and will necessarily add materially to the cost of operation during the current year.

New Orleans Railway & Light Co.

(Report for Fiscal Year ending Dec. 31 1906.)

President E. C. Foster, New Orleans, April 8 1907, says:

Earnings.—The gross earnings of all properties for the year 1906 were $5,773,190, an increase of $679,480, or 13.3%. With an increase of 13% in passengers paying fare, the average fare paid on the railway was .045 cents per passenger. Our statistics show that 9.8% of passengers paying fare took advantage of transfers.

The total operating expenses increased $402,555, or 15%. This increase is due largely to an increase of 5% to employees and to the increased volume of business and also to the increased cost of materials and equipment over the preceding year. The surplus for the year, after paying $500,000 in dividends to the preferred stockholders, is $298,274.

Improvements.—During the year we have expended for construction, betterments and improvements $2,497,823, the larger portion of this amount having been expended on power stations, sub-stations, purchase of real estate for power purposes, transformers, motors, cars, equipment, &c.

The extension of the Claiborne Av. line to Poland St. was built and operated, and the extension of the Levee and Barracks line is being completed and will soon be in operation.

During the year 1906 $18,942 was expended for underground construction in the electric light and power department; also $52,113 for new overhead feed lines, &c. In the gas department we expended $78,842 for new mains and new services in this city, including Algiers, to develop new territory and re-enforce existing mains. We erected in Algiers a complete gas plant with a daily generating capacity of 125,000 cubic feet.

The expenditures for maintenance averaged for the year: Track, roadway and paving, $957 95 per mile; electric line, $261 10 per mile; electric cars, $207 36 per car; electric equipment of cars, $164 14 per car.

Metropolitan West Side Elevated Ry., Chicago.

(Report for 10 Months of the Fiscal Year ending Dec. 31 1906.)

President H. G. Hetzler says in substance:

Your directors submit the following report for the ten months, March 1 to Dec. 31, inclusive, of the fiscal year ending Dec. 31 1906 (the fiscal year having been changed to end Dec. 31 in place of Feb. 28, as formerly).

Passenger Traffic—Increase Compared with 10 Months of 1905.

	Total Passengers.	*Daily Average.*	*P.C. Inc.*		*Total Passengers.*	*Daily Average.*	*P.C. Inc.*
March	4,283,240	138,169	10.66	Aug	3,828,880	123,512	6.11
April	4,124,304	137,477	9.98	Sept	3,809,241	126,975	2.05
May	4,238,778	136,735	9.24	Oct	4,422,792	142,671	8.09
June	4,019,222	133,974	7.55	Nov	4,571,127	152,471	15.26
July	3,824,479	123,370	8.62	Dec	4,829,175	155,790	14.72
Ten months 1906					41,954,541	137106	9.34
Ten months 1905					38,369,182	125,390	

New Equipment.—Owing to the greatly increased traffic of the past year, 50 new motor cars vestibule type, were purchased and put into service during November and December, with the result that the operation has been satisfactory to both patrons and company. Twenty motor cars of the same type have been ordered for delivery during the months of October and November 1907.

Improvements.—Rotary converters were installed and ready for use at the Robey St. and 46th Av. sub-stations during October. Since that time power has been purchased from the Commonwealth Electric Co., making it possible to handle the heavy loads of the rush hours in an efficient manner, and at the same time relieving the power-house during the night and allowing necessary repairs to be made without interfering with the service. Arc lights have been installed at the intersection of our structure with public streets, in accordance with the city requirements.

A sidetrack connection has been built between the tracks of the Aurora Elgin & Chicago RR. and the Chicago Terminal Transfer RR. west of 52d Av., enabling your company to effect a saving in the handling of material in car load lots. A loop has been installed at Desplaines Av., and the handling of trains at that point greatly facilitated. Fifth Avenue trains on the Garfield Park branch are now running through to Desplaines Av. during the morning and evening rush hours, and an all night schedule is maintained on this part of the system. On account of the elevation of the C. B. & Q., C. & N.-W. and C. T. T. railways at 16th St. on the Douglas Park branch, the tracks of your company have been raised approximately 14 feet without interruption to the service.

The extension of the Douglas Park branch to the Western Electric Co. at 46th Av. has been practically completed and will be ready for operation about May 1 1907. The elevated storage yard at 46th Av., Garfield Park branch, has been abandoned, and a new yard of greater capacity has been built on the surface at 52d Av.

Dividends.—The increased earnings and satisfactory physical condition, together with a healthy growth in the volume of business, warranted your directors at their January meeting in placing your preferred capital stock on a 3% dividend basis.

The fiscal year has been changed to end Dec. 31 and the results for the 10 months ending Dec. 31 1906 and 1905 are given as below. The report also furnishes the figures for the twelve months ending Feb. 28 1907, which are incorporated in the second table following.

Earnings for Ten Months ending Dec. 31.

—V. 84, p. 804, 570.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Anderson (S. C.) Traction Co.—*Change in Control.*—"The Manufacturers' Record" of April 11 has the following:

We are informed that E. W. Robertson and William Elliott Jr., who are at the head of the Columbia (S. C.) Electric Street Railway, Light & Power Company, are now also in control of the Anderson Traction Co. of Anderson, S. C., Mr. Robertson having been elected President and Treasurer and Mr. Elliott Vice-President and General Manager of the Anderson Company. Anderson has 8 miles of railroad, and the company will shortly have in full operation a 10 mile extension to Belton.—V. 83, p. 93.

Anthracite Coal Roads.—*Proposed Tax on Anthracite Coal.*—The Pennsylvania House of Representatives on April 11 by a vote of 138 to 25 passed the Howard bill taxing anthracite coal 3 cents a ton. This measure, if passed by the Senate it is estimated, will yield a revenue of $2,100,000.—V. 82, p. 1267.

Atlantic & Lake Superior Ry.—*New Financial Plan.*—Under date of March 21 1907 a scheme of arrangement has been filed in the Exchequer Court of Canada providing for the reorganization of this company and its ally the Baie des Chaleurs Ry., on substantially the following terms:

Such of the £500,000 4% first mortgage sterling bonds issued by the company under indenture dated Dec. 31 1891 and such of the £409,400 first mortgage 5% bonds issued by the Baie des Chaleurs Railway Co. under mortgage of Jan. 2 1893 as shall be deposited with the Royal Trust Co. of Montreal, shall be certified by the company and the trust company with a declaration making the said bonds henceforth the sole bonded indebtedness of the issuing company and alone entitled to the security of the respective indentures. All the certified bonds shall be kept in the exclusive possession of the trustees for the trust fund hereinafter mentioned.

A trust fund, to be named the "Atlantic & Lake Superior Railway trust fund," is hereby created in the hands of The Royal Trust Co., as trustees, and said fund shall consist of mortgage or other incumbrances upon the 100 miles of railway from Metapedia to Paspebiac, or other property of the two companies; also the bonds and shares of those companies, the mortgages or negotiable securities of any other railway lying in whole or in part in the provinces of New Brunswick, Quebec and Ontario, and any railway property which may be acquired at any sale, foreclosure or judicial, under mortgage held by the fund.

The trustees of the fund shall create certificates of participation in the said fund to a nominal amount of $2,500,000, of which $750,000 shall be preference certificates, $1,250,000 shall be ordinary certificates, and $500,000 deferred certificates. The three classes shall be entitled in the order named (1) to participate in assets in case of liquidation, and (2) to receive dividends at the rate of 5% per annum, cumulative. The preference certificates and the ordinary certificates shall confer upon their holders two votes for every $100 of their nominal amount, and the deferred certificates shall confer one vote for every $100 of their nominal amount at any general meeting called for any one of a number of specified purposes, such as the authorization of the purchase of securities or properties, the dissolution of the trust, the removal of the trustee or the committee of management, &c.

Exchange of Old Bonds, if Deposited within the Time to be Specified.

Amount Outstand.	To Be Exchanged for — Pref. Cert.	Ordinary Cert.	Def. Cert.
Atl. & L. S.-£500,000	----------	£100,000; 20%	$50,000; 10%
Baie des Ch. 409,400	£27,293; 6 2 3%	95,527; 23 1 3%	----------

The bondholders who shall not deliver their bonds to the Royal Trust Co. within the time stipulated in the public notices, shall remain creditors to the extent of their principal and interest, but they shall not be entitled to any preference of payment over the unsecured creditors.

Additional certificates of participation, not exceeding in the aggregate the total authorized issues aforesaid, shall be issued by the trustees for the purpose of acquiring any other liens, charges or incumbrances directly or indirectly affecting the property of the two companies, for acquiring claims against and shares in both railway companies, and for expenses, and for any other purposes authorized at the direction of general meetings of the holders of the certificates of participation.—V. 83, p. 1523.

Baie des Chaleurs Ry.—*Financial Plan.*—See Atlantic & Lake Superior Ry. above.—V. 79, p. 2695.

Boston Elevated Ry.—*New Bonds.*—This company has applied to the Massachusetts Railroad Commission for authority to issue (1) $5,800,000 bonds for construction, equipment and purchase of real estate; (2) $8,000,000 capital stock for the construction and equipment of the new Cambridge subway. The shareholders will meet April 30 to authorize the new issues.

New Stock for Leased Line.—See West End Street Ry., below.—V. 84, p. 803, 270.

Boston & Maine Ry.—*Purchase of Small Block of Stock by New York Central.*—Referring to the fact disclosed by the recent annual report of the New York Central & Hudson River RR. that that company purchased last year $574,800 stock of the Boston & Maine RR., President Tuttle is quoted:

The stock purchased by the New York Central people, as announced by President Newman, was secured at various times in the open market. No large block has changed hands at any time and a holding of this size in itself, out of nearly $27,000,000 worth of stock, really counts for little We presume that the purchase was made simply because of the attractiveness of the stock as an investment. The investment, however, is in no sense significant of any pending change in control, nor of any alliance with other interests which would make such change possible. There is no more basis now than there has been in the past for talk about a turning over of the property either to the New York Central or the New Haven interests. This cannot be put too strongly. Even if the New York Central people should join their holdings with the Ledyard or American Express holdings, the amount of stock so controlled would be a relatively small portion of the entire capital and much too small to even suggest the possibility of a change of ownership.—V. 84, p. 101.

Buffalo Rochester & Pittsburgh Ry.—*Notes.*—The 6% notes, reported as dealt in in Boston last week at a fraction above par were a part of a $1,000,000 one-year loan obtained under date of March 11 to provide for future capital requirements. The loan is divided into pieces of $10,000 or more. Compare V. 84, p. 867.

Canadian Northern Ontario Ry.—*Offering of Debenture Stock Guaranteed by Province of Ontario.*—Subscriptions were received at the Bank of Scotland, in Edinburgh, London, &c., and by the Canadian Bank of Commerce, in London, on or before April 9, at 91½ (£91 10s. per £100), for an issue of £793,569 3½% first mortgage debenture stock, forming part of an authorized amount of £1,101,369 17s., the balance of which, £307,800, has been already issued. "Principal and interest guaranteed by the Province of Ontario." An advertisement says:

The stock is issued under the authority of statutes of Canada, Ch. 50, 1895, and Ch. 58, 1903, &c.; statutes of Ontario, Ch. 20, 1904, &c., and of resolutions of the shareholders and the board dated July 10 1906, and is secured by the guaranty of the Province of Ontario, both as to principal and interest, and by a trust deed between the railway company, the National Trust Co., Ltd., of Toronto, and the British Empire Trust Co., Ltd., creating a first charge upon the railway from Toronto to Sudbury, a distance of 268 miles, about 150 miles of which are already open for traffic.

The stock is repayable at par on the 10th of July 1936 at the office of the company in London. Interest will be paid half-yearly, by warrant, on March 31 and Sept. 30, the first six months' interest being payable Sept. 30 1907.—V. 83, p. 1468.

Central Ontario Ry.—*Reorganization—New Bonds and Stock.*—This notice is given by Secretary George Collins:

The annual general meeting of the shareholders will be held at Trenton, Ont., on May 15. At such meeting the directors will apply for authority to issue bonds to the amount of $1,200,000 or such other sum as may be authorized, to retire the outstanding bond issue and for other purposes of the railway. At the said time a special general meeting of the shareholders will be held to sanction an increase of the capital stock to $3,340,000, or such other sum as the Governor-General in council may approve, and to authorize the issue of paid-up capital stock of the railway to the holders of over-due interest coupons, such stock to be issued at par for the face value of such coupons.—V. 82, p. 867.

Central Vermont Ry.—*Listed in London.*—The London Stock Exchange has listed the $10,654,500 first mortgage guaranteed bonds of 1920.—V. 83, p. 1227.

Chateaugay & Lake Placid Ry.—*Modification of Lease.*—See Delaware & Hudson Co. below.—V. 84, p. 50.

Chicago City Ry.—*Ordinance Approved.*—The directors on April 12 formally accepted the ordinances approved at the recent municipal election.—V. 84, p. 746, 338.

Chicago Great Western Ry.—*Bridge Rates Reduced—Contest.*—"The Railway Age" says:

The Chicago Great Western on April 9 began hauling grain free from Council Bluffs across the bridge to Omaha when destined to elevators along its own tracks, and reduced from $6 to $2 per car the rate on shipments destined to elevators on the tracks of other lines. Some time ago the Union Pacific raised its rate for hauling grain across the bridge, when shipments were destined for elevators on the tracks of other lines, from $2 to $5. —V. 84, p. 748, 745.

Chicago Indiana & Eastern Ry.—*Change in Control.*—The report of the Pennsylvania Co. (on a preceding page) shows that the latter owned on Dec. 31 1906 $700,000 of the $1,000,000 stock, $498,000 of the $500,000 first mortgage 5% and $48,000 of the $100,000 general mortgage 6% bonds. Compare V. 84, p. 569.

Chicago Southern Ry.—*Syndicate Forming to Complete Line to Chicago.*—At Chicago on April 17, James B. Forgan, Chairman of the Clearing House Committee of this city, issued a statement saying:

John R. Walsh is forming a syndicate to complete the Chicago Southern Railway, thus giving to the Southern Indiana Railway Co., the main line, an entrance into Chicago. To enable him to accomplish this the Clearing House Committee will exchange the Chicago Southern notes in the hands of the associated banks, amounting to $786,000, for the first mortgage bonds of the completed road. The committee has also agreed to a subscription of $250,000 to be made to the syndicate in connection with the exchange of these bonds.

Besides this the directors of the Walsh banks are to make a substantial subscription to the syndicate which finishes the Chicago Southern Ry. "This transaction will, it is believed, adjust all matters in connection with the purchase of the assets of the three banks by the associated banks to the ultimate satisfaction of all the parties in interest."—V. 84, p. 51.

Chicago Terminal Transfer RR.—*Sale Postponed.*—The United States Circuit Court at Chicago on April 16 granted the intervening petition of the Baltimore & Ohio (V. 84, p. 867) for permission to pay off the $15,140,000 first mortgage bonds, this amount being the upset price of the property under the foreclosure decree (see V. 84, p. 693.) At the same time the Court enjoined the foreclosure sale which had been set for May 3, until the stockholders shall have opportunity to test the validity of the Baltimore & Ohio's lease of the company's facilities.

In 1906 about $40,000,000 of the stock of the B. & O. was acquired by the Union Pacific (compare table in V. 84, p. 572) and this move for control of the Terminal Company is thought by some to foreshadow a contest in the premises between the Union Pacific, or Harriman interests, and the Hill, or Great Northern-Northern Pacific-C. B. & Q. interests.

Payment of Bonds.—Agreeably with the foregoing order of the Court, the United States Trust Co. of New York, the mortgage trustee, gives notice by advertisement in another column to the holders of the first mortgage bonds to present the same for payment at par and interest on May 31, as called for under the aforesaid decree, which provides in part:

(1) That the holders of the said bonds and coupons issued under said mortgage dated June 11 1897 be required to present said bonds and coupons for redemption at the office of the United States Trust Co. of New York, No. 45 Wall St., on May 3 1907 and that on that day interest thereon should cease.

(2) That the Baltimore & Ohio & Chicago RR. Co. or the Baltimore & Ohio RR. Co. should deposit with the United States Trust Co. of New York on or before May 3 1907 a sum sufficient to pay the amount due on said bonds as ascertained by the decree heretofore entered, with interest on such amount from the date of the decree (Feb. 20 1907) to the date fixed for redemption at 5%.

New Directors.—On April 18 the following new directors were elected:

W. C. Lane, Louis L. Stanton, A. C. Emery and E. N. Layfield, to succeed A. O. Slaughter, deceased; A. E. Goodhart, W. W. Heaton and H. W. De Forest, resigned. Messrs. Lane and Stanton are respectively President and Vice-President of the Standard Trust Co. of New York, and are supposed to be acting for the B. & O. (Harriman) interests. Mr. Emery is Private Secretary to President Faithorn of the Chicago Terminal Transfer RR. Co. and E. N. Layfield is the company's Chief Engineer.—V. 84, p. 867, 748.

Chicago Union Traction Co.—*Call for Deposit of Stock.*—Under date of April 16 a committee consisting of J. N. Wallace, Chairman, John W. Castles, Robert M. Gallaway, H. B. Hollins, James Jourdan and Alfred Skitt, with Fred. C. Randall as Secretary, 54 Wall Street, New York, calls for deposit of the company's shares with the Central Trust Co. on or before May 15 preparatory to reorganization. An advertisement on another page says in substance:

The benefits of the new ordinance relating to the system of street railways in the north, west and south divisions of the city of Chicago, now maintained and operated by the receivers of the Chicago Union Traction Co., passed by the City Council of Chicago on Feb. 11 1907, are only available through a deposit of stock, both preferred and common, of the Chicago Union Traction Co. as in said ordinance required, and to the amount therein specified. A plan of reorganization is to be formulated, as provided by said ordinance, and prompt action on the part of the preferred and common stockholders is essential to secure proper representation and consideration in the preparation and adoption of such plan.

The undersigned, at the request of the holders of a large proportion of both preferred and common stock, have consented to act as a committee on behalf of those stockholders who desire to participate in such plan of reorganization.

Mueller Certificates Held Invalid, at Least in Part.—See "Chicago" in "State and City Department" on a subsequent page of this issue and compare V. 83, p. 712.—V. 84, p. 803, 338.

Cincinnati Newport & Covington Light & Traction Co.—*Lease.*—The directors on April 12 formally approved the lease of the property for 99 years to the Columbia Company. The shareholders will meet to take final action on the contract at an early day. The rental payable under the lease, it is understood, is about as stated in V. 83, p. 1228.

Cleveland Electric Ry.—*Unprofitableness of Three-Cent Fares.*—The company on April 16 informed the city authorities that within eight days it is proposed to remove the five miles of track on Central and Quincy avenues, it having been found unprofitable to operate these lines on the 3-cent fare basis which was put in force by the company last January, following the decision of the United States Supreme Court that the franchise on the streets named had expired. Compare V. 84, p. 101, 390, 867.

Colorado Texas & Mexico Ry.—*Extent of Enterprise.*—This company, which states its authorized capitalization as $25,000,000 preferred stock, $50,000,000 common stock (par, $100) and $75,000,000 general mortgage 50-year 5% bonds of $1,000 each, was recently reported to have let contracts for the construction of 285 miles of road in Texas. President and General Manager Morris R. Locke, Mangum, Oklahoma, writes:

The Colorado Construction Co. of Mangum has the contract for building and equipping the road between Mangum, Okla., and Abilene, Texas, a distance of 200 miles; also the Hollis branch of 40 miles, the Vernon branch of 25 miles and the Merkel branch of 20 miles, and the same is now under construction by this company. Mangum, Okla., is the base of supplies and the general office.

B. C. Mason, No. 513 Keith & Perry Building, Kansas City, Mo., is the President of the Construction Co., and George D. Locke, No. 1228 Missouri Trust Building, St. Louis, is the Secretary.

The whole line of railroad is from the Canadian Pacific through the Dakotas, Nebraska, Kansas, Oklahoma and Texas and the Gulf at Aransas Pass and Corpus Christi, with branches to Galveston and Eagle Pass, covering the wheat, corn, cattle, hog, cotton and beet agricultural section of America, and through the coal and iron sections of Coleman, McCulloch, Leano and Gillespie counties of Texas. The company also contemplates building from Eagle Pass through Coahuila to Sierra Mojada; and to Chihuahua and Guaymas, State of Chihuahua, Mexico, the whole estimated at 2,500 miles. Officers: Morris R. Locke, President and General Manager; W. E. Oliver, Vice-President; H. M. Ferguson, Secretary and Treasurer. Compare V. 80, p. 2457.

Columbia (S. C.) Electric Street Railway, Light & Power Co.—*Acquisition by Company's Representatives.*—See Anderson (S. C.) Traction Co., above.—V. 81, p. 974.

Delaware & Eastern RR.—*Amalgamation Plan.*—A circular signed by Searing & Co., 7 Wall Street, under date of April 15 1907, announces a plan for extending this road in order to make it a through line from the Erie RR. at Hancock, N. Y., to the Boston & Maine RR. at Schenectady, N. Y. For this purpose the Schenectady & Margaretville RR. Co. was formed to build from Margaretville to Schenectady, and the Hancock & East Branch RR. to build from East Branch to Hancock, N. Y. The circular says:

It is now proposed to amalgamate the three railroads into one company, to be known as the Delaware & Eastern Railway Co., the new company to issue $5,000,000 of capital stock in shares of $100 each and $6,000,000 of 50-year 5% gold bonds in denominations of $1,000 and $500. Of the bonds, $1,750,000 are to be reserved for the purpose of acquiring the present bonds and capital stock and to refund the notes and floating debt of the Delaware & Eastern RR. Co. The balance of the bond issue is to be used for the purpose of constructing the new lines of railway to Hancock and Schenectady, N. Y.

The bondholders and stockholders of the present Delaware & Eastern RR. Co. may exchange their securities for securities of the new company on the following basis: For every $1,000 bond of the Delaware & Eastern RR. Co. the holder thereof to receive $1,050 of bonds and $250 of stock of the Delaware & Eastern Railway Co. The stockholders of the Delaware & Eastern RR. Co. to receive bonds of the new company for their stock in the old company at the rate of $50 per share for the old stock.

The Empire Trust Co. of New York City will receive deposits of bonds and stock up to and including May 11 1907.—V. 83, p. 1290.

Delaware & Hudson Co.—*Modification of Lease.*—The shareholders will vote at the annual meeting May 14 upon an agreement modifying the company's lease of the Chateaugay & Lake Placid Ry.—V. 84, p. 868, 623.

Erie RR.—*Car Trusts.*—A car trust agreement securing $580,000 4½% equipment bonds dated Feb. 1 and due in 120 monthly installments has been made between the American Car & Foundry Co., as vendor, and the Erie RR. Co., as the vendee.—V. 84, p. 803, 693.

Holyoke (Mass.) Street Ry.—*Purchase by Stockholders.*—Some of the stockholders of this company on April 28 took over the control of the Amherst & Sunderland Street Ry., 15 miles in length, a majority of whose $125,000 capital stock they recently acquired at a price much larger than that currently reported, which was $45 a share. The Amherst & Sunderland Street Ry. has $117,000 bonds outstanding. No action whatever has been taken by the Holyoke Street Ry. looking to the purchase of the property.—V. 84, p. 693.

Houston & Brazos Valley Ry.—*Successor Company.*—This company was incorporated under the laws of Texas on April 4 with $120,000 capital stock to take over and operate the Velasco Brazos & Northern (foreclosed; V. 83, p. 1038, 626), extending from Velasco, Tex., to Anchor, 20 miles, and to extend it northeast to a connection with the Houston & Texas Central, about 120 miles. The incorporators are:

Morgan Jones and W. E. Kaufman of Fort Worth, Tex., who are officers of the Wichita Valley Ry.; E. H. Holcomb, John W. Broad, E. J. Durham, J. F. Wellington Jr., T. L. Fryer, J. E. Head, all of Fort Worth, and Felix Jackson of Brownwood, Tex.

The Wichita Valley is controlled by the Colorado & Southern, which in turn is allied to the Rock Island interests.

Illinois Central RR.—*Tax Suit Dismissed.*—The Supreme Court of Illinois on Wednesday dismissed the suit brought by Attorney-General Stead to collect back taxes claimed by the State to be due to it by reason of an alleged unfair system of bookkeeping heretofore pursued by the company under which, it was asserted, the State had been deprived of a portion of its share of the company's income.

The Court holds that it lacks original jurisdiction in the suit, which must be begun in a Circuit or Superior Court. Governor Deneen on March 5 last made public a detailed statement of the findings of the accountants employed by the State, in which the amount stated to be due the latter is fixed at $5,315,000.—V. 84, p. 570, 220.

Iowa-Missouri Traction & Power Co.—*New Project—Bond Issue.*—This company has made a mortgage to the Knickerbocker Trust Co. of New York, as trustee, to secure an issue of $1,000,000 first mortgage 5% gold bonds, dated Oct. 1 1906 and due Oct. 1 1926; denomination $1,000; interest payable at the office of trustee on the first day of April and October. H. Blackledge is President and John H. Watkins Secretary. W. C. Picking, Memphis, Mo., in November last wrote to the "Manufacturers' Record":

We have financed and are about ready to begin the construction of an interurban line of road from Fairfield, Iowa, to Memphis, Mo., and intend constructing a southern extension from Memphis to Mexico, Mo.; also a northern extension from Fairfield to Cedar Rapids, Iowa. The distance now ready for construction is 52 miles. The line will run through a first-class farming country, via Keosauqua, Iowa, and Milton, Iowa.

Kansas City Viaduct & Terminal Ry.—*New President.*—Ira G. Hedrick has been elected President to succeed H. L. Harmon, resigned.

Description of Property.—The "Railroad Gazette" of April 12 has an illustrated article regarding this company's viaduct connecting Kansas City, Mo., and Kansas City, Kan., as shown by map on p. 84 of our "Railway & Industrial Section." Plans, it is reported, are being perfected for the construction of an eight-story storage and distributing warehouse with a frontage of 1,670 feet and width of 60 feet in the Westbottoms as an adjunct to the viaduct and terminal system.—V. 84, p. 271.

Long Island RR.—*Progress of Pennsylvania RR. Tunnels.*—President Ralph Peters is quoted as saying:

If all goes well, the tunnels under the East River, the station of the Pennsylvania RR. in Manhattan and a large part of the improvements of our own system, should be completed and in operation during the year 1909. When the great tunnels and terminal improvements shall have been completed those who live on Long Island will be able to save more than 30 minutes a day between any point on Long Island and Herald Square, and as much as 40 minutes a day between points on the Island and Wall St., via Flatbush Av., Brooklyn, and the Battery Subway.

The company will build a six-track system from Jamaica to the Pennsylvania RR. tunnel in Long Island City. West of Jamaica no steam locomotives are to be used for passenger trains after the improvements are finished. A large passenger station will be constructed at Jamaica and all grade crossings will be removed in and around that place. The total cost of the electrical improvement up to Jan. 1 1907 was $5,663,162.

During 1906 the Long Island RR. carried 22,000,000 people, which was an increase of 18.8% over 1905. (Compare V. 84, p. 865.—Ed.). The population in the various boroughs of N. Y. City, as compared with Long Id., I believe would reveal something like the following: Manhattan, 160 persons to the acre; Brooklyn, 42; Bronx, 15; Queens, 4; Richmond, 2; Nassau, 0.5; Suffolk, 0.2. We estimate that in ten years there will be 15 persons to the acre in Queens, one to the acre in Nassau and about one to each three acres in Suffolk. At this ratio of increase the population in round numbers at the end of the 10-year period will have increased in Queens from 230,000 to 1,000,000, in Nassau from 75,000 to 100,000, and in Suffolk from 80,000 to 120,000.

The "Railroad Gazette" of April 12 contains an article with map regarding the Pennsylvania tunnels.—V. 84, p. 749.

Louisville Traction Co.—*New Stock Authorized.*—The shareholders on April 13 duly ratified the proposition to increase the authorized common stock from $12,000,000 to $15,000,000, so that the total capital authorized shall be $17,500,000, the preferred remaining $2,500,000.—V. 84, p. 804.

Maine Central RR.—*Lease.*—As stated last week, the shareholders will meet April 26 to vote on leasing the new holding company, the Portland & Rumford Falls Railroad, which was incorporated April 4 with $1,000,000 authorized capital stock, in shares of $100 each. The agreement, subject to ratification by the shareholders, calls for a lease, for a term of 999 years, based upon an annual rental and not upon any purchase or absorption of any of the stock of the Portland & Rumford Fa... ...R. or its subsidiary leased line companies —the Portland & Rumford Falls Ry. or the Rumford Falls & Rangeley Lakes RR. Co.

Leased Lines of Portland & Rumford Falls Railroad.

Portland & Rumford Falls Railway—	
Rumford Junction to Rumford Falls, Me.	53.58
Otis Falls branch, Canton to Livermore Falls	10.27
Trackage Maine Central RR., Rumford Falls Jct. to Lewiston, Me.	4.20
Rum. Falls & Rangeley Lakes RR., Rumford Falls to Oquossoc, Me.	35.99
Total road, including 4.2 miles Maine Central Trackage	104.04

—V. 84, p. 868, 804.

Missouri Pacific Ry.—*Equipment Bonds.*—Tailer & Co., 27 Pine Street, have purchased $4,043,000 equipment trust 5% gold obligations, viz.: (1) $3,350,000 of the company's direct bonds maturing $335,000 annually May 1 1908 to May 1 1917, inclusive, Knickerbocker Trust Co., trustee; and (2) $693,000 Missouri Pacific Equipment Association gold certificates, guaranteed principal and interest by the Missouri Pacific Railway Co., and maturing $77,000 annually Dec. 1 1908 to Dec. 1 1916, inclusive, Mercantile Trust Co., trustee.

The first-named issue are coupon bonds, registered as to principal only, or bonds registered principal and interest, and interchangeable; denomination $1,000. The other issue are registered certificates of $1,000 or over.

The combined issue represents 90% of the cash cost of the following equipment by which they are secured: 50 consolidated freight locomotives, 3,000 coal cars, 750 ballast cars and 750 stock cars, to be delivered between May and November of the present year.—V. 84, p. 749, 626.

New Orleans Terminal Co.—*Guaranteed Notes Sold and Offered.*—This company, whose property is held under a 99-year lease jointly by the Southern Railway and the St. Louis & San Francisco RR., has sold to Potter, Choate & Prentice of New York $2,500,000 2-year 6% notes, due April 10 1909. These notes are guaranteed by the two leasing railroads as to principal and interest; and are further secured by the deposit of $4,000,000 first mortgage 4% bonds of the Terminal Company. The proceeds will be used for the passenger depot now being built, for new terminal and docking facilities, &c. The notes are offered by the bankers at 99 and interest.—V. 84, p. 508.

New York Central & Hudson River RR.—*Stock Purchase.* See Boston & Maine RR. above and compare V. 84, p. 872, 864.

New York New Haven & Hartford RR.—*Sale of French Notes Abroad.*—The issue of frs. 145,000,000 4% debentures in 290,000 bonds of frs. 500 or £19 15s. 6d. or Lg. 19.15.6 or marks 404, was offered for subscription the last week in March by the Societe Generale and the Comptoir National d'Escompte de Paris in Paris and their agents in London, Berlin, Hamburg and Amsterdam. The issue price was 98%, payable on allotment.

The principal is due April 1 1922 and the annual interest (frs. 20, marks 16.16 and Lg. 0.15.9½) is payable semi annually, Oct. 1 and April 1, at the offices of the aforesaid bankers in Paris, by their agents or correspondents in Belgium and Switzerland; also in London, Berlin, Hamburg and Amsterdam. The coupons are free from all present and future taxes in the United States and from all French taxation under laws in force April 1 1907. The bonds, it is stated, will be quoted on the Stock exchanges in Paris, London, Berlin, Hamburg and Amsterdam. Compare V. 84, p. 301, 508.

Electric Line.—Vice-President Byrnes is quoted as saying:

The Stamford, Conn., electrified zone system will undoubtedly be in working order by the middle of June. Until it has been determined by practical demonstration whether or not the system adopted for that run

is a success, we will not think about electrifying the road, so far as the proposed system from Boston to Providence is concerned.

New Stock Issue Deferred.—The plan for offering new stock to the shareholders, it is announced, has been indefinitely postponed, owing to the condition of the money market.—V. 84, p. 804, 749.

New York Ontario & Western Ry.—*Possible Change in Control.*—The "New York Sun" of April 19 says:

It is possible that control of the New York Ontario & Western may go to the New York Central. The control is now in the possession of the New York New Haven & Hartford. There have been rumors in regard to the negotiations for two weeks, and while all this time official confirmation has been lacking there is excellent authority for saying that the deal is on.—V. 83, p. 622.

Norfolk & Portsmouth Traction Co.—*Double Tracking in Preparation for Jamestown Exposition.*—The line of the Norfolk & Atlantic Terminal Co., whose entire capital stock is owned by this corporation, is being double tracked, as is also the Ocean View Division of the Norfolk & Portsmouth Traction Co., in anticipation of the heavy travel to and from the Jamestown Exposition. It is estimated that the two roads will be capable of transporting 24,000 persons per hour in one direction, or 12,000 each way.—V. 84, p. 103.

Oregon Short Line RR.—*Notes in Payment for B. & O. Stock.*—See Pennsylvania RR. below.—V. 84, p. 52.

Passenger Fares.—*Reduction by Legislation.*—Press reports say:

Michigan.—Governor Warner on April 18 signed the 2-cent fare bill, which will become effective next September. This Act applies to roads in the lower peninsula earning more than $1,200 per mile per year on passenger traffic. Upper peninsula roads are reduced from 4 cents to 3 cents, and lower peninsula roads under the $1,200 limit can charge 3 cents.

New York State.—On Thursday the Assembly passed with only one dissenting vote the bill of Mr. Baldwin of Onondaga, providing for a rate of 2 cents a mile on all railroads in the State having a mileage of 150 miles or more.

Iowa.—The Iowa Legislature adjourned last week after passing a bill requiring roads which have income of $4,000 a mile to sell tickets at 2 cents a mile; those having less, and more than $3,000, 2½ cents a mile, and those having less than $3,000, 3 cents a mile. Compare V. 84, p. 868.

Pennsylvania Company.—*Report.*—See report on a previous page.

Bonds Called, Not Presented.—The Girard Trust Co., Philadelphia, trustee, gives notice that $5,000 3½% gold loan of 1901 certificates, drawn for redemption as below, should be presented for payment forthwith, interest thereon having ceased on the date named, viz.: Certificate No. 13,733, drawn as of Nov. 1 1905; Certificates No. 5,819· 5 920, 15,401 and 18,752, drawn as of Nov. 1 1906.—V. 83, p. 1112, 1229.

Pennsylvania RR.—*Equipment Trust Certificates of Pennsylvania System and Other Securities Owned by Pennsylvania Company.*—See that company under "Annual Reports" on a preceding page.

The table of securities owned on Dec. 31 1906, above referred to, includes $36,393,432 4½% notes of the Oregon Short Line RR. Co., being the amount due in March and September of this year by the Union Pacific system on account of its purchase, for $45,466,960, of the Pennsylvania holdings of stock in the Baltimore & Ohio (consisting of $32,334,200 common and $7,206,400 preferred), the remaining $9,073,528 having been paid in cash in 1906. (Compare remarks of Mr. Harriman and tables under Union Pacific RR. in V. 84, p. 509, 572.)—V. 84, p. 868, 626.

Portland & Rumford Falls RR.—*Lease—Further Facts.*—See Maine Central RR. above.—V. 84, p. 869.

Reading Company.—*Acquisition.*—See Williams Valley RR. below.—V. 84, p. 571, 272.

Richmond-Washington Company.—*Bonds Sold.*—Lee, Higginson & Co. of Boston and Henry & West of Philadelphia this week sold "at slightly less than par" $1,000,000 series "D" 4% collateral trust bonds due June 1 1943, guaranteed principal and interest; and otherwise secured pari passu with the earlier issues. There are now outstanding $9,500,000 bonds of the $11,000,000 authorized under the mortgage, viz.: $4,000,000 Series "A," $2,500,000 "B," $2,000,000 "C" and $1,000,000 "D." Compare V. 77, p. 2390, 695; V. 78, p. 584, 1393.

Rio de Janeiro Tramway Light & Power Co.—*Water-Power Development.*—The company has received two of the six generators ordered from the Westinghouse Co. to be used in its water-power development and the remaining four will be delivered by July 1. The generators are of 8,000 horse-power each.

New Franchise Confined to Federal District.—Referring to the item published in our issue of April 6, page 804, friends of the company state that the Guinle concession applies only to the State of Rio, which is entirely outside of the Federal District, which includes the city of Rio de Janeiro.—V. 84, p. 804.

Rio de Janeiro Lighting & Transportation Enterprises.—See Rio de Janeiro Tramway, L. & P. Co. below.—V. 84, p. 804.

Southern Indiana Ry.—*Proposed Completion of Chicago Line.*—See Chicago Southern Ry. above.—V. 83, p. 1289.

Southern Electric Securities Co.—*Litigation.*—The Attorney-General of Mississippi on April 2 filed quo warranto proceedings in the State Circuit Court to oust the company on the ground that it is a combination in contravention of the anti-trust laws of the State.

Chancellor J. S. Hicks of the Fourth District Chancery Court at Natchez, Miss., on Feb. 15 denied the motion to dissolve the injunction preventing the company from voting on its stock holdings in the Vicksburg Railway & Light Co.

The action is brought under section 5005 of the code of 1906, providing that no company shall acquire or own the capital stock or any part thereof of any other corporation engaged in the same kind of business and a competitor. The court in its order says that the decision of the Supreme Court of Mississippi, in the case of Woodbury vs. McClurg, 78 Miss., 831, construing certain statutes of the State, holds that the ownership by one corporation of stock in another corporation, whether the said corporations be competing or not, is violative of the law of the State of Mississippi. Compare V. 84, p. 221.

South Side Elevated RR., Chicago.—*Bonds—Status.*—The "Chicago Inter-Ocean" of April 12 says:

The last $500,000 bonds of the $8,000,000 4½% 20-year general mortgage will be delivered to the Illinois Trust & Savings Bank April 15, being taken at 97½, the original syndicate figure. The institution named will not offer the bonds for sale. They are to be held in reserve with an additional amount not stated and the $375,000 recently purchased from the National City Bank of New York.

Improvement in the road's traffic is just beginning to show as a result of the extensions. March was the first month to reveal the increase, and April thus far is maintaining a satisfactory traffic showing. A number of stations have been opened on the new Englewood branch recently, and as rapidly as these are added patronage gains readily. It will be some time before the Stockyards and Lake Av. lines are ready for service, but the management is hopeful, and better results from operation are expected from now on.

Bond interest, which will now amount to $360,000 a year, is still being carried (for the most part) in the construction account (for that reason not appearing in full in the income account—Ed. "Chronicle"), but in another year it would seem as if the extensions should be yielding enough business to take care of the bond interest and add a little to the surplus now being earned in excess of the dividends from direct operation of the present property. Compare V. 84, p. 336, 272.

Toledo (O.) Railway & Terminal Co.—*Notice to Bondholders.*—Under date of New York, April 4, the bondholders' committee, consisting of Andrew T. Sullivan, Chairman; Samuel C. Eastman, R. E. James, John G. Reading, Harry M. Verrill, Charles H. Gilman, Francis B. Sears, with D. S. Mills as Secretary, gives the following notice to the holders of the first mortgage 4½% 50-year gold bonds:

A decree of foreclosure and sale under the mortgage securing the above bonds was entered on March 30 1907 in the United States Circuit Court for the Northern District of Ohio (Western Division), and the sale will take place about June 1 1907. $3,376,000, face value, out of the total issue of $3,500,000 of bonds have already been deposited under the bondholders' protective agreement of May 1 1906. Bonds not deposited will be received on or before May 11 1907, after which no further bonds will be received, except subject to such penalty as the committee may impose. Bonds must be deposited with the Columbia Trust Co., No. 26 Nassau St., New York, or with the Portland Trust Co. of Portland, Me.—V. 84, p. 627, 509.

Union Pacific RR.—*Oregon Short Line 4½% Notes.*—See Pennsylvania RR. above and table of securities owned in report of Pennsylvania Company on a preceding page.—V. 84, p. 694, 572.

United Railways Investment Co.—*Bonds.*—The company has issued $2,400,000 more of its 5% collateral trust bonds, making the total amount outstanding $18,150,000, the limit of the issue being $20,250,000. The additional bonds were exchanged for stock of the Philadelphia Company of Pittsburgh, Pa.

The common stock of the Philadelphia Company acquired as above was issued for extensions and improvements of that company's properties, and it raises the amount of the issue pledged as security for the bonds of the Investment Company to $24,200,000. Total Philadelphia Company stock issued to Feb. 28 1907: Common $33,240,000 and preferred $6,000,000. Compare V. 83, p. 1235.—V. 84, p. 750, 392.

United Traction Co., Albany.—*Bonds.*—The New York State Railroad Commission on April 16 authorized the company to issue $500,000 additional consolidated mortgage 4½% bonds, dated 1904, on account of improvements and additions.

This will increase the amount of outstanding consols to $1,729,000 and leaves of the issue $859,000 available for future requirements other than refunding underlying bonds to provide for which the remainder ($3,912,000) of the authorized issue of $6,500,000 is reserved.—V. 84, p. 52.

Velasco Brazos & Northern Ry.—*Successor Company.*—See Houston & Brazos Valley Ry. above.—V. 83, p. 1038.

Wabash RR.—*Offer to Exchange Notes.*—Tailer & Co., 27 Pine St., having placed with investors a considerable part of the $6,160,000 2-year collateral 5% gold notes, now offer the rest to holders of the 5% notes maturing May 10. The old notes will be accepted at par and accrued interest in exchange for the new notes at the price of 97¼ and interest, which is about a 6½% basis. The Industrial Trust Co. of Providence, trustee, has arranged with the First National Bank of New York to issue temporary certificates bearing interest at the rate of 5% from date of issue to May 10, at which time the new notes will be ready for delivery.

See advertisement on another page and compare V. 84, p. 869, 804.

Vicksburg (Miss.) Railway & Light Co.—*Decision.*—See Southern Electric Securities Co. above.—V. 84, p. 222.

West End Street Railway, Boston.—*Right to Subscribe.*—Shareholders of record April 13 are offered the right to subscribe at $85 per share (par $50) on or before May 4 for $420,000 new common stock to the extent of one share of new for each 23 shares held by them respectively. The proceeds will be used to reimburse the Boston Elevated for advances to the West End on account of improvements and additions.—V. 84, p. 805, 572.

Western Pacific Ry.—*Grades.*—The "Railroad Gazette" of April 12, in an article regarding this road, said:

The most striking thing about this new Gould road to Pacific tidewater is that it is to be built with much more favorable grades than its pioneer competitor, the Central Pacific line of the Southern Pacific. In order to obtain favorable grades it has been necessary to sacrifice directness. The Western Pacific is to be 930 miles long between Oakland and Salt Lake City, against 781 miles for the Central Pacific between Oakland and Ogden. The Central Pacific, however, passes through more than 40 miles of snow-sheds. The Western Pacific will not require any. The Central Pacific has a maximum grade of 105 ft. to the mile westbound and 116 ft. eastbound across the Sierra Nevadas; it also has grades of 75 ft. to the mile east and westbound between Lucin, Utah, and Wells, Nev., across the Pequop range, and a 79 ft. grade eastbound between Rocklin, Cal., and Sacramento. The Beckwith Pass, through which the Western Pacific is to cross the Sierra Nevadas, is about 1,900 ft. lower than the Central Pacific summit, and the Western Pacific's maximum grade here and over the rest of its line as well will be 1%, or 52.8 to the mile.—V. 84, p. 627, 340.

Western Trunk Lines.—*Agreement.*—The "Railway Age" of Chicago on April 12 gave synopses of the agreements entered into at Chicago on April 4 and April 8 respectively by the Western Trunk Lines with their passenger conductors, brakemen, &c., and with their locomotive firemen and engineers.—V. 84, p. 805.

Williams Valley RR.—*Change in Control.*—This 12-mile road, extending from the Reading Ry. at Brookside, Pa., to several large collieries, has passed under the control of the Reading Company, and new officers have been elected as follows:

Theodore Voorhees, First Vice-President of the Reading, President; W. R. Taylor, Secretary of the Reading, Secretary, and Richard Tull, of the Treasurer's department, Treasurer.—V. 78, p. 1393.

Yellowstone Park RR.—*Suit Based on Bonds the Ownership of Which is in Dispute—All Other Bond Interest Promptly Paid.*—Touching the suit referred to last week (p. 869), an official statement says:

It is merely a suit in equity to compel payment of 38 interest coupons, payment of which, prior to Jan. 1 1907 had been stopped, as the ownership of the corresponding bonds has been in dispute. The company has been compelled to resist payment and if a decree is entered against it the amount will be promptly paid, as in such case the payment will be compulsory and the company would not be liable to any other claimant. The suit does not in any manner affect the value of the bonds or the interest thereof or the validity of the mortgage securing the bonds, or jeopardize the company's property. All coupons entitled to payment were promptly paid on Jan. 1 1907.

The company was organized under the laws of Maine in July 1905 and has $3,000,000 first mortgage 40-year gold 5s, $3,000,000 stock, divided into $750,000 preferred (6% cumulative) and $2,250,000 common stock. The construction of the road calls for 125 miles, 30 miles of which is now built and in complete operation, running from Bridger, Mont., on the Northern Pacific, to Bear Creek Coalfield, Mont. Based upon the first month's operation, this year's gross earnings are estimated to be about $350,000, operating expenses about $140,000, which will leave an estimated net of about $200,000.—V. 84, p. 869.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Car & Foundry Co.—*Change in Officers.*—E. F. Carry, Second Vice-President and Chicago Manager, has been elected First Vice-President and General Manager to succeed W. J. McBride. Reports of friction denied.—V. 84, p. 572.

American Express Co.—*Stock Held in Boston & Maine RR.*—See that company under "Railroads" above.—V. 83, p. 494.

American Ice Securities Co.—*Permission to Inspect Books of Subsidiary Company.*—Supreme Court Justice Greenbaum in this city on April 17 granted the application of Attorney-General Jackson for permission to inspect all the books of the American Ice Co., including all contracts, stock lists, and correspondence files, for the purpose of ascertaining whether the company has disregarded the Anti-Trust laws of the State of New York.—V. 84, p. 750, 690.

American Light & Traction Co.—*Earnings.*—The result for the 3 months ending Sept. 30 were:

Three Mos.	Earns. from Sub. Cos.	Other Inc.	Net Profits.	Pref. Div. (1½%).	Common Dividend.	Balance, Surplus.
1907	$571,519	$56,496	$616,015	$213,543	(1¼%) $84,508	$317,964
1906	549,879	52,140	590,019	212,650	(1%) 67,428	309,941

Note.—From the surplus for the three months there was deducted $176,500 in 1907, as against $180,100 in 1906, for "reconstruction reserve fund," leaving a surplus of $141,464, contrasting with $129,841 for the corresponding period of the previous year.—V. 84, p. 160.

American Locomotive Co.—*Called Bonds.*—Twenty-five first mortgage 5% bonds of the Rogers Locomotive Works have been called for redemption at par and interest on May 14 at the Colonial Trust Co., 220 Broadway, New York.—V. 83, p. 1472.

American Telephone & Telegraph Co.—*Syndicate Payment.*—The "Wall Street Summary" of April 16 says:

The installment of 30% which was paid in yesterday by the syndicate that underwrote the $100,000,000 bonds brings the total syndicate payments on the issue up to 60%, and not 70%, as has been erroneously reported. The aggregate calls amounted to 70%, but about two weeks ago 10% of the amount paid in was returned by the syndicate managers to the underwriters, leaving 60% now paid. Inasmuch as the bonds were underwritten at 91, the installment just paid will net the company $27,300,000, $20,000,000 of which, it is understood, will be used for taking up the 5% collateral trust notes to that amount which mature May 1. Compare V. 84, p. 750, and V. 83, p. 438.

American Tobacco Co.—*Bonds Purchased.*—The company it is announced, has purchased for cancellation out of surplus funds an additional $500,000 of its 4% bonds, making a total of $4,000,000 canceled within the past month. The amount now outstanding is understood to be $52,136,000. Compare V. 84, p. 805, 750.

American Woolen Co.—*New Office.*—The company has moved its Boston offices from the Ames Building to the National Shawmut Bank Building, where it occupies 2½ floors.—V. 84, p. 750, 567.

American Writing Paper Co.—*Decision Allowing Payment of Dividend.*—Vice-Chancellor Bergen of New Jersey has handed down a decision sustaining the demurrer of the company in the action brought by William N. Goodnow, of Boston, in behalf of some of the holders of common stock to restrain the payment of the 1% dividend declared last October on the $12,500,000 preferred stock. The payment of the dividend was deferred on account of the suit. Compare V. 84, p. 805. The Court says:

A contract between the company and its stockholders that the stock issued to them is fully paid and not subject to further call is, in the absence of fraud affecting other shareholders, binding upon the company and its stockholders, although subject to attack by creditors.—V. 84, p. 805, 506.

Atlantic Rubber Shoe Co.—*Dissolution.*—The shareholders will meet May 2 at 15 Exchange Place, Jersey City, to dissolve the corporation.—V. 82, p. 102.

(The) Baldwin Company, Cincinnati, Ohio.—*Dividend Increased.*—This company paid on April 15, along with the regular quarterly dividend of 1½% on its $800,000 6% cumulative preferred stock, a quarterly distribution of 1½% on its $1,000,000 common stock, the payment on the latter being an increase in the annual rate from 4% to 6%. Par of shares $100.

The company was incorporated Feb. 19 1898 under the laws of Ohio; amended articles were filed December 1901 and July 1903. It manufactures grand and upright pianos, piano players, cabinet organs and all supplies, having received the "grand prix" in Paris in 1900 and the double grand prize in St. Louis in 1904. The company owns real estate and buildings valued at $550,110, also the entire capital stock of the Baldwin Piano Co., Gilbert Ave., Cincinnati; the Ellington Piano Co., Park Entrance, Cincinnati; the Hamilton Piano Co., Chicago Heights, Ill.; the Hamilton Organ Co., Chicago Heights, Ill.; D. H. Baldwin & Co., Cincinnati, and controls, through ownership of a majority of the stock, the W. K. Perry Lumber Co., Cincinnati.

"The company has 32 common stockholders, all of whom are actively engaged in the business, and 142 preferred stockholders. It has no bonds of any kind, but has against its property ground rents aggregating $49,500, purchasable at any time and carrying a charge of from 4% to 5%. The company has sinking funds or reserve provisions, taken out of profits, of $321,841; also a surplus (Jan. 1 1907) of $1,055,782. The company has steadily paid dividends on its preferred stock at the rate of 6% per annum since it went into active operation, Jan. 1 1902, and paid 4% on its common stock from January 1905 and 6% on the common stock beginning Apr. 1907." Lucien Wulsin is President; G. W. Armstrong Jr., Vice-President; A. P. Hagemeyer, Secretary and Treasurer. Office, 142 West 4th St., Cincinnati.

Bay State Gas Co.—*Income Bondholders Seek Payment.*—At Boston on April 16 intervening petitions were filed in the United States Circuit Court by Chas. H. Greenleaf of Boston and Thomas L. Sprague of Hingham, Mass., each as holder of five income bonds, asking that a Master be appointed to ascertain what indebtedness is due from the company to the income bondholders; also that $1,000 be paid for each bond, together with interest of 7% per annum since the last payment of interest, May 1 1893. Compare report of receiver, V. 84, p. 805.

(B. F.) Berry Coal Co.—*Bonds Offered.*—The "Detroit Trust Co. is offering for sale the entire issue of $200,000 first mortgage 6% bonds of this company, which holds under lease 2,560 acres of coal land near Granville, Putnam County, Ill., and a valuable contract for the sale of coal to the Chicago Milwaukee & St. Paul Ry.

Bessemer Coke Co., Pittsburgh, Pa.—*Called Bonds.*—Eight bonds, Nos. 12, 13, 14, 15, 16, 17, 18 and 19, secured by mortgage dated Dec. 15 1902, were called for redemption at the Pennsylvania Trust Co., trustee, Pittsburgh, on Dec. 15 1906, when interest ceased. Also at the same institution on Dec. 16 there were redeemable 18 bonds secured by mortgage dated Dec. 16 1901, being Nos. 53 to 70, both inclusive.

Acquisition—Status.—The company in August last purchased from the Millsboro Coke Co. 105 acres of coal land on Ten-Mile Creek, in East Bethlehem Township, Pa., and in payment therefor made an issue of $110,000 bonds secured by mortgage to the Colonial Trust Co. of Pittsburgh, as trustee.

The company manufactures Connellsville Coke and has the following mines: Empire Works, Ruffsdale, Pa.; Duquesne Works, Bradenville, Pa.; Humphreys Works, Humphreys, Pa.; Griffin Works, Ifield, Pa.; Martin Works, Martin, Pa., and Millsboro Works, Millsboro, Pa. The amount of capital stock outstanding is $850,000 and the amount of bonds is as follows:

	Originally.	Still Out.
Sinking fund bonds issue of Dec. 16 1901	$200,000	$130,000
Sinking fund bonds, issue of Dec. 15 1902	200,000	181,000
Sinking fund bonds, issue of August 1906	110,000	110,000

These bonds are all payable by sinking fund in numerical order "and should average about 10 bonds each per year." Officers: W. H. Humphreys, President; William Harris, Secretary, and Herman Griffin, Treasurer. Office Lewis Building, Pittsburgh.—V. 82, p. 102.

Bethlehem Steel Corporation.—*No Dividend on Preferred Shares at Present.*—The directors on Tuesday decided not to declare at present a dividend on the preferred stock, of which there is outstanding $14,908,000, 7% non-cumulative. From August 1905 to August 1906, 1¾% was paid quarterly; in November 1906 and in February 1907 the payment was ¾ of 1%. Compare V. 84, p. 805, 573.

The new works now under construction, it is stated, will have a capacity of about 500,000 tons of steel rails and structural material and 600,000 tons of pig iron a year, freeing the company from its dependence on Government armor work.

President Schwab is quoted in substance:

In view of the large expenditures for extensions, which, when completed, will make the corporation the largest individual property of its kind in the world, the directors deemed it advisable to suspend dividend payments. At no time since I secured control of the corporation have I favored dividends on the preferred stock. I argued that so long as the company was dependent almost entirely upon Government orders dividends could not be started with any assurance of being permanent. We spent about $5,000,000 at the suggestion of the Government in increasing our armor-plate capacity. The Carnegie Steel Co. did the same. We were informed that the Government requirements would be larger, but instead of receiving 12,000 tons of armor-plate work a year, our company has been getting about 3,000 tons.

The total expenditures for the extensions, I think, will reach $17,000,000 before the close of 1907. The new plants will be in operation this fall and, naturally, we look for a pronounced improvement in earnings. Our past losses in shipbuilding contracts and our possible losses through such contracts uncompleted have all been charged off, and we start the new fiscal year with a clean bill of health. Our total losses on Government shipbuilding contracts amount to something like $2,500,000. The ships under construction will be completed about July 1, after which we do not propose to bid for any more Government shipbuilding work.—V. 84, p. 805, 573.

Birmingham (Ala.) Ore & Mining Co.—*Bonds.*—This company, formed in April 1905 with $125,000 authorized capital stock as a consolidation of the Birmingham Mining & Contracting Co. and the Birmingham Ore Co., is reported to have increased its bonded debt in the sum of $100,000 to provide for improvements. President, W. G. Robinson; Secretary, D. H. Brown.

Butte (Mont.) Electric & Power Co.—*Earnings.*—For 10 months ending Oct. 31:

10 Mos.	Gross.	Oper. exp. & tax.	Net.	Int. & S. F.	Balance.
1906	$783,887	$415,921	$367,966	$184,111	$183,855
1905	615,667	290,181	325,486	159,275	166,211

Dividends at the rate of 5% per annum are being paid on the $1,000,000 preferred and $3,000,000 common stocks. There are $2,205,000 first mortgage bonds outstanding. Compare V. 82, p. 1441; V. 83, p. 1413.

California Development Co.—*Salton Sea Troubles.*—The "Railroad Gazette" for April 5 contained an article regarding the struggles to close the break in the Colorado River, which early in 1905 began flowing through the opening which had been cut for this company's canal into the so-called Salton Sea. The break was finally closed Feb. 11 1907.

In Jan. 1907, after the Southern Pacific Co. had expended about $2,000,000 in efforts to divert the river into its old channel, Mr. Harriman appealed to President Roosevelt for Government action. Explaining the relationship of the companies, Mr. Harriman said: "It appears that the Southern Pacific Co. agreed in June 1905 to lend the California Development Co. $200,000 to assist it in dealing with the situation, and to secure the loan, stockholders of the California Development Co. pledged 3,600 shares of its capital stock, and the agreement provides that until the loan is paid the Southern Pacific Co. shall be allowed to select three members of the board of directors of the California Development Co., one of whom shall be elected President, provided such President shall be acceptable to at least two members of the board selected by the Development Co."

President Roosevelt, in replying, said in part: "My information from the West is to effect that the Southern Pacific has claims against the Development Co. aggregating $1,800,000. The California Development Co. has outstanding bonds of $478,000, and has sold water rights for almost 200,000 acres, requiring expenditure of several million dollars to provide permanent water supply; also has other debts and reported recent bond issues. Principal officers or stockholders being sued for misappropriation of about $1,000,000 company funds which should have been used for protective works. Are the statements correct?" These points Mr. Harriman promised to investigate.

On Jan. 30 the United States Senate appropriated a sum of money (to be repaid within ten years) to be used in controlling the river. Epes Randolph is President and W. J. Doran Treasurer of the California Development Co. Compare V. 78, p. 1784; V. 79, p. 788.

California Wine Association, San Francisco.—*Dividends Resumed.*—The company paid on April 15 a quarterly dividend of $1 50 per share, being the first distribution to the stockholders since the San Francisco earthquake. The capital stock is $4,354,200 (par $100), and the 83d monthly dividend was paid just prior to the earthquake.—V. 84, p. 573.

Cambria Steel Co., Philadelphia.—*Change in Officers.*—The following changes are announced:

General Manager Charles S. Price has been elected a Vice President, also a director to succeed John W. Townsend, resigned; Treasurer Alexander P. Robinson has been elected Second Vice-President and Assistant Treasurer. Edward T. Stuart becomes Treasurer and Assistant Secretary. —V. 84, p. 689, 161.

Canadian Niagara Power Co.—See Niagara Falls Power Co. in V. 84 p. 807.

Century Telephone Construction Co., Buffalo, N. Y.—*Bond Issue.*—This company, incorporated under New York laws in Sept. 1904 with $500,000 authorized capital stock, has made a mortgage to the Commonwealth Trust Co. of Buffalo, as trustee, to secure, it is said, an issue of $1,000,000 bonds.

The company, which is controlled by the same interests as the Consolidated Telephone Co. of Buffalo (V. 80, p. 2346) manufactures telephones, switchboards, &c. It was originally a Cleveland enterprise. R. H. Hubbell is President and Byron L. Moore, Secretary.

Colorado Fuel & Iron Co.—*Called Bonds.*—Forty general mortgage 6% bonds of the Colorado Fuel Co., dated 1889, have been drawn for redemption at 110 and interest on May 1 at the Metropolitan Trust Co., 49 Wall St., New York.—V. 84, p. 751, 161

Consolidated Lighting Co., Montpelier, Vt.—See Vermont Power & Lighting Co. below.—V. 82, p. 454.

Edison Electric Illuminating Co. of Boston.—*Note Issue only* $1,579,000.—The company had outstanding on Jan. 1, we learn, only $1,579,000 notes, not $2,500,000 as reported last week.—V. 84, p. 870.

Gimbel Brothers, Philadelphia.—*Dividends.*—In February last the directors declared annual dividends as follows: 6% on the preferred, payable quarterly; 10% on the common stock, payable in Feb. 1907. Dividend distributions have been made each year since incorporation, in 1903, the authorized capital being then $5,000,000 each of common and preferred stock.—V. 77, p. 403.

Grand Rapids (Mich.) Hydraulic Co.—*Receiver Discharged.*—Judge Swan, in the United States District Court, on Oct. 24 signed an order discharging Thomas J. O'Brien, who has been acting as receiver since 1892. The company claims to have a perpetual charter and contends that the Act of the Legislature passed early last year is null and void. Attorney-General Bird on Dec. 8 instituted quo warranto proceedings to prevent the company from doing business, claiming that its time limit under the said Act has expired. Improvements are being made to the plant with a view of competing with the city in supplying water. Compare V. 80, p. 1426. The proposed plan of reorganization (V. 71, p. 185) issued in 1900 was apparently never carried out. The "Grand Rapids Post" of Nov. 5 says:

The company is now in excellent condition, having no suit of any kind pending against it. The walls of the new pumping plant on Canal Street are rapidly going up. They have recently installed two Munsel gas engines for operating a centrifugal pump. These are guaranteed to have 60 horsepower with a possibility of developing 80 when occasion requires. In addition to the gas engines, the company maintains the steam power to use in case of emergency. The two pumps have a capacity of 1,000,000 gallons per day, with the possibility of going to 1,250,000 and 200 feet head.

New Officers.—John F. Calder was recently elected President in place of David A. Crow, who resigned. Directors:

John F. Calder (President), John B. More (Vice-President), Thomas H. Keogh (Secretary and Treasurer), Willard Kingsley and David A. Crow.

Fire.—The plant was destroyed by fire on Feb. 6, the loss, it is stated, being $30,000, with no insurance. The company, it is reported, will rebuild at once.—V. 80, p. 1426.

Greene Consolidated Copper Co.—*Time Extended.*—Notice has been given by advertisement that the time for the deposit of the stock in exchange for Cananea Central stock, under the terms of a circular dated Feb. 15, has been extended to 12 m. to-day. Compare V. 84, p. 511, 393.

Gulf Oil Corporation.—*Increase of Stock by Subsidiary.*—See Gulf Refining Co.—V. 84, p. 393.

Gulf Refining Co., Belmont, Tex.—*Increase of Stock.*—This company has filed a certificate of increase of capital stock from $750,000 to $1,500,000. Compare reorganization plan of J. M. Guffey Petroleum Co. in V. 83, p. 1293; V. 84, p. 393.

Home Telephone Co. of Dayton, Ohio.—*New Stock.*—The shareholders on April 10 authorized the proposed increase in the capital stock from $1,200,000 to $2,000,000. Compare V. 84, p. 628, 393.

Hopkins & Allen Arms Co., Norwich, Conn.—*New Bonds.*—The shareholders on Feb. 20 voted to issue $100,000 bonds and to increase the capital stock from $300,000 to $400,000, the new stock to be reserved to retire an equal amount of bonds at maturity. A part of the proceeds of the new bonds will be applied to the retirement of outstanding bonds, which mature April 1 1907.

International Mercantile Marine Co.—*Application to List.*—The New York Stock Exchange has been requested to list $52,744,000 4½% bonds, due 1922; $51,731,000 preferred stock and $49,921,800 common stock voting trust certificates, and $19,618,000 International Navigation Co. first mort. sinking fund 5% bonds, due 1929. Also further amounts if and as sold.—V. 84, p. 341.

Lanston Monotype Machine Co., Philadelphia.—*Report.*—The report for the year ending Feb. 28 1907 shows:

Gross sales, $1,312,873, comparing with $1,058,837 in the preceding year; depreciation charges, $798,140; net profits, $514,733 (including $200,000 extraordinary profits from the sale of Continental patents to the English corporation), against $305,148. Dividends at the annual rate of 4% on the stock as paid semi-annually from April 1906 to April 1907 inclusive call for about $200,000 yearly.—V. 82, p. 1039.

Long Beach Hotel & Cottage Co.—*Sale.*—The property was bid in at foreclosure sale on Feb. 8 for $200,000. The Long Beach Development Co. has been organized as successor with $5,000,000 authorized capital stock to develop the property into an all-year-round resort along the lines of Atlantic City, the ocean front to be almost entirely reserved for hotels, while large areas will be held for villa sites. The property contains about 1,128 acres. Wm. H. Reynolds is President of the new company. Remsen Johnson, of the Jere Johnson Jr. Co., and Frank Bailey, Vice-President of the Title Guarantee & Trust Co., are identified with the enterprise. See bond offering mention under caption of Long Beach Development Co. above.—V. 84, p. 54.

Lewiston & Youngstown Frontier (Electric) Ry.—*Sale.*—See Niagara Gorge RR. in V. 84, p. 868.—V. 63, p. 229.

The bonds are dated March 20 1907 and are due March 20 1912; denomination $1,000, registered. Guaranteed as to principal and interest by the Bond & Mortgage Co. at 1%, making the bonds net the purchaser 5% per annum. Interest payable March and Sept. 20 at 175 Remsen St., Brooklyn. At last accounts Austin Corbin was President. Compare V. 82, p. 1104.

Macon (Ga.) Gas Light & Water Co.—*Dividends.*—A dividend of 2½% was paid March 15 on the $230,880 first preferred stock; 3% was also paid March 7 1906 and 2% in October 1906. Mr. Stuart Wood, Philadelphia, is Treasurer. An officially revised statement, somewhat delayed, says:

Capitalization: $230,940 first preferred, non-cumulative, 5%; $210,380 second preferred, non-cumulative, 5%, and $300,000 common stock; par, $100. Bonds, $75,000 first 6s, interest M. and N., due Nov. 1 1910, and $419,000 consol. 30 year 5s, interest M. and N., due Nov. 1 1930. Philadelphia office, 400 Chestnut St.—V. 68, p. 380.

Manhattan Beach Estates.—*New Name Authorized.*—See Manhattan Beach Securities Co. below.

Manhattan Beach Securities Co., New York.—*Trust Deed.*—This company, which on Dec. 21 1906 bid in at foreclosure sale for $1,100,000 the property of the Manhattan Beach Hotel & Land Co. (V. 83, p. 1527), recently filed a trust deed to the Title Guaranty & Trust Co., as trustee, to secure an issue of $1,000,000 6% bonds.

The bonds are subject to call at any time on ten days' notice with sixty days' advanced interest, but if so called must be drawn by lot. Of the issue $625,000 are now ready for sale; remainder, $375,000, will be issued as the improvements progress. The mortgage covers 275 acres of land, with a shore front over a mile in length and about ⅝ of a mile wide, the Oriental and Manhattan Beach hotels, &c.

The property is to be laid out in building lots, with macadamized streets, sewers, water, gas, electric lights, special sewage disposal plant and a boulevard over a mile in length. Valuation: 2,136 building lots at $1,000 each (which figure is about one-third less than what lots not so well located are selling for at Sheepshead Bay), in excess of $2,000,000; over a mile of beach, $1,000,000; total, over $3,000,000. Austin Corbin is President.

The Title Guarantee & Trust Co., New York and Brooklyn, is now offering the $625,000 bonds on a 5% basis.

Change of Name.—Notice is given by advertisement that on May 10, under authority from the court, the company's title will be changed to "Manhattan Beach Estates."—V. 82, p. 1104.

Marconi Wireless Telegraph Co. of America.—*New Directors.*—H. G. Matthews and G. T. Campbell have been elected directors, to succeed H. H. McClure and L. L. Smith, who resigned.

Report.—The report for fiscal year ending Jan. 31 1907 says:

During the past fiscal year the station and steamship receipts show an increase of $22,961 over those of the previous year, while the station and steamship expenses show an increase of only $6,106. The salaries and general expenses also show a satisfactory decrease. There are now 78 steamers plying between America and the Continent equipped with Marconi short-distance apparatus and 17 carrying our long-distance apparatus. No notice should be taken of circular and advertisements which seek to induce our stockholders to exchange their stock for the so-called United Wireless (V. 84, p. 107, 512). Neither this company nor the Marconi system generally has any thought of consolidation with any telegraph

company whatever. The balance sheet of Jan. 31 shows outstanding capital stock, $6,038,800; accounts and notes payable, $15,051; total, $6,053,851. Assets, cost of stations, experimental work, cash, accounts receivable, &c., $195,683; patent rights, good-will and contracts, $5,473,364; organization expenses and deficit account, $384,804; total, $6,053,851. (Compare V. 83, p. 211.)—V. 84, p. 106.

Michigan State Telephone Co.—*New Director.*—Philip H. McMillan has been elected a director to succeed his brother, the late William C. McMillan.—V. 84, p. 452.

Milwaukee Steamship Co.—*Bonds, Stock, &c.*—The bonds offered at par and interest by Peabody, Houghteling & Co., Chicago, are dated June 1 1906 and mature in installments.

They are also redeemable on any interest date in numerical order at par accrued interest and a bonus of 1% for each year or fraction thereof of the unmatured term of the bonds. Denomination $1,000. Superior Savings & Trust Co., Cleveland, is mortgage trustee. W. A. Hawgood & Co. of Cleveland owns all, or a majority, of the $205,000 stock.—V. 84, p. 807.

Missouri River Power Co.—*Called Bonds.*—Twenty-four ($24,000) 1st mortgage 6% bonds of 1900 have been called for payment at 105 and interest, say $1,080 per bond, on May 1 1907 at the office of the Colonial Trust Co., 222 Broadway, New York. See V. 76, p. 708.—V. 82, p. 455.

Monongahela Water Co., Pittsburgh.—*Dividend Omitted.*—The company, it is announced, has decided to omit the usual quarterly dividend of 2% on its $2,600,000 stock.

Dividends at the rate of 8% per annum, it is stated, have been paid for the last 25 years without a break. Decrease in earnings and the expense of litigation are said to be the reason for suspending dividend distributions. The city for some time past has contemplated the purchase of the property.—V. 80, p. 1061.

Montana Consolidated Coal & Coke Co., Boston.—*Listed in Boston.*—The Boston Stock Exchange on April 5 listed $1,654,790 of this new company's authorized issue of $2,000,000 capital stock; par of shares, $100.

Directors.—C. F. W. Dillaway, President; Hiram M. Burton, Chairman; Larkin T. Trull, Vice-President; N. Willis Bumstead, Treasurer; William H. Stickney; Secretary; Frank H. Proctor and Joseph N. Lovell. Principal office, 60 State St., Boston, Mass.—V. 84, p. 629, 452.

Mt. Carmel (Ill.)Light & Water Co.—*Guaranteed Bonds Offered.*—Albert Kleybolte & Co., 409 Walnut St., Cincinnati, having sold one-half of an issue of $80,000 first mortgage 5% gold bonds, dated June 15 1906, recently offered the remainder. "Principal and interest guaranteed by the City of Mt. Carmel and the New Electric Light Co. of Mt. Carmel." A circular says in substance:

Interest payable June 15 and Dec. 15 at the American Trust & Savings Bank, the mortgage trustee, Chicago. Denominations, $100 and $1,000. Principal due in annual installments on June 15, viz.: 1907, $100; 1908, $1,100; 1909, $200; 1910, $1,300; 1911, $300; 1912, $1,300; 1913, $300; 1914, $1,100; 1915, $1,100; 1916, $1,200; 1917, $1,200; 1918, $1,300; 1919, $1,400; 1920, $1,400; 1921, $2,000; 1922, $1,100; 1923, $2,200; 1924, $1,200; 1925, $2,300; 1926, $1,400; 1927, $2,100; 1928, $3,000; 1929 $3,000; 1930, $4,300; 1931, $4,100.

These bonds were issued to take up the unmatured portion of the old issue of bonds and for improving and extending the water system, and they are a first mortgage on all the property of the company. The plant, including the new extensions, will embrace 21 miles of pipe, an increase of 11 miles over the old installation, and, with the extensions made in 1906, has cost $118,000 in cash. The City of Mt. Carmel, (which has no bonded debt) guarantees the bonds, both principal and interest, and owns an equity in the plant which amounts to nearly $40,000; furthermore, the plant becomes the property of the city when all the bonds have matured and have been paid by the city. These bonds are also guaranteed, both principal and interest, by the New Electric Light Co. of Mt. Carmel, whose net earnings amount to about $10,000 per annum and are constantly increasing. The net earnings of the company itself for the year ending Aug. 31 1906 were $5,325, and with the improvements and extensions installed, should be largely increased. Over 6% was earned on the capital stock of $80,000 before the improvements and new extensions were begun. Population of city: In 1890, 3,376; in 1900, 4,311, and to-day, estimated, 7,500. In the past six years several industries have been located there, and the Big Four Railroad has made this a terminal point and divisional headquarters.

New England Consolidated Ice Companies.—*Sale Feb. 12.*—The company having defaulted on the interest due upon its bonds issued under mortgage dated July 1 1902, the Manufacturers' Trust Co. of Providence, as trustee, by virtue of the power of sale contained in said mortgage, sold at auction on Feb. 12 the following property to various people at various prices:

Two first mortgage bonds, 15 shares preferred stock, 130 shares common stock of the Providence Ice Co.; 927 shares stock of the Taunton Ice Co.; 1,291 shares common stock of the Commonwealth Hygienic Ice Co. of Boston; 257 shares stock of the Brockton Ice & Coal Co.—V. 77, p. 1750, 953.

New England Food Co., South Norwalk, Conn.—*Sale.*—This company, which was incorporated in Connecticut in August 1904 with $100,000 capital stock, it is stated, has been taken over by the New England Food Co. of South Dakota, organized some two months ago, its authorized stock being $1,000,000, of which $700,000 is preferred.

The stockholders of the Connecticut Company on June 30 1906 authorized the directors to issue $500,000 bonds. In January last the company was offering its shares at $1 each and in an advertisement described its plant as having a capacity for turning out 1,700 packages of "Nivara" (a new breakfast food) daily.

Newhouse Mines & Smelters.—*Stock on Stock Exchange Unlisted Department.*—The $6,000,000 capital stock was admitted to quotation from April 11 in the Unlisted Department of the New York Stock Exchange. The statement submitted by Eugene Meyer Jr., the Vice-President, in connection with the application to the Stock Exchange, is given at length on a subsequent page and sets forth fully the facts regarding the company, including a balance sheet and income account for a year and a half. The mining properties, which are located at the town of Newhouse, Beaver County, Utah, are described in the statement referred to above.—V. 84, p. 871.

New Jersey Terminal Dock & Improvement Co.—*Mortgage Filed.*—A mortgage has been filed to the Standard Trust Co. of New York, as trustee, securing an issue of $3,000,000 5% 20-year bonds dated Sept. 8 1905. The mortgage, it appears, was made the day after the company was incorporated to take over the control of the Hackensack Meadows Co. and the Federal Construction Co. Reorganization is pending. Compare V. 84, p. 871, 511.

New River (Coal) Company, MacDonald, W. Va.—*New Stock.*—It is planned to increase the authorized capital stock from $15,000,000 ($5,000,000 thereof being 6% cumulative preferred) to $25,000,000, of which approximately one-third is to be preferred stock and two-thirds common stock. There was recently outstanding $4,810,800 preferred and $9,621,600 common. Hornblower & Weeks, New York and Boston, are interested.

It is not planned to issue any of the additional stock at present, but it is necessary to have it authorized in order to take care of any additional stock which the New River Fuel Co. might put out. The New River Co., it will be remembered, is a holding company, and its shares were given in exchange for stock of the New River Fuel Co. in the proportion of 1 preferred and 2 common for each 1 share of old. There will be a circular sent to the shareholders when any offering is made of the new stock.

The "Manufacturers' Record" of March 21, on page 275, contained an article regarding the property which will be served by the new Deepwater-Tidewater railroads (to be consolidated as the Virginian Ry.), as well as by the Chesapeake & Ohio. Compare V. 84, p. 576, and V. 83, p. 440, 1040.

New York Steam Co.—See New York Ice Co., V. 84, p. 511.—V. 50, p. 214.

Peninsular (Beet) Sugar Refining Co., Caro, Mich.—*Bonds.*—This company, one of the constituent properties of the new Michigan Sugar Co. (V. 83, p. 1039), made a mortgage in 1905 to the Detroit Trust Co., trustee, to secure an issue of first mortgage 5% gold bonds, a block of which were offered last August by the trustee at par and interest.

Total authorized issue, $200,000; paid, $135,000; outstanding, $65,000, due May 1 1910 but redeemable on May 1 1906 and any interest date thereafter at a premium of 1% for each year the bonds have to run. Interest May 1 and Nov. 1 at office of trustee. Estimated value of plant and assets, $1,000,000.—V. 83, p. 1040.

Peabody Coal Co. of Ohio.—*Bonds.*—Peabody, Houghteling & Co., Chicago, recently offered for sale an issue of $150,000 first mortgage 6% serial gold bonds of $1,000 each (c*), dated Sept. 1 1906 and due $15,000 yearly on Sept. 1 from 1907 to 1916, both inclusive, but redeemable on Sept. 1 1909 or on interest dates thereafter, at 102½ and interest. Interest payable at office of the firm named. Chicago Title & Trust Co., trustee. A circular says:

A closed first mortgage on all property now owned and hereafter acquired, including 1,655¾ acres in Perry County, Ohio, containing 6 million tons of standard No. 6 Hocking Valley coal, modern operating mines with an annual capacity of 300,000 tons, miners' cottages, water-works, &c., and railroad tracks connecting with the Baltimore & Ohio RR. Valuation, $366,500, viz.: Coal owned in fee, $125,000; surface owned in fee, $18,000; coal leased, $25,000; mine equipment, miners' houses, waterworks, railroad tracks, &c., $139,000; working capital (cash and cash assets), $59,500. Actual investment in property: By stockholders, $200,000; by bondholders, $150,000; total actual cost of property, $350,000. Sinking fund from Oct. 15 1906, 8 cents per ton of lump coal mined during the preceding calendar month, and in any event not less than one-twelfth of the annual maturing principal of these bonds.

Abstract of Letter from President William Job, McCunesville, O., Sept. 15 '06

The company has a fully paid capital stock of $200,000, and its only outstanding indebtedness is the $150,000 of first mortgage bonds which you have purchased. The property is known as the Greely Mines, situated near McCunesville, Perry County, Ohio., and consists of 1,655¾ acres of coal, of which the company owns in fee 977¾ acres and under lease 678 acres. The company also owns in fee 773¾ acres of surface. The property contains not less than 6,000,000 tons of standard No. 6 Hocking Valley Coal, all available for drift mining. The vein is uniform in quality and thickness. The mine equipment is new and absolutely up to date in every particular, and has a present capacity of 300,000 tons of lump coal per annum. The company owns its own railroad, connecting with the Baltimore & Ohio RR., and by constructing 5 miles of track connection can be established with the Toledo & Ohio Central RR. and the Zanesville & Western RR. The entire proceeds of these bonds are to be used to pay for the completion of 50 miners' houses now being erected; to liquidate all indebtedness and to provide sufficient working capital. The company will have no debts except these bonds and will have a working capital of approximately $60,000. Now that the mines have been fully developed, I have no hesitation in saying that the net earnings will average not less than 25 cents per ton per annum, after paying sinking fund charges and making proper reservations for exhaustion of the coal and depreciation of equipment

Port Inglis (Fla.) Terminal Co.—*New Stock.*—This company, it is stated, is proposing to increase its capital stock from $1,000,000 to $2,000,000. Hugh D. Auchincloss of New York is mentioned as President.

Port of Para (Brazil) Co.—*Listed in Cincinnati.*—The Cincinnati Stock Exchange has listed the stock and bonds of this company, which has been incorporated in Maine to develop the harbor at Para, Brazil.

The authorized issue of capital stock is $17,500,000, consisting of $10,000,000 common and $7,500,000 6% non cumulative preferred; par of shares $100. The first mortgage is limited to $18,000,000 5% gold bonds dated Jan. 1 1907 and due Jan. 1 1957, but subject to call in 1916 at 105. Trustee, National Trust Co., Toronto; denomination $100 and $500; interest payable at London, Paris, Amsterdam, Basle and New York. Sinking fund, one half of 1% yearly after 1912, may be applied in redeeming the bonds at 105. President, Percival Farquhar, New York City, Secretary Rodney D. Chipp.

Ralston Steel Car Co., Columbus, Ohio.—*First Dividend.*—The "Ohio State Journal" of April 16 announces the declaration of a first ("regular quarterly") dividend of 1¼% on the preferred stock, payable May 1 on stock of record of April 13. Compare V. 83, p. 198

Randolph-Macon Coal Co.—*Official Circular as to Default.*—President James T. Gardiner, No. 11 Broadway, New York, in a circular dated Feb. 4 explains substantially as outlined in V. 84, p. 312, the causes leading up to the default Feb. 1 on the $2,150,000 first mortgage 5% bonds. The circular also says:

Early in the year 1905 this company purchased the coal rights in about 43,000 acres of land, including ten operating mines, principally in Randolph County, Mo.—Mines 1, 2, 3 and 4 on the Wabash RR., Nos. 5 and 9 on the M. K. & T. RR., and 6, 7, 8 and 10 on the C. & A. RR., together with the appurtenant houses, stores and supplies. This group of mines had put out about 600,000 tons of coal a year according to the then last published report of the State Mine Inspector. All these mines were in actual operation when acquired. Since then Mine No. 11 has been opened.

During Feb. 1905 the two mines bought from the Wabash Coal Co. at Huntsville were fully operated and the net returns verified expectations. In March the average price of coal at Mines 1 and 2 dropped from $1 42 to $1 24 per ton, and later to $1 17 a ton, and the output was greatly reduced, increasing operating expenses. From these causes the net earnings declined to $1,112 and in April to $128; when the tonnage from Mines 1 and 2 had fallen off from 18,804 tons in February to 8,367. In May, with six mines operated, the net earnings were $3,096; in June, $2,129. From July 1 1905 until April 1 1906 the business was run at a loss of $81,994 from operating. Owing to the strike, work was totally suspended from April 1 1906 until the middle of June. It was, however, July 1906 before the mines were fully started. During the three months of suspension

$26,141 were expended in maintaining the mines and the organization. In addition, previous to July 1 1906 $322,369 had been expended in improvements to the mines, and houses were built to prepare for a force of men capable of putting out 700,000 tons a year. The coal produced has been very largely required to fill railroad contracts, leaving a comparatively limited amount for commercial trade, where the large profits are made.

In spite of all obstacles, your directors believe that the property can be profitably operated with electrical machinery and the output brought upto a scale of 700,000 tons a year. The General Manager had expected to reach this point by Dec. 1906, if additional working capital could be provided. With this expectation some of the directors personally loaned the company in cash and credit $180,000. The first of February, however, arrived with no money in the treasury to meet the interest on bonds or to pay pressing creditors, and consequently there has been a default in the semi-annual interest due on that date on the $2,150,000 first mortgage bonds. No facts have appeared to materially change the original estimate of the extent of coal underlying the lands, and its quality seems to be satisfactory to our customers. The floating debt, including interest and sinking fund, on Feb. 1 was about $320,000, and the accounts receivable, $64,289 Compare V. 84, p. 342; V. 83, p. 276; V. 82, p. 1045.

Richmond Standard Steel Spike & Iron Co.—*Sale.*—Receiver John E. Epps on April 6 sold this company's property and machinery at the mill in Manchester, Va., for $1,172. The buildings (sheds) were not sold, as they belong to the Virginia Passenger & Power Co.; the ground also belongs to them.—V. 80, p. 1482.

Schoen Steel Wheel Co., Pittsburgh, Pa.—*Bonds, &c.*—This company, in July last, authorized an issue of $1,500,000 bonds, of which $500,000 have been issued. On July 6 1906 the authorized issue of capital stock was increased from $500,000 to $10,000,000, but on July 23 only the original $500,000 was outstanding. Par, $100 per share.

Owns works at McKees Rocks, Pittsburgh, first placed in operation in November 1903, for the manufacture of solid forged and rolled steel wheels under the personal direction of Charles T. Schoen, the inventor of the system used. In 1905 the capacity of the plant was being increased from 100 to 250 wheels daily and there was talk of building open-hearth steel furnaces, the steel used having previously come from the Pennsylvania Malleable Steel Co. (V. 82, p. 456.) In December last it was reported that the eight large regenerative heating furnaces then being installed at the McKees Rocks works would, in connection with other extensive improvements and additions which have been made to the plant, "double its present capacity."

On Aug. 10 1901 the Schoen Pressed Steel Brake Beam Co. was incorporated under the laws of Pennsylvania with $500,000 authorized capital stock. On Feb. 12 1894 the name was changed to Schoen Brake Shoe Co. and on May 1903 to the present title. President, E. A. Schoen; Vice-President, I. Martin Johnson; Secretary, Frank B. Foster; Treasurer, Thos. G. Wood. New York office 170 Broadway.

Scullin-Gallagher Iron & Steel Co., St. Louis.—*Description of Plant.*—The "Railway Age" of Chicago for March 1 describes this company's works and says:

The company claims to have the largest individual plant for making steel castings in the United States. The number of men employed day and night is 2,000 and the capacity is 250 tons of castings in 24 hours. The company has for some time made a specialty of cast-steel bolsters for freight cars, and in 1906 it turned out about 25,000 tons of this material, in addition to 15 000 tons of miscellaneous steel castings.—V. 83, p. 1233.

Southern Bell Telephone & Telegraph Co. of Virginia.—*Increase in Authorized Capital Stock.*—The Virginia Corporation Commission has authorized an increase in the limit of capital stock from $3,000,000 to $6,000,000. The company is supposed to be controlled by the Southern Telephone & Telegraph Co. (a New York incorporation), over 99% of whose capital stock (authorized issue $30,000,000) is owned by the American Telephone & Telegraph Co.—V. 83, p. 327.

Spencer Kellogg Co., Buffalo, Minneapolis, New York.—*Bonds Offered by Independent Crushers of Linseed.*—This company's present linseed oil plant is located in Buffalo and "consists of 138 presses, with a crushing capacity of 6,000,000 bushels. It is proposed by the management to have 48 more presses, 24 of these at Edgewater, N. J., which is close to Shadyside and 24 at Minneapolis, Minn. The company also proposes to erect an oil refinery at Edgewater for the purpose of refining oils." Eight acres of land for the Edgewater plants were purchased in 1905 in New Jersey opposite 96th Street, New York.

To provide for these and other additions, and for further working capital, the company offered at 96½ and interest its total issue of $2,500,000 first mortgage 30-year 5% gold bonds of $1,000 each (c*), dated Jan. 1 1907, due Jan. 1 1937, but subject to call as an entire issue on and after Jan. 1 1927, at par and interest, with a redemption clause providing for retirement of bonds at par, at rate of $250,000 per year after first twenty years. Principal and interest payable without deduction for taxes. Interest payable Jan. 1 and July 1 at Commonwealth trust Co., trustee, Buffalo. A circular says in substance:

The company is a New York corporation, engaged in the manufacture of pure linseed oil, raw and refined, of all kinds; also linseed oil cake and in close relationship with its main business, in the elevation and transfer of all kinds of grain, including flax-seed. The present company, owned exclusively by the President and his sons, and consisting of an earned surplus and paid-up capital of $2,750,000 (the stock issued being $1,000,000.—Ed.) was incorporated in 1904. The senior Mr. Kellogg has been in the linseed oil business a lifetime, and his father and grandfather preceded him in the industry, the establishment of the original primitive mill dating back as early as 1824. Mr. Kellogg began business for himself by erecting in 1893 the largest mill erected in the United States up to that time—consisting of 36 large presses, or an increase of over twelve times the capacity of the mill of 1879.

The present plant has a conservatively estimated annual crushing capacity of over 5,000,000 bushels of seed, and an output of over 250,000 barrels of oil and 100,000 tons of oil cake, consists of 4 mills, containing in the aggregate 138 presses, the largest linseed oil plant in the United States. It is located on a valuable site in Buffalo directly on the Buffalo Creek RR., and on the Buffalo River, where lake vessels may be unloaded and canal-boats may be loaded with oil or cake, or grain, for New York or export. The company owns on this site a large grain elevator. The 8 acres owned at Edgewater, N. J., opposite 96th Street, New York City, are admirably adapted to the operation of a mill for supplying the Eastern trade at a minimum expense. The company operates its own tank car line of 55 cars, and owns at its South Buffalo plant a large tank station and a fireproof special oil refinery of large capacity.

The present equipment of the company is no longer adequate to meet the demands for its products. The purpose of this bond issue is therefore to furnish additional capacity and to increase the working capital. It is proposed to add largely to the crushing capacity by the addition of one or more large mills, advantageously located, and to purchase real estate for the same; to purchase a large additional elevator at Buffalo in order to facilitate its own business and to handle its outside grain business, which increased over 100% last year. At New York a large and complete tanking station will be equipped, while a refinery duplicating the one at Buffalo will be erected there to take care of New York and Eastern trade. Its present tank car line will be largely increased by the addition of a number of much-needed steel cars.

The earnings have increased steadily and for the past ten years, which includes one year of financial depression, the net yearly earnings have been more than enough to pay the interest three times over on the proposed issue. The net earnings during the past five years have been much larger. The management conservatively estimates that the earnings on the proposed increasing crushing capacity will at least be proportionately as great as on the present investment. None of the above figures take into consideration the amounts earned by elevators, and from which a lucrative revenue is derived, or the savings to be made in operating costs by large increase in capacity, saving in freight by a more perfect distribution of tonnage, and contemplated improvements. The bond issue is secured by a first mortgage upon the entire property of the company, now owned or to be acquired. Spencer Kellogg, President; Spencer Kellogg Jr., Vice-President; Howard Kellogg, Secretary and Treasurer.

Syracuse (N. Y.) Lighting Co.—*Offer to Purchase.*—The Syracuse Light & Power Co. was incorporated early this month in Connecticut, with $1,000,000 capital stock, all of which, it is said, will be owned by the United Gas Improvement Co. of Philadelphia. A circular letter which was sent last week to stockholders in the Syracuse Lighting Co. said:

Under the terms of an agreement made between the Syracuse Light & Power Co., a Connecticut corporation, the Trust Company of America, the Colonial Trust Co. and the holders of a majority of all the shares of stock of the Syracuse Lighting Co., dated April 8 1907, the Syracuse Light & Power Co. has agreed to purchase all the common and preferred shares of the Syracuse Lighting Co. and to pay therefor in its 5% collateral trust sinking fund 5% gold bonds bearing interest from July 1 1907 at the rate of $110 in the par of said bonds for each $100 at par of said preferred stock and $100 in par of said bonds for each $100 at par of said common stock, provided the holders of said common stock shall pay in cash to the Colonial Trust Co., for the account of the Syracuse Light & Power Co., the sum of $10 for each share of common stock delivered to it under said contract, and provided this offer shall be accepted and deposits and payments made thereunder at the Colonial Trust Co. in New York on or before April 16 1907, the Syracuse Light & Power Co. reserving to itself the right to purchase such shares as shall be deposited on or before said date, or to decline to purchase any shares unless all shares shall be deposited on or before said date.—V. 84, p. 629, 512.

Syracuse (N. Y.) Light & Power Co.—*New Company—Circular.*—See Syracuse Lighting Co. below.

The allied interests, it is said, now control the plant at Middlesex Narrows and all the lighting and power contracts in Montpelier, Middlesex, Barre, Williamstown, East Barre, South Barre, Graniteville and Waterbury. The combined power of the two plants is 6,600 hydraulic horsepower and 3,500 steam horse-power, or a total of 10,100 horse-power. The Consolidated Lighting Co. in 1906 made a mortgage to secure an issue of $700,000 5% gold bonds, of which $550,000 have been issued.—(V. 82, p. 283, 454.)

Union Fork & Hoe Co.—*Consolidation.*—This company was incorporated at Columbus, Ohio, on March 23 1907 with $1,100,000 capital stock, of which half is 7% cumulative preferred, as a consolidation of the United States Hoe & Tool Co. of Columbus (incorporated in January 1905 with $150,000 capital stock, which was increased in July last to $200,000) and the Continental Tool Co. of Frankfort, N. Y. The incorporators include E. A. Cole, President and Treasurer of the United States Company; John W. Kauffman, its Vice-President, and P. F. Connors, its Secretary.

United Electric Light Co., Springfield, Mass.—*Reduction in Rates.*—This company on April 1 reduced its maximum rate 16 2-3%, namely, from 18c. to 15c. per kilowatt hour.

"The company is now at work on an addition to its State St. power station, which will eventually provide an additional 12,000 horse-power to meet the demands of its growing business." In 1900 the maximum rate was reduced from 23c. to 18c. Under the new arrangement, after the first 40 hours' use per month of each 16 candle-power lamp or its equivalent, the rate will be 8 cts. per kilowatt hour, as in the past.—V. 83, p. 499.

United Gas Improvement Co., Philadelphia.—*New Proposition—New Subsidiary.*—See Syracuse Lighting Co. above. —V. 84, p. 275, 164,

United States Independent Telephone Co., Rochester, N. Y.—*Injunction Continued Pending Action.*—On April 11 Attorney-General Jackson obtained from the Supreme Court at Albany continuance of the injunction restraining the American Telephone & Telegraph Co. from acquiring control pending the trial of the action brought in the name of the State of New York. This step is based on the report of the referee that the amalgamation is in contravention of the State Anti-Trust law. Compare V. 84, p. 630, 343.

United States Steel Corporation.—*Ore Lease Ratified.*—At the annual meeting held on April 15 the shareholders ratified the arrangement under which the Great Northern ore properties are to be leased to the Great Western Mining Co. on a royalty basis, the performance of the terms of the lease to be guaranteed by the United States Steel Corporation. Compare V. 84, p. 635, 630; V. 83, p. 1261, 1290.

Clarence H. Venner gave notice that he has instituted a suit in the District Court of Ramsey County, Minn., against the Great Northern Ry., the Lake Superior Co., J. J. Hill, Louis W. Hill, Walter J. Hill and Edward T. Nichols, as trustees, in which he claims that all the lands and properties held in the name of the proposed lessors are the properties of the Great Northern Ry., having been bought and paid for with the funds of the latter. —V. 84, p. 876, 808.

Vermont Power & Lighting Co., Montpelier, Vt.—*Purchase—New Bond Issue.*—This company was incorporated in February last under the laws of Vermont, with $1,000,000 authorized capital stock, all of one class (par of shares $100), and acquired the J. S. Viles Electric Plant, Montpelier. The new company has made a trust deed to the Trust Company of America, New York City, as trustee, to secure an issue of $500,000 5% 20-year bonds, dated April 1 1907; interest payable semi-annually at office of trustee; amount outstanding, $400,000; there are no underlying liens. The officers are: President, George B. Moore, Port Huron, Mich.; Vice-President, John C. Tomlinson; Treasurer, A. D. Bennett; Secretary and General Manager, J. E. Davidson, Montpelier, Vt. A number of the leading stockholders own the Consolidated Lighting Co. of Montpelier (a consolidation in 1885 of the Montpelier Gas Co. and the Standard Light & Power Co.) and the two enterprises have one management.

For other Investment News see page 941.

Reports and Documents.

THE CLEVELAND CINCINNATI CHICAGO & ST. LOUIS RAILWAY COMPANY.

EIGHTEENTH ANNUAL REOPRT—FOR YEAR ENDING DECEMBER 31 1906.

To the Stockholders of The Cleveland Cincinnati Chicago & St. Louis Railway Company:

The Board of Directors submits herewith the following report for the year ended December 31st 1906:

The mileage embraced in the operation of the road is as follows:

Main line	1,679.91
Branches	168.75
Trackage rights	134.62
Total length of road operated	1,983.28
Second track	252.31
Side tracks	950.46
Total mileage of track	3,186.05

The total mileage of track operated has been increased during the year as follows:

Second track:	increased	33.93	
Side tracks:	increased	20.76	
			54.69
Main track:	decreased	.11	
Trackage rights:	decreased	.03	.14
Total additional tracks			54.55

The following is a statement of the capital stock authorized and outstanding:

Preferred stock authorized to December 31 1906			$10,000,000 00
Common stock authorized to Dec. 31 1905	$40,000,000 00		
Common stock authorized under resolution of stockholders October 31 1906	10,000,000 00	50,000,000 00	
Total preferred and common stock authorized to Dec. 31 '06			$60,000,000 00
Pref. stock issued and outstand'g Dec. 31 1906	$10,000,000 00		
Common stock issued and outstanding December 31 1905	$35,595,163 00		
Common stock sold during the year under resolution of stockholders June 21 1905 to provide for current expenditures for additions to the property and other corporate purposes, and to reimburse the treasury for payments on account of construction and purchase of equipment prior to 1906	$4,404,837 00	40,000,000 00	50,000,000 00
Balance common stock authorized but not issued Dec. 31 1906			$10,000,000 00

The funded debt outstanding December 31 1905 was	$62,612,727 45
This has been increased during the year by the issue of C. C. C. & St. L. Ry. general mortgage bonds for improvements	1,000,000 00
Total funded debt outstanding December 31 1906	$63,612,727 45

There was expended during the year for additions to the property, improvements, double-tracking, equipment, etc., and charged to cost of road and equipment, the sum of $12,399,126 25, as follows:

Cleveland Division—		
Second track between Grafton and Wellington	$11,060 52	
Separation of grades at Cleveland	43,994 32	
Separation of grades, Indianapolis	8,567 34	
Side tracks	16,208 74	
Miscellaneous; buildings, structures, etc	31,984 20	
		$111,815 12
Cincinnati Division—		
Re location and second track between Cincinnati and Dayton	$835,940 79	
Springfield terminals	26,648 22	
Sharon yards	171,397 91	
Side tracks	30,146 20	
Miscellaneous; buildings, structures, etc	11,105 10	
		1,075,238 22
St. Louis Division—		
Re-location and second track between Terre Haute and Indianapolis	$1,813,341 38	
Second track between Pana and Hillsboro	6,187 85	
Separation of grades, Indianapolis	824 16	
Miscellaneous; buildings, structures, etc	9,047 79	
	$1,829,401 18	
Credit—For side tracks rem., acct. 2d track	10,498 19	
		1,818,902 99
Chicago Division—		
Re-location and second track between Cincinnati and Indianapolis	$820,730 08	
Re-location and second track, north of Ind'polis	181,554 65	
Beech Grove shops	267,508 26	
Belt Line improvement, Indianapolis	30,231 06	
Gravel pit, La Fayette	63,814 65	
Side tracks	62,171 24	
Greensburg improvements	20,447 73	
Miscellaneous; buildings, structures, etc	10,696 60	
		1,457,154 27
Cairo Division—		
Re-location of track between Danville and Harrisburg	$3,469,169 26	
Shops, Mt. Carmel—Engine houses, Harrisburg and Lyon	319,428 41	
Bridges between Cairo and Harrisburg	54,780 00	
Side tracks	14,232 89	
Miscellaneous; buildings, structures, etc	16,591 15	
		3,874,201 71
Michigan Division—		
Bridges	$98,824 91	
Side tracks, etc	8,652 54	
		107,477 45
Equipment—		
Locomotives	$1,374,878 69	
Freight cars	2,087,363 28	
Work cars	282,076 45	
Passenger cars	210,018 07	3,954,336 49
Total		$12,399,126 25

There has been advanced for real estate and easements on the Cairo Division during the year, $517,073 35.

There has been advanced on account of the St. Louis Short Line Division during the year for construction, $49,912 22.

There has been advanced to the Central Indiana Railway Company during the year, for improvements and operation, $72,652 95.

The Evansville Mt. Carmel & Northern Railway Company was organized under the laws of the State of Indiana August 1 1906, and under the laws of the State of Illinois November 7 1906, to construct a railroad from Mt. Carmel, on the Cairo Division, to Evansville, Indiana. There has been advanced on account of this property during the year, $85,356 92.

There has been advanced on account of the new Union Passenger Station at Cincinnati during the year, $50,000 00.

SUMMARY OF FINANCIAL OPERATIONS AFFECTING INCOME.

	1906. (Miles operated	1905. (Miles operated	Increase (+) or Decrease (—)
Earnings from operation.	1,983.28)	1,983.42)	—.14
Freight traffic	$15,683,733 05	$14,291,107 88	+$1,392,625 17

		$11,552 56
Amount to credit of profit and loss Dec. 31 1905		1,661,682 38
Balance, December 31 1906		$1,673,234 94

The gross earnings were $24,594,915 82, an increase of $2,077,152 56.

The freight earnings were $15,683,733 05, an increase of $1,392,625 17 due to increased tonnage handled and longer average haul, the Cairo Division showing the largest relative increase in revenue, about 38%, resulting from the development of the new coal fields.

The passenger earnings were $6,963,864 23, an increase of $584,808 54, due to general increase on all classes of business, the local showing an increase of 6% and the interline an increase of 12%.

The express earnings were $646,767 01, an increase of $32,800 94.

The mail earnings were $782,577 02, a decrease of $4,720 57.

The rent earnings were $487,726 42, an increase of $74,110 07, due chiefly to increased rental received from foreign roads.

The expenses of operation were $18,432,713 33, an increase of $1,553,367 89.

Maintenance of way and structures showed an increase of $287,372 19, due to larger expenditures for repairs of roadway.

Maintenance of equipment showed an increase of $183,252 56, due to heavier general repairs and also to heavier charges for renewals to maintain the standard of equipment.

Conducting transportation showed an increase of $1,018,959 24. The principal items of increase were as follows:

Fuel for locomotives increased $300,889 35.

Engine and roundhouse men, train service and supplies increased $365,065 46.

Station, yard, telegraph service and supplies increased $188,066 81.

Rents for tracks, yards and terminals increased $53,965 93.

The net earnings were $6,162,202 49, an increase of $523,784 67.

Other income was $208,568 99, a decrease of $32,907 70, due principally to decreased interest earned from notes and deposits.

First charges were $4,306,039 92, a net increase of $296,570 01. The principal fluctuations consisted of an increase in interest on funded debt, due to the issue of additional bonds, increased taxes and increased interest on loans.

The net income for the year, after paying first charges, was $2,064,731 56, out of which were paid the usual dividends of 5% on preferred stock and 4% on common stock, leaving a surplus for the year of $53,052 56.

The increase of $182,804 00 in the common stock dividends due to additional stock issued during the year.

On the pages following will be found the general balance sheets and tabulated statements showing results of operation for the year.

There will also be found following this report statements showing the financial condition and results from operation of the Peoria & Eastern Railway (see below) and the Cincinnati Northern Railroad (see pamphlet report).

The operation of the Kankakee & Seneca Railroad for the year (for which separate accounts are kept) shows earnings $72,651 74, operating expenses and taxes $77,779 80, deficit $5,128 06.

The Mt. Gilead Short Line (for which separate accounts are kept) shows earnings for the year $6,554 88, operating expenses and taxes $5,066 73, surplus $1,488 15.

NEWHOUSE MINES & SMELTERS.

OFFICIAL STATEMENT IN CONNECTION WITH THE LISTING OF THE STOCK IN THE UNLISTED DEPARTMENT OF THE NEW YORK STOCK EXCHANGE.

New York, February 8 1907.

Application is hereby made to list $6,000,000 (600,000 shares) of the Capital Stock of Newhouse Mines & Smelters, represented by certificates, par value $10, already issued.

The total authorized Capital Stock is $6,000,000, divided into 600,000 shares of the par value of $10 each. The entire Capital Stock of the Company is fully issued, fully paid and non-assessable.

The title of the Company is "Newhouse Mines & Smelters." It was incorporated May 12 1903, pursuant to the Act of the Legislature of the State of New York known as "Business Corporations Law of the State of New York," and all the amendments thereto. A certified copy of the incorporation papers was filed and recorded on the 16th day of May 1903, and a duplicate of the same filed with the Clerk of the County of New York on the 18th day of May 1903. The duration of the charter is perpetual.

Ownership of Capital Stock involves no personal liability. Each share of stock is entitled to one vote.

This corporation is an original organization formed for the purpose of mining, milling, concentrating and treating of gold and silver and any and all other ores, and to buy, sell and handle in every mode and manner and to treat and manufacture all of the products and by-products of said ores; to acquire by sale, purchase or contract, and to own, conduct, build, construct and maintain plants, buildings, machinery, furnaces, works, tools, implements and all other appurtenances and appliances for the purpose of mining, milling, treating and manufacturing said ores and their products and by-products; to manufacture, buy, sell and deal in coke; to acquire by purchase, lease or contract mining lands, mining rights, timber lands, vacant lands, town lots or any other kind of real estate or rights in lands, and to buy, sell and deal in the same, or to work or turn to account said lands for any of the purposes of the corporation; to acquire by purchase, lease or contract, and to construct, build, sell, lease or otherwise dispose of, houses for employees or such other persons or corporations as may desire to purchase, lease or rent the same.

Immediately following its incorporation in 1903 the Company purchased the mining claims, titles and properties of the Cactus Smelting & Copper Mining Company at an aggregate cost of $6,000,000, and issued its Capital Stock therefor. The Cactus Smelting & Copper Mining Company was origin-

ally the Royal Copper Company, which was organized February 2 1901 under the laws of the State of Colorado. That Company, at a meeting of its shareholders held July 15 1902, changed its corporate name to the Cactus Smelting & Copper Mining Company.

The Newhouse Mines & Smelters obtained by purchase from the Cactus Smelting & Copper Mining Company, Cactus Lode, U. S. Survey 39A, 20.65 acres; Morrison No. 2, U. S. Survey 4876, 1.578 acres; Nana, U. S. Survey 4754, 20.05 acres; Town-site, U. S. Survey 5755, 20.127 acres; Town-site Extension, U. S. Survey 4753, 13.521 acres, and Union Lode, U. S. Survey 4752, 10.158 acres, which are designated as the Cactus Group of Claims.

The Newhouse Mines & Smelters by purchase and location also secured title to the following claims: Tunnel, Laura, Augusta, Boston, Louise R. and Estelle, all of which are in U. S. Survey 4611, and Midvale Placer, which is in U. S. Survey 4877.

The present property of Newhouse Mines & Smelters comprises the Cactus and twelve other lode-mining claims, containing 210.82 acres; Midvale Placer and Midvale Extension containing 214.25 acres; a townsite and land containing 8,800 acres purchased from the State of Utah, a total of 9,225.07 acres.

Titles to all this ground are vested in the Company by patents issued by the United States of America, excepting two lode-mining claims, namely, Nana and Comstock No. 4 (patent for the Nana will be issued within thirty days), and Midvale Placer Extension.

The claims are laid in an easterly and westerly direction, are about 1,200 feet in width and over one and one-half miles in length, along the course of the fissures, and cover the apex of the ore bodies now developed and extension of the fissures in which these ores occur.

The mining properties owned by the Company are located at the town of Newhouse, in the San Francisco mining district of Beaver County, State of Utah, seven miles from Frisco, Utah, and 225 miles by railroad south of Salt Lake City. The actual total ore in sight on the Company's property is 2,282,437 tons, with an additional estimated tonnage of 1,920,415 tons in sight. Up to March 1 1907 this ore ran 2.5 per cent copper, with $0 35 gold and silver; but later in this month the Company began shipping crude ore, taken entirely from development work, which averaged over 20 per cent copper. The Company concentrates its low-grade ores, putting about eight tons into one and producing a concentrate running from 16 to 17 per cent in copper. The concentrates and crude ore are shipped to The American Smelting & Refining Company, at Garfield, for smelting and refining.

The equipment consists of four miles of standard-gauge railway from mine to mill; an underground electric mine railway 6,200 feet in length; 65-ton Shay locomotive; ore-cars, crushing-plant, concentrating-mill, power-plant, boiler-plant, laboratory, assay office, machine shop, reservoirs, pipe line, water system, ore bins, steam shovels and all other necessary mine equipment.

The Company owns the town-site of Newhouse, with 42 dwellings completed and 30 additional under construction; miners' hotel and club house. The Company furnishes water supply and electric light to the town.

The reduction plant of the Company includes a power house of 1,700 horse-power capacity, crusher-house and concentrating mill with 1,000 tons daily capacity, which is now undergoing enlargement to 1,600 tons daily capacity.

The Company also owns in fee simple, in virtue of patent deeds issued by the Government of the United States, 312 acres, on which are located the Wah-Wah Springs, the water of which is brought in a steel pipe by gravity for eight and a half miles to the concentrating and town-site plants. The water flows one thousand gallons a minute and is sufficient for all requirements of the concentrating plant and the town of Newhouse.

Since acquiring the first-mentioned properties the Company has expended in underground development and tunnel construction $1,006,840 93, of which $624,694 26 has been charged to expense account and $382,146 27 to capital account.

The cost of the water plant was $155,401 81.

The electric railway cost $19,104 02.

The Company constructed eight miles of standard-gauge railway for a branch line of the San Pedro Los Angeles & Salt Lake RR. from Frisco to the town of Newhouse at a cost of $99,464 47, as an advance to the railroad, which is being repaid.

The Company has a mortgage indebtedness of $1,500,000 First Mortgage Gold Bonds, due 1913, being 1,500 bonds of the denomination of $1,000 each, all of like date and tenor, bearing interest at the rate of Six per cent per annum, and payable in gold on the first day of January and July of each year.

The bonds are secured by a Mortgage or Deed of Trust, amounting to $1,500,000, dated 1st day of June, 1903, made by the Company to the Colonial Trust Company of this city, as Trustee, and are a first mortgage upon the Company's entire property now owned or possessed and which may hereafter be acquired.

At the organization of the Company, $1,000,000 of these bonds were applied towards the payment and development of the Company's mines and erection of its plant. The other $500,000 were placed in the treasury and subsequently sold at par, the proceeds being applied to the completion of the Company's works.

The Company has the right, on any interest-paying date on and after June 1905, to pay or redeem all or any of the bonds at par by giving a previous notice of 60 days.

After May 1 1907 the Company is obligated to pay annually to the Trustee, for sinking fund purposes, $100,000, either by the surrender of bonds or in cash. If paid in cash, the Trustee may purchase bonds, provided same can be done at less than par; otherwise the Trustee shall retire by drawings $100,000 of the bonds at par at the next interest-bearing date.

There are no outstanding claims hostile to the Company or any of its properties.

At the next meeting of the Directors of our Company a resolution will be passed to the effect that this Company shall make an annual report which shall give a detailed statement of its financial condition.

We will also pass a resolution to embody the following, which shall be made a By-Law of the Company, at the next annual meeting of its shareholders:

"Neither Newhouse Mines & Smelters, nor any subsidiary company by it controlled, shall speculate in the stock of either the Newhouse Mines & Smelters or of any subsidiary company, or shall buy or sell the same, except in the regular course of the legitimate business of such Company, or for the purpose of retirement; and this provision shall be unalterable save by the vote of the holders of three-fourths of each and every class of stock of the Company, voting thereon, at a meeting called as provided in the preceding sections of this Article."

COPPER SALES AND PROFIT AND LOSS ACCOUNT FROM JULY 1 1905 TO DECEMBER 31 1906.

	Year Ended June 30 '06.	*Half-Year Ended Dec. 31 '06.*
To cost of mining, concentrating, transporting to smelter, smelting and refining charges, and copper deficiency charges	$778,452 82	$337,957 09
To New York office expenses, including incorporation and legal expenses and General Manager's salary	18,787 44	9,865 46

The fiscal year ends on the 30th day of June in each year. The annual meeting is held on the fourth Friday of March. The Transfer Agent is the Colonial Trust Company of New York, 220-222 Broadway. The Registrar of Transfer is the Windsor Trust Company, 65 Cedar Street.

The Officers of the Company are: Samuel Newhouse, President; Eugene Meyer Jr., Vice-President; Lyman B. Kendall, Second Vice-President; John Josten, Secretary and Treasurer.

The Directors of the Company are all elected annually. The present Directors are: Samuel Newhouse, Eugene Meyer Jr., Lafayette Hanchett, M. M. Johnson and John Josten.

The principal office of the Company is at No. 71 Broadway, New York.

EUGENE MEYER Jr., *Vice-President.*

The Committee on Unlisted Securities reports favorably upon the above application, and recommends that the above-mentioned $6,000,000 Capital Stock, consisting of 600,000 shares of the par value of $10 each, of the Newhouse Mines & Smelters, be admitted to quotation in the Unlisted Department on April 11 1907, and that stock said be traded in at dollars per share.

GEORGE W. ELY, *Secretary.*
J. B. MABON, *Chairman.*

Warwick Iron & Steel Co.—*Dividend Increased.*—The directors on Tuesday declared a semi-annual dividend of 3%, payable May 15. This contrasts with 2% semi-annually paid in May 1906 (the first distribution since 1901) and also in November last.—V. 84, p. 630, 343.

Wolf Mfg. Co., Chambersburg, Pa.—*Receiver.*—The United States District Court at Scranton, Pa., on April 8 placed this company, manufacturer of mill supplies, in the hands of Walter K. Sharp of Chambersburg, Pa., as receiver.

The receivership petition was filed by Sullivan & Cromwell of New York, attorneys for the New York Cordage Co., Charles A. Schieren & Co., and other creditors. The company has outstanding $350,000 of stock, a bonded debt of $150,000, and other indebtedness, it is said, of about $600,000. It was recently proposed to increase the stock to $1,000,000 and to give the creditors preferred shares; but some of the creditors objected.

—On the page opposite our weekly clearings statement the Firm of Frederic H. Hatch at 30 Broad Street, this city, to-day advertise a partial list of securities in which they are prepared to deal, comprising "stocks and bonds wanted" and "stocks and bonds for sale." Requests for bids, offers or valuations are invited from banks, trust companies, executors of estates and individual investors. The firm state that by reason of their systematized filing records and office organization, they are equipped to furnish quotations on over one hundred thousand inactive securities of banks, trust companies, railroad companies, manufacturing and other industrial corporations.

—Referring to Southern industrial activity, Fisk & Robinson report that thus far this season has been an extraordinarily active one in the lumber shipments from Gulfport. During the last two months over 66,000,000 feet have been shipped. The Gulf & Ship Island RR., whose southern terminus is at Gulfport, is receiving a consignment of 500 new freight cars, which are coming to hand at an opportune time. This road reports an increase over last year of 35% in the amount of cotton handled over the company's lines during the past season.

—The joint Congressional Postal Commission lately appointed to investigate the methods of accounting and expenditure in use in the Post Office Department and postal service, and to recommend such improvements as they find necessary, has retained the well-known accounting firms of Deloitte, Plender, Griffiths & Co. and Jones, Caesar, Dickinson, Wilmot & Co. to make an examination of the methods in use and recommendations to bring them on to modern business lines. The work will be taken in hand at once.

—J. W. Bowen & Co., 25 Exchange Building, Boston, have issued a valuable circular entitled "Copper Stocks and Figures," covering such facts as the amount of share capital, the earnings, operations, price of stock, name of President, address of company, &c., for each of fifty-one representative copper companies.

—Messrs. Swartwout & Appenzellar have issued an addition to their pamphlet on short-term securities in the shape of an extra leaf, which can be readily inserted in the book, making it a most complete and desirable compilation. The firm are specialists in this class of securities.

—Merle B. Moon, formerly with the bond house of Rudolph Kleybolte & Co., has opened an office in the Marquette Building, Chicago, to represent the interests of Knauth, Nachod & Kuhne, especially in the buying and selling of bonds and other high-grade securities.

—Middendorf, Williams & Co., Baltimore, have issued an elaborate circular calling attention to the stock of the Norfolk Railway & Light Co.

—John L. Williams & Sons of Richmond, Va., have issued a circular regarding the Norfolk Railway & Light Co. guaranteed stock.

—The Municipal & Corporation Securities Co. of Pittsburgh is offering a block of 5% bonds of the West Penn Rys.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, April 19 1907.

The manufacturing industries are as active as ever, and if here and there some indications appear of a slight reaction in trade they are not marked enough to affect the general result. In a word, prosperity, good prices and a feeling of confidence, naturally encouraged by easier rates for money, continued dominant characteristics in affairs.

LARD on the spot has ruled easy, but changes have been slight. Trade has continued dull and packers have offered more freely. City 8 3/8@8½c. and Western 8.70@8.80c. Refined lard has declined, influenced by the stagnation of trade and weakness in lard futures at the West. Offerings have increased. The market for lard futures at Chicago has been active and weak. Prices have declined under the depressing influence of larger receipts of hogs than expected and the dulness of the spot trade. Packers have sold at times, and there has been heavy liquidation for account of commission houses. Support has been lacking.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery	8.70	8.65	8.62½	8.57½	8.55	8.62½
July delivery	8.82½	8.77½	8.75	8.70	8.67½	8.75
September delivery	8.95	8.90	8.87½	8.85	8.80	8.87½

PORK on the spot has been easy, owing to weakness in futures and in lard, but changes in quotations have been unimportant and mainly nominal, trade having continued dull. Small sales have been made of late at $17 50@$18 25 for mess, $17 75@$19 for clear and $19@$19 50 for family. Cut meats have been easy but without quotable change. Trade has continued quiet. Pickled shoulders 9½@10c., pickled hams 12@12½c. and pickled bellies, 14@10 lbs., 10¼@11c. Tallow has been dull and easy; City 6¼c. Stearines have been weak with trade dull and supplies larger. Oleo 9@9¼c. and lard 9¾c. Butter has been moderately active and firmer; offerings lighter; creamery extras 31½@32c. Cheese has been fairly active and steady; State factory 15c. Eggs have been in good demand and firm; Western firsts 18c.

OIL.—Cottonseed has been firmer. The demand has been more active and offerings have decreased. Prime summer yellow 46@47c.; prime winter yellow 52c. Linseed has been moderately active and firm. City, raw, American seed, 42@43c.; boiled 43@44c. and Calcutta 70c. Lard has been dull with prime easier, owing to the decline of late in the raw material. Prime 75@77c. and No. 1 extra 58@60c. Olive has been firm with an increased demand. Yellow 80@90c. and green 70@75c. Cocoanut has been dull but firm, owing to light supplies. Cochin 10¾c. and Ceylon 9⅜@9½c. Peanut has been quiet and steady; yellow 50@60c. Cod has been moderately active and steady; domestic 38@40c. and Newfoundland 40@42c.

COFFEE on the spot has been dull and easy. Small jobbing sales have been made of late at 6¾c. for Rio No. 7 and 7⅝c. for Santos No. 4. West India growths have been quiet and steady; fair to good Cucuta 8⅜@9½c. The market for future contracts fluctuated within narrow limits, with the drift downward in the main. The cables from Havre have been weak at times and Europe has been selling here of late. Tired local longs have sold out in some cases and there has been a lack of support, while the narrowness of the speculation has also had a depressing effect.

The closing prices were as follows:

April	5.65c.	August	5.35c.	December	5.40c.
May	5.65c.	September	5.35c.	January	5.40c.
June	5.55c.	October	5.35c.	February	5.40c.
July	5.50c.	November	5.35c.	March	5.45c.

SUGAR.—Raw has been firmer with an increased demand from refiners, especially for Porto Rico sugar. Centrifugal 96-degrees test, 3.76½c.; muscovado, 89-degrees test, 3.26½c.; and molasses, 89-degrees test, 3.04c. Refined has been moderately active and firm; granulated 4.70@4.80c. Teas have been quiet and steady. Spices have been moderately active and steady.

PETROLEUM.—Refined has been active and firm. Refined barrels 8.20c., bulk 4.75c and cases 10.65c. Naphtha has been in good demand and firm; 73@76 degrees, 18c., in 100-gallon drums. Gasoline has been active and firm; 86 degrees, 21c., in 100-gallon drums. Spirits of turpentine has been easier and less active at 71c. Rosin has been in moderate demand and firm; common to good strained $4 65.

TOBACCO.—In the tobacco trade interest has centred largely in Sumatra, but the demand has been largely for the old crop as supplies can be secured on more favorable terms than the new. Trade in domestic leaf has been quieter, but as a rule prices have remained firm. Advices from Kentucky state that the growing crop has been seriously damaged in a number of fields, while stocks of old-crop tobacco have been reduced through the destruction of warehouses by fires. Reports regarding the Havana crop have been more favorable of late.

COPPER has been active and firm; Lake 24¾@25c.; electrolytic 24@24¼c. Lead has been quiet and steady at 6.05c. Spelter has been quiet and easy at 6.65@6.75c. Tin has been quiet and easy; Straits 40½c. Iron has been firmer; No. 1 Northern $23 20@$24 70; No. 2 Southern $22 75@$24.

COTTON.

Friday Night, April 19 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 79,481 bales, against 113,585 bales last week and 109,008 bales the previous week, making the total receipts since the 1st of September 1906, 9,113,517 bales, against 6,957,386 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,156,161 bales.

Speculation in cotton for future delivery has continued very quiet, but, owing largely to reports of cold weather east of the Mississippi and of drought in the Southwest, as well as a strong and active Liverpool market, prices have advanced. Some decrease in the crop movement, firm spot markets, very large exports, reports of a better demand for the lower grades at the South and of increasing scarcity of the better descriptions, continued activity in the cotton goods trade, and finally, bull manipulation of the May option, have also contributed to strengthen prices. A moderate decline occurred on Wednesday, owing to copious rains in the Gulf and Atlantic sections of the belt and what looked like at least a partial breaking of the drought in Texas. But on Thursday there was an advance, owing to reports that the rains in Texas had been insufficient, continued activity in the spot business at Liverpool, large spot sales at New Orleans and further manipulation of May. It looked, too, as though the into sight figures for the week would be comparatively small, despite the fact that the movement at the Southwestern points of late have been somewhat larger than expected. The near months have been especially firm, not only here but in Liverpool and in New Orleans. The fact that May, which was recently at a discount of 14 points under July, has during the past week sold even with that month and has latterly kept within two or three points of it is regarded as an interesting circumstance, especially in view of the fact that "notice" day is so near—Friday, April 26. The next-crop months have latterly shown less strength than those for this crop, owing to improved weather conditions of late, though it is contended that higher temperatures are desirable, frost, indeed, having been quite frequent during the week in parts of the Southwest and also in the central and eastern sections of the belt. The impression in the trade is that the Atlantic and Eastern Gulf States now need warmer weather, having had good rains, and that portion of the belt lying west of the Mississippi needs both more rain and higher temperatures. Liverpool has been buying here, the South has shown rather more disposition to purchase, and spot interests have also bought to some extent. The great drawback in the market, however, from a speculative standpoint, is the continued absence of outside public trading. In a word, speculation by its extreme dulness presents a sharp contrast with the activity which prevails in the trade in actual cotton and in the manufactured product. To-day prices advanced, owing partly to a rise in Liverpool and New Orleans and partly to dry weather in Texas and reports that considerable replanting will have to be done east of the Mississippi, owing to the recent cold weather. Moreover, the May option showed a good deal of strength on both sides of the water and shorts were apprehensive of further manipulation. Finally, the "into sight" movement for the week was small, even more so than had been expected. There are rumors, too, that considerable export business has been done here of late. Spot cotton has been dull but firmer. Middling uplands closed at 11.20c., showing an advance for the week of 20 points.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Good Ordinary	9.85	9.90	9.90	9.85	9.85	9.95

Continental imports past week have been 95,000 bales.

The above figures for 1907 show a decrease from last week of 197,834 bales, a gain of 669,486 bales over 1906, an excess of 901,225 bales over 1905 and a gain of 2,097,852 bales over 1904.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

Towns.	Movement to April 19 1907.				Movement to April 20 1906.

The above totals show that the interior stocks have *decreased* during the week 32,614 bales, and are to-night 3,666 bales less than at the same time last year. The receipts at all the towns have been 1,199 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

	1906-07		1905-06	
April 19—	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis	8,436	*d*707,463	13,881	438,661
Via Cairo	1,933	202,474	2,623	186,039
Via Rock Island	1,601	72,585	468	40,891
Via Louisville	1,387	74,156	1,392	84,494
Via Cincinnati	768	48,699	770	48,695
Via other routes, &c	7,879	410,181	4,979	225,722
Total gross overland	22,004	1,515,558	24,113	1,024,412
Deduct shipments—				
Overland to N. Y., Boston, &c	2,562	149,436	1,826	127,544
Between interior towns	5,847	83,180	398	18,070
Inland, &c., from South	156	50,770	952	36,565
Total to be deducted	8,565	283,386	3,176	182,179
Leaving total net overland *a*	13,439	1,232,172	20,937	842,233

a Including movement by rail to Canada. *b* 7,534 bales added as correction since Sept. 1.

The foregoing shows the week's net overland movement has been 13,439 bales, against 20,937 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 389,939 bales.

	1906-07		1905-06	
In Sight and Spinners' Takings.	Week.	Since Sept. 1.	Week.	Since Sept. 1.

WEATHER REPORTS BY TELEGRAPH.—Advices by telegraph to us this evening from the South are on the whole less favorable. While rain has fallen in most localities, the precipitation has as a rule been light or moderate. But there are complaints that unseasonable cold weather has interfered with farm work and in some cases damage to cotton is claimed to have resulted. Beneficial rains are reported over Southwestern Texas, but general rains are stated to be badly needed in the State as a whole.

Galveston, Texas.—Beneficial rains have fallen over the southwestern portion of the State, but general rains are badly needed in Texas as a whole. There has been rain on one day during the week to the extent of forty-four hundredths of an inch. The thermometer has ranged from 56 to 80, averaging 68.

Abilene, Texas.—We have had showers on one day the past week, the rainfall reaching six hundredths of an inch. Average thermometer 65, highest 90, lowest 40.

Brenham, Texas.—There has been rain on one day during the week, the precipitation reaching fifty-three hundredths of an inch. The thermometer has averaged 71, the highest being 86 and the lowest 56.

Corpus Christi, Texas.—It has rained on two days of the week, the precipitation reaching eleven hundredths of an inch. The thermometer has averaged 74, ranging from 66 to 82.

Cuero, Texas.—We have had rain on two days during the week, the precipitation reaching one inch and fifty-five hundredths. The thermometer has ranged from 55 to 89, averaging 72.

Dallas, Texas.—It has rained on one day of the week to an inappreciable extent. Average thermometer 68, highest 90, lowest 45.

Huntsville, Texas.—It has rained on two days of the week, the rainfall being one inch and fifty-two hundredths. The thermometer has averaged 71, the highest being 87 and the lowest 55.

Fort Worth, Texas.—There has been a trace of rain on one day the past week. The thermometer has averaged 64, ranging from 42 to 86.

Henrietta, Texas.—Rain has fallen on one day of the week, the rainfall being inappreciable. The thermometer has ranged from 36 to 94, averaging 65.

Kerrville, Texas.—We have had heavy rain on one day of the past week, the rainfall reaching one inch and forty-nine hundredths. Average thermometer 74, highest 92, lowest 55.

Lampasas, Texas.—We have had rain on one day during the week, to the extent of twenty-eight hundredths of an inch. The thermometer has averaged 71, the highest being 93 and the lowest 48.

Longview, Texas.—We have had rain on one day during the week, to the extent of twenty-eight hundredths of an inch. The thermometer has averaged 64, ranging from 49 to 79.

Luling, Texas.—We have had heavy rain on one day during the week, the rainfall reaching one inch and twenty-three hundredths. The thermometer has ranged from 53 to 88, averaging 71.

Nacogdoches, Texas.—Rain has fallen heavily on one day of the week, the rainfall being one inch and sixty hundredths. Average thermometer 63, highest 84, lowest 41.

Palestine, Texas.—There has been rain on three days during the week, the precipitation being forty-nine hundredths of an inch. The thermometer has averaged 63, the highest being 80 and the lowest 46.

Paris, Texas.—It has been dry all the week. The thermometer has averaged 64, ranging from 43 to 84.

San Antonio, Texas.—There has been excessive rain on two days during the week, the rainfall reaching two inches and twenty hundredths of an inch. The thermometer has ranged from 58 to 88, averaging 73.

Weatherford, Texas.—Rain has fallen on one day of the week, the rainfall being four hundredths of an inch. Average thermometer 66, highest 91 and lowest 41.

Ardmore, Indian Territory.—Recent weather has been too cold for early-planted cotton. Work has been delayed some on account of scarcity of labor. There are reports that the winter was not cold enough to destroy insects and boll weevils.

New Orleans, Louisiana.—We have had rain on one day during the week, the precipitation being five hundredths of an inch. The thermometer has averaged 68.

Shreveport, Louisiana.—There has been rain on one day of the week, to the extent of one inch and twelve hundredths. The thermometer has averaged 60, ranging from 43 to 77.

Leland, Mississippi.—Rain has fallen on two days of the week, to the extent of one inch and ninety hundredths. Average thermometer 52.1, highest 69, lowest 39.

Vicksburg, Mississippi.—It has rained on three days during the week, the rainfall being one inch and one hundredth. The thermometer has averaged 59, the highest being 81 and the lowest 47.

Helena, Arkansas.—Too wet and cold for farming. There has been rain on two days during the week, the precipitation being one inch and ninety-eight hundredths. The thermometer has ranged from 36 to 67, averaging 52.3.

Little Rock, Arkansas.—The weather has been entirely too cold and wet the past week for crops, and the probability is that quite extensive re-planting will be necessary. There has been rain on four days during the week, the precipitation reaching two inches and three hundredths. The thermometer has averaged 52, the highest being 64 and the lowest 40.

Memphis, Tennessee.—Little farm work done the past week. Weather unseasonably cold, with frosts. We have had rain on two days during the week, the rainfall reaching eighty hundredths of an inch. Thermometer has averaged 49.8, highest being 64.7 and the lowest 37.2.

Nashville, Tennessee.—Weather unfavorable for crop preparations. We have had rain during the week, the rainfall being forty-two hundredths of an inch. The thermometer has averaged 46, ranging from 30 to 62.

Mobile, Alabama.—Frost in the interior in many districts in the early part of the week; this, with heavy rains later, did considerable damage to cotton. Planting and replanting are progressing slowly. We have had rain on two days of the week, the rainfall reaching two inches and thirteen hundredths. The thermometer has averaged 63, ranging from 45 to 79.

Montgomery, Alabama.—Too much rain and continued cold weather are injuring cotton. Considerable replanting is required and good seed is scarce. We have had rain on three days of the past week, the rainfall being one inch and forty-five hundredths. The thermometer has ranged from 35 to 74, averaging 57.

Madison, Florida.—There has been rain on four days during the week, the precipitation being one inch and fifty hundredths. The thermometer has averaged 64, the highest being 80 and the lowest 36.

Savannah, Georgia.—There has been rain on four days of he week, to the extent of sixty-three hundredths of an inch. The thermometer has averaged 58, ranging from 36 to 80.

t *Charleston, South Carolina.*—It has rained on four days of the week, the precipitation being seventy-five hundrenths of an inch. The thermometer has ranged from 36 to 76, averaging 55.

Greenwood, South Carolina.—We have had rain on one day during the week, the rainfall being fourteen hundredths of an inch. The thermometer has ranged from 37 to 62, averaging 49.

Charlotte, North Carolina.—Planting will begin around here next week. It has rained on one day of the week, the precipitation being fifty-five hundredths of an inch. The thermometer has averaged 51, the highest being 73 and the lowest 28.

The following statement we have also received by telegraph, showing the height of rivers at the ports named at 8 a. m. of the dates given:

		April 19 1907.	April 20 1906.
		Feet.	Feet.
New Orleans	Above zero of gauge.	16.9	16.0
Memphis	Above zero of gauge.	23.6	36.2
Nashville	Above zero of gauge.	11.5	14.0
Shreveport	Above zero of gauge.	3.8	14.2
Vicksburg	Above zero of gauge.	42.1	46.1

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week and for the season from Sept. 1 for three years have been as follows:

1905-06	----	3,000	3,000	10,000	88,000	98,000
1904-05	----	6,000	6,000	7,000	92,000	99,000
Total all—						
1906-07	2,000	38,000	40,000	51,000	982,000	1,036,000
1905-06	----	31,000	31,000	63,000	753,000	816,000
1904-05	----	15,000	15,000	24,000	343,000	367,000

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 13,000 bales. Exports from all ports India record a gain of 9,000 bales during the week and since Sept. 1 show an *increase* of 220,000 bales.

EUROPEAN CONSUMPTION AND STOCKS OF COTTON.—*International Federation Half-Yearly Census.*—The fourth half-yearly census of mill stocks has been taken by the International Federation of Master Cotton Spinners & Manufacturers' Associations and the results officially issued under date of March 30 as follows:

Countries.	Number of Spinning Spindles. Actual Returns.	Mill Stocks in Actual Bales. American.	East Indian.	Egyptian.	Sundries.	Total.	a Est. Tot. No. of Spinning Spindles.
Great Britain	42,375,163	393,514	14,218	127,923	40,262	575,917	49,880,000

Total	71,054,503	1,194,585	348,720	230,627	137,139	1,911,071	85,455,894

a The number of spindles over those in the "actual returns" has been arrived at by a careful addition of the spindles of the firms which have not sent in returns, and for this purpose the most reliable textile directories have been consulted.

A summary of results ascertained by preceding censuses is appended, the details of which will be found in the "Chronicle" of October 13 1906, page 917.

a Actual returns. The estimated total of spindles running was 77,115,125 on Aug. 31 1906, 73,394,800 on Feb. 28 1906 and 70,000,000 on Aug. 31 1905.
b Consumption in 1905-06 was made up of 5,704,208 bales American, 986,111 bales East Indian, 578,753 bales Egyptian and 302,309 bales sundries.
d Mill stocks Aug. 31 1906 included 684,282 bales American, 318,117 bales East Indian, 107,915 bales Egyptian and 75,296 bales sundries. For Feb. 28 1906, the details were 754,148 bales American, 254,929 bales East Indian, 149,200 bales Egyptian and 78,903 bales sundries.

NEW YORK QUOTATIONS FOR 32 YEARS.

The quotations for middling upland at New York on April 19 for each of the past 32 years have been as follows:

1907	11.20	1899	6.25	1891	8.94	1883	10.25
1906	11.70	1898	6.25	1890	11.81	1882	12.25
1905	7.85	1897	7.44	1889	10.81	1881	10.81
1904	14.10	1896	7.94	1888	9.75	1880	12.00
1903	10.40	1895	6.94	1887	10.62	1879	11.81
1002	9.44	1894	7.56	1886	9.25	1878	10.62
1901	8.38	1893	7.94	1885	11.00	1877	11.25
1900	9.88	1892	7.19	1884	11.88	1876	13.25

JUTE BUTTS, BAGGING, &c.—The market for jute bagging has been very quiet the past week. Prices remain nominally unchanged at 9⅛c. for 2 lbs., standard grades. Jute butts dull at 3@4c. for bagging quality.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

Cotton Takings. Week and Season.	1906-07.		1905-06.	
	Week.	Season.	Week.	Season.
Visible supply April 12	5,268,332	-------	1,500,779	-------
Visible supply Sept. 1	-------	1,784,156	-------	2,545,470
American in sight to April 19	108,306	12,230,276	141,253	9,611,941
Bombay receipts to April 18	96,000	2,207,000	83,000	2,101,000
Other India shipments to April 18	26,000	218,000	8,000	214,000
Alexandria receipts to April 17	6,000	909,000	1,000	776,000
Other supply to April 17 *a*	2,000	226,000	10,000	366,000
Total supply	5,506,638	17,574,432	1,744,032	15,614,411
Deduct—				
Visible supply April 19	5,070,498	5,070,498	4,401,012	4,401,012
Total takings to April 19	436,140	12,503,934	343,020	11,213,399
Of which American	280,140	9,508,934	236,020	8,411,399
Of which other	156,000	2,995,000	107,000	2,802,000

a Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, April 17.	1906-07.	1905-06.	1904-05.
Receipts (cantars *a*)—			
This week	17,000	7,500	95,000
Since Sept. 1	6,821,624	5,813,321	5,839,411

Exports (bales)—	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
To Liverpool	2,500	180,302	800	184,883	4,500	181,212
To Manchester	4,000	176,862	----	147,488	4,750	122,972
To Continent	2,250	290,028	3,000	266,353	3,500	247,952
To America	1,000	99,019	50	63,682	1,750	60,456
Total exports	9,750	746,211	3,850	662,406	14,500	612,592

a A cantar is 98 lbs.

This statement shows that the receipts for the week were 17,000 cantars and the foreign shipments 9,750 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market continues firm for yarns and steady for shirtings. Manufacturers are generally well under contract. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

	1907.			1906.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 149,476 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK—To Liverpool—April 15—Armenian, 2,562—April 18—Cedric, 3,513	6,075
To Manchester—April 15—Titian, 1,561	1,561
To Havre—April 18—Burnby, 424 upland, 99 Sea Island	523
To Marseilles—April 12—Algeria, 350—April 16—Massilia, 114	464
To Dunkirk—April 18—Burnby, 100	100
To Bremen—April 15—Breslau, 503—April 17—Brandenburg, 440	943
To Hamburg—April 11—Hilda Horn, 600—April 18—Batavia, 374	974
To Rotterdam—April 17—Lord Erne, 64	64
To Antwerp—April 13—Mohawk, 521; Vaderland, 1,063	1,584
To Genoa—April 13—Friedrich, 1,654	1,654
To Naples—April 13—Friedrich, 386	386
To Japan—April 15—Vandalia, 1,101	1,101
GALVESTON—To Liverpool—April 15—Cuthbert, 10,037—April 16—Capella, 4,745—April 17—Ikbal, 12,904	27,686
To Manchester—April 12—Domingo de Larrinaga, 9,727	9,727
To Bremen—April 15—Professor Woermann, 6,841—April 17—Barra, 12,221	19,062
To Hamburg—April 12—King, 8,208—April 16—Ipsom, 300	8,508
To Antwerp—April 16—Penrith Castle, 3,662	3,662
To Barcelona—April 13—Carolina, 2,653	2,653
To Trieste—April 13—Carolina, 2,223	2,223
To Fiume—April 13—Carolina, 1,696	1,696
To Venice—April 13—Carolina, 2,808	2,808
PORT ARTHUR—To Bremen—April 15—Coniston, 4,025	4,025
NEW ORLEANS—To Liverpool—April 16—Canadian 15,489	15,489
To London—April 15—Tampican, 1,196	1,196
To Belfast—April 17—Bray Head, 1,041	1,041
To Hamburg—April 16—St. Croix, 2,730	2,730
To Rotterdam—April 18—Barkdale, 1,500	1,500
To Barcelona—April 16—Federica, 2,389	2,389
To Genoa—April 13—Osceola, 4,275	4,275
To Venice—April 16—Federica, 2,755	2,755
To Trieste—April 16—Federica, 3,017	3,017
SAVANNAH—To Bremen—April 13—Wartenfels, 2,366	2,366
To Reval—April 13—Wartenfels, 500	500
BOSTON—To Liverpool—April 15—Saxonia, 1,019—April 16—Devonian, 400	1,419
To Genoa—April 9—Canopic, 18	18
To Yarmouth—April 16—Boston, 194	194

	Total bales
BALTIMORE—To Liverpool—April 12—Quernmore, 1,684	1,684
To Bremen—April 16—Stuttgart, 200	200
PHILADELPHIA—To Manchester—April 9—Manchester Corporation, 193	193
SEATTLE—To Japan—April 16—Shinano Maru, 5,277	5,277
To China—April 16—Shinano Maru, 54	54
To Manila—April 13—Tremont, 50	50
TACOMA—To Japan—April 13—Tremont, 4,303—April 18—Cyclops, 1,297	5,600
To Manila—April 13—Tremont, 50	50
Total	149,476

The particulars of the foregoing shipments for the week, arranged in our usual form, are as follows:

	Great Britain.	French ports.	Germany.	Oth. Europe—North.	Oth. Europe—South.	Mex., &c.	Japan.	Total.
New York	7,636	1,087	1,917	1,648	2,040	----	1,101	15,429

BREADSTUFFS.

Friday, April 19 1907.

Prices for wheat flour have ruled firm, and some grades have advanced moderately, influenced largely by the reports of damage to the wheat crop in the Southwest. But the trading has continued to be of a hand-to-mouth character, and where advances have occurred they have been to a large extent nominal. This applies not only to the local market, but also to the principal centres of the Northwest and the Southwest. Dealers show no disposition to replenish stocks, which are believed to have fallen to an exceptionally low point. Exporters have continued to hold aloof from the market. Corn meal and rye flour have been quiet and steady.

Wheat declined, owing principally to rains in the Southwest, where they were very much needed. Moreover, there has been a good deal of realizing of profits. the receipts at the Northwest have continued large, Northwestern stocks are steadily increasing, and not only has the crop outlook improved in this country, but to all appearances there is also an improvement in Argentina and India. Moreover, the world's shipments last week, though smaller by fully a million bushels than in the previous week, were nearly 1,500,000 bushels larger than for the corresponding week last year. The quantity on passage to Europe last week increased 2,720,000 bushels, making a total of 51,840,000 bushels, or nearly 3,000,000 more than at the same time last year and 5,400,000 more than at the corresponding date two years ago. The available supply in the world increased 551,000 bushels as compared with a decrease of 1,206,000 last year. One report of the world's stocks makes them 207,620,000 bushels on April 1, against 214,710,000 on March 1 and 197,195,000 on April 1 last year. At times there has been a good deal of buying in the belief that the price is to advance, the theory of some being that the crop has suffered no little damage and that the outlook for the European yield might be much better than it is. Latterly, moreover, the export demand has increased, the business on Thursday being quite large. The foreign markets have shown an upward tendency, owing partly to weather and crop advices from this side. But, like American markets, they have hesitated at times during the last few days, owing to reports of snow and light rains in Kansas and Nebraska, where, according to some advices, the drought has been pretty well broken, although some others state that more rain is needed and that the damage in Texas and Oklahoma has been serious. It seems safe to say that some damage has been done, but also that, as usual, it has been exaggerated for speculative purposes. To-day prices advanced, owing to dry weather in Kansas and Nebraska, reports that more rain is needed in those States, and higher foreign markets, those at Budapest and Berlin being especially strong, owing partly, it is understood, to an unfavorable official Hungarian crop report. Shorts covered freely and commission houses bought.

Indian corn futures have shown more or less irregularity, but in the main the course of prices has been downward, owing largely to the re-action in wheat and long liquidation. The dulness of the cash trade, too, has had more or less influence upon futures; but there has been an absence of aggressive selling for short account, owing to the smallness of contract stocks at Chicago. The receipts at that market, moreover, have been small, especially those of contract grade. Argentine shipments have been light and crop reports from that country of late have been unfavorable. To-day the market advanced with wheat, shorts covered and the offerings were light.

Oats for future delivery in the Western market have declined, owing to the re-action in wheat and heavy liquidation, attributed partly to leading bulls There has been more or less short selling and the cash demand during the week has been dull. Sharp rallies have occurred at times, however, owing to covering by nervous shorts and support from prominent Chicago interests. Crop reports have been unfavorable in the main. To-day prices advanced on crop damage reports, the rise in wheat covering of shorts and bull support.

AGRICULTURAL DEPARTMENT REPORT.—The report of the Department of Agriculture, showing the condition of winter grain on April 1, was issued on April 10 as follows:

The Crop Reporting Board of the Bureau of Statistics of the Department of Agriculture, from the reports of the correspondents and agents of the Bureau, finds the average condition of winter wheat on April 1 to have been 89.9, against 89.1 on April 1 1906, 91.6 at the corresponding date in 1905 and 85.3 the mean of the April averages of the last 10 years.

The following table shows for the principal winter wheat States the averages of condition on April 1, the corresponding averages one year and two years ago and the mean of the corresponding averages of the last 10 years:

States—	April 1 1907.	April 1 1906.	April 1 1905	10 year average.
Kansas	99	85	92	88
Indiana	81	92	92	79
Missouri	96	85	91	85
Ohio	83	93	89	80
Nebraska	99	91	95	89
Illinois	95	91	90	82
Pennsylvania	95	91	92	88
California	80	91	100	92
Oklahoma	76	90	88	87
Texas	51	91	92	84
Michigan	81	82	94	81
United States	89.9	89.1	91.6	85.3

The average condition of winter rye on April 1 was 92, against 90 9 on April 1 1906, 92.1 at the corresponding date in 1905 and 89.2 the mean of the April averages of the last 10 years.

GOVERNMENT WEEKLY WEATHER REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending April 15, summarizing them as follows:

In nearly all districts east of the Rocky Mountains the weather during the week ending April 15 was decidedly cold and for the most part dry, although New England and portions of the Middle Atlantic States and upper Lake region received more than the usual amount of precipitation. The abnormally low temperatures were generally unfavorable in all districts east of the Rocky Mountains, freezing temperatures extending to the southward of Kansas and Missouri and to the central portions of Alabama and Georgia. Heavy frosts occurred as far south as the northern portion of the west Gulf States, the central portion of the east Gulf States, and to the south Atlantic coast. Generally favorable temperatures prevailed in the Rocky Mountain and Pacific coast regions where the weather was milder than usual, although freezing temperatures occurred in the northern Rocky Mountain regions and frosts in Washington and Oregon. Heavy snow fell in the upper Lake region and New England and over the interior portions of the Middle Atlantic States and light snow in the Ohio and upper Mississippi valleys. Drought is becoming severe in the central and west Gulf districts. Mountain streams in the central and northern Rocky Mountain regions were unusually high as a result of melting snow.

For other tables usually given here, see page 909.

THE DRY GOODS TRADE.

New York, Friday Night, April 19 1907.

The general demand has been of fair proportions this week, both at first hands and with jobbers, although in some quarters the latter are evidently feeling the effects of the unseasonably low temperature still prevailing. Some irregularity in tone is noticeable in the cotton goods division, with an easier tendency in such heavy brown cottons as are most affected by the continued absence of any demand of moment for export and in which there has been some re-selling. Most mills are in clean-stock condition and more or less sold ahead, but there are others to whom orders are welcome and from such buyers are able to secure some concession. The general run of cotton yarns are also distinctly easier. This covers the only signs of weakness in the market. In other directions sellers are not at all easy to deal with, and talk of further advances in prices in the near future is current, not only in cotton piece-goods but in silks and knitted fabrics, stocks of which are smaller than usual in first hands. Reports from the interior indicate that distribution by retailers during the past week has fallen somewhat short of previous dimensions, mainly from prevailing climatic conditions, but that in spite of this, retail trade is on the whole in excellent shape. There are few complaints of slow collections, corroborative evidence of generally satisfactory state of the trade.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending April 13 were 5,674 packages, valued at $351,257, their destination being to the points specified in the tables below:

	1907		1906	
New York to April 13.	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	74	826	10	371
Other European	4	242	----	565
China	732	6,923	13,460	40,596
India	1	4,023	----	3,730
Arabia	1,490	16,223	1,358	9,994
Africa	302	3,291	565	3,113
West Indies	681	7,591	440	7,163
Mexico	46	746	28	651
Central America	156	4,892	121	4,819
South America	1,775	15,652	2,711	18,563
Other countries	413	11,960	17	4,116
Total	5,674	72,369	18,713	93,021

The value of these New York exports since Jan. 1 has been $4,521,600 in 1907, against $5,182,128 in 1906.

Brown sheetings and drills in the heavier weights are dependent almost entirely upon the home demand for their outlet, and some manufacturers are finding this insufficient to keep them well sold ahead, and in some instances to prevent stock accumulations. Concessions of 1/8c. to 1/4c. per yard are mentioned on forward business, and there is some irregularity in spot prices. Heavy colored cottons are well sold up and firm, and napped goods, plain and fancy, are also well under order, with rather a tendency against buyers. Bleached cottons are in a very strong position; there have been no advances made during the week, but as agents in nearly all cases refuse to book orders except "at value only," a higher range shortly appears probable, on leading lines, at least. Prints, both staples and fancies, also are strong. The home demand continues good and during the week there has been a considerable business done for export, foreign buying of prints being just now the most satisfactory feature of the export branch. Fine printed dress fabrics are in most lines difficult to secure for quick delivery, and orders are being placed for these into next year. Woven patterned goods, such as zephyrs, fine grade and dress ginghams, are in fuller request than agents can readily meet, and bring full prices. Converted goods for lining purposes are firm throughout, being supported by a continuous demand for all lines and the strength of the market for grey cloths. Print cloths are unchanged at 4 1/2c. for regulars, but business is reported to have been done during the past two days in some counts on the basis of 4 9-16c. for the standard make.

WOOLEN GOODS.—The re-orders which have come to hand this week for men's wear woolen and worsted fabrics have not come up to expectations in volume. A considerable demand for full lines had been counted upon to make good what was regarded as previous shortcomings on the part of buyers, but the latter are evidently in no hurry to materially augment their engagements. Fine grades of fancy worsteds have again figured to a fair extent, but the bulk of buying still runs upon fancy woolen lines. Mills turning out these are on the whole well employed, but many looms are reported idle in the worsted goods division. Although business has not been as large as looked for, the general tone of the market continues firm, with occasional slight advances quoted upon some staple lines, such as serges and cassimeres. Some quiet business is said to be passing in new lines for next spring, but so far agents have not made any outward demonstration in that direction. The overcoating trade is disappointing, the season's business has been indifferent, and the current demand fails to disclose any improvement. Buying of woolen and worsted dress goods has been of about the character generally expected at this time of the year, staple lines of serges, broadcloths and wool suitings are being fairly well absorbed, with a moderate demand for fancy worsted effects. Carpets are firm with some talk of higher prices for the new season to open shortly.

FOREIGN DRY GOODS.—Re-orders of fine dress fabrics have reached a fair volume in a firm market. Silks have been in steady request and firm, with high-grade ribbons doing well. Buyers of linens find no relief from prevailing scarcity, and orders are frequently turned down where required delivery cannot be given. All descriptions of household linens and dress linens are very firm in price. Burlaps continue scarce and against buyers.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending April 13 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JAN 1 1907 AND 1906.

MUNICIPAL BOND SALES IN MARCH.

We present herewith our detailed list of the municipal bond issues put out during the month of March, which the crowded condition of our columns prevented our publishing at the usual time.

The review of the month's sales was given on page 826 of the "Chronicle of April 6. Since then several belated March returns have been received, changing the total for the month to $10,545,920. The number of municipalities issuing bonds was 199 and the number of separate issues 245. In the case of each loan reference is made to the page of the "Chronicle" where an account of the sale is given.

All the above sales (except as indicated) are for February.

These additional February issues will make the total sales (not including temporary loans) for that month $37,790,112.

News Items.

Chicago, Ill.—*Street Railway Certificates Illegal.*—The State Supreme Court on April 18 declared invalid the $75,000,000 certificates, known as the "Mueller Law Certificates," authorized at the election held April 3 1906 to pay for municipal ownership of the street railways of the city. The Court held the certificates illegal on the ground that, if issued, the city would be indebted far beyond its Constitutional limit. It is stated that the decision does not invalidate the Mueller Law, but practically makes it inoperative, as the city cannot issue a sufficient amount of certificates within the debt limit to pay for or to build the street railways. See V. 83, p. 712, and V. 82, p. 824.

Connecticut.—*Savings Deposits in Banks and Trust Companies.*—The House Committee on Banks has favorably reported a bill regarding the investment of savings deposits in banks and trust companies which maintain a savings department. The measure follows:

Section 1.—All banks and trust companies maintaining a savings department, or soliciting or receiving deposits as savings, shall invest all such deposits hereafter so received according to the requirements of the statute laws of this State concerning the investment of deposits in savings banks, and said investments shall be for the exclusive protection of the depositors in said savings department and shall not be liable for or used to pay any other obligations or liability of said bank or trust company until after the payment of all the deposits in said savings department.

Sec. 2.—Said banks and trust companies shall pay to the State on all savings deposits the same tax which is required to be paid by savings banks by Section 2422 of the General Statutes as amended by Chapter 189 of the Public Acts of 1903 on the savings deposits held by them, and such savings deposits shall be exempt from all other taxation and said banks and trust companies shall also transmit to the Bank Commissioners on or before October 1 in each year, and oftener if required by said Commissioners, a sworn statement of the amount of such deposits and the securities in which they are invested, together with such other information as may be required to be given to said Commissioners in the annual statements of banks and trust companies.

Sec. 3.—All savings deposits which are not now invested in accordance with the provision of Section 1 of this Act shall be so invested at least one-fifth part each year, and all such deposits shall be invested by October 1 1912.

Sec. 4.—The reserve fund required by Section 3400 of the General Statutes in the case of State banks and trust companies shall not apply to the deposits mentioned by Section 1 of this Act.

Sec. 5.—This Act shall in no way limit the right of any trust company to receive deposits and invest its funds upon such terms and conditions as are provided for in its charter, except as to deposits in its savings department as provided in this Act.

Green County, Ky.—*Bond Decision.*—The United States Supreme Court has handed down a decision in the long-continued litigation over the validity of $250,000 railroad-aid bonds put out in 1869. A despatch from Washington dated April 8 says:

In an opinion by Justice Moody in the case of Green County, Ky., vs. Mary A. Quinlan, involving an issue of $250,000 worth of bonds for the benefit of the Cumberland & Ohio RR., issued in 1869, the Supreme Court of the United States held to-day that "a bona fide purchaser of the bonds was not entitled to assume in his purchase that the county had been exonerated from the payment of capital stock of the Elizabethtown & Tennessee Railroad Company, previously authorized." The decision was rendered on a question certified by the United States Circuit Court of Appeals for the Sixth Circuit.

The Louisville "Courier-Journal" quotes one of the attorneys in the case as saying:

The decision of the Supreme Court of the United States in the case of Mary A. Quinlan vs. Green County will probably conclude a long litigation in relation to the bonds of Green County purporting to have been issued by the county in favor of the old Cumberland & Ohio Railroad. All the courts, State and Federal, have followed the decisions of the Court of Appeals of Kentucky in the Short case and the decision of Judge Evans in the Quinlan case, which held void the bonds of Green County. The case before the Supreme Court was on two questions certified by the United States Circuit Court of Appeals at Cincinnati, either of which answered in the negative would invalidate the bonds.

By holding that not a bona fide purchaser of the bonds was not entitled to assume that the county had been exonerated from the payment of the capital stock subscribed to the old Elizabethtown & Tennessee Railroad, the Supreme Court practically holds that there are no bona fide holders of the bonds and that all the conditions of subscription should have been fulfilled before the county could be liable, and this decision invalidates the whole issue of the bonds, as did the Court of Appeals of Kentucky in the case of Short II.

Many distinguished lawyers have from time to time in the various courts represented the bondholders. In the Supreme Court they were represented by Judge George D. Reid and Edmund F. Trabue. In all the litigation the county has been represented by Col. Ernest Macpherson and the Hon. John W. Lewis.

The decision of the Supreme Court is a great victory for Green County.

See V. 81, p. 1059; V. 78, p. 1234; V. 77, p. 48. Also "State and City" section for April 13 1907, page 163.

Iowa.—*Legislature Adjourns.*—The Thirty-second General Assembly adjourned April 9.

Nebraska.—*Legislature Adjourns.*—The Legislature of this State adjourned April 5.

New Hampshire.—*Amendments to Savings Bank Investment Law.*—The Legislature of 1907 made several amendments to the savings bank investment law, the principal change being to permit such institutions to invest in the notes of railroads, New England corporations and parlor car and sleeping car companies in the stock of which the banks were already permitted to invest. The 1907 amendments relate to paragraphs 8, 14, 18, 19 and 20, and we reprint these sections of the Act, italicizing the new portions of the law and indicating by means of brackets such portions of the old law as have been eliminated:

8th. In the authorized bonds or notes of any State or Territory of the United States, and in the bonds or notes of any city of the States of Maine, Vermont, Massachusetts, Rhode Island, Connecticut or New York whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for taxation, or of any county [or] town, *village, precinct or district* in said States whose net indebtedness does not exceed 3% of such valuation.

14th. In the bonds of street railway corporations incorporated under the laws of this State and located wholly or in part in the same, and in the bonds of street railway corporations located wholly or in part in cities of 30,000 inhabitants or more, in any of the other New England States, and in the bonds of street railway corporations located wholly or in part in cities of 50,000 inhabitants, or more, in any of the United States [when the net indebtedness of such street railway corporations does not exceed the capital stock actually paid in and remaining unimpaired at the time of such investment, and that]; *provided that the net indebtedness of any of such street railway corporations mentioned in this paragraph does not exceed the capital stock actually paid in and remaining unimpaired at the time of such investment, and that such corporation* has earned and paid regular dividends of not less than four per cent per annum on its capital stock for five years next preceding such investment; but not exceeding ten per cent of the deposits shall be so invested.

18th. In the stock *or notes* of any railroad corporation, exclusive of street railways, located in any part of the United States or Territories, that has earned and paid regular dividends of not less than four per cent per annum on its capital stock for five years next preceding such investment; provided, such capital stock on which it pays dividends equals in amount one-third of the entire bonded indebtedness of said corporation; or in the stock of any other railroad corporation whose railroad and railroad property are leased to such railroad upon an annual rental of not less than four per cent per annum upon the capital stock of the leased railroad; provided, said leased railroad shall have earned dividends of not less than three per cent upon its capital stock for a period of three years immediately preceding said lease; but not exceeding twenty-five per cent of the deposits shall be so invested.

19th. In the stock *or notes* of any manufacturing company in the New England States that has paid regular dividends on its capital stock for five years previous to such investment, and whose net indebtedness does not exceed the amount of its capital stock fully paid in, but not exceeding ten per cent of the deposits shall be so invested.

20th. In the stock *or notes* of any parlor car or sleeping car company incorporated and doing business in the United States, and whose cars are in actual use upon any railroad whose stock is a legal investment for New Hampshire savings banks, and that has earned and paid regular dividends of not less than four per cent per annum on its capital stock for five years next preceding such investment; but not exceeding five per cent of the deposits shall be so invested.

For full text of the savings banks investment law of New Hampshire as it now stands see our "State and City" section of April 13, 1907, page 14.

Legislature Adjourns.—The Legislature of this State adjourned April 5 after a session of nearly fourteen weeks.

New Jersey.—*Temporary Adjournment of Legislature.*—On April 13 the Legislature of this State took a recess until June 18, at which time action will be taken on any bills which may be vetoed by the Governor.

Selma, Ala.—*Bond Issue Upheld.*—The following, relative to a decision of the United States District Court, upholding the validity of the $150,000 water bonds awarded last November, is taken from the Montgomery "Advertiser."

Mobile, April 3.—Judge Toulmin of the United States District Court has rendered a decision in the case of the Selma Water Works Company against the city of Selma denying the injunction asked for by the water works company seeking to restrain the city of Selma from issuing bonds to the amount of $150,000 for the purpose of building a municipal water-works system.

The water company in asking for the injunction alleged that their contract with the city did not expire until 1915 and that under a clause in the contract the city could gain control of the property, as the water company was willing to sell for a reasonable price.

On the other hand, the city of Selma held that the price the water-works company asked for their property was so high that they had not been able to reach any agreement. See V. 84, p. 175; V. 83, p. 1310.

Tennessee.—*Legislature Adjourns.*—The Fifty-fifth General Assembly of Tennessee adjourned April 15.

Texas.—*Legislature Adjourns—Special Session.*—The Legislature of this State adjourned at 1 p. m. April 12. Governor Campbell immediately called a special session, which convened at 1:10 p. m. on the same day, for the purpose of enacting laws to simplify procedure in both civil and criminal trials and to reform the jury system; to compel telephone and telegraph companies to transmit each other's messages; to secure equality and uniformity in taxation; to increase charter and filing fees, as well as franchise taxes of foreign and domestic corporations doing business in Texas, and to impose proper occupation taxes upon the gross receipts of corporations and enterprises.

Washington.—*Money, Mortgages, Municipal Bonds, &c., Exempt from Taxation.*—The Legislature of 1907, by an Act approved Feb. 28, amended the laws relating to revenue and taxation by exempting mortgages, credits, notes, municipal securities, &c., from all taxation as personal property. This amendment we give below, indicating by means of brackets such portions of the old law as have been omitted and italicizing the new portions.

SECTION 3. Personal property, for the purpose of taxation, shall be construed to embrace and include without especially defining and enumerating it, all goods, chattels [moneys], stocks or estates, all improvements upon lands, the fee of which is still vested in the United States, or in the State of Washington, or in any railroad company or corporation and all and singular of whatsoever kind, name, nature and description which the law may define or the courts interpret, declare and hold to be personal property for the purpose of taxation, and [not] subject to the laws and under the jurisdiction of the courts of the State, whatever the same be any sailing craft, as ships and vessels, or other property found under the laws and jurisdiction of the courts of this State, be the owner at home or abroad; provided, that the ships or vessels registered in any custom house of the United States within this State which ships or vessels are used exclusively in trade between this State and any of the Islands, districts, territories, State of the United States, or foreign countries, shall not be taxed for the purpose of or subject to taxation in this State, such vessels not being deemed property within this State. All credits, including accounts, notes, bonds, certificates of deposit, investments, [moneys in action,] and all other debts of whatsoever kind and nature, due or to become due whether secured or not by mortgage or otherwise. Provided, however, that in making up the amount of money or credits which any person is required to list or have listed or assessed, he will be entitled to deduct from the gross amount thereof all debts in good faith owing by him, but no acknowledgment not founded on actual consideration, and no such acknowledgment made for the purpose of being so deducted shall be considered a debt within the intent of this section, and no person will be entitled to any deduction on account of any obligation of any kind given to any insurance company for the premiums of insurance nor on account of any unpaid subscription to any institution, society, corporation or company, and no person shall be entitled to any deduction on account of any indebtedness contracted

for the purchase of United States bonds or other non taxable property; provided, that credits shall be assessed at their true and actual value; provided, further, that mortgages and all credits for the purchase of real estate shall not be considered as property for the purposes of this Chapter.] *Provided that mortgages, notes, accounts, moneys, certificates of deposit, tax certificates, judgments, State, county, municipal and school district bonds and warrants shall not be considered as property for the purpose of this Chapter; and no deduction shall hereafter be allowed on account of credits.*

Bond Proposals and Negotiations this week have been as follows:

Akron, Summit County, Ohio.—*Bonds Authorized.*—The City Council on April 2 passed an ordinance providing for the issuance of $20,000 street-opening bonds.

Alexandria, Rapides Parish, La.—*Bond Sale.*—Reports state that the $30,000 city-hall, $16,000 sewer-extension, $7,000 water-works and $2,000 electric-light 5% bonds voted on Feb. 18 have been awarded at par as follows: $20,000 to the City Savings Bank of Alexandria, $15,000 to the Commercial Bank of Alexandria and $20,000 to S. S. Bryan.

Alhambra, Los Angeles County, Cal.—*Bond Election.*—Local papers state that propositions to issue bridge, fire-protection, storm-drain, municipal-building and street-lighting bonds will be submitted to a vote on April 27.

Allegheny, Allegheny County, Pa.—*Bond Offering.*—Proposals will be received until 3 p. m. April 29 by James Brown, City Comptroller, for the following bonds:

$1,000,000 4% reservoir and water-main bonds. Maturity $33,000 yearly on April 1 from 1908 to 1927 inclusive and $34,000 yearly on April 1 from 1928 to 1937 inclusive.
250,000 4% street-improvement funding bonds. These securities are part of an issue of $400,000 bonds maturing $16,000 yearly on April 1 from 1912 to 1936 inclusive, of which $150,000 will be taken by the sinking fund.

Denomination $100 or multiples thereof. Date April 1 1907. Interest semi-annually at the Comptroller's office, or by check to the registered holder. Certified check on a national bank for 5% of the bonds bid for, payable to the City Treasurer, is required. Purchaser to pay accrued interest.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Denomination $100. Date April 1 1907. Interest semi-annually at the City Comptroller's office.

Allendale, Barnwell County, S. C.—*Bond Sale.*—On April 15 the $10,000 6% 30-year coupon school-building bonds described in V. 84, p. 705, were awarded to F. B. Sherman & Co. of Chicago at 102.75 and accrued interest. Following are the bids:

F. B. Sherman & Co., Chic....102.75 | Allendale Bank, Allendale....100.00
New First Nat. Bk., Columbus.102.00 | Robinson-Humphrey Co., Atl..100.00

Alliance School District (P. O. Alliance), Boxbutte County, Neb.—*Bonds Voted.*—On April 2 this district authorized the issuance of $20,000 5% 20-year high-school-building bonds by a vote of 535 to 241.

Anderson, Anderson County, S. C.—*Bond Sale.*—On April 16 the $75,000 coupon street-improvement bonds described in V. 84, p. 763, were awarded to Col. J. W. Brown of Aniderson, who bid $79,000 (105.333) for bonds bearing 5% nterest and maturing $50,000 in fifty years and $25,000 in thirty years.

Argentine School District, Wyandotte County, Kan.—*Bonds Voted.*—On April 2 this district voted in favor of the proposition to issue the $25,000 high-school-building bonds mentioned in V. 84, p. 763.

Arlington, Tarrant County, Tex.—*Bond Election.*—The election to vote on the question of issuing the $15,000 4% 40-year school-house bonds mentioned in V. 81, p. 763, will be held May 11.

Athol, Worcester County, Mass.—*Temporary Loan.*—This place recently borrowed $10,000 from Loring, Tolman & Tupper of Boston at 5.29%. Loan matures Oct. 4 1907.

Attica School District No. 61 (P. O. Attica), Harper County, Kan.—*Bond Offering.*—This district is offering at private sale an issue of $6,500 4½% coupon school-building bonds. Authority, Chapter 1, Laws of 1903. Denomination $500. Date July 1 1907. Interest semi-annually at the State Fiscal Agency in New York City. Maturity July 1 1917, subject to call at any interest period. The district has no debt at present. Assessed valuation for 1906, $112,754.

Aurora School District (P. O. Aurora), Lawrence County, Mo.—*Bonds Voted.*—Local reports state that this district has voted to issue bonds for a new high-school building.

Aurora School District, Hamilton County, Neb.—*Bonds Voted.*—An election held April 2 resulted in favor of a proposition to issue $43,000 4% 10-20 year optional high-school-building bonds by a vote of 493 to 361.

Austin School District (P. O. Austin), Mower County, Minn.—*Bond Election.*—Local papers state that this district will vote on a proposition to issue $30,000 school-building-addition bonds.

Baird Independent School District, Callahan County, Tex.—*Bonds Voted.*—An election held April 6 resulted in favor of a proposition to issue $20,000 school-building bonds.

Bakersfield, Kern County, Cal.—*Bonds Voted.*—*Bonds Defeated.*—The election March 25 resulted in a vote of 499 to 91 in favor of issuing the $120,000 4½% 1-40-year (serial) sewer bonds mentioned in V. 84, p. 705. The elections held March 26 and March 27 resulted in the defeat of the $30,000 park and $50,000 city-hall 4½% 1-40-year (serial) bonds.

Baltimore, Md.—*Bond Election.*—The Mayor and City Council have decided to call an election May 7 to vote on propositions to issue the following bonds:

$1,000,000 fire engine-house construction bonds at not exceeding 4% interest. Authority Chapter 467 of an Act of the General Assembly passed Jan. 1906.
1,000,000 public school building bonds at not exceeding 4% interest. Authority Chapter 552 of an Act of the General Assembly passed Jan. 1906.

Denomination not less than $100. Interest semi-annually on June 1 and Dec. 1. Maturity June 1 1957.

Batavia Union Free School District No. 2 (P. O. Batavia), Genesee County, N. Y.—*Bonds Not Sold—Bond Offering.*—No award was made on April 6 of the $18,000 4% gold registered school bonds described in V. 84, p. 614. Proposals are again asked for, this time for 4½% bonds, and will be received until 7:30 p. m. April 20 by A. J. Squires, Clerk Board of Education. Denomination $1,000. Date Jan. 1 1907. Interest semi-annually at place to be designated by purchaser. Maturity $1,000 yearly on Jan. 1 from 1908 to 1925 inclusive. Bonds are tax-exempt. Certified check (or cash) for 5% of bid, payable to Board of Education, is required. Bonded debt at present, $35,500. Assessed valuation 1906, $6,604,120.

Batesville, Independence County, Ark.—*Bond Sale.*—This city on April 4 awarded an issue of $12,500 6% sewer district No. 1 bonds to the Trowbridge & Niver Co. of Chicago. Denominations $250 and $500. Date April 15 1907. Interest semi-annual. Maturity on April 15 as follows: $250 yearly from 1908 to 1912 inclusive, $500 yearly from 1913 to 1917 inclusive, $750 yearly from 1918 to 1922 inclusive, and $1,000 yearly from 1923 to 1927 inclusive.

Bay City, Bay County, Mich.—*Bonds Voted.*—On April 1 this city authorized the issuance of the $200,000 4% 30-year river-front-park bonds, mention of which was made in V. 84, p. 763. The vote was 4,210 to 1,128.

Beaumont, Jefferson County, Tex.—*Bids.*—Eleven bids, the highest of which were from the Gulf National Bank of Beaumont and W. J. Crawford of Beaumont, each offering $133,450, were submitted on April 2 for the $75,000 sewerage, $25,000 school-building, $5,000 school-repair and $25,000 paving 5% bonds. These bids were rejected and proposals were again asked for on April 3, on which day the bonds were awarded, as stated in V. 84, p. 826, to the Gulf National Bank of Beaumont for $134,550. Bids were also received on April 3 from W. J. Crawford of Beaumont for $133,957 50 and John Nuveen & Co. of Chicago for $133,925 75.

Benton Harbor, Berrien County, Mich.—*Bonds Authorized.—Bond Offering.*—The $30,000 4½% 20-year funding bonds mentioned in V. 84, p. 764, have been authorized by the State Legislature. Proposals for these bonds will be received at any time.

Big Rapids, Mecosta County, Mich.—*Bonds Defeated.*—This city recently defeated the proposition to issue the improvement bonds mentioned in V. 84, p. 705.

Billings School District (P. O. Billings), Yellowstone County, Mont.—*Bonds Voted.*—On April 6 this district authorized the issuance of $35,000 10-20-year (optional) school-building bonds by a vote of 297 to 55.

Black River Falls, Jackson County, Wis.—*Bonds Voted.*—On April 2 this city authorized the issuance of $10,000 dam bonds by a vote of 130 to 94. Interest not to exceed 5%. Date of sale not yet determined.

Blaine County (P. O. Hailey), Idaho.—*Bond Sale.*—This county recently awarded an issue of $7,000 bonds to Trowbridge & Niver Co. of Chicago for $7,157 (102.242) for 5s; purchaser to furnish blank bonds. A bid of 102 and blank bonds for 6s was also received from S. A. Kean of Chicago.

Bloomington, Franklin County, Neb.—*Description of Bonds.*—We are advised that the $14,000 registered water-works bonds voted on Jan. 22 (V. 84, p. 462) carry 5% interest and are dated March 5 1907. Denomination $500. Interest annually at the Bloomington State Bank. Maturity March 5 1927, subject to call after March 5 1912. Bonded debt, this issue. Assessed valuation, $7,338,862.

Bloomville, Seneca County, Ohio.—*Bonds Defeated.*—This town recently defeated a proposition to issue $25,000 school-building bonds.

Bonesteel, Gregory County, S. D.—*Bond Election.*—An election will be held April 23 to vote on the question of issuing $13,000 5% 20-year water-works bonds.

Boston, Thomas County, Ga.—*Bonds Not Sold.*—Up to April 16 no award had yet been made of the $10,500 5% registered electric-light bonds offered on March 1. See V. 84, p. 462, for description of these securities.

Description of Bonds.—We are informed that the $12,000 5% water-works bonds voted on Jan. 14 (V. 84, p. 462) will be issued in denominations of $500 each. Maturity one-third in ten years, one-third in fifteen years and one-third in twenty years.

Bozeman School District No. 7 (P. O. Bozeman), Gallatin County, Mont.—*Bond Offering.*—Further details are at hand relative to the offering on April 30 of the $36,000 coupon refunding bonds mentioned in V. 84, p. 826. Pro-

posals for these bonds at not exceeding 6% interest will be received until 2 p. m. on that day by Philip Dodson, District Clerk. Authority Article 17, Chapter 6, Title 3, Part 3, of Political Code of Montana. Denomination $500. Date May 2 1907. Interest semi-annually at place to be designated by purchaser. Maturity May 2 1927, subject to call after May 2 1917. As already stated, these securities will refund part of the $60,000 6% 15-30-year (optional) bonds dated May 2 1892. The remaining $24,000 will be retired from funds on hand. Bonded debt, including this issue, will be $57,000. Assessed valuation $2,977,510.

Brady Township (P. O. West Unity), Williams County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m, May 4 by A. J. Hoover, Township Clerk, for $30,000 4½% road-improvement bonds. Authority 4686-39 of the Revised Statutes. Denomination $500. Interest semi-annual. Maturity $500 in 1908 and in 1909, $1,000 yearly from 1910 to 1915 inclusive, $1,500 in each of the years 1916 and 1917 and $2,000 yearly from 1918 to 1927 inclusive. Accrued interest to be paid by purchaser. Certified check of 5% of bonds bid for, payable to the Township Treasurer, is required.

Brighton School District (P. O. Brighton), Macoupin County, Ill.—*Bond Sale.*—This district has awarded the $2,000 4% coupon school-building bonds offered but not awarded on Feb. 26 (V. 84, p. 523) to Blodget Bros. & Co. of Brighton at par.

Brookline, Norfolk County, Mass.—*Temporary Loan.*—This town recently negotiated a loan of $100,000 at 5.17% discount in anticipation of taxes. Loan matures Nov. 1 1907.

Buffalo, N. Y.—*Four Per Cent Water Bonds Authorized.*—Chapter 84, Laws of 1907, permits the city of Buffalo to issue water bonds bearing 4% interest. Under Chapter 203, Laws of 1906, the rate of interest was limited to 3½%.

Cambridge, Guernsey County, Ohio.—*Bond Sale.*—On April 8 the $27,000 4% 20-year street-improvement (city's portion) bonds described in V. 84, p. 645, were awarded to the Provident Savings Bank & Trust Co. of Cincinnati at 102.265—a basis of about 3.837%. The following bids were received

Prov. Sav. Bk. & Tr. Co., Cin	$27,611 55	R. Kleybolte & Co., Cinc.	$27,332 10
Western-Germ. Bk., Cinc.	27,550 00	Breed & Harrison, Cincin.	27,216 00
Seasongood & Mayer, Cin.	27,414 75	A. Kleybolte & Co., Cinc.	27,135 00

Bond Election.—An election will be held April 27 to vote on the question of issuing $8,000 Gomber Avenue improvement, $5,000 water-works-improvement, $10,000 sanitary-sewer, $8,000 North Eighth Street and $2,000 bridge-improvement bonds

Camden, Kershaw County, So. Car.—*Bonds Voted.*—An election held March 18 resulted in favor of a proposition to issue $50,000 5% sewerage bonds. Interest semi-annual. Maturity 40 years subject to call after 20 years. The vote was 158 "for" to 27 "against."

Canon City, Fremont County, Col.—*Bonds Voted.*—The election April 2 resulted in favor of a proposition to issue water-works bonds.

Canton, Madison County, Miss.—*Bonds Proposed.*—The Town Council is considering the advisability of issuing $50,000 sewer bonds.

Cass County (P. O. Logansport), Ind.—*Bond Sale.*—According to local reports this county recently awarded $4,650 Jackson Township gravel road bonds to Charles C. Wedding & Co. for $4,655 50, the price thus being 100.118.

Cedar Rapids, Lynn County, Iowa.—*Bond Award.*—On April 5 the $125,000 4% city-hall bonds, bids for which were received on March 25 (V. 84, p. 764), were awarded to Geo. M. Bechtel & Co. of Davenport at par. Date April 1 1907. Interest semi-annual.

Centralia, Boone County, Mo.—*Bond Offering.*—Proposals will be received until 7:30 p. m. May 7 by R. P. Price, City Clerk, for $40,000 water-works and $15,000 electric-light-plant 4½% coupon bonds. Authority, vote of 123 to 39 on water-works issue and vote of 426 to 33 on electric-light-plant issue, cast at election Feb. 26 1907. Denomination $1,000. Interest semi-annually in Centralia, in St. Louis, Kansas City or New York exchange. Maturity twenty years, subject to call after five years. Certified check for 1% of amount bid for, drawn on a Centralia, St. Louis or Kansas City bank, is required. These securities were offered on April 2 but not sold.

Cheviot, Hamilton County, Ohio.—*Bond Sale.*—On April 6 the $700 5% 1-10-year (serial) Glenmore Avenue improvement assessment bonds, described in V. 84, p. 645, were awarded to Miles Backing of Batavia at 104.285—a basis of about 4.121%, while the $1,350 5% 1-10-year (serial) Harrison Avenue improvement assessment bonds offered on the same day were awarded to Fred Lorn of Cheviot at 101.871—a basis of 4.610%. Following are the bids:

	$700 Glenmore Avenue Bonds.	$1,350 Harrison Ave. Bonds.
Miles Backing, Batavia	$730 00	
Fred Lorn, Cheviot	713 13	$1,375 31
First National Bank, Cheviot	725 00	1,373 00
Provident Savs. Bk. & Tr. Co., Cincinnati	708 75	1,366 88

Chicago—South Park District, Cook County, Ill.—*Bonds Voted.*—On April 2 the issuance of not exceeding $3,000,000 4% park bonds was authorized by a majority of 27,383 votes. Interest (not to exceed 4%) payable semi-annually. Maturity "within twenty years."

Chicago—Town of North Chicago, Cook County, Ill.—*Bonds Voted.*—At the election April 2 the proposition to issue the $500,000 park bonds mentioned in V. 84, p. 764, carried by a majority of 8,698 votes.

Cincinnati, Hamilton County, Ohio.—*Bonds Authorized.*—The City Council has authorized the issuance of the following bonds:

$540,000 3.65% 30 year coupon Gilbert Avenue Viaduct bonds.
25,000 4% 1 year coupon Eighth Street Viaduct improvement bonds.
25,000 3.65% 20-year coupon Fifth Street Market bonds. Date April 15 1907.
35,000 3.65% 40 year coupon street improvement bonds. Date April 15 1907.

Denomination $500. Interest semi-annually at the American Exchange National Bank, New York City.

Clarksville, Montgomery County, Tenn.—*Bonds Authorized.*—The General Assembly has passed an Act authorizing the issuance of $25,000 4% 5-20-year (optional) coupon street-improvement bonds to be dated not later than Oct. 1 1907. Denomination $500. Interest semi-annual.

Clarksville, Montgomery County, Tenn.—*Bonds Not Sold.*—No satisfactory bids were received on March 28 for the $25,000 4% 5-20-year (optional) coupon high-school bonds described in V. 84, p. 706.

Clay Centre, Clay County, Neb.—*Bonds Not Sold.*—Up to April 12 no sale had yet been made of the $18,000 5% 5-20-year (optional) water-works bonds offered on March 26. For description of bonds see V. 84, p. 645.

Cleburne, Johnson County, Texas.—*Bonds Voted and Sold.*—On March 27 this city authorized the issuance of $75,000 5% 40-year high-school bonds, mentioned in V. 84, p. 645, by a vote of 315 to 124. Local papers state that these bonds have been awarded to E. H. Rollins & Sons of Chicago at 105.

Cleveland, Cuyahoga County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. May 11 (date advanced from May 10 owing to change in advertisement) by Thomas Coughlin, City Auditor, for the following bonds:

$1,300,000 5% coupon street-improvement bonds dated May 1 1907. Maturity on Nov. 1 as follows: $150,000 in 1907, $300,000 in 1908, $300,000 in 1909, $300,000 in 1910 and $250,000 in 1911.
300,000 4% coupon water-works bonds dated April 1 1907. Maturity April 1 1925.

Denomination $1,000. Interest semi-annually at the American Exchange National Bank in New York City. Each bid must be made on a blank form furnished by the city and must be accompanied by a certified check on a national bank for 5% of the bonds bid for, payable to the "Treasurer of the City of Cleveland."

Cochran, Pulaski County, Ga.—*Bonds Voted.*—This city recently voted to issue water-works bonds.

Collins, Tattnall County, Ga.—*Bond Offering.*—Proposals will be received until 2 p. m. May 30 by J. H. Williams, Clerk of City Council, for the $7,500 5% school-building bonds voted on Dec. 14 1906. Denomination $500. Date July 1 1907. Interest semi-annually at place to be designated by purchaser. Maturity $2,500 on July 1 1917, $2,500 on July 1 1927 and $2,500 on July 1 1937. Laredo, Webb County, Tex.—*Bonds Voted.*—On April 2 this city authorized the issuance of the $40,000 5% 10-40-year (optional) school-building bonds, mention of which was made in V. 84, p. 766. The vote was 231 to 9.

Lathrop School District (P. O. Lathrop), Clinton County, Mo.—*Bonds Voted.*—On April 2 the $12,500 5% building bonds mentioned in V. 84, p. 766, were authorized by a vote of 142 to 34.

Latonia, Kenton County, Ky.—*Bond Sale.*—Reports state that the City Council has awarded $2,100 Park Ave. improvement bonds to the Central Savings Bank & Trust Co. for $2,195, the price thus being 104.523.

Latta School District (P. O. Latta), Marion County, So. Caro.—*Bonds Voted.*—On April 4 this place authorized the issuance of $14,000 school-building bonds.

Lawton, Comanche County, Okla.—*Bond Offering.*—Proposals will be received until 6 p. m. May 11 by W. R. Julian, City Clerk, for the $200,000 water-works, $50,000 sewer-construction and $10,000 street-improvement 5% coupon bonds voted on March 12. Denomination $1,000. Interest January and July. Maturity thirty years. Bonds are exempt from taxation. Certified check for 2% of bid, payable to W. R. Julian, City Clerk, is required.

Lebanon High School District (P. O. Lebanon), Grafton County, N. H.—*Bonds Authorized.*—This district has decided to issue $30,000 funding bonds.

Lee's Summit School District, Jackson County, Mo.—*Bond Offering.*—Proposals will be received until 7 p. m. May 10 by the Board of Education for $20,000 4% school-building bonds. Authority vote of 197 to 68 at election held April 2 1907 under Sections 9752 and 9865 of the Revised Statutes of 1899. Denomination $500. Date June 1 1907. Interest semi-annually in Lee's Summit or Kansas City at option of purchaser. Maturity June 1 1927, subject to call after June 1 1912. The district has no bonded debt at present. Certified check for 1% of bonds bid for is required. O. P. McCarter is President Board of Education.

Linden, Iowa County, Wis.—*Bonds Voted.*—An election held recently resulted in favor of a proposition to issue water-works bonds.

Lindsey, Sandusky County, Ohio.—*Bonds Voted.*—The election held April 16 resulted in a vote of 137 to 13 in favor of issuing the $15,943 85 5% paving assessment bonds mentioned in V. 84, p. 886.

Lowville, Lewis County, N. Y.—*Purchase of Light Plant Authorized.*—An election held in this village on April 2 resulted in a vote of 234 to 34 in favor of a proposition to purchase the plant of the Wetmore Electric Company at a cost of not exceeding $85,000.

McMechen, Marshall County, W. Va.—*Bonds Not Sold.*—No sale was made on March 14 of the $20,000 4½% bonds described in V. 84, p. 586.

Bond Election.—An election will be held April 25 for the purpose of voting on the question of issuing $25,000 5% coupon sewer bonds to take the place of the $20,000 4½s offered but not sold on March 14. Denomination $1,000. Date July 1 1907. Interest semi-annually at the Bank of McMechen. Maturity "on or before July 1 1942."

McMinn County (P. O. Athens), Tenn.—*Bonds Defeated.*—An election held Mar. 26 resulted in the defeat of a proposition to issue $200,000 pike bonds, the vote being 911 "for" to 1,645 "against."

Macungie, Lehigh County, Pa.—*Bond Sale.*—We are informed that this borough has disposed of the $7,500 additional water and town-hall-completion bonds voted on Feb. 19.

Madisonville (P. O. Ind. Sta. M., Cincinnati), Hamilton County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. May 15 by J. A. Conant, Village Clerk, for $5,000 4% water-works-extension bonds. Authority Sections 2835, 2835*b*, 2836 and 2837 of the Revised Statutes of Ohio. Denomination $500. Date April 10 1907. Interest semi-annual. Maturity April 10 1932. Certified check for 10% of bonds bid for, payable to the Village Treasurer, is required. Accrued interest to be paid by purchaser.

Magnolia, Pike County, Miss.—*Bonds Voted—Bond Offering.*—The election held April 8 resulted in a vote of 81 to 2 in favor of the proposition to issue the $25,000 5% school-building bonds mentioned in V. 84, p. 828. Maturity 1927. Proposals for these securities will be received until May 15. A. L. Lazar is Town Clerk.

Mamaroneck, Westchester County, N. Y.—*Bond Sale.*—This village on April 15 awarded an issue of $60,000 paving bonds to O'Connor & Kahler of New York City at 100.025 for 4.35s. The following bids were received:

O'Connor & Kahler, N. Y. (4.35s)	$60,015 00
Adams & Co., N. Y. (4.40s)	60,258 00
Otis & Hough, Cleveland (4.50s)	60,100 00
W. J. Hayes & Sons, Cleveland (4.60s)	60,114 00
A. B. Leach & Co., N. Y. (4.75s)	60,100 00
H. C. Powers & Co. (4.85s)	60,018 00
Geo. M. Hahn, New York (5s)	61,422 00

The above bonds are in denominations of $1,000 and $400. Date May 1 1907. Interest semi-annual. Maturity $2,400 yearly on May 1 from 1912 to 1936 inclusive. The bonds were offered on March 25 but all bids then received were rejected.

Marshall, Harrison County, Tex.—*Bonds Registered and Sold.*—On April 11 the State Comptroller registered $45,000 5% 10-40-year (optional) city-hall bonds dated Jan. 1 1907. These securities, we are informed, have been sold to Spitzer & Co. of Toledo.

Marshall, Harrison County, Tex.—*Bonds Proposed.*—An ordinance was introduced in the City Council on March 26 providing for the issuance of the $90,000 5% 40-year sidewalk bonds mentioned in V. 84, p. 119.

Meridian, Lauderdale County, Miss.—*Bond Sale.*—On March 26 this city awarded $35,000 (not $40,000 as at first reported) 4½% 15-30-year (optional) school-building bonds to the "Woodmen of the World," of Omaha, for $35,200 (100.571) and all expenses. Denomination $1,000. Interest semi-annual.

Meyersdale School District (P. O. Meyersdale), Somerset County, Pa.—*No Action Yet Taken.*—No action has yet been taken in the matter of issuing the $40,000 building bonds voted on Feb. 19.

Middletown, Conn.—*Bonds Authorized by Legislature.*—This town has been authorized by the State Legislature to issue $16,000 5% bonds.

Middleton, Canyon County, Idaho.—*Bond Election Proposed.*—There is talk of calling an election to vote on the question of issuing school-building bonds.

Midland County (P. O. Midland), Mich.—*Bonds Voted.*—On April 1 this county, according to local reports, authorized the issuance of the $60,000 court-house bonds mentioned in V. 84, p. 526.

Midland School District No. 2, St. Louis County, Mo.—*Purchaser of Bonds.*—We are informed that the purchaser of the $50,000 5% 20-year coupon building bonds disposed of on March 29 (V. 84, p. 828) was the First National Bank of Wellston and that the price paid was above par.

Milwaukee, Milwaukee County, Wis.—*Bonds Voted.*—At the election April 2 this city authorized the issuance of the $250,000 auditorium, the $250,000 police station, the $100,000 fire-department and the $100,000 garbage-crematory bonds mentioned in V. 84, p. 766.

Bonds Proposed.—This city is considering the advisability of issuing $100,000 permanent street improvement bonds to be dated July 1 1907.

Minneapolis, Minn.—*Bond Offering.*—Proposals will be received until 2 p. m. May 9 by Dan C. Brown, City Comptroller, for $100,000 general fund and $300,000 permanent-improvement fund 4% bonds. Denominations, $50, $100, $500 or $1,000, as required by bidder. Date July 1 1907. Interest semi-annually at the fiscal agency of the City of Minneapolis in New York City. Maturity July 1 1937. Certified check on a national bank for 2% of the bonds, payable to C. S. Hulbert, City Treasurer, is required. Accrued interest to be paid by purchaser.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Modale School District (P. O. Modale), Harrison County, Iowa.—*Bonds Voted.*—An election held March 11 resulted in favor of a proposition to issue $60,000 4% registered school-building bonds. Denomination $500. The district has no debt at present. Assessed valuation 1906, $350,188.

Monmouth School District (P. O. Monmouth), Warren County, Ill.—*Bonds Defeated.*—On March 30 this district defeated a proposition to issue 4½% high-school-building bonds. The vote was 275 "for" to 364 "against."

Monona-Harrison Drainage District No. 1, Monona and Harrison Counties, Iowa.—*Bond Offering.*—Proposals will be received until 12 m. May 7 by C. E. Blanchard, County Auditor (P. O. Onawa) for $400,000 bonds at not exceeding 6% interest. Securities will be dated May 7 1907. Interest semi-annual. Maturity one-tenth yearly, beginning six years from date, all bonds being subject to call after five years. The State Supreme Court has rendered a decision validating this issue.

Montcalm County (P. O. Stanton), Mich.—*Bonds Defeated.*—On April 1 this county defeated a proposition to issue $30,000 court-house bonds by a majority of 342 votes.

Mount Orab, Brown County, Ohio.—*Bond Sale.*—On March 25 the $700 5% 1-7-year (serial) coupon street-repair bonds described in V. 84, p. 647, were awarded to J. C. Deeny for $705 (100.714) and accrued interest—a basis of about 4.80%.

Mount Vernon, Knox County, Ohio.—*Bonds Authorized.*—The City Council on April 2 passed an ordinance providing for the issuance of $3,000 5% coupon sewer bonds. Denomination $300. Date May 1 1907. Interest semi-annually at the Sinking Fund Trustees' office. Maturity $300 yearly on May 1 from 1908 to 1917 inclusive.

Bonds to Be Taken by Sinking Fund.—We are informed that the $2,500 5% 1-10-year (serial) coupon Burgess Street paving bonds described in V. 84, p. 709, will be taken by the Sinking Fund Trustees when issued.

Narberth, Montgomery County, Pa.—*Bond Sale.*—The Town Council has awarded the $51,000 4% sewer-system bonds to Wurts, Dulles & Co. of Philadelphia. Date May 1 1907. Interest semi-annually at the West End Trust Co. of Philadelphia. Maturity on May 1 as follows: $8,000 in 1912, $9,000 in 1917, $8,000 in 1922, $9,000 in 1927, $8,000 in 1932 and $9,000 in 1937.

Natrona County (P. O. Casper), Wyo.—*Bond Offering.*—Proposals will be received until 2 p. m. May 7 by F. H. Sawyer, County Clerk, for $40,000 4½% court-house bonds. Authority Chapter 76 of the Session Laws of the Seventh State Legislature. Denomination $1,000. Date January 1 1907. Interest semi-annually at the County Treasurer's office or the National Bank of Commerce in New York City, at option of holder. Maturity Jan. 1 1927, subject to call after Jan. 1 1917. Accrued interest to be paid by purchaser. Certified check for $1,000, payable to the County Treasurer, is required.

Neoga School District No. 44 (P. O. Neoga), Cumberland County, Ill.—*Bond Sale.*—On April 16 the $5,000 5% 1-10-year (serial) refunding bonds dated May 1 1907 and described in V. 84, p. 886, were awarded to the First National Bank of Chicago at 101 and accrued interest—a basis of about 4.80 %. Following are the bids:

NEW LOANS

$250,000

City of Allegheny, Pa.,

Judgment Fund Bonds

Office of the Comptroller,
City of Allegheny,
April 18, 1907.

Sealed proposals will be received at this office until 3 p. m., April 29, 1907, for the purchase of the whole or any part of two hundred fifty thousand dollars judgment fund bonds of the city of Allegheny, Pa. Said bonds are a part of an issue of four hundred thousand dollars judgment fund bonds to be issued by said city. One hundred and fifty thousand dollars of which will be taken by the Sinking Fund Commission of said city of Allegheny. Said bonds will bear date April 1, 1907, and will mature as follows:

$16,000 00 payable April 1, 1912, and bonds in the aggregate amount of $16,000 00 payable on the first day of April of each year thereafter for a period of twenty-four years. Said bonds will be issued in denominations of one hundred dollars each or multiples thereof to suit purchasers.

The above bonds will bear interest at the rate of four per cent per annum. Interest payable semi-annually on the first days of October and April in each year at the office of the Comptroller in the city of Allegheny, Pa., or mailed by check to the registered holder thereof wherever purchasers may select.

A certified check on a national bank payable to the order of the City Treasurer of the City of Allegheny, Pa., for five per cent of the amount of bonds bid for, must accompany each proposal. In case of award said deposit will at the time of delivery of bonds be credited on payment of bonds purchased; check will be returned to unsuccessful bidders. Purchasers must pay to the city accrued interest on bonds to date of depositing money.

The above bonds will be awarded to the bidder whose proposal will be most favorable to the city. The right is reserved to reject any and all bids not deemed for the interest of the city.

Bids will be opened by the Mayor and Comptroller in the office of the Comptroller in the city of Allegheny, Pa., on the 29th day of April, 1907, at 3:15 o'clock p. m.

All proposals must be indorsed "Proposals for City of Allegheny Bonds" and be addressed to

payable to the "City of Vidalia," is required. Bonded debt, including this issue, $35,000. Assessed valuation 1906, $600,000.

Vienna, Dooly County, Ga.—*Bonds Voted.*—An election held April 8 resulted in favor of a proposition to issue $10,000 5% electric-light and $5,000 5% sewer bonds by a vote of 92 to 4. Maturity from 1927 to 1934. Bonds will be offered about June 1.

Wadsworth, Medina County, Ohio.—*Bond Sale.*—This city on April 9 awarded $44,000 4½% street-improvement bonds to Hayden, Miller & Co. of Cleveland.

Waltham, Middlesex County, Mass.—*Temporary Loan.*—This city recently negotiated a loan of $75,000 with Loring, Tolman & Tupper of Boston at 5.33% discount. Loan matures Nov. 8 1907.

Water Valley, Yalobusha County, Miss.—*Bond Sale.*—On April 2 the $30,000 5% 19 1-3-year (average) coupon school bonds offered on March 5 (V. 84, p. 530) were awarded to John Nuveen & Co. of Chicago at 100.50—a basis of about 4.96%.

Wauseon, Fulton County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. April 29 by Chas. J. Hodges, Village Clerk, for $2,000 4½% coupon sanitary sewer-extension bonds. Authority Section 2835 of the Revised Statutes. Denomination $500. Date Sept. 1 1907. Interest payable at the Village Treasurer's office. Maturity $500 yearly on Sept. 1 from 1909 to 1912 inclusive. Certified check for 5% of bonds bid for, payable to H. A. Barber, Village Treasurer, is required. Accrued interest to be paid by purchaser.

Wellsboro, Tioga County, Pa.—*Bonds Not to Be Issued at Present.*—We are advised that the $15,000 street-improvement bonds voted on March 12 will not be issued until fall.

Wilmington, New Castle County, Del.—*Bonds Proposed.*—Local papers state that an ordinance providing for the issuance of $500,000 street-improvement bonds has been introduced in the City Council.

The Board of Water Commissioners on April 1 adopted a resolution requesting the City Council to issue $800,000 water-system bonds.

Winnipeg School District (P. O. Winnipeg), Man.—*Debentures Not Sold.*—No award was made on April 1 of the $200,000 4% school debentures described in V. 84, p. 769.

Woonsocket, R. I.—*Bond Bills Passed by House.*—The House of the State Legislature has passed the bills providing for the issuance of $200,000 refunding and $200,000 funding bonds.

Worcester, Worcester County, Mass.—*Temporary Loan.*—On April 15 this city negotiated a loan of $125,000 at 4.64%.

Wyandotte, Mich.—*Bond Bill Passes House.*—The issuance of paving-intersection bonds is provided for in a bill which recently passed the House of the State Legislature.

Yonkers, N. Y.—*Bond Sale.*—On April 15 an $8,345 5% assessment bond was awarded to the Yonkers Savings Bank at 100.52. Date of bond April 15 1907. Interest February and August. Maturity Feb. 1 1910.

Revenue Bond Sale.—This city recently awarded an issue of $60,000 4% revenue bonds to the Westchester Trust Co. of Westchester at par. Securities are dated March 12 1907 and mature June 12 1907.

Bond Offering.—Proposals will be received until 11:30 a. m. April 26 by John H. Coyne, Mayor, for the following bonds:

$32,750 5% assessment bonds. Authority Section 36 of Title VII of the City Charter.
19,000 5% assessment bonds. Authority Section 16 of Title VII of the City Charter.

Securities are dated May 1 1907 and will mature Feb. 1 1910.

York Township, Van Wert County, Ohio.—*Bond Offering.*—Proposals will be received until 1 p. m. May 18 by the Township Trustees at the office of Blachly & Kerns in Van Wert for $10,000 4% West York road district coupon bonds. Authority Sections 4686-38 to 4686-50 of the Revised Statutes. Denomination $1,000. Date June 1 1907. Interest March 1 and Sept 1 at the First National Bank of Van Wert. Maturity $2,000 on Sept. 1 1924, $4,000 Sept. 1 1925 and $4,000 Sept. 1 1926. Bonds are tax exempt. Bids to be unconditional. Successful bidders to furnish blank bonds. Certified check for $500, payable to J. M. Jones, Township Clerk, is required.

New Orleans	13,053,424	14,060,983	—7.2
Seven cities, 5 days	$1,855,070,878	$2,105,239,669	—11.9
Other cities, 5 days	393,018,406	318,946,298	+23.2
Total all cities, 5 days	$2,248,089,284	$2,424,185,967	—7.3
All cities, 1 day	437,862,481	530,076,214	—17.4
Total all cities for week	$2,685,951,765	$2,954,262,181	—9.1

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, April 20, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a loss of 9.8%. Outside of New York the increase over 1906 is 8.8%.

"RAILWAY AND INDUSTRIAL" SECTION.

A new number of our "Railway and Industrial" Section, revised to date, is sent to our subscribers to-day. The editorial discussions in the same embrace the following topics: "Improvements in Railroad Superstructure" and "Railroad Conditions in the South."

THE FINANCIAL SITUATION.

Crops and the President's political campaigns have gotten to be the engrossing topics discussed the past week by the daily press, if not the controlling influences on the markets. As we said in our last issue, the season being in good part phenomenally backward, weather conditions are in favorable shape to give a quasi basis for a real setback to the development of agricultural products and to float even baseless rumors of crop deterioration. Cotton, where the plant has been forward, as was the case in many districts, has suffered from the recent cold; in some instances it has been killed, requiring replanting. The weekly Government weather bulletin issued at Washington April 23 stated that the current week was the third of abnormally cold weather, especially in the districts east of the Mississippi River. It is likewise reported to be true that east of the Rocky Mountains the last seven days have shown a mean temperature considerably below ordinary. In the plateau regions, and in all districts to the eastward, with the exception of Florida, the temperature has been notably low, with the most marked deficiencies occurring in the central valley, and freezing weather has extended as far South as Northwestern Texas, central Mississippi and the western part of North Carolina, with heavy frosts as far South as Arkansas and Tennessee. Winter wheat is also said to have suffered from the low-temperature conditions; also from insect destroyers, and, at points, by lack of moisture. The damage hitherto due to these causes may not be very serious, though at the moment it promises to cut the winter-wheat crop somewhat short of last year's. This can be made good by the planting of the spring variety of wheat, should future weather conditions be favorable.

If current reports can be depended upon, the disclosures with respect to Presidential politics are highly sensational. Although Mr. Roosevelt's intention, as heretofore announced, seems still not to be a Presidential candidate himself a year hence, his purpose appears not to allow any one else to be a candidate except a lineal descendant of his opinions and policies. Those are not the words by which the claim is put forth, but the statements made seem to represent that conclusion. Take New York and Governor Hughes as illustration. The Governor has been struggling all through the legislative session in a dignified, proper way to get certain things done and Acts passed that outlined a policy which he believed was desirable for the State. His plans did not develop as smoothly as he wished, but met impediments in the shape of sensational opinions opposed to the Governor's. That was a proper proceeding for grinding out in a constitutional way the problems between these contestants and bid fair to produce wholesome results. All at once, and with the suddenness and force of a tidal wave, President Roosevelt whooped down on this peaceful situation and set both circles astir, being startled and disturbed. The President disclosed his purpose in an illustrative way. He brought with him a bundle containing the names of all officials in New York in the gift of the Government, and through an object lesson explained to Mr. Hughes what this gift meant. The lesson was made obvious by the removal of one officer the President thought was in the way of the Governor's desires and the appointment in his place of another who the President believed would be serviceable to Mr. Hughes's plans; it is reported he then told Governor Hughes, in substance—all the offices in New York State the General Government has to give I put at your disposal.

It is also reported that a similar gift with regard to Ohio was subsequently made to Mr. Taft; only in that case the gift was in a different form; instead of consulting the United States Senators from that State, the appointments hereafter would be left to Mr. Taft's approval. Consulting United States Senators from the State concerned has in the past been approved only because that body was a co-ordinate branch of the Government and has been given the power to confirm the more important appointments. Taking the consulting and approving power from Senator Foraker and putting it where it can be made of service in carrying an election is not likely to receive Mr. Taft's approval or harm Mr. Foraker's prospects in Ohio. We are of the opinion that both of these putative candidates will be embarrassed by this gift. It is too unfavorably suggestive; leaving a chance for a troublesome opponent to make capital out of the situation. Some might even ask, Which is the more reprehensible—buying votes and political influence by paying in offices or by paying in gold. Does not too, the fact, and in truth the whole machinery, by which an acting President might seek to name his own successor, partake a trifle too much of a reaching after kingly power to be popular in this country?

Discount conditions at the principal European centres, with the exception of Paris, showed marked improvement this week, as was indicated by the reduction in the Bank of Germany's rate by ½ of 1% to 5½%, in the Bank of the Netherlands to 5% and in the Bank of England to 4%. There were good reasons for the maintenance of the French Bank rate at 3½% and for the firm tone in the unofficial quotation. Paris bankers are now withdrawing from London the gold which they advanced to the British market early in the year, in order to relieve the tension which then prevailed at that centre, and the maintenance of the 3½% rate of discount seems to be desirable to facilitate such withdrawals. When they shall be completed, as seems likely soon will be the case, it appears probable that the Bank of France official rate will be reduced. The fact that London bankers view the recall of French capital without concern is indicated by the low open market rate of 3@3⅛%. This seemed to foreshadow, early in the week, a reduction in the Bank minimum, which occurred on Thursday, when 4% was recorded. Another manifestation of the existence of entirely normal conditions in the London discount market was the low contangoes at the end of the April settlement, these rates being the lowest in many months, reflecting an easy speculative situation. It appears probable that now the German loan of 100

million dollars has been placed, the Imperial Bank will again reduce its rate; and, indeed, conditions hold out the promise that then normal discounts will rule at all the European centres. That seems likely for the reason that the Bank of England will be able soon largely to increase its gold reserve through the purchase of the metal which is now in transit from South Africa, amounting to about $10,000,000. With this fortification of its reserve, the Bank will be in a position to meet all requirements, even though they should be large, as the result of its international prominence, and dominate the European situation.

The measures of relief to the New York market, through the timely intervention by Secretary Cortelyou, have largely, as has been heretofore noted, indirectly contributed to the restoration of normal monetary and discount conditions abroad. The direct results thus far are shown in the purchase of $23,467,750 4s of 1907, the refunding into 2% consols of $39,196,550 and the increase of deposits in national banks by $28,000,000 since March 4, including $17,510,000 customs collections placed in New York depositories. When the purchase of $25,000,000 4s, which Mr. Cortelyou called for redemption, shall be effected, and when refunding of the $50,000,000 set apart for this purpose shall be ended, there will be no further operations either in refunding or redemption; on July 2, however, the amount of 4s then outstanding, about $35,000,000, will be redeemed in cash. Meanwhile, deposits of public funds in the banks will continue, for it is stated that the Secretary has not changed his policy in this respect. Therefore, it appears likely that there will be no suspension of relief measures, as provided by the new financial law, at least until Treasury conditions shall make necessary withdrawals of public deposits in order to meet the Government requirements for disbursements.

The advance in foreign exchange rates this week seemed to indicate the possibility that the gold-export point would soon be reached. If there were any inducements for shipments of gold, such as a premium on the metal in London, or an urgent demand therefor at Paris, it seems probable that a much further rise in sight sterling would cause a movement hence. Though French bankers are drawing gold from London, they seem to be procuring the metal without difficulty, and so long as withdrawals are not obstructed and the movement is for the purpose of collecting an indebtedness incurred through advances to British bankers, when they were inconvenienced by monetary stress, exports to Paris from London will probably be free. Moreover, about one-fourth of such indebtedness is said to have been already remitted, and the remaining $7,500,000 will soon be paid. Then, presumedly, the rate for exchange at Paris on London, which is now so low as to facilitate the movement, will rise and shipments will cease. Under these circumstances, there would be little if any advantage to our bankers in shipping gold to Paris, even if exchange rates and other conditions were such as to indicate a profit as an arbitrage operation. It may be observed, though, that if exchange at New York on London should continue scarce, and be so difficult of procurement as to make necessary remittance with gold, the metal would go forward, but probably not in great volume.

Sufficient data bearing upon the current production of gold in the world has been made public to warrant the conclusion that the output of the mines in 1907 is quite fully meeting, if not exceeding, expectations. It is not possible, of course, to obtain monthly or quarterly returns from all the important producing countries, but such results as are at hand reveal the same tendencies as were the features of 1906 and 1905. For example, the Witwatersrand district of Africa reports for the quarter ending March 31 1907 an output of 1,516,037 fine ounces, against 1,225,252 fine ounces and 1,093,841 fine ounces respectively in the corresponding periods of 1906 and 1905. And the remainder of Africa—Transvaal outside the Rand, Rhodesia, West Africa, &c.—has furnished approximately 250,000 fine ounces in 1907, against 225,000 fine ounces a year ago and 165,000 fine ounces in 1905. Hence, the output for the whole country for the first quarter of the current year has been 1,766,000 fine ounces, which compares with 1,450,000 fine ounces last year and 1,259,000 fine ounces two years ago, the gain this year over 1906 being about 22%.

Advices from the mines in the United States, without giving actual statistics, report an increasing output in leading fields and refer in a very confident manner to the bright prospects for a further very material gain in production in Nevada now that the labor difficulties at Goldfield have been amicably adjusted. On the other hand, the mines of Australasia (not including Tasmania and South Australia, the least important fields of the country) have collectively produced only about 875,000 ounces in the quarter this year, against 945,000 ounces in 1906 and 963,000 ounces in 1905, and the principal East Indian workings return totals of 132,000 ounces, 147,000 ounces and 152,000 ounces, respectively, in the three years. But combining the aggregates for Africa, Australasia and India, we have a result for the first quarter of 1907 of 2,773,000 ounces, against 2,542,000 ounces in 1906 and 2,374,000 ounces in 1905, the excess over 1906 being at the rate of a little more than 9%; for the full year 1906 the production of the three countries specified showed a gain over 1905 of slightly under 8%. Consequently, as the United States is looked to for a greater increase in the full 12 months of 1907 than was recorded in 1906, it seems at this writing a safe assumption that the ratio of gain in the world's aggregate production of gold will show a considerable increase over 1906.

The world's visible stock of gold is, of course, increasing yearly. The general stock in the United States on Jan. 1 1906 was reported by the Treasury as $1,419,943,124, of which $1,135,107,044 (either in the form of coin or certificates represented by coin in the Treasury) was in circulation. On Jan. 1 1907 the totals had risen to $1,587,018,385 and $1,273,018,763, respectively, and on April 1 a further augmentation to $1,611,373,750 and $1,300,612,758 had been shown. It is thus seen that in this country the stock of gold has materially increased. During the same interval European banks increased their holdings of the metal moderately, and it is to be presumed that in other quarters of the globe there were additions to stocks of the precious metal. In fact, we have only to mention, by way of illustrating how gold is accumulating at some points, that the Argentine Government's conversion office is reported now to hold nearly $118,000,000 in gold, against only $93,000,000 at the close of last

October; that more is now on the way, and that the amount in hand by the middle of May, is expected to reach at least $125,000,000, or $19,000,000 more than at that date last year. But despite all these additions, with gold an almost universal basis or medium of trade between nations, there is yet more or less need for a larger stock.

———

A noteworthy event of the week in textile circles was the semi-annual meeting of the National Association of Cotton Manufacturers, held in the Massachusetts Institute of Technology, Boston, on Wednesday and Thursday of the current week. Including the annual gatherings of its predecessor, the New England Cotton Manufacturers' Association, this was the eighty-second, and most successful, meeting of the organization, not only in point of attendance, but in the scope of its proceedings. The Secretary's report, which was submitted at the opening session on Wednesday, showed the recent growth in membership had been large, 879 names being on the roll, a gain of 82 within the year. In a carefully prepared address, Mr. James R. McColl, the presiding officer, concisely reviewing the important happenings of the year, pointed out the mistake of the cotton-growing interests in securing a fraud order against the New York Cotton Exchange. His characterization of the New York Exchange as an institution of high record, with rules enforcing strictly honorable dealings, merely stated well-known facts. He also advocated the establishment of a cotton exchange in New England (at either Boston or Providence), where two-thirds of the spindles of the country are located. As to the wisdom of such an undertaking, there is room for doubt. Mr. McColl, in referring to suits brought by the Federal Government against cotton manufacturers in North Carolina for breach of the immigration law, stated it to be an entirely unwarranted assumption on the part of certain Southern newspapers that the actions were based on complaints from New England manufacturers. He well said that such action would have been as unlikely as it would be narrow-minded and foolish, if for no other reason than that Northern capital is largely interested in Southern mills. Among the papers submitted at the first session were "Corporations and the Public Welfare," by Mr. Everett W. Burdett of Boston, who referred at length to the spirit of unrest and discontent which seems so prevalent, and to the especial antagonism displayed toward corporate interests, but offered no tanglble suggestion for better conditions. Mr. Harvey Stuart Chase's paper on "Cost of Maintenance and Depreciation in Cotton Mills," as well as that devoted to "Taxation and Valuation with Reference to Industrial Plants," by Mr. Henry K. Rowell, showed intimate knowledge of the subjects covered, and would well repay careful reading by practical men.

In the afternoon session, the regular order of program was changed to permit Mr. William W. Crosby, former principal of the Lowell Textile School, to explain a plan for investigating the condition of wage-earners in textile mills. The plan has the advocacy of the National Society for the Promotion of Industrial Education, and it aims to find out what may properly be done for textile workers, when they first enter the mills, in order to increase their efficiency when they become operatives. A move of this kind is highly commendable; while it makes for greater efficiency, it at the same time is an assurance of increasing interest of employers in the welfare of labor—a cementing of business fellowship between employer and employee.

Mr. Samuel T. Hubbard of this city opened the afternoon session of the first day with a paper on "The New York Cotton Exchange and its Contract for Delivery of Cotton." Mr. Hubbard's long years of experience in the New York market qualified him to defend the contract against the various attacks made upon it. Carefully reviewing the difficulties encountered in evolving a desirable contract, he in effect said that the system now in use guarantees the grade, permits re-tendering without loss in classification, enables shippers or planters to tender merchantable grades without change in the differences and makes public the exact grade of the New York stock. In fact, offers advantages not offered by any other similar institution in the world.

The final session of the meeting—that of Thursday morning—was devoted to elections and to the reading of papers more or less technical.

———

Some exceedingly significant events and happenings have marked the course of the week. On Thursday it was announced that the syndicate formed last year to float $35,000,000 25-year 4% debenture bonds of the Lake Shore & Michigan Southern Ry. would be dissolved on May 1 and that the members of the syndicate would be obliged to take over a large portion of the bonds, very few of them having been sold. When a railroad of such superlative strength and earning capacity as the Lake Shore cannot find buyers for its 4% bonds, at a figure below par, there is evidently something radically wrong in the situation. But, as every one knows, the Lake Shore case is only one instance. For more than fifteen months it has been practically impossible for the best of our railroads, those of highest credit, to borrow money except on very stiff terms. While there may have been other contributory causes, the main reason for the inability to raise new capital is found in the distrust created in the minds of investors by the hostile attitude manifested against the railroads and against corporate interests generally. Another event of the week that is in like manner typical of the present state of things and must be regarded as the direct outgrowth of adverse legislation and public hostility is the failure of the Rapid Transit Commission in this city to secure any bids for the new subway routes for which proposals were asked. Not a solitary bidder appeared. What was the reason? The need for additional transit facilities in this borough and in Brooklyn was never so urgent as at present and capital is ready and willing to embark in new subway enterprises if only a moderate profit can be assured. But by legislative enactments we have done everything to discourage investments in additional subways.

Our readers will recall how difficult it was to get the existing subways built. Year after year nothing was accomplished until finally the Belmont syndicate came along, raised the needed capital and carried the undertaking to success. The fact that the promoters of this scheme were able to make considerable profits aroused a feeling of malevolence and straightway our legislators went to work to render it impossible for any future subways to be built at a profit. The length

of the franchises was reduced and the terms and conditions made more onerous in other ways. President Shonts of the Interborough-Metropolitan Co., in a letter addressed to the Board of Rapid Transit Commissioners, points out that under the new conditions imposed and the increase in the price of labor and materials the proposed subways would cost when fully equipped $2,250,000 per mile of single track, as compared with the cost of $1,130,000 per mile for the existing Rapid Transit lines, an increase of about 100%. But this is not all. Under the proposed form of contract and the existing law, the expenses which must be provided each year out of income are further largely added to as compared with those under the original subway contract. In the first place, from one-half to three-quarters of 1% more interest will have to be paid upon the bonds to be issued by the city for the cost of construction. In the second place, unlike the original subway, the entire investment in the new subway will be subject to taxation. In the third place various advantages conferred by the original contract are now eliminated, and finally the lease is limited to twenty years.

Another important consideration is the exceptionally broad power conferred by the form of contract upon the public authorities to require from time to time any changes in the construction of the subway and in the equipment and other appliances used therein. The Interborough people would like very much to complete their system, but under the circumstances they do not feel that it would be safe for them to assume responsibility for the $88,000,000 new capital which would be required for the purpose—using the city's credit for $64,000,000 and providing $24,000,000 themselves for equipment, &c. Mr. Shonts says that the terms and conditions are such that "it would not be possible to make net earnings above operating and maintenance expenses, sinking fund payments and taxes, sufficient to provide the interest upon the city's bonds and 5% upon the additional capital invested." So the Interborough Co. found itself reluctantly obliged to refrain from bidding for the new routes. In view of the facts stated, it is difficult to see how the Interborough Co. could have followed any other course; but think of the inconceivable folly, on the part of our Legislature and the public, in rendering it impossible to do the thing which the company so much desires to do, and which those compelled to rely on local transit facilities are so anxious should be done.

There is some evidence of the awakening of the public mind to the harm that is resulting to all interests from the present crusade. From Chicago we learn that several hundred manufacturing and business firms throughout the country have united in an address to the public. They point out that at present business is good on old orders, but it is certain to become bad unless the existing policy is changed. They say, what is incontrovertible, that if present conditions continue, all classes of labor and every business interest will be injured. Every manufacturer, every jobber and every retailer in the United States does business directly or indirectly with railroads or their officials and employees. The railroad interest is, next to farming, the largest in the country. When railroads begin to economize it seriously affects every other business. Under such conditions labor must necessarily suffer very greatly and considerable idleness ensue. They conclude with these pregnant words: "We do not object to the regulation of the railroads by the National Government in the proper manner, but we do object to going through a period of hard times similar to that between 1893 and 1897 in order to accomplish alleged railroad reform. The situation is serious. Immediate action is necessary, or business will diminish; bank accounts will be reduced, profits will disappear, salaries will be cut, wages decreased, men discharged and thousands will be looking for work. Every laboring man, every business man, every professional man—in fact, every man—is and will be affected."

Are those upon whom rests the responsibility for the present unfortunate movement paying any heed to this cry? Quite the contrary. At Albany the Assembly has this week passed, with only five dissenting votes, the bill providing for a five-cent fare to Coney Island, though the Brooklyn Rapid Transit officials have declared over and over that the Coney Island traffic at such a figure can not be made to pay. Other bills of the same nature are also under consideration by our State Legislature, in particular one aimed at the New York Central. In Minnesota the Sundberg Investigating Committee has just made its report to the State Senate, valuing railroad property in Minnesota and seeking to show that railroads in that State have been enormously over-capitalized. Especial reference is made to the case of the Chicago Great Western, the market value of whose shares has never been more than a few cents on the dollar. The committee recommends that a committee or commission be appointed to investigate generally the question of the capitalization of the railroads of Minnesota, with the view of the enactment of "appropriate legislation" on the subject. It passes our comprehension what can possibly be gained through these movements directed against the capitalization of the railroads. Capitalization never has and never will control railroad charges, either freight or passengers, and to treat certificates like Chicago Great Western stock as if they represented something real, instead of something nominal, borders closely on the ridiculous. But our legislators evidently think that continued agitation is popular, whether based on legitimate grievances or not. In the meantime, they are totally unmindful of the harm being done. It is difficult to escape the conclusion that in all this we are sowing the wind and later on shall reap the whirlwind.

At the Louisiana State Bankers' Convention, held at Shreveport last week, Mr. Charles G. Dawes, formerly Comptroller of the Currency and now President of the Central Trust Co. of Illinois, delivered an interesting address on the Sherman Anti-Trust Law in its relations to the public, and earnestly argued that the law should be amended. Congress, of course, is not now in session and will not convene until December, but such addresses as Mr. Dawes's serve an important purpose in educating the public in anticipation of the meeting of that body. Mr. Dawes asserts that the Sherman Law sprang out of just such conditions as we have in the country to-day, from widespread interest in the matter of corporate abuses, and it was hostile legislation. It was legislation that resulted from an excited condition of the country, and it was

ill considered, and for that reason, until recently, for sixteen years it was a dead letter upon the statute book. The Act provides that all agreements in restraint of trade are criminal, whether they are vicious in intent or not. But this is the day of the trade agreement. We have national, State, city and district associations of business men, who are brought together by their desire to formulate what might be called the rules of trade. Very often these combinations are made for the purpose of preserving existence, not for the purpose of extorting. Very often, too, the agreements in restraint of trade which these business men make are beneficial to the public. Mr. Dawes urges that agreements of that kind should be favored by the law instead of being placed under the ban. He points out that competition in this country has run riot. Small businesses are being crushed out. Under the law of evolution it must be recognized that the trade agreement in the United States has come to stay. Hence the statute should in some way provide for the trial of the trade agreement, much in the same way that a man is tried when charged with a crime. Let not the trade agreement be presumed guilty before trial, says Mr. Dawes. He contends that it is as much a measure of reform to correct the Sherman Act as to pass laws in connection with railroad rates. Every one will agree with him when he asserts that it does not require courage for a public man to stand for those things which are popular in the country, but we need men who will stand for that which is right and that which is reasonable, even if it brings down upon them, for the time being, the castigation instead of the applause of the radical portion of the public.

The Bank of England rate of discount was reduced this week from 4½% to 4%, following a reduction by the Imperial Bank of Germany on Tuesday of its rate from 5½% to 5% and by the Bank of the Netherlands also to 5%, thus indicating a quite general improvement in discount conditions at all the European centres. It may be noted, however, that the official rate of discount of the Bank of France remains unchanged at 3½%, but special reasons exist for the maintenance of this rate, as elsewhere stated. It appears likely that were it not for the withdrawals of gold which are now being made by French bankers from London, the English Bank rate would have been further reduced this week, for the low open market quotation seemed clearly to indicate that the Bank no longer controlled the discount market. Possibly when the French requirements for gold shall have been satisfied, the Bank rate will be further reduced. As the result of the lowering of the English Bank rate unofficial discounts were quoted at the close of the week at a decline in London, compared with last week, of ⅛ of 1%, while open market rates at Paris were unchanged; those at Berlin and Frankfort were ½ of 1% lower.

A Berlin cable on Friday reported that the German and Prussian loans for $50,000,000 each, which were issued, as announced in the "Chronicle" last week, have been largely over-subscribed; the books closed on Thursday. The amount offered, as stated in the cable, was $75,000,000, instead of $100,000,000, the total of the emissions by both governments. The difference of $25,000,000 between the two amounts is explained by the fact that the syndicates which undertook the negotiation of the loan reserved one-quarter of the sum for private disposition; the remainder was offered to the public, with the results above stated.

The most notable feature of the statement of the New York Associated Banks last week was a further increase in loans of $25,347,800, following an expansion of $36,968,300 in the previous week, and an increase in deposits of $26,501,600, making $71,350,400 for the fortnight. The loan expansion seemed to indicate shifting of loans from trust companies to banks and also important syndicate borrowings. The cash gain last week was $2,477,300 and the required reserve was augmented $6,625,400. The surplus was reduced $4,148,100 to $11,704,825.

There have been some indications this week, as was the case last week, of the withdrawal of balances by interior banks from their New York correspondents, in order to employ such balances in the home market, where opportunities are offered for their more profitable use. The Sub-Treasury operations have resulted in smaller contributions to our market than have been latterly made, and consequently it has appeared probable that the bank return of this week would show a further diminution of cash and of reserve. Such outlook has, however, had no special influence upon the rates for money on call, chiefly for the reason that the requirements for stock speculation have been limited, owing to the abstention of commission house clients from trading operations; indeed, such trading has been so small that the ordinary balances carried by these houses has been much more than sufficient to supply the needs of their customers, so that borrowing from the banks has been greatly restricted. The time-loan branch of the market shows some recessions in rates for short maturities, but money for such periods is not in request, partly because of the abundance of offerings on call and also for the reason that it is expected that the distribution of Government money in July, for the payment of the balance of the 4%s of 1907, which will then be unredeemed, will contribute to extremely easy monetary conditions. There is a good demand for loans maturing in the fall and in the later months of the year; but offerings thereof are not liberal.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 2¾% and at 1¾%, averaging about 2¼%; banks and trust companies quoted 1¾% as the minimum. On Monday loans were at 2¾% and at 1¾%, with the bulk of the business at 2½%. On Tuesday and on Wednesday transactions were at 2¼% and at 1¾%, with the majority at 2¼%. On Thursday loans were at 2½% and at 2%, with the bulk of the business at 2¼%. On Friday it is noteworthy that transactions were at 2% all day without change. Time loans on good mixed Stock Exchange collateral were 3½% for sixty and 4@4¼% for ninety days, 4½@4¾% for four, 4¾@5% for five and six months and 5½% for seven to eight months; one transaction is reported at 5% for a loan of $1,000,000 for nine to ten months, and other equally large amounts could probably be placed at this rate, for 5¼% is the quotation. Commercial paper is still affected by competition with corporation notes and business is small; rates are 5½@6% for sixty to ninety day endorsed bills receivable, 5½@6%

for prime, and 6½% and above for good four to six months' single names.

The Bank of England rate of discount was reduced this week from 4½%, at which it has stood since April 11th, to 4%; the Imperial Bank of Germany lowered its rate on Tuesday to 5½% from 6%, which has been maintained since January 22d, and the Bank of the Netherlands reduced its rate to 5%. The cable reports discounts of sixty to ninety day bank bills in London, 3¼%. The open market rate at Paris is 3¼% and at Berlin and Frankfort it is 4@4¼% According to our special cable from London, the Bank gained £296,408 bullion during the week and held £36,191,304 at the close of the week. Our correspondent further advises us that the gain was due almost wholly to purchases in the open market, the movement from the interior of Great Britain having been very moderate. The details of the movement into and out of the Bank were as follows: Imports, £509,000 (wholly bought in the open market); exports, £284,000 (of which £254,000 to Paris and £30,000 to South America), and receipts of £71,000 *net* from the interior of Great Britain.

The foreign exchange market was generally strong this week, influenced chiefly by relatively lower rates for money in New York than for discounts abroad. This contributed to a demand to remit in settlement of maturing and other obligations and also to transfers of balances that could be more profitably employed at European centres. There was a good inquiry for remittance in payment for securities which had been sold for foreign account and that had recently arrived from London. The reduction in the Bank of England rate had been so distinctly foreshadowed by the fall in the unofficial figures that it had little influence, except to stimulate buying of long sterling and to lessen the demand for short. One feature was the limited supply of commodity bills, indicating a small export movement of cotton; the grain drafts that came forward were not in sufficient volume to make any impression on the market. Continued selling of securities for London account and quite small purchases on arbitrage caused a steady demand, which absorbed all offerings of bankers' bills; therefore, when the inquiry for the outgoing mails became urgent, rates sharply rose, and early in the week about the highest prices of the year were recorded for sight sterling. Then quotations therefor were apparently so close to the gold-export point that it was thought likely that shipments to London might soon become possible were conditions to develop which would make the operation profitable. The fall in exchange at Paris on London also gave rise to some expectations that gold might go forward as an arbitrage transaction—the metal being shipped to Paris in order to purchase sterling exchange at that centre. In the absence, however, of any inducements for exports, either to London or to Paris, bankers were of the opinion that no shipments would be made unless, indeed, exchange conditions should become much more favorable for the movement than at present seemed likely. On Wednesday, there was a sharp recession in rates, which appeared to indicate liberal drawings of bankers' bills; it seemed, though, that the fall was due to the temporary satisfaction of the inquiry for Thursday's mail and not to any increase in offerings. The market was easier on the following day and steadier on Friday.

Nominal quotations for sterling exchange are 4 84 @4 84½ for sixty day and 4 87@4 87½ for sight. The market was firm on Saturday of last week and though long was unchanged, compared with Friday, short rose 20 points to 4 8580@4 8595 and cables 25 points to 4 8625@4 8650. On Monday there was an advance in long of 30 points to 4 8310@4 8315, of 25 points in short to 4 8605@4 8610 and of 25 points in cables to 4 8650@4 8655. On Tuesday long rose 25 points to 4 8335@4 8340, short 35 points to 4 8640 @4 8645 and cables 30 points to 4 8680@4 8685. On Wednesday long was 10 points higher at 4 8345@ 4 8350, short 25 points lower at 4 8615@4 8630 and cables 30 points at 4 8650@4 8655. On Thursday long fell 15 points to 4 8330@4 8340, short 20 points to 4 8605@4 8610 and cables 15 points to 4 8635@ 4 8645. The tone was steady on Friday and unchanged, except for long, which was 10 points lower.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

		Fri., Apr. 19	*Mon., Apr. 22*	*Tues., Apr. 23*	*Wed., Apr. 24*	*Thurs., Apr. 25*	*Fri., Apr. 26*
Brown Bros. & Co.	60 days	4 83½	84	84	84	84	84
	Sight	4 86½	87	87	87	87	87
Baring & Co.	60 days	4 83½	84	84	84	84	84
	Sight	4 86½	87	87	87	87	87
Bank British North America	60 days	4 83½	84	84	84	84½	84½
	Sight	4 86½	87	87	87	87½	87½
Bank of Montreal	60 days	4 83½	84	84	84	84	84
	Sight	4 86½	87	87	87	87	87
Canadian Bank of Commerce	60 days	4 83½	84	84	84	84	84
	Sight	4 86½	87	87	87	87	87
Heidelbach, Ickelheimer & Co.	60 days	4 83½	84	84	84	84	84
	Sight	4 86½	87	87	87	87	87
Lazard Freres	60 days	4 83½	84	84	84	84	84
	Sight	4 86½	87	87	87	87	87
Merchants' Bank of Canada	60 days	4 83½	84	84	84	84	84
	Sight	4 86½	87	87	87	87½	87½

The market closed on Friday at 4 8320@4 8330 for long, 4 8605@4 8610 for short and 4 8635@4 8645 for cables. Commercial on banks 4 8280@4 8290 and documents for payment 4 8225@4 83. Cotton for payment 4 82¼@4 82⅜, cotton for acceptance 4 8280 @4 8290 and grain for payment 4 82⅞@4 83.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending April 26 1907.	*Received by N. Y. Banks.*	*Shipped by N. Y. Banks.*	*Net Interior Movement.*
Currency	$3,209,000	$5,350,000	Loss $2,141,000
Gold	906,000	1,400,000	Loss 494,000
Total gold and legal tenders	$4,115,000	$6,750,000	Loss $2,635,000

With the Sub-Treasury operations the result is as follows:

Week ending April 26 1907.	*Into Banks.*	*Out of Banks.*	*Net Change in Bank Holdings.*
Bank's interior movement as above	$4,115,000	$6,750,000	Loss $2,635,000
Sub-Treasury operations	26,300,000	25,800,000	Gain 500,000
Total gold and legal tenders	$30,415,000	$32,550,000	Loss $2,135,000

The following table indicates the amount of bullion in the principal European banks:

Bank of	*April 25 1907.*			*April 26 1906.*

THE BRITISH GOVERNMENT AND SOCIALISM.

A budget of income expenditure and taxation, submitted by a Government for a coming year, is apt to be dry reading for the general public. Perhaps this principle applies less to the annual British budgets than to those of any other modern Government, for the double reason, first, that the political success or failure of an English Ministry is peculiarly dependent on the reception given to its fiscal expedients; and, second, that with the wide latitude assumed by Parliament in the alteration of an existing system of politics or finances, a budget of taxation may easily be made the entering wedge for a change, not only in the financial but in the social attitude of the Government.

Thus the "budget speech" of Mr. Asquith, in the House of Commons last week, was awaited with particular curiosity, because it was felt that the taxation expedients proposed would indicate the Government's attitude toward the socialistic movements of the day. Socialism, as all attentive observers of the news must be aware, has a score of varying forms in modern controversy; it does not always, or in fact often, mean the same thing in one country as in another. Nevertheless, there is no difficulty in seeing when a particular move of government is a distinct concession to socialistic tendencies, and in this class of legislation the mooted plan for "old-age pensions" in Great Britain would undoubtedly be classed.

To understand the position occupied by the British Government in this regard, it must be remembered that the Liberals had made a bid distinctly, in last year's elections, for the Labor Party. It is true, their majority was in the end so great that on a vote in Parliament they might easily dispense with the support of the Labor members, properly so-called; but, on the other hand, there were certain distinct ante-election pledges, with which the Ministry was confronted on assuming power, and which it could not well repudiate simply because it had learned, when the votes were in, that they had not been necessary to the party's success. Very naturally, therefore, pressure on the Ministry from the socialistically inclined political groups increased as the time for the budget of taxation drew near. It was proclaimed, by the Labor Party in particular, that the Government would now be compelled to show its colors in the matter of old-age pensions. On the other hand, all advices from London's financial markets indicated a feeling of misgiving as to the tendencies and precedents which might be shown to have a place in the new scheme of finance.

Mr. Asquith's budget turns out to be a compromise —in which, however, more is denied to the socialists than is granted to them. The Chancellor of the Exchequer concedes, from the $27,000,000 surplus of the fiscal year ending March 31, the amount of $7,500,000 to be invested as a nucleus for the old-age-pension scheme should that project ever be adopted. This was at least a sop to Cerberus; but Mr. Asquith's own statement of his purpose was calculated to throw cold water on broad inferences from the fact that the pension scheme had made its beginning. While admitting that the Ministry regarded the project as "the most serious and most urgent of all the demands for social reform," he flatly declared that for his own part he would not commit himself to any scheme for the purpose. In short, the question is left very much where it was before, except that a certain sum was laid aside to be used if anything further comes of the old-age pension project.

It would be rash to assert that nothing more will come of it. Nevertheless, Mr. Asquith's own showing of the public finances threw light on his hesitation in this case, and gave pretty clear evidence of what socialistic schemes of this nature, whether right or wrong, must involve to the tax-paying public. In order to provide even for the ordinary estimated needs of Government in the coming twelve-month, the Chancellor of the Exchequer not only found it necessary to increase the "death duties," or inheritance tax on large estates, to a rate fully 2% more than the rate imposed by Sir William Harcourt in 1894, but was also compelled to deny the very reasonable demand for general reduction in the income tax. It was notorious that the "shilling income tax," which in England touches small incomes in a way it has never done here, stands to-day at a rate not reached in half a century, outside of war times. Indeed it is doubtful if the 5% annual tax represented by exaction of twelve pence in the pound has ever been paralleled in England at a time of profound peace, when the fair presumption was that recovery from the strain of war had been completed. It was reasonably contended by the tax-payers that, since 8% was the highest income tax imposed between 1863 and 1900, it is unfair to maintain so large a tax at the present time. To this the Chancellor of the Exchequer, while admitting the force of the complaint, nevertheless was able to respond only to the extent of granting a reduction of the tax to 9 shillings in the pound for incomes below £2,000 per annum, not derived from investments.

One can hardly wonder that this extremely moderate concession has been badly received, and it is obvious enough that a situation of the sort must serve as a warning, both for the general public and for the Government, as to what will be the price of indulgence in socialistic experiments. If it were not for the uneasy agitation which has seemed to be in the air throughout the world, the suggestion of so enormous a drain as old-age pensions must impose on the public revenues, would be regarded in Great Britain's case, under the present circumstances, as a wild absurdity. Nothing can be more plain, from the simple figures of Mr. Asquith's budget, than the fact that if such experiments are tried, the preliminary step must be, not only abandonment of all plans for cutting down the income tax, but announcement of further increase, in that or in other taxes, to the level reached at the critical periods of war.

Just how such a proposition would appeal to that part of the community which has placed itself, by its savings, on a footing of real prosperity, is not difficult to judge. We suspect that the British Ministry has already judged the matter for itself and has discovered considerable doubt, even from a purely political point of view, as to whether experiments of this sort can be altogether safe. The recent vote in the London municipal elections, wholly adverse to the scheme of extended municipal ownership, resulted admittedly from burdens, fast becoming intolerable, which previous experiments had heaped on the tax-payers' shoulders. The astonishingly complete defeat of the Socialist Party, in the German elections earlier this

year, and the abandonment of purely socialistic doctrines by a French Ministry regarded as ultra-radical, are equally noteworthy symptoms of the times. What the English episode in particular points out is the strong probability that a party which goes just a step too far in tampering with taxation for the sake of a purely socialist undertaking will inevitably be unseated by such majorities as will long be remembered in Parliamentary history. Perhaps the lesson as to what the simple enthusiast over socialism must pay from his own pocket for the pleasure of seeing his theories tried, even tentatively, has not yet been fully learned by the world at large. It is characteristic that a British Ministry, even when brought face to face with a project of the sort supported by its own partial pledge, should balk at it.

MUNICIPAL OWNERSHIP AND THE CHICAGO STREET RAILWAY DECISION.

The decision rendered last week by the Supreme Court of Illinois in the case involving the validity of the $75,000,000 of street railway certificates which the City of Chicago purposed issuing under the so-called Mueller Law, enacted in 1903, appears to be far-reaching in its import and, we should judge, of wide application and bearing. The Court holds the proposed $75,000,000 certificates invalid because, owing to the manner in which they are to be secured, their issuance would be tantamount to an addition to the debt of the city, and such an addition would bring the city's total indebtedness far above the limit for Illinois municipalities fixed by the Illinois Constitution.

In the last analysis, the decision is a blow at municipal ownership—and a blow from the effect of which it is not easy to see how recovery will be possible. The ruling, however, we are glad to say, will operate in no way to interfere with the carrying out of the scheme for the rehabilitation of the Chicago trolley companies, as provided in the municipal ordinances approved by popular vote at the city election held this very month. These ordinances give the city the right to purchase these properties upon certain terms at any time on six months' notice by paying $50,000,000, the agreed valuation, plus the cost of rehabilitation, which latter is estimated at not less than $40,000,000. The inability of the city to issue the certificates under the decision of the Court, making it impossible, therefore, for the city to float obligations which would give it the funds to purchase the roads, obviously defers the time when the idea of municipal ownership can be carried out. But this is not a matter for regret. Rather it is an occasion for rejoicing. Moreover, it will render it less difficult for the companies to raise the large amount of capital needed for the reconstruction of the properties, inasmuch as deferral of the day when the municipality itself shall take over the roads means a corresponding lengthening of the time during which the franchises will be held by the present owners. For, we need hardly say, capital is very timid about going into enterprises of this kind where the tenure of life is short.

To the general public, the question of chief interest in the decision is the grounds upon which the Illinois Supreme Court rests its conclusion that certificates of this kind, secured by a pledge of the property purchased, and not purporting to be a direct obligation of the municipality, must be held to be an indebtedness of the municipality within the scope of the constitutional mandate against the creation of debt beyond certain prescribed limits. These grounds for considering street railway certificates a municipal indebtedness are very broad, and will act as a bar against the taking over of street railways by other municipalities in Illinois, except, possibly, in the case of some very small places without any extensive indebtedness and over-abundantly supplied with cash. Of course, the matter is also of importance in other States, for the courts in those States may elect to follow the doctrine laid down in Illinois. With the judiciary, we all know, precedent counts for a great deal, and whenever important questions of law come up there is a constant search for authorities, not only in the home State but in outside States.

The Mueller Law derives its name from the fact that it was introduced in the Illinois Legislature by Senator Carl Mueller. Its proper title is "An Act to authorize cities to acquire, construct, own, operate and lease street railways and to provide the means therefor." The Act provides that no city shall proceed to *operate* street railways unless the proposition to operate shall first have been submitted to the electors of such city and been approved by three-fifths of the electors voting thereon. The voters of Chicago on April 3 1906, it will be recalled, voted against municipal operation, but at the same time voted in favor of the issue of Mueller certificates for the purchase, ownership and maintenance of street railways. Two methods are provided by the Act for obtaining funds with which to acquire and equip street railways. The first method is to issue bonds based upon the faith and credit of the municipality. This method was not open to the City of Chicago, since its indebtedness is already close up to the prescribed limits. The second method, and the one adopted in this instance, is to issue and dispose of interest-bearing certificates to be known as street railway certificates. These certificates, it is provided by Section 2 of the law, shall "under no circumstances be or become an obligation of the city or payable out of any general fund thereof, but shall be payable solely out of a specified portion of the revenues or income to be derived from the street railway property for the acquisition of which they were issued." It is further provided that "such certificates shall not be issued and secured on any street railway property in excess of the cost to the city of such property, as herein before provided, and 10% of such cost in addition thereto."

Authority is granted to secure these certificates by mortgage or deed of trust. Any such mortgage or deed must carry the grant of privilege or right to maintain and operate the street railway property covered thereby for a period not exceeding twenty years from and after the date such property may come into the possession of any person or corporation as the result of foreclosure proceedings. Obviously the privilege of foreclosure would possess no value unless coupled with the condition that the purchasers shall have a franchise for the operation of the road; but it is precisely on that ground that the issue of the certificates is declared invalid. The Court holds that the mortgage pledges something beyond the mere physical property of the street railways. It gives a mortgage on Chicago streets for twenty years, and therefore

the certificates involve the city's general revenues to that extent.

Under the Illinois Constitution no county, city, township, school district or other municipal corporation is allowed to become indebted in any manner or for any purpose to an amount, including existing in debtedness, in the aggregate exceeding 5% on the value of the taxable property therein. .It was averred in the bill of complaint that the total assessed valuation of all the taxable property in Chicago for the year 1905 was $407,991,625, while the outstanding indebtedness of the city aggregated $20,298,985, or almost the full 5% allowed by the Constitution. The only question therefore was whether the proposed certificates were an indebtedness of the city within the limitations imposed by the Constitution. The opinion quotes from previous decisions to show that the clear and unmistakable purpose of the framers of the organic law in inserting such a limitation in the Constitution was to effectually protect persons residing in municipalities from the abuse of their credit and the consequent oppression of burdensome, if not ruinous, taxation. Also that the prohibition is against becoming indebted—that is, voluntarily incurring a legal liability to pay "in any manner or for any purpose" when a given amount of indebtedness has previously been incurred. The character of the indebtedness which the constitutional provision was intended to cover is also defined. A debt payable in the future, it was stated in one of the earlier decisions, is obviously no less a debt than if payable presently, and a debt payable upon a contingency, as upon the happening of some event, such as the rendering of a service or the delivery of property, &c., is some kind of a debt and therefore within the prohibition. If a contract or undertaking contemplates in any contingency a liability to pay, when the contingency occurs the liability is absolute —the debt exists—and it differs from a present, unqualified promise to pay only in the manner by which the indebtedness was incurred.

To be sure, it is expressly provided in the Mueller Law—and the provision in the Statute was in substance incorporated in the ordinance providing for the issue of the $75,000,000 certificates and copied in the certificates and trust deeds—that the certificates shall "under no circumstances be or become an obligation or liability of the city, or payable out of any general fund thereof." But the Court points out that in the case of the City of Joliet vs. Alexander (194 Illinois, 457), which we reviewed in our "State and City " Supplement for Oct. 12 1901, it was held that it is not essential that there should be a right of action on the certificates (the certificates were water certificates in that instance) against the city in order to constitute a debt where its money or property can be taken in payment. The city of Joliet in that case was indebted up to the constitutional limit, and in order to extend its water-works system sought by mortgage to pledge the income of the existing water-works system and a proposed extension of the same. But the Court held that the certificates thus sought to be secured created a debt within the constitutional inhibition.

Justice Hand, who delivered the opinion in the present instance, says that while it must be conceded that there is no liability resting upon the city to pay the street railway certificates, the question still remains: Is not the property of the city pledged or mortgaged for the payment of such certificates in such manner as to make said certificates an indebtedness of the city within the constitutional prohibition? If all that it were proposed to do were to pledge the property acquired and its income, there would be no indebtedness within the constitutional inhibition. But the Act goes further than that. What is to be purchased with the proceeds of the certificates? Clearly, not the streets of the city of Chicago on which the street car lines are to be laid and upon which they will be operated, says Justice Hand, for the obvious reason that the title to these streets and the right to control them are already vested in the city. The funds derived from the certificates will go solely to acquire the physical property of the roads, but under the mortgage the city's right to control the streets is also pledged as security for the certificates. Justice Hand says it is too clear for argument that the use of the streets for street-car purposes is to be mortgaged for the benefit of the holders of the certificates for a period of twenty years after a sale is made under foreclosure. And if the right to the use of the streets is property, then it follows that the issuance of the certificates would create an indebtedness within the constitutional prohibition. The law is well settled in Illinois that a city has a property right to the streets —that it usually holds the fee. Obviously the most valuable security which the certificate holder would receive would be the right granted by the trust deed to the purchaser at foreclosure sale to operate the street railways which he may acquire at the sale in the streets of the city for the period of twenty years from and after the date of his purchase.

As if to emphasize the importance of the decision—in the fact that without a franchise a street railway property possesses no value, while granting the same makes the certificates a city indebtedness—the Court lays great stress upon that feature. It says without the franchise the certificate holder would only have a lien on the rails in the street and other equipment of the street railway, which would be of little value without the right to operate said street railways in the streets of the city. But by the deed of trust granting to the purchasers the franchise to operate the road, the city would lose the right itself, or through its grantees or licensees, to use its streets for the period of twenty years from the date of the foreclosure sale for street railway purposes, and also the compensation which it receives as license fees or otherwise from the street railway companies now occupying its streets with their tracks. The surrender of such rights would entail upon the city not only the loss of the control of its streets for street-railway purposes for twenty years, but would deprive it of many hundred thousands of dollars which would otherwise be paid into the treasury during that period by street railways as compensation for the use of the streets.

The decision therefore comes to this: Without the right to a franchise in the event of default and foreclosure, the street railway property would be worthless, and it would be impossible to sell the certificates, for they would have no value. On the other hand, to grant the franchise rights as provided in the law and issue street-railway certificates containing such a condition is to create a municipal indebtedness, since by such act the city is parting with something

valuable and depriving itself of a present source of revenue. Thus the city has presented to it two horns of a dilemma, escape from either of which means being impaled on the other. Justice Hand takes occasion to point out that the Court has nothing to do with the policy of the municipalization of street railways in the cities of the State. It is its duty to enforce the provisions of the Constitution regarding the limitation of indebtedness as it finds them written in that instrument. The Constitution must be enforced and applied by the courts until its provisions are changed by the people in the manner provided in the Constitution itself.

COMPETITION NOT THE REMEDY IN THE TELEPHONE SERVICE.

It is quite noteworthy how unanimous sentiment among mercantile bodies is becoming that competition in the telephone service is not altogether desirable—that if reductions in rates and good service are sought, these ends are more likely to be attained under the present system than by inviting the entrance of opposition companies. Two recent reports serve to emphasize this conclusion. Early the present month a report was made in Chicago by a special committee which had been appointed by the Council Committee on Gas, Oil and Electric Light to investigate the telephone system and service in that most important Western city. This special commission consisted of three telephone experts, namely Professor D. C. Jackson, William H. Crumb and George W. Wilder. Two telephone companies are now in operation in Chicago —the Chicago Telephone Co. and the Illinois Telephone Co., the latter an automatic system in the business district and without long-distance connections. The franchise of the Chicago Telephone Co., it appears, has only about two years to run, and in view of that fact a third company, the Manufacturers' Telephone Co., had applied for admission, claiming that it could have its system completed in two years.

The special committee referred to reported against the new proposal. The committee based its judgment on a variety of considerations, but the main points in its argument were that the project of the Manufacturers' Telephone Co. was not feasible. It is asserted that a plant to replace the service of the Chicago Co. could not be constructed in less than double the two years' time available. It is also asserted the Chicago Telephone Co. has a desirable plant in use and can furnish good service at minimum cost. Furthermore, it is stated that the methods of charging and the rates proposed by the Manufacturers' Co. are not adapted to enable the company to give first-class service and pay ordinary interest on the investment. It was the committee's opinion that instead of granting admission to the Manufacturers' Co., a better plan would be to renew the franchise of the Chicago Telephone Co., inasmuch as control over its affairs is possible by two alternative means (a) to reserve to the city the right to regulate rates at certain intervals; (b) to limit the net earnings of the company and to require any excess above such limit to be paid to the city.

About the time this Chicago committee made its report, or, to be exact, the latter part of March, the legislative committee of the State Business Men's Association of Hartford, Conn., also adopted a report of somewhat similar tenor. The report in this instance was submitted by a sub-committee which had been asked to investigate the subject of what would be the best way to legislate on telephone matters. This sub-committee went into a consideration of the circumstances and conditions regarding telephone service existing in the New England States and in other parts of the country, and reached the opinion that the best method of treating telephone affairs would be by proper legislative regulation and with only one company in the field as at present in Hartford—that nothing is to be gained by competition in the telephone service.

This Hartford sub-committee's report was given out to the press and printed in full in the "Hartford Courant" of March 28. It contains many interesting facts and details. The committee first took up the question of how the existing company, the Southern New England, was covering the field in Connecticut. On this point it expressed the belief that the demand for telephone service has grown much faster than it was possible to keep pace with. It found, however, that the company had practically doubled its wire mileage in the late year and actually increased the number of its stations from 41,829 at the close of 1905 to 52,476 at the close of 1906, an addition of more than 25%, at a cost of about one and a half million dollars. The conclusion therefore was that the company had pushed the extension and development of the telephone service in Connecticut during 1906 as rapidly as was consistent with thorough workmanship and a view to permanency and best efficiency and that in much of the work that had been done, particularly in the line of conduits and cable work, the future has been anticipated by provisions for immediate and active growth all along the lines where these have been established.

On the point whether existing rates are exorbitant and whether the company's capitalization is excessive, the answer in both cases is in the negative. When the Southern New England was organized, $500,000 of its stock went to the Bell Telephone Co. for the right to use the latter's patents and franchises in Connecticut. The company has been gradually charging off this amount, which has now been reduced to $113,123. The committee finds that, with the exception of this $113,123, "every dollar of capital stock represented has been actually paid in, in cash, and that the entire amount thus paid in has been actually invested." Pains were also taken to investigate the common report that the Bell Telephone Co. has been exacting onerous terms from the Southern New England for the use of its instruments. It was found that the 4½% of the gross earnings paid over to the Bell concern amounted for the calendar year 1906 to $77,318, which, with 52,476 stations, made practically $1 50 per station. On the other hand, the Bell Company supplied without other charge the transmitter and receiver for every telephone used by the Southern New England, and not only furnished them but kept them all in repair at its own expense and replaced them with new ones whenever and wherever it was found necessary. Certainly these items and maintenance of same, says the committee, cost no inconsiderable part of the $77,318 which the Bell Telephone Co. received from the Southern New England. Furthermore, from the long-distance service which the Southern New

England was able to furnish through connection with the Bell Company, the Southern New England realized an income during the year 1906 of no less than $449,-571. Accordingly, the committee gave it as its opinion "that the American Bell, instead of being an incubus upon the Southern New England, is, as a matter of fact, of material benefit to it, and through its affiliation and connections the public is especially benefited."

The committee was convinced that the Southern New England is pursuing a progressive policy in the way of extending its system, and that, as to rates, reductions will follow just as rapidly as the earnings, less maintenance and expenses, shall warrant.

As to the desirability and advisability of encouraging independent telephone service with a view to reducing rates by competition, the objections to such a course are plainly stated. If it be conceded, as it must, that capital is entitled to reasonable returns, and that in addition to the capital invested in the existing telephone service in Connecticut much more capital is to be invested by independent companies, then a return must be earned on a double capitalization. It is urged that this being so, the managers of both companies would be justified in so curtailing their expenditures for service and maintenance as to leave a fair profit for distribution in the way of dividends. But curtailment of expenditures in that way would mean a detriment to the efficiency of service, an obviously undesirable result. Furthermore, it must be admitted that good service is vastly more important to business men than minor reductions in rates. Another result of competitive telephone service would be that one portion of a community would be on one line of service, while the other would be on the competing line, with no possibility of intercommunication except at the added expense which merchants and business men would find necessary in having both 'phones in their places of business. To this the naive observation is added that "it is not possible to suppose that competition will so reduce the rates that we can have two 'phones in our places of business at the same price we are now paying for one."

In the course of its investigation of the subject the Hartford committee found that similar committees had recently been appointed to investigate the subject not only in New York City, but in several important New England points, such as Boston, Springfield and Lowell. The Springfield (Mass.) Board of Trade, after consideration of the advantages and disadvantages to the community of the establishment of a second telephone system in that city, voted unanimously that under existing circumstances the public interests would be best served by one system. The report of the Board of Trade of Lowell, Mass., instanced the cases of several New England cities which had tried duplicate service with either complete failure or at least an entire lack of benefit to the community attempted to be served.

With the report made to the Board of Estimate and Apportionment of this city in 1905 by the Merchants' Association our readers are doubtless familiar. The result of the findings in that case are embodied in the main in the following paragraph:

"In another way experience has shown that competition exerts a most pernicious influence upon development. One of the first effects of competition is to greatly impair the earning power of the original company, thereby making it difficult for it to get capital necessary to install improved service and extend the area of its operations. The competing company ordinarily installs highly efficient apparatus, but within a limited area. In the course of a few years its facilities are practically congested, all its capital has been absorbed, its low rates have not provided for depreciation, it has hardly paid operating expenses, and its financial history gives no incentive to the investment of the additional capital necessary to extend its operations. The result is, in a large degree, paralysis of development after the first abnormal spurt due to competition has been made. This condition actually exists in several competing cities at the present moment. So far as the independent companies are concerned, the condition is certain in the near future to become more widespread, inasmuch as the time has arrived when all of the older independent companies are feeling the effects of depreciation and the necessity of increased capital, and recapitalization is becoming manifest and in some cases pressing."

Reference might also be made to the exhaustive examination of the question, as it affects New England, made by G. W. Anderson of Boston, who declared it was the plain duty of all sound-thinking and public-spirited citizens to oppose by every legitimate means the admission of competitive telephone companies. Under all these circumstances it is not strange that the Hartford committee should have thrown the weight of its opinion on the same side, concluding its report with the remark that "your committee could not fail to be convinced by the preponderance of evidence that the Connecticut business men as a whole were likely in the future to receive more efficient and better telephone service by fostering and encouraging the present invested capital than by the introduction of competition in telephone business of the State."

AN ENGLISH AUTHORITY ON THE CHICAGO & ALTON RE-CAPITALIZATION.

In the issue of the "Statist" of London for April 6 there is an interview with Mr. Robert Fleming on the railroad situation in this country. Probably there is no one outside the United States better informed as regards railroad affairs than Mr. Fleming. He represents large investments in American roads, and he has in the past been prominently identified with a number of important railroad reorganizations in the United States. His statement for the "Statist" was made upon his return from his recent visit to this country. After noting that there has been little or no market for bonds for eighteen months, he expresses the opinion that the anti-railroad crusade must remain for some time a factor against higher values. He says the public has been so frightened and made such large losses that a big "bull" campaign in stocks is unlikely.

What most enlists our attention, however, is Mr. Fleming's remarks concerning the Chicago & Alton reorganization—an old event dating back eight years, but which has recently been brought conspicuously to view through the investigations conducted by the Inter-State Commerce Commission. The criticism of this reorganization he thinks has been an element tending to intensify the feeling of distrust of railroad policy, and unjustly so. Mr. Fleming is undoubtedly correct in that regard. We know of no railroad transaction which has been so generally and so sweepingly condemned. And it is difficult to see why this should be so. In its main features this reorganization

did not differ essentially from numerous other reorganizations none of which have been criticized.

We can explain the general expressions of disapprobation on no other theory than that the facts are but imperfectly understood or not understood at all, owing to the sedulous efforts that have been made to create erroneous impressions with regard to the same. Newspaper headlines and editorial and other comment give the impression that in this reorganization a few leading financiers got together, secured possession of the property, looted it, at the same time fleecing the security holders, while in all the years since then the road has been engaged in robbing its patrons by charging them exorbitant prices for the transportation services rendered them. Nothing could be further from the truth. The syndicate comprised not merely Messrs. Harriman, Schiff, Gould and Stillman, but about 100 individuals, firms and corporations. None of the security holders of the original company suffered a loss to the extent of a single dollar, while as for the road's transportation charges, shippers in 1898, the year before the property changed hands, paid an average of 8 3-10 mills per ton per mile for the freight moved over the Alton's lines, and in 1906 paid an average of only 6 4-10 mills.

In view of the general misapprehension prevailing upon the subject, it seems desirable before setting out Mr. Fleming's views to devote a little further space to a consideration of the points against which criticism has been mainly leveled, though we discussed the matter quite at length in our issue of March 2. With the facts clearly before him, the reader will be better able to understand Mr. Fleming's remarks. The transactions connected with the Alton's reorganization which have been mainly called in question are: (1) The declaration of the 30% dividend (calling for $6,669,180) after the new owners got control of the company, with the view of returning to the shareholders a part of the earnings which had been applied in new capital outlays. (2) The revision of books and accounts so as to show the extent of these capital outlays paid for from year to year out of current income. (3) The sale of $37,350,000 3% refunding bonds at 65. (4) The creation of new securities for an aggregate so very much in excess of the capitalization before reorganization.

The revision of the books and accounts appears to be treated as a particularly heinous offence, and one of the present officials of the road, in testifying before the Commission, expressed the opinion that it was an unheard of proceeding and quite unjustifiable. But what is the course which any prudent man pursues when he is about to take possession of a going concern or to acquire a large interest in the same? Does he not at once proceed to have the books and accounts examined and thoroughly overhauled, and if the books have been kept in such a way as to conceal important facts, does he not authorize the auditors and accountants to go ahead and devise a new system, and to state results in a way which will give him a correct idea of the business and profits of the concern? The fact that the old Alton management had applied large amounts of earnings in the making of improvements has never been disputed. The only question was as to the amount. It had been the practice to charge such expenditures directly to expenses, and it remained for the accountants to determine the amount. Moreover, high figures were paid for the old shares by the syndicate (200 in cash for the preferred and 175 for the common) on the understanding and knowledge that the intrinsic value of the property had been thus enhanced through the application of earnings in the making of capital outlays.

In the argument the present month before the Commission by Paul D. Cravath, of counsel for the syndicate, reference was made to the fact that Mr. Blackstone, the former President of the company, in his annual report of 1894 stated that the capitalization of the company, including its bonds and all obligations assumed by it, aggregated less than 60% of the *actual cost* of the property in its then condition. This was because of the application of earnings in the way mentioned, instead of their distribution in the form of dividends to the shareholders. Furthermore, Mr. Cravath called attention to a letter of Mr. Blackstone's dated February 1899, and written at the time of the contest for control of the property between him and the syndicate which finally got possession of the property, in which Mr. Blackstone himself distinctly stated that in case he should remain in control he would advise "the refunding of the outstanding bonds of the company and the issue of a stock dividend to represent earnings heretofore invested in permanent improvements." Obviously, it was the intention of Mr. Blackstone himself to have the accounts re-cast, with the view to distributing the earnings which had been applied to improvements.

The investigation of the books led to the conclusive establishment of the fact that the undistributed surplus income at the time of the taking over of the property aggregated $14,824,931. In this last we have at once the basis for the 30% stock dividend and the sale of the new 3% refunding bonds to the stockholders at a large discount. The stock dividend was a cash distribution calling for $6,669,180. The earnings to represent the dividend having been spent on capital account, the company reimbursed itself for the outlay by selling bonds, and used the proceeds to pay the dividend. We must presume from the letter written by Mr. Blackstone that, in the event of his success in the contest for the control, the whole of the $14,824,931 surplus would have been distributed in the shape of dividends to the shareholders. The new owners, as we see, distributed only $6,669,180 in dividends, and appropriated the balance, $8,155,751, towards meeting the greater part of the discount of 35% involved in selling the 3% refunding bonds at 65.

But entirely apart from the application of surplus income on the books to offset the discount on the new bonds, these latter were issued at such a low rate of interest that no one could have been induced to take them except at a discount. This discount could undoubtedly have been reduced to some extent if it had not been desired to give shareholders the benefit of surplus income, but at no time could par have been obtained for them. When issued, ruling rates of interest in the money market were extremely low, and hence for a very brief time the bonds sold in the neighborhood of 90, enabling the holders to dispose of a portion of them at a considerable profit; but they quickly found their proper level. To-day the market price is 75, or only 10 points above the figure at which

they were sold. Even at 65, the rate of return on the investment to the maturity of the bonds is no more than 4⅞%, and thus it will be seen that the company in the sale of these 3% bonds at 65 paid no high or unusual rate of interest for the money, but a very moderate rate.

We come now to consideration of the question of the increase in the capitalization of the company. On Dec. 31 1898, immediately prior to the acquisition of control by the syndicate, the total outstanding stock and debt of the Alton Railroad amounted to $34,574,650. Adding to this $22,500,000, for new capital expenditures since then ($3,000,000 representing the actual cost of the Springfield & Peoria line acquired and $19,500,000 representing new cash raised and put into the property for additional equipment, reconstruction, &c.), and the total is brought up to $57,000,000. As against this, the total par value of stock and bonds now outstanding is $111,046,218. This shows on its face a very wide difference. But it must be remembered that the old securities were not acquired at their par value. The stock, as we have already seen, cost the new owners almost double the par or nominal value. The bonds and guaranteed stocks also commanded a premium. In other words, the nominal or par value is no index of what the property cost or what had to be paid for it. Obviously, in the re-capitalization account had to be taken of market values and not of par values.

Contrary to general belief, the managers of the syndicate when they undertook the reorganization of the property had no easy task before them. They had to provide for raising a large amount of cash in order to bring plant and equipment up to modern standards. The sum was originally estimated at $6,000,000, but, as we have already seen, $19,500,000 was actually needed for the purpose aside from the $3,500,000 paid for the Springfield-Peoria line, making $22,500,000 of new capital required. This was in addition to the large original outlay in acquiring the property at 200 for the preferred and 175 for the common. Provision had also to be made for the refunding of the old debt of the Alton, then about to mature. It was likewise essential that fixed and preferred charges should not be materially enlarged, as the country was only just emerging from a long period of business depression. To attain these various ends it was determined to create low-rate obligations; the refunding bonds carry only 3% and the prior lien bonds 3½%, and even the preferred stock no more than 4% non-cumulative. With the interest return so low, the volume of securities to be issued necessarily had to be correspondingly increased. It is to be remembered, furthermore, that the $19,542,800 of new common stock put out in reality represented only a nominal addition to capital. No dividend has ever been paid on it and it sells to-day in the market at only 16 for every $100 share.

After all the real test is as to how the yearly payments after and before reorganization compare. Notwithstanding the great increase in the volume of securities put out, the fixed and preferred charges were not added to in any great amount. Including the 4% dividends paid on the new preferred shares, total payments in 1906 for interest and dividends were $3,228,864. Ten years before, in 1896, interest and dividend payments were $2,933,618, and since then $22,500,000 of new capital has been put into the property, as we have seen.

We are now prepared for Mr. Fleming's comments and remarks. Mr. Fleming pointed out that he himself was a member, and so were many others abroad, of the syndicate which purchased the Chicago & Alton and which represented practically all the stock of the company. Though its members had nothing to do with the scheme of re-capitalization, that syndicate got the benefit, he says, of past earnings which had been withheld from the stockholders and put into the property as well as the profit on 3% bonds bought at 65 and the doubling of the capital stock. What does the reader imagine were the profits of the syndicate? Let Mr. Fleming answer in his own words. "The whole profit of the syndicate (which implied a lock-up for twenty months), after charging the account with interest, was only 8% on the money—about 5% per annum—nothing very extraordinary, surely. We sold our bonds and stocks at the high prices then prevailing for everything. Had the bonds and stocks received been held till now there would have been a heavy loss."

He also points out that the assent of both Houses of Parliament in England has more than once been given to operations by which the Ordinary stock of English railroads has been converted from £100 of Ordinary stock into £100 of preferred Converted Ordinary, bearing a low rate of dividend, and £100 Deferred Converted Ordinary, thereby doubling the amount of the original stock. He well says there is no essential difference between that operation and the Chicago & Alton plan. Doubling the capital does not double the value. Chicago & Alton preferred is quoted to-day at 59% and the common at 16%. In England the idea was that the conversion gave in the preferred a medium for the less speculative part of the community and in the Deferred Ordinary for the more speculative, it being thought that the two things would sell in the market for something more than the undivided stock. That idea, he is prepared to admit, has now been largely exploded as far as the Alton is concerned, and in that sense the doubling of the stock was a mistake. But in any event it does not increase the revenue one cent. He refers to the case of the Midland Ry., whose Ordinary was thus increased from £38,000,000 to £76,000,000; but that line cannot on that account get from freight or passengers higher rates and fares than the London & North Western.

Mr. Fleming is also led to say that in condemning watered capital the American public is led by theorists. If a law prohibiting the issue of stock except for par in cash had existed in this country in the past, many of what are now large systems, he observes, would never have been built; and if in the future the capital of railroads is to represent no more than the money spent, it follows that no new railroads will be built unless by existing dividend-paying systems. To our mind this last involves the real, the supreme danger connected with the present agitation against allowing railroads to issue new securities except to represent the actual cash cost of new work. Such a policy might not work insufferable harm in the older sections of the country—in New England and the Middle States, already well supplied with railroad facilities; but what of the remoter parts of the country—the West, the South, the Southwest, the Pacific Coast? Will not such a policy remove all inducement

for the construction of new roads in sparsely settled communities? And will not the cessation of new railroad building mean a check to the wonderful development of these remoter sections which has been such a striking feature in their recent history?

ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

—The public sales of bank stocks this week aggregate 132 shares, of which 100 shares were sold at the Stock Exchange and 32 shares at auction. The transactions in trust company stocks were limited to the sale at auction of two lots of 10 shares each of stock of the Trust Company of America and of the Carnegie Trust Co. For the latter 235¾ was paid, as against 225 at last week's auction.

Shares.	BANKS—*New York.*	*Low.*	*High.*	*Close.*	*Last previous sale.*

x Sold at the Stock Exchange.

—Pueblo, Colorado, was designated a reserve city on the 16th inst. under the Act of March 3 1887 as amended by the Act of March 3 1903.

—A New York Stock Exchange membership was reported sold this week for $79,000. The last previous sale, reported last week, was at $78,500.

—The two amendments to the constitution of the New York Clearing House, which are to be acted on at the next meeting of the Association, were not correctly stated in this column last week. It is not usual for the Clearing House to make public proposed amendments until after their adoption, but to avoid further misunderstanding the correct wording of the proposals, as noticed for adoption at the meeting on April 12, has now been given out. We print them herewith:

(1) Banks acting as redeeming agents for other institutions not members of this Association shall keep and maintain in their own vaults a cash reserve of net deposits equal to the highest percentage of reserve required by law of any member of this Association.

(2) No member of this Association shall send or pay through the exchanges checks or other items drawn on banks, bankers or trust companies, not members of this Association, by customers thereof in Greater New York, and made payable at a Clearing-House bank, unless the same shall first be accepted and made payable at a Clearing-House bank by the bank, banker or trust company upon which they are drawn. This provision shall also apply to non-members making exchanges through members of this Association.

It will be observed that the first of these amendments, instead of being a requirement that non-member banks must hold a cash reserve of 25% as had been supposed, provides that banks *acting as redeeming agents* for other institutions not members of the Association shall keep a reserve to that extent. The second amendment is aimed at the practice pursued in many instances by those having accounts at banking institutions outside of the Clearing House to draw checks on these institutions and stamp them as payable at some Clearing House or non-member bank. Hereafter such checks can only pass through the Clearing-House if stamped as payable at a Clearing-House bank *by the bank, banker or trust company upon which they are drawn.*

There is also a third amendment proposed. This defines the make-up of the different items in the weekly bank statement. It is as follows:

Add to Section 16:
The several items of the weekly statement are to comprise the following:
Loans and Discounts—Loans, Discounts and stocks and bonds and mortgages owned by the bank.
Specie—Gold and silver coin, United States and Clearing-House gold certificates and United States silver certificates.
Legal tender Notes—United States legal-tender notes of all issues.
Circulation—Amount outstanding.
Deposits—Gross deposits and unpaid dividends, less exchanges for the Clearing-House, amounts due from other banks for collection, notes of other banks and checks on non-clearing institutions in this city.

The Clearing House has no fixed dates for its meetings, and therefore it cannot be stated when the amendments will be acted on.

—A new schedule of collection charges adopted by the St. Louis Clearing House Association on the 10th inst. will go into effect next week—May 1. In commenting on the changed rates, the St. Louis "Globe-Democrat" notes that under the new schedule the old collection rates in force since 1895 are cut down an average of about 20%. President W. H. Lee of the Clearing House, in announcing the adoption of the new charges, states that "the action was not taken without realizing that it involved some loss to the banks, but it was the expression of their earnest desire to maintain perfect and full accord with their friends and patrons, the merchants of St. Louis, and as a recognition of the invariable courtesy that has characterized their relations with banks." Petitions to reduce the charges had been presented to the banks by the merchants and business men several times in the last five or six years, according to the "Globe-Democrat"; the present negotiations were opened more than a month ago with a committee representing the merchants. Their argument was that the old schedule was based on collection charges in the smaller cities in force twelve years ago; that these had since been lowered and that the St. Louis banks could make a corresponding reduction without losing money.

—"Bills of Lading in Inter-State Commerce" was the theme of an address made by Thomas B. Paton, Editor of the Banking Law Journal of this city, before the Arkansas Bankers' convention at Little Rock yesterday. Mr. Paton went fully into the subject, bringing out the weak points in bills of lading as governed by existing laws. In the course of his remarks he referred to the bill of lading measure drafted in 1906 by the Bankers' Committee and introduced in Congress last December as an amendment or addition to Section 20 of the Hepburn Rate Bill, enacted last June. Under this latter section the carrier is required to issue a receipt or bill of lading for property received for inter-State transportation, and the initial carrier is made liable to the holder of the bill of lading for any loss, damage or injury to the property not only when caused by such initial carrier, but when caused by any subsequent carrier. The new measure proposed, Mr. Paton points out, does not seek to codify the entire law governing the issue, transfer and redemption of bills of lading, but is confined to those points of regulation which the bankers deem essential. The general object of the proposed amendments is, he states, to provide by national law a distinctive inter-State order of bill of lading with precise definition of the title and rights acquired by a bona fide transferee for value and of the duties and liabilities of the carrier, having due regard to the nature of the business, the safety of the banker who loans upon such documents, and the relation and rights of the carrier. The committee which drafted the bill does not, of course, claim that this is a perfect measure, or that it cannot be improved upon; it solicits the aid of bankers in the different sections of the country, and to this end asked for the appointment of a committee of three from the Arkansas Association to co-operate with other State bodies and the American Bankers' Association, and to assist in procuring the necessary Congressional legislation.

—On Monday of this week the Chemical National Bank of this city began business in its handsome new home, erected on its former site at 270 Broadway. This old institution has now one of the most complete banking houses in the country. The main room is 70 feet wide by 170 feet long, and is 85 feet high, surmounted and lighted with a magnificent stained-glass dome. Four allegorical figures appear in the corners below the dome, representing Ceres, Boreas, Helios and Neptune, typifying the earth, air, fire and water of ancient chemistry. Green, veined white and variegated Italian marbles are used extensively throughout the building.

— The merger of the Colonial Trust Company, 222 Broadway, with the Trust Company of America, 135 Broadway, this city, went into operation yesterday. The stockholders of both companies met last Thursday and ratified the directors' agreement effecting the consolidation as outlined several times in these columns. The Colonial Company's offices in the St. Paul Building will henceforth be known as the "Colonial Branch, the Trust Company of America." The headquarters of the Trust Company of America at 135 Broadway and its branch office at 36 Wall Street will be continued until the consolidated institution's fine new bank building on Wall Street is completed.

W. O. Douglas, an assistant loan clerk of the Trust Company of America, and Oliver M. Dennett, a broker, acting as his accomplice, were arrested this week for stealing a large amount of securities from the company's vaults. They were committed to jail in lieu of $10,000 bail to await trial. The exact amount of the securities taken has not been disclosed, but part has been recovered. After a meeting of the Executive Committee on the 23d inst., Oakleigh Thorne, President, stated "that the maximum loss cannot exceed

$140,000, and if the contention of our counsel is sustained that the stolen bonds or their proceeds may be recovered from those to whom they were delivered, the company will lose nothing." The consolidated company has a capital of $2,000,000, surplus of over $10,000,000 and deposits between $65,000,000 and $70,000,000.

—The Greenwich Bank of this city has declared a semi-annual dividend of 5%, payable May 1, making the annual rate 10%. This is the 104th dividend paid by this institution and is an increase over the rate paid in 1906, which was 8%. In 1905 7% was paid, previous to which 6% had been the yearly rate for a long time.

—The Washington Trust Company at 280 Broadway, this city, will move about June 1 to its new offices on the first floor of the Postal Telegraph Building, 253 Broadway.

—The Fourteenth Street Bank of this city, as noted last week, will, beginning Monday next, clear all transactions through the New York Clearing House, of which it has lately been elected a member. The institution commenced business in 1888, and for a number of years was located at 3 East 14th Street, one door from its present site. Five years ago the building on the northeast corner of Fifth Avenue and 14th Street was purchased and fitted up with commodious banking offices and spacious safe deposit vaults. Two branches are also maintained—the Gansevoort Branch, at Ninth Avenue and 14th Street, and the East Side Branch, at Avenue A and Second Street. The last-named branch will remove about the middle of May to 345-347 Grand Street, this being a more convenient location for its East Side customers. In 1901 the bank's capital was but $100,000; this was increased in 1905 to $500,000, and on January 1 of this year to $1,000,000. R. Ross Appleton has been the President for the last five years, and to his progressive spirit, liberal management and superior executive ability the growth and development of the bank are largely due.

—A verdict of $183,000 was returned by a Supreme Court jury at Richmond, S. I., on the 19th inst. against the estate of the late August Prentice, President of the Bank of Staten Island, at Stapleton, which was placed in receivers' hands in January 1904. Following the bank's closing as a result of the suicide of Cashier Otto Ahlman, large discrepancies were found to exist. Proceedings to recover the full amount were brought against the Prentice estate by Receiver John S. Davenport, who is also reported to have recovered $32,000 from the Ahlman estate.

—S. Bayard Dod, President of the First National Bank of Hoboken, N. J., died on the 19th inst. Mr. Dod was sixty-eight years of age, and is reported to have been the oldest trustee of Princeton University.

—At a regular meeting of the directors of the National Commercial Bank of Albany, N. Y., on the 19th inst, Jacob H. Herzog was appointed an Assistant Cashier.

—The New Britain Trust Company of New Britain, Conn., representing a merger of the Mechanics' National Bank and the Hardware City Trust Company, commenced business on Monday the 22d inst. The consolidated institution, as stated March 9, has a capital of $200,000, and is officered by W. E. Attwood, President; L. Hoyt Pease and Charles M. Jarvis, Vice-Presidents; Frank G. Vibberts, Treasurer; and H. B. Boardman, Secretary.

—A meeting of the stockholders of the National Exchange Bank of Providence, R. I., will be held on May 20 to act on a proposed change in the par value of the stock from $50 to $100. The report that the capital of the bank is at the same time to be increased is, according to the "Providence Journal," officially denied. The bank is controlled by the Union Trust Company of Providence.

—The directors of the American Trust Company of Boston (formerly known as the American Loan & Trust) on Wednesday elected Russell G. Fessenden as President. Since January, when the former executive, N. W. Jordan, was elected Chairman of the board, T. Jefferson Coolidge Jr. had been fulfilling the duties of President, having agreed to accept the post until the election of a permanent head.

—Charles W. Kellogg, President of the Berkshire Loan & Trust Company of Pittsfield, Mass., since 1898, died on the 19th inst. in his sixtieth year.

—The directors of the Philadelphia National Bank of Philadelphia, Pa., on the 24th inst. declared a semi-annual dividend of 6%, free of tax, payable May 1 to stockholders of record April 25. They also added $250,000 to surplus, making that fund $3,000,000. The half-yearly distribution was increased from 5 to 6% last November.

—It is reported that the name of the State Trust & Security Company, now organizing in Philadelphia, has been changed to the Belmont Trust Company. The new institution, as stated Dec. 29, is to locate in West Philadelphia on Baltimore Avenue in the vicinity of 49th Street. The authorized capital will be $250,000, one-half of which will be paid in.

—An exquisite example of the typographers' art is furnished in a book, both original and tasteful in design, issued by the Bank of Pittsburgh, N. A., at Pittsburgh. One of the striking features of the newest publication is the reproduction in colors of two mural paintings. As may be inferred from the title of the book—"The Bank Historical"—the work reviews the institution's history, and also, at considerable length, that of the city. Many illustrations adorn the book—some picturing the bank's quarters, others bearing on the city and serving to indicate its development. The progress of nearly one hundred years is covered in the work. The bank was organized in 1810, when Pittsburgh had less than 5,000 inhabitants. Up to that time, we are told, there had never been a bank west of the Allegheny Mountains, although a branch of a Philadelphia institution was located at Pittsburgh. The organization of the bank had scarcely been perfected when an Act of the Legislature made the establishment of new banks a practical impossibility, and it was forced to change its name to the Pittsburgh Manufacturing Company and limit its operations somewhat to come within the bounds of the law. Four years later a new banking law was passed, a charter was granted and the Pittsburgh Manufacturing Company again became the Bank of Pittsburgh. At the time of the financial panic of 1837, a year of many failures, banks all over the country suspended specie payment. The Bank of Pittsburgh, in common with all other banks of the city, was prevailed upon to sign the formal resolution suspending such payment; but it reserved the right to continue to meet its obligations in gold, and the minutes of the directors' meetings show that in all that trying time it never did actually suspend specie payment. In 1899, after having been a State bank for almost ninety years, the Bank of Pittsburgh became a national institution, the Government allowing it to retain its old name with the addition of the words "National Association." In 1903 the Iron City National and the Merchants' & Manufacturers' National Banks were consolidated with the Bank of Pittsburgh, placing it among the leading banks of the State. During the ninety-six years of its existence the institution has had but seven presidents. The present incumbent, Wilson A. Shaw, was chosen to the office in 1903, when the consolidation of the three banks was effected. Joseph R. Paull is Vice-President.

—William R. Christian, Cashier of the Lincoln National Bank of Pittsburgh, Pa., died on the 22d inst. in his fifty-first year.

—John Meckes, a Vice-President of the United Banking & Savings Company of Cleveland, and also of the Forest City Savings & Trust Company of Cleveland, died in Rome, Italy, on the 21st inst. Mr. Meckes was a member of the Cleveland Chamber of Commerce and of the Chamber of Industry. He was sixty-four years of age.

—Articles of incorporation for the Anchor Bank & Savings Company of Cincinnati have been filed. The institution will have a capital of $50,000 and, according to the Cincinnati papers, will cater principally to the foreign element. It is stated that the name "Anchor" has been chosen not only because of the ideas of solidity and safety it suggests, but also because it is spelled very nearly alike in all languages, and its meaning will thus be impressed easily on the foreign population. Frank L. Pfaff is to be President and A. A. Landesco will be Secretary and Treasurer. Mr. Landesco is at present Secretary to Mayor Edward J. Dempsey, and will continue in that office until the end of the year, when he will give his sole attention to the new institution.

—If present plans mature, another bank consolidation will take place shortly in Toledo. The National Bank of Commerce and the National Bank of Toledo are the institutions involved in the latest combination to be announced. The details of

the proposed consolidation have not yet been fully perfected. But it is said that arrangements have progressed far enough to indicate that it will more than likely be consummated. It is understood that the National Bank of Commerce will be retained as the name for the consolidated institution, and that S. D. Carr, the present head of the Commerce, will continue in that capacity. As enlarged, the bank will have a capital of $1,000,000 and surplus of about $200,000. The present National Bank of Commerce has a capital of $500,000 and the National Bank of Toledo a capital of $300,000. The combined deposits of the two banks exceed $5,000,000. The National Bank of Toledo was formerly the Holcomb National Bank, its name having been changed in 1905.

—The Commercial Bank of Evansville, Ind., increased its capital on April 1 from $50,000 to $75,000. The proposition was ratified by the stockholders in March, and the new issue sold at $110 per share, the premium being placed to the surplus fund, thereby increasing it to $50,000. The additional stock was taken by new interests, the old stockholders having waived their rights to the same. The bank began business on March 10 1906. Its officers are John M. Funke, President; Gustave A. Hartmetz, Vice-President, and Louis E. Fricke, Cashier.

—The directors of the Commercial National Bank of Chicago at their weekly meeting on the 19th inst. adopted fitting resolutions on the death of President James H. Eckels. Action toward electing a successor to the late President was deferred. The board, however, created the new office of Chairman of the Executive Committee, and Franklin MacVeigh, senior member of the directorate, was elected to fill the post. The bank's policy, it is said, will continue the same as under Mr. Eckels's management, the creation of the new office being simply part of the plan adopted when the increased capital was decided upon. The additional capital, $1,000,000, has been paid in, increasing the amount to $3,000,000 and the surplus to a like sum.

—President Abner Smith and Vice-President Gustav F. Sorrow, of the failed Bank of America, Chicago, on the 19th inst. were adjudged guilty of misappropriating the funds of the bank and sentenced to a term of from one to five years in the penitentiary and a fine of $1,000 each. Jerome V. Pierce, the Cashier, was also found guilty and fined $500. In the case of Frank E. Creelman, a director, who had been an extensive borrower from the institution, a verdict of not guilty was returned. Motion for a new trial has been made by counsel for the defendants. The bank closed its doors Feb. 15 1906.

—In the case of the Milwaukee Avenue State Bank, Chicago, which failed about a year ago, Judge Brentano, of the Superior Court, has allowed Receiver Fetzer $20,000 for his services and $20,000 for attorney's fees. The total claims against the bank were about $4,700,000, of which 70% has been settled to date.

—The Metropolitan State Bank has been organized in Minneapolis with a capital of $100,000 and surplus of $10,000. The projected bank will be managed by George C. Merrill, President; M. R. Waters, Vice-President, and V. H. Van Slyke, Cashier. It is to open shortly in the former quarters of the Security Bank in the Metropolitan Building.

—The Mitchell Street State Bank of Milwaukee commenced business on the 18th inst. at Mitchell Street and Second Avenue. The new institution was organized last August. Its officers are Valentine Zimmermann, President; Sylvester J. Wabiszewski, Vice-President, and J. F. Edgerton, Cashier.

—The program to be presented at the annual convention of the Missouri Bankers' Association, to be held at Kansas City on May 22 and 23, has been completed. Addresses are to be made at the meeting by U. S. Treasurer Charles H. Treat, who will devote himself to "Some Comments on the Operation of the Aldrich Law"; Prof. James T. Young, director of the Wharton School of Finance and Commerce, Philadelphia, who will speak on "Financial Depression, Political Agitation and the University"; E. L. Copeland, Treasurer of the Atchison Topeka & Santa Fe Ry., on "Prosperity a Problem for Railroads"; L. A. Goddard, President of the Fort Dearborn National Bank of Chicago on "Capital, and Conscience"; George E. Allen, Secretary of the American Institute of Bank Clerks, on "Second-hand Experience"; Oscar Wells, Cashier of the Fort Worth (Tex.) National Bank, on "Legislative Tendencies," and John M. Allen of Tupelo, Miss., on "The Relation of Banks to the Public."

—The stockholders of the Olive Street Bank of St. Louis at a meeting on Tuesday approved a proposition to increase the capital from $100,000 to $300,000. One-half of the proposed issue will go to present shareholders and the balance to new interests. The selling price of the new stock will be $130 per share of $100.

—C. S. Jobes, who is reported to have disposed of all but a nominal interest in the American National Bank of Kansas City, Mo., of which he was President, has been elected Vice-President of the Pioneer Trust Company of Kansas City to succeed F. C. Miller. J. S. Parks will replace Mr. Jobes as head of the American National. John Worthington, a Vice-President of the latter, is also said to have disposed of his holdings in the bank.

—The Commercial & Savings Bank of Macon, Ga., in its statement of March 22 1907, shows deposits of $852,802, as compared with $764,956 in 1906 and $546,356 in 1905; the surplus and undivided profits are now reported as $58,655, against $46,883 in 1906 and $34,417 a year earlier. The capital is $50,000 and the aggregate resources are $961,457. E. J. Mallary is President and J. J. Cobb is Cashier.

—The resignation of Maurice Walton as President of the Merchants' Bank of Augusta, Ga., is announced. W. J. Hollingsworth, heretofore Vice-President, has been chosen to fill the vacancy until the next annual election. Charles T. Pund, a director, has been elected Vice-President.

—At the annual session of the Louisiana Bankers' Association, at Shreveport, on the 17th and 18th inst, a resolution was adopted endorsing and approving the action of the American Bankers' Association with reference to a uniform and negotiable bill of lading for inter-State shipments. A committee, consisting of Sol. Wexler, Vice-President of the Whitney-Central National Bank of New Orleans, Charles Janvier, Vice-President of the Canal-Louisiana Bank & Trust Company of New Orleans, and W. J. Bayersdorffer, has been appointed to co-operate with a committee of the American Bankers' Association in securing legislative aid for the enactment of such a bill. The new officers of the Louisiana association are President, Charles Janvier; Vice-President, Peter Youree, Vice-President of the Commercial National Bank of Shreveport; Secretary (re-elected), L. O. Broussard, Cashier of the Bank of Abbeville, La.; and Treasurer, L. M. Poole.

—The Ouachita National Bank and the Monroe National Bank of Monroe, La., were consolidated on the 20th inst. under the title of the first named institution. The enlarged bank has $200,000 capital. The officers are T. E. Flournoy, President; F. G. Hudson, Vice-President; O. B. Morton, Cashier; J. T. Austin, Assistant Cashier.

—The Hunter-Phelan Savings Bank & Trust Company of Fort Worth, Tex., is now operating under its new title of the Waggoner Savings Bank & Trust Company. The change in name was incident to the acquisition of controlling interest in the institution by W. T. Waggoner, the new President, and his associates.

—The Colorado Bankers' Association will hold its annual gathering on June 27 and 28 at Fort Collins.

—May 16, 17 and 18 have been selected as the dates for the annual convention of the California Bankers' Association. The meeting will be held at Santa Barbara.

—The annual meeting of the Oregon Bankers' Association is to be held at Portland on June 14 and 15.

—Under the name of the Union Exchange Bank, a new financial institution opened for business in Los Angeles at Ninth and Main streets on the 15th inst. The authorized capital of the bank is $100,000, of which $50,000 has been paid in. The par value of the stock is $100 per share. C. J. Goodenow is President; B. L. Vickory is Vice-President, and Guy H. Wood is Cashier.

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

The Collector of Customs at San Francisco has furnished us this week the details of imports and exports of gold and silver through that port for the month of March, and we give them below in conjunction with the figures for preced-

ing months, thus completing the results for the nine months of the fiscal year 1906-07. The imports of gold were of strictly moderate volume, reaching $127,583, all bullion and gold in ore. Of silver there came in $208,274, mainly bullion and silver in ore. During the nine months there was received a total of $13,740,816 gold and $2,744,229 silver, which compares with $2,180,311 gold and $1,886,363 silver in 1905-06. The shipments of gold during February were *nil*, and the exports of silver were $3,995 coin. For the nine months the exports of gold coin reached only $16,735, against $5,401,119 in 1905-06, and $1,644,606 silver was sent out, against $8,677,546 in 1905-06. The exhibit for March and for the nine months is as follows:

Monetary and Commercial English News

(From our own correspondent.)

London, Saturday, April 13 1907.

The reduction of its rate of discount by the Bank of England this week has produced a very much better feeling at home and abroad, but up to the present time it has not much increased the amount of business. There is, indeed, some improvement in business, but as yet it is slight. The general expectation amongst the most capable observers is that we shall see much more active markets before long, with a rising tendency, but that for the time being the outside public is holding back, firstly, until it is known what the Chancellor of the Exchequer will propose in his Budget statement, which, it may be added, will be made on Thursday next. Secondly, the public is waiting for a clearer explanation of the policy of the new Government in the Transvaal. So far as that policy is understood, it has made a favorable impression. But before active buying begins, a little more light is desired.

Over and above this, the public is not yet quite satisfied that the liquidation is ended in New York. And, in the last place, there is some apprehension that speculation has been carried much too far in Germany. In Paris there is a decidedly better feeling. When the new French Ambassador was received by the German Emperor the other day the latter made an address which has given much satisfaction in Paris. Also, there are strong hopes that in spite of occasional hitches the Russian Government and the majority of the Duma will come to an arrangement. There has already been a considerable rise in Russian securities, and the general belief is that the rise will be continued. As the week draws to a close the Paris Bourse has given way somewhat because of the fall in copper, but the best opinion is that the decline will prove very temporary. The reduction of the Bank of England rate, too, has encouraged the hope that the Bank of France will put down its rate of discount before long and generally upon the Continent, as well as in London, the expectation is that we are now entering upon a period of comparatively cheap money which will last for several months.

The directors of the Bank of England on Thursday last lowered their rate of discount from 5% to 4½%. As soon as the gold bought for New York in the previous week was re-sold to the Bank of England, the city generally jumped to the conclusion that the Bank of England rate would have to be put down. It was the fear of large gold withdrawals for New York which made it necessary to protect the reserve of the Bank of England. When New York withdrew from competition it was recognized that all serious danger was over. As a matter of fact, the Bank has during the week ended Wednesday night increased its stock of gold by £1,115,931, the total stock now being £34,345,713. The general opinion is that all the gold offering in the market will be taken by the Bank for some time to come, and that, therefore, it will rapidly increase in strength. The Imperial Bank of Germany will probably not venture to make a change for some weeks. At the end of March the note circulation of the Imperial Bank exceeded the legal maximum by over 20 millions sterling. In the first week of March the return of notes was so large that the excess was brought down to about half of what it was on the preceding Saturday. If notes continue to flow back as rapidly as that, in a week or two the whole excess will have disappeared, and then the general impression is that the Imperial Bank of Germany will follow the example of the Bank of England. That the latter has been able to take the step is mainly due, of course, to the promptitude with which Mr. Cortelyou has put in force the Aldrich Act. London has watched his course with much interest, and his reputation here has risen very greatly.

The Board of Trade returns for March, as will be seen from the tables below, continue to show most satisfactory increases. The value of the imports for the month was £57,738,731, an increase of £4,477,101, or 8.4% over the corresponding month of last year. The value of the exports of British and Irish produce and manufactures increased £3,071,872, to £34,723,034, or 9.7%. The value of the re-exports of foreign and colonial produce was £8,110,260, an increase of £833,863, or 11.6%. The value of the imports in the first quarter of the year increased 11%; the value of the exports of British and Irish produce and manufactures increased 11.7%, and the value of the re-exports increased 15.6%.

The India Council offered for tender on Wednesday 70 lacs of its bills, and the applications exceeded 660 lacs, at prices ranging from 1s. 4 3-32d. to 1s. 4 3-32d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 5-32d. per rupee were allotted about 10% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years.

Messrs. Pixley & Abell write as follows under date of April 11:

GOLD.—The position of the Bank has materially improved this week, as they were able to secure the balance of last week's gold which was purchased for America, amounting to £450,000, and in addition have bought all this week's arrivals of about £250,000. The price is now down to 77s. 9d. Since our last the Bank has received £1,367,000, of which £1,227,000 was in bars. The withdrawals total £200,000, of which £100,000 is for Egypt. £562,000 is expected to arrive next week from South Africa. The Bank rate, which was fixed at 5% on Jan. 17, was to-day reduced to 4½%. For the week: Arrivals—Cape, £364,000; Australia, £136,000; total, £500,000. Shipments—Bombay, £73,625; Calcutta, £30,000; total, £103,625. For the month of March: Arrivals—France, £621,000; Egypt, £550,000; Brazil, £33,000; South Africa, £1,793,000; India, £158,000. Shipments—France, £96,000; Brazil, £653,000; Argentine, £952,000; India, £572,000.

SILVER.—The market in silver has been steadier, and we have risen ⅛d. during the week. At one time we rose to 30¼d., on a good Indian demand, but, this being satisfied, the market reacted and we close at 30⅛d., with a steady tone. There have been considerable forward sales by India, but these have been easily absorbed and the forward price, which has been as much as 7-16d. under cash, closes at 29¾d. with an upward tendency. The position in China is much firmer. The Indian price is Rs. 75⅞ per 100 Tolahs. For the week: Arrivals—New York, £93,000. Shipments—Bombay, £12,000; Colombo, £850; Calcutta, £68,000; Straits (coin), £31,500; total, £112,350. For the month of March: Arrivals—France, £14,000; U. S. A., £1,193,000. Shipments—France, £42,000; Brazil, £46,000; India, £1,566,000; Straits, £148,000.

MEXICAN DOLLARS.—There have been a few transactions in dollars at their melting value. £55,000 has come from America and £25,000 has been shipped to Calcutta.

The quotations for bullion are reported as follows:

50 Union Ferry Co	30	Iron Co. Ref. 4s, 1042,	
32 Mercantile Nat. Bank	235	J. & J	95 & int.
465 Selma Water Co	$51 lot		
10 Trust Co. of America	732½		

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending April 20. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Reserve

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on April 20 to $4,234,000; on April 13 to $4,026,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending April 20; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods	$3,206,872	$2,893,598	$2,115,790	$1,655,042
General Merchandise	14,237,470	13,184,783	11,018,862	8,319,176
Total	$17,444,342	$16,078,381	$13,134,652	$9,974,218
Since January 1.				
Dry Goods	$64,013,926	$56,498,667	$48,708,018	$41,993,880
General Merchandise	221,291,300	185,878,123	190,653,604	153,606,703
Total 16 weeks	$285,305,226	$242,376,790	$239,361,622	$195,600,583

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending April 20 and from Jan. 1 to date

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week	$12,957,725	$12,678,883	$12,962,502	$11,014,952
Previously reported	190,097,183	187,071,607	156,904,448	145,680,386
Total 16 weeks	$203,054,908	$199,750,490	$169,866,950	$156,695,338

The following table shows the exports and imports of specie at the port of New York for the week ending April 20 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1	Week.	Since Jan. 1
Great Britain	----	----	$82,404	$2,540,353
France	----	----	----	331,087
Germany	----	----	----	1,155,297
West Indies	----	$354,000	2,027	115,206
Mexico	$3,000	3,000	----	50,290
South America	----	1,387,336	32,983	787,269
All other countries	----	----	29,648	147,073
Total 1907	$3,000	$1,744,336	$147,062	$5,126,575
Total 1906	----	4,299,522	530,306	4,867,160
Total 1905	490,037	32,191,807	302,136	4,570,564
Silver.				
Great Britain	$688,230	$12,094,854	$1,237	$2,259
France	----	540,000	----	----
Germany	----	1,000	----	58
West Indies	3,430	41,488	150	42,263
Mexico	----	----	1,478	260,072
South America	----	600	5,042	333,802
All other countries	----	1,786	----	4,917
Total 1907	$691,660	$12,679,728	$7,907	$643,371
Total 1906	929,455	17,719,655	24,078	732,849
Total 1905	344,751	10,496,909	22,309	1,013,850

Of the above imports for the week in 1907, $941 were American gold coin and $1,387 American silver coin. Of the exports during the same time $3,000 were American gold coin and $1,000 were American silver coin.

Wall Street, Friday Night, April 26 1907.

The Money Market and Financial Situation.—Although there has been a litle more activity at the Stock Exchange this week there seems no other evidence that interest in the markets has broadened. Prices have generally fluctuated within narrow limits. The prevailing tendency, however, has been towards a higher level and net changes show, in most cases, a slight recovery from the recent depression.

A reduction of the Bank of England's discount rate from 4½ to 4% was so generally expected as to pass with little effect. More interest, and perhaps more importance, attached to similar action by the Imperial Bank of Germany and the Netherlands Bank, showing the relief which has recently come to all the principal money markets of the world.

The crop situation is growing in importance as a factor in the security markets. Reports of damage to winter wheat in the Southwest caused an advance in the price of wheat and were used with more or less effect by the bear element at the Stock Exchange. Of course the extent of such damage, if any, is a matter of the merest conjecture, and is quite likely to be forgotten or ignored in the near future.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1¾ to 2¾%. To-day's rate on call was 2%. Prime commercial paper quoted at 5½@6% for endorsements and 5½@6% for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £296,408, and the percentage of reserve to liabilities was 45.32, against 44.65 last week.

The discount rate was reduced from 4½ to 4%. The Bank of France shows an increase of 5,500,000 francs in gold and 50,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1907. April 20.	Differences from previous week.	1906 April 21.	1905. April 22.
	$	$	$	$
Capital	128,100,000	----------	116,472,700	115,972,700
Surplus	159,990,500	----------	148,305,000	137,656,500
Loans and discounts	1,125,004,900	Inc. 25,347,800	1,017,429,000	1,107,294,900
Circulation	50,106,800	Dec. 131,800	51,481,300	44,433,200
Net deposits	a1,108,163,500	Inc. 26,501,600	1,007,464,300	1,151,968,600
Specie	215,129,400	Inc. 2,163,100	189,653,600	216,116,900
Legal tenders	73,616,300	Inc. 314,200	78,579,200	83,323,300
Reserve held	288,745,700	Inc. 2,477,300	268,232,800	299,440,200
25% of deposits	277,040,875	Inc. 6,625,400	251,866,075	287,992,150
Surplus reserve	11,704,825	Dec. 4,148,100	16,366,725	11,448,050

a $31,612,300 United States deposits included, against $31,356,600 last week and $17,438,100 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $19,607,900 on April 20 and $23,692,075 on April 13.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market was strong until Wednesday, influenced by a good demand for remittance and by a scarcity of bills. The inquiry then subsided and the tone was steady at the close.

To-day's (Friday's) nominal rates for sterling exchange were 4 81@4 84½ for sixty day and 4 87@4 87½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8320@4 8330 for long, 4 8605@4 8610 for short and 4 8635@4 8645 for cables. Commercial on banks 4 8280@4 8290 and documents for payment 4 82¼@4 83. Cotton for payment 4 82¼@4 82⅝, cotton for acceptance 4 8280@4 8290 and grain for payment 4 82⅞@4 83.

To-day's (Friday's) actual rates for Paris banker's francs were 5 20*d*@5 20 for long and 5 17½*a*@5 17½*d* for short. Germany bankers' marks were 94½@94⅝ for long and 95 1-16*d*@95 1-16 for short. Amsterdam bankers' guilders were 40 26@40 28 for short.

Exchange at Paris on London to-day, 25f. 16½c.; week's range, 25f. 20c. high and 25f. 16½c. low.

The week's range for exchange rates follows:

	Long		Short		Cables	
Sterling, Actual—						
High	4 8345	@4 8350	4 8640	@4 8645	4 8680	@4 8685
Low	4 8285	@4 83	4 8580	@4 8595,	4 8625	@4 8630
Paris Bankers' Francs						
High	5 20*d*	@5 20	5 17½*a*	@5 17½*d*	----	----
Low	5 21¼	@5 20⅝	5 18¼	@5 17½*a*	----	----
Germany Bankers' Marks						
High	94½	@ 94⅝	95¼	@ 95 3-16	----	----
Low	94 5-16	@ 94⅜	95 1-16*d*	@ 95 1-16	----	----
Amsterdam Bankers' Guilders—						
High	----	----	40 26	@ 40 28	----	----
Low	----	----	40 3-16	@ 40¼	----	----

Long: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Paris: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston selling, $1 per $1,000 premium. New Orleans bank, $1 per $1,000 discount; commercial, 75c. per $1,000 discount. Chicago, 30c. per $1,000 discount. St. Louis, 25c. per $1,000 discount. San Francisco, 30c. per $1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to $30,000 Virginia 6s deferred trust receipts at 23.

The market for railway and industrial bonds has shown more animation this week, if comparison is made with the exceptionally dull period just preceding. This increased activity does not signify a larger investment demand, but simply a little more extensive movement of a few issues.

The latter includes the various Japanese bonds, United States Steel, Pennsylvania and Atchison. Nearly all the active issues are fractionally higher than last week. The exceptionally strong features are Union Pacific, Rock Island, Delaware & Hudson, Inter.-Metro. and Central Leather 5s, which have advanced a point or more.

United States Bonds.—Sales of Government bonds at the Board include $37,000 4s, coup., 1907, at 101⅝; $1,000 3s, reg., 1908-18, at 102¾; $1,500 2s, reg., 1930, at 104⅛, and $4,000 2s, coup., 1930, at 104½. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—The stock market has been more active. Daily transactions averaged about 650,000 shares, against 550,000 last week, an increase of nearly 20%. The decline of about 2 points, which was the result of last week's operations has in most cases been recovered, so that closing prices average nearly the same as those of two weeks ago.

A strong upward movement occurred on Monday. Subsequently there was a good deal of irregularity, some stocks making further progress towards a higher level and others reacting.

Union Pacific and Reading have continued to be the most conspicuous features of the market. Trading in them has been on a large scale and the former shows a net gain of nearly 6 points. Reading has covered a range of over 6 points and, at 2 points below the highest, closes 4 points higher than last week.

Brooklyn Rapid Transit was weak on the prospect of a judicial decision limiting the right of the company to exact more than one fare to distant points. This, with New York Central, North West. and Steel common, are the only active stocks which close lower than last week.

The industrial list has followed the general course of railway issues and presents no unusual features.

For daily volume of business see page 987.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

STOCKS. Week ending April 26.	Sales for Week.	Range for week. Lowest.		Highest.		Range since Jan. 1. Lowest.		Highest.	
Alice Mining	200	$5	April 26	$5	April 26	$4	Mch	$7½	Jan

Outside Market.—The outside market in the early part of the week showed considerable improvement over last week, prices generally moving up on a good volume of business. Later the market drifted into dulness, business at times being almost at a standstill. Values, however, held fairly steady. Industrials evidenced decided strength. American Tobacco from 325 moved up to 350. American Writing Paper preferred lost 2 points to 22. Manhattan Transit was conspicuously active and strong, advancing from 1½ to 5¾, the close to-day being at 5½. N. Y. & Cuba Mail S.S. on the favorable completion of the Morse consolidation plan ran up from 26 to 29½, easing off to 28⅞. Standard Oil opened the week at 518, rose to 529, and closes at 526. Trading in Western Ice was brisk, the price moving up from 27¾ to 35, with the close at 34½. International Mercantile Marine securities were listed on the Stock Exchange this week. Chicago Subway sold down from 19⅞ to 17 and ends the week at 17¼. Boston Consolidated Copper advanced from 27⅛ to 29⅝ and closed to-day at 29. Butte Coalition from 25½ reached 28⅛ to-day, but closed at 27. Davis-Daly Estates after advancing from 15¾ to 17¼, sank to 15, but moved up finally to 16½. Greene Cananea rose a point to 17 but closes at 16½. Greene Consolidated Copper also gained a point to 25 but fell off to 24½. United Copper common was active and advanced from 61⅛ to 62½. Trinity Copper sold down from 22 to 21½. Nipissing Mines was heavily dealt in, moving up from 13⅛ to 14⅝ and back to 14. An outbreak of activity in Nevada-Utah carried the price from 3⅞ to 4⅞.

Outside quotations will be found on page 987.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings.			July 1 to Latest Date	
	Week or Month.	Current Year.	Previous Year.	Current Year.	Previous Year.

Net Increase (14.19%)	------	------	1,284,398	------

a Decrease due to partial train service on account of washouts.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of April 20 1907. The next will appear in the issue of May 25 .

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
d The company now includes earnings of the Denver Enid & Gulf RR. Pecos Valley System and Santa Fe Prescott & Phoenix R. in both years.

For March taxes and rentals amounted to $214,994, against $186,945 in 1906, after deducting which, net for March 1907 was $2,891,571, against $2,339,293 last year. From July 1 1906 to March 31 1907 taxes and rentals were $1,879,073, against $1,801,979 last year.

h For March 1907 additional income was $9,781, against $3,092 in 1906, and from July 1 to March 31 was $45,560 in 1906-7, against $42,492 in 1905-6.

k For March 1907 additional income was $12,145, against $16,772 in 1906, and from July 1 1906 to March 31 1907 was $176,374 in 1907, against $137,863 in 1905-6.

n These figures represent 30% of gross earnings.

y For February additional income and net profits from coal, &c., were $52,527 this year, against $60,225 last year; and from July 1 to Feb. 28 were $433,985 this year, against $536,700 last year.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges:

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. b Figures are from Feb. 1. c These figures are for consolidated company. d These are results for main line. f Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. h These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept. 5 1906.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week

as soon as received, and once a month we bring together all the roads reporting, as is done to-day.

ANNUAL REPORTS.

Annual Reports.—The index to annual reports is omitted this week because of the publication of the "Railway and Industrial" section, which contains references to the reports of the principal steam railroads and industrial companies printed in the "Chronicle," *not* including to-day's issue.

Philadelphia Baltimore & Washington RR.

(*Report for Fiscal Year ending Dec.* 31 1906.)

President James McCrea, Philadelphia, March 11 1907, says in substance:

Statistics.—There was an increase in the number of tons carried of 8.03 %; in tonnage mileage of 9.61 %; and freight train mileage of 11.55 %. The number of passengers carried increased 10.45 %; the passenger mileage increased 8,61 %; and the passenger train mileage increased 4.54 %. The gross earnings per ton per mile were 0.954 cents, a decrease of 0.31 %, and the gross earnings per passenger per mile were 2.017 cts, a decrease of 0.05 %.

General Results.—There was a continued increase in the volume of the freight and passenger traffic and in the revenue therefrom, although there was a slight decrease in the rate per ton and per passenger per mile. After deducting rentals due roads operated under lease, and providing for all fixed charges, taxes and other liabilities, there was a net income of $2,782,552. Out of this there were paid two dividends of 2 % each, leaving a balance of $1,842,810, which was applied toward the extraordinary expenditures of the year.

Construction, &c.—The aggregate construction, equipment and real estate expenditures were $4,546,390, as follows:

Right of way	$49,667
Gray's Ferry, engine-house, machine-shop, track, &c	54,725
Extension of Edgemoor yard	81,968
Wilmington, Elevated line and Justison St. yard ($588,344); passenger station ($203,682); power-house, &c. ($19,933)	811,959
Havre-de-Grace, new line, bridge, passenger stations at Perryville and Havre-de-Grace, &c	710,038
Washington, Magruder branch ($178,228); Montana Ave. to Florida Ave., including coach yard ($485,964); elevated grade, South Capital to 4½ St. ($355,785); elevated and Maryland Ave subway, freight yards and other improvements ($379,023)	1,399,000
Interlocking	93,645
Water supply	366,182
Miscellaneous	111,693
Re-building pool freight cars, shop tools, &c	73,063
Real estate	794,450

After applying surplus income of $1,842,810 toward this expenditure, there remained a balance of $2,703,579, which was distributed as follows: Charged to capital account—cost of road, $1,899,584, and real estate 791,196; charged to construction of revised line through Washington, D. C., $12,799. The charges to capital account represented expenditure for real estate and right of way, a portion of the cost of the two-track elevated road through Wilmington and of the new passenger station at that point, the completion of the new bridge and revised line at Havre-de-Grace and of the Magruder branch, the construction of the joint coach-yard, round-house and shops, and of additional tracks, in connection with the new passenger station at Washington, increased freight facilities in that city and at other points, and permanent water supply.

Merger.—Your company, being the owner of all the capital stock of the South Chester RR., a branch about 3 ¾ miles in length, acquired the same and consolidated it with your main line on Feb. 9 1906. The charge to capital account resulting therefrom, $229,700, appears in the cost of road on our balance sheet.

Elimination of Grade Crossings in Washington, D. C.—The further sum of $596,407 was expended during the year upon the revision of your line through the city of Washington for the purpose of eliminating grade crossings, of which $583,608 was provided for out of your surplus income. The sum of $1,500,000 is carried on your balance sheet to this account, until the receipt of that amount from the Government in pursuance of the appropriation heretofore made for that purpose by Act of Congress.

Washington Station.—The work upon the terminal station has been steadily prosecuted during the year. A very large proportion of the steel work and masonry is in place, and the construction of the train shed and approaches and of the joint coach yard, round house and shops is under way.

Stock Holdings.—Our holdings of stock in the Baltimore & Ohio Railroad Co. have increased by reason of the allotment made by that company at par during the year (and on Dec. 31 1906 included at par $1,000,000 preferred stock and $1,048,700 common stock—Ed.) The South Chester RR. having been acquired, its stock no longer appears as an asset.

Sinking Fund for Debentures.—The sinking fund for the $1,000,000 of 5% debentures of June 1 1880 having reached such an amount that the principal and interest of the securities now held in the fund will be more than sufficient for the payment of that loan at the maturity thereof in 1910, further payments into the fund have been discontinued.

New Freight Cars.—Eight new cabin and 90 new gondola cars were built or purchased to replace cars destroyed, and 150 box and 102 gondola cars were acquired through the Pennsylvania steel freight car trust, to replace a like number of old low-capacity freight cars destroyed.

Controlled Properties.—The Delaware RR. shows a substantial increase both in gross and net earnings, and after paying all fixed charges and dividends aggregating 7%, it was able to transfer $297,966 to an extraordinary expenditure fund, to cover future betterments and improvements.

The Philadelphia & Baltimore Central RR. shows increased gross earnings, but a greater increase in expenses, so that there was a deficit of $40,021 in meeting all charges.

The Philadelphia & Delaware County RR. shows a surplus of $19,310 after meeting all charges.

The Delaware Maryland & Virginia RR. shows a deficit of $13,178 in meeting its liabilities.

The operation of the Columbia & Port Deposit Ry. was seriously interfered with until Aug. 1 1906 by the construction of the low-grade freight line of the Pennsylvania Railroad Co., but the Columbia & Port Deposit Co. has been properly compensated for the loss of traffic and revenue resulting therefrom.

The Baltimore Chesapeake & Atlantic Railway Co. shows a considerable increase in gross earnings, and paid dividends aggregating 5% upon its preferred stock during the year out of surplus earnings. The Maryland Delaware & Virginia Railway Co. was unable to meet its fixed charges, and an advance of $75,000 was made to it for that purpose by the Baltimore Chesapeake & Atlantic Railway Co., which is the guarantor upon its bonds, and owns a majority of its stock.

Balance	$1,982,482	$1,859,049	$1,327,842
a Charges (less miscell. income)	895,145	830,765	831,583
Surplus	$1,087,337	$1,028,284	$496,259
Dividends on common stock, 4%	$950,492	$902,116	-------
Dividends on preferred stock, 8%	9,964	19,786	19,006
Balance	$126,881	$106,382	$477,253

a Miscellaneous income in 1906 amounted to $52,829 —V. 81, p. 275.

United Railways & Electric Co. of Baltimore.

(Report for Fiscal Year ending Dec. 31 1906.)

President Wm. A. House, April 10 1907, says in substance:

General Results.—The gross earnings have increased $559,404, or 9.29%; operating expenses (after deducting extraordinary expenditures of $929,762 for the year 1905) increased $385,412, or 13.59%. The increase in fixed charges was $135,520, or 6.08%. Decrease in amount carried to surplus for the year $9,766. The increase in operating expenses was mainly due to increased car service and to advance in rates of wages; also in part to increased cost of materials and supplies. Fixed charges were increased by the interest on car trust certificates series "B" and "C," interest on the new funding bonds and increase in park and other taxes.

The percentage of operating expenses to gross earnings was 48.93%, as compared with 47.05% in 1905. The average earnings per car mile were 25.30 cents, an increase of 1.60 cents, and the cost of service 12.37 cents, an increase of 1.22 cents. The number of car miles run was 26,035,327, an increase of 603,951 miles.

The total number of revenue passengers carried was 133,785,601, an increase of 11,467,163.

While the earnings show a gratifying increase, as compared with 1905, the unusually frequent and heavy rains, which occurred during the summer of 1906, greatly interfered with excursion travel, the amount of precipitation during the three months—June 1 to Aug. 31—being 10.10 inches.

Financial Plan.—The most important event of the year was the adoption of the financial plan (V. 83, p. 156).

First—The funding of income coupons to and including the year 1910. At the time of writing this report the holders of $13,584,000 out of a total of $13,940,000 of the bonds have accepted the plan.

It is apparent that under the funding agreement the money becomes available for improvements only as earned. It has been deemed expedient, however, to press the plans for improvements, anticipating the company's income by incurring a floating debt and retiring it at convenient periods.

Second—The Maryland Electric Railways Co., the Maryland Electric Railway Co. (chartered by friendly interests in the spring of 1906) and the Baltimore & Annapolis Short Line were consolidated on Aug. 7 1906 under the name of the Maryland Electric Railways Co. The consolidated company authorized an issue of $8,000,000 first mortgage 5% 25 year-gold bonds, the proceeds of which, when sold, are to be used only for the purpose of acquiring car houses, terminal stations, power houses, excursion resorts, cars, rolling stock, railway extensions, tracks, rights of way, franchises and such other necessary buildings, structures or additions to our system as may be approved by the mortgage trustee. This property is leased to the United at an annual rental equal to 6% upon actual cost. The United further agrees to pay as rental, beginning in 1910, 1½% per annum on the amount of the outstanding bonds; also to purchase the property at maturity of the bonds by paying an amount sufficient to retire them, and the money paid as a sinking fund, including increments, goes towards the purchase price of the property. A special sinking fund is provided for purchases of rolling stock, the lease of which is limited to ten years. The bonds are redeemable at any interest period at 110 and accrued interest.

These bonds proved an attractive investment, and $4,000,000 of them were purchased by a syndicate, payments for the same, in blocks of $1,000,000, to be made not later than Oct. 1 1906, Feb. 1 1907, July 1 1907 and Jan. 1 1908 respectively. The remaining $4,000,000 of bonds, authorized but unissued, will remain with the trustee to be issued upon proper certificate. (V. 83, p. 818, 1470.) There is available at this date for new improvements $1,031,667 unexpended from the sale of the first $2,000,000 bonds.

Sale of Property.—Your company should have available by July 1 next from the sale of the Pratt St. site to the city $309,737, and from the sale of property no longer adequate for our uses over $300,000. These amounts, with the company's surplus, will be available for our purposes this year.

Construction.—During the year 1906 no charges have been entered to capital account for cost of road, equipment and real estate, except in instances where the proceeds of bonds have been used to provide therefor. The amount so charged for new construction aggregated (net) $80,437, representing extensions and discounts ($16,000) on bond for construction.

Large sums were expended in bettering the condition of roadway, track and power plants, and in view of the increase of gross receipts it was deemed expedient to continue as rapidly as possible the plans for improvement.

Extraordinary Expenditure Fund.—In order to preserve an accurate record of the cost or rehabilitating the property, there was opened an account referred to herein as "Extraordinary Expenditures," which account includes expenditures for rehabilitating the property distinguishable from the cost of ordinary maintenance and repair under normal conditions of efficiency. The extraordinary expenditures for the year were $1,436,693, the details of which (as reported by the expert accountant) are:

Track reconstruction, including cast-welding	$592,035
Reconstruction of overhead lines, viaducts and bridges, improved bonding	122,802
New, and reconstruction of old, car houses	104,557
Harford Road Subway	34,394
Improvements to power plant ($152,198); Harford Road sub-station ($66,816)	219,014
Payments on account of car trusts	209,360
Construction and reconstruction of cars	18,997
Expense incurred in sale of property, in funding coupons, &c.	13,879
Interest on sundry construction loans	80,215
Miscellaneous items	41,438

Of the total cost of this work, $980,000 has already been charged against the net income of the year and credited to extraordinary expenditures leaving a balance standing to the debit of extraordinary expenditures on Dec. 31 1906 of $456,693 carried for the present as a deferred asset.

Taxes.—The total amount of taxes, including Park tax and the cost of paving streets during the year was $652,802, as against $560,368 in 1905, an increase of $92,434.

Tracks.—The track department reconstructed during the year, with standard rails, bonding, fastenings and new ties, 31.625 miles of single track (22.811 cable and 8.814 electric). The Sparrows Point line was extended from Jones' Creek to Bay Shore Park, 7.16 miles of single track, including this and other extensions and connections, there were constructed 8.61 miles of new track, or a grand total of 40 miles of single track constructed and reconstructed during the year. The rail bonding was renewed on 71.459 miles of single track. The Falk Company cast-welded 4,076 rail joints. The conversion of the remaining portion of the old cable system of tracks (22.81 miles) to electric was completed Sept. 28 1906.

The company now operates 394.454 miles of main track, of which 171.867 are laid with "T" rails upon suburban lines and 172.666 with 9-inch girder rails, while 49.921 miles are made up of various types of smaller sections, the joints upon 40.62 miles of which have been cast-welded.

Cars.—During the year the company has received and placed in service 100 additional double-truck 4-motor air-brake cars, 90 of which were bought under car trust (Series "C") and 10 purchased outright from the proceeds of insurance. A contract was closed by the Maryland Electric Railways Co. on Nov. 24 1906 for 40 double truck semi-convertible high speed cars, and on Feb. 1 1907 an order was placed for 40 additional cars of same type, all to be leased to your company. Ten snow plows and two sweepers, purchased by the Maryland Electric Railways Co. and leased to your company, were received in time for the heavy snows on Feb. 4 and 5 1907.

Power Plants.—The demands for power have increased so rapidly that it has been difficult to keep pace with the situation, notwithstanding that the 5,000 K. W. reciprocating unit, contracted for in 1905, was placed in service at the Pratt St. power house in the early part of last year. In anticipation of the dismantling of the machinery to be removed from the widened portion of Pratt St., a 5,000 K. W. turbo generator was placed in service in January 1907. A second 5,000 K. W. reciprocating unit is now being installed at Pratt St. The Eastern and Northern sub stations were completed early in 1906 and equipped with three 1,000 K. W. rotaries and four 1,000 K. W. rotaries respectively. The Druid Hill sub station was reinforced by the addition of one 1,500 K. W. rotary, which increases the capacity of that station to 5,500 K. W. The Maryland Electric Railways Co. has purchased a suitable site adjoining Bay Shore Park and will erect thereon a power and lighting plant to be leased to your company.

Bay Shore Park.—Bay Shore Park, opened Aug. 11 1906, was acquired by the Maryland Electric Rys. Co. on Oct. 31 1906 and leased to your co.

Extensions.—The city ordinance authorizing the construction by the Maryland Electric Railways Co. of a double track extension of the St. Paul St. line from 31st St., via Merryman's lane, to the new Boulevard line and the Northern City limit, was duly passed by the City Council and approved by the Mayor. It is also proposed to construct and lease to your company: a double track line upon 8th St. between Orangeville and Highlandtown, a single-track line 2 mile extension from Towson to Lutherville; also a

double-track line 4½ miles in length from Wilkens Av. line to Elkridge Landing, connecting with the new race track near Halethorpe.

Miscellaneous.—On May 1 1906 the remaining $479,000 Baltimore Traction Co. convertible bonds were retired and canceled, and a like number of our first 4% consols, were released.

Contract.—A contract was concluded with the Washington Baltimore & Annapolis Ry. Co. and the Baltimore Terminal Co., which lines are constructing an electric road between Baltimore and Washington, granting those companies the right of joint-user of the oustde rail of tracks of this company upon Lombard and Liberty streets and Park Av., between Greene St. and the Terminal Co.'s station at Park Ave. and Marion St.

Betterments Since the Fire.—Since the great fire of Feb. 1904 there has been expended for the general betterment of your property by the reconstruction of tracks and power houses, for the purchase of cars and for extensions about $6,891,734.

Lanston Monotype Machine Co., Philadelphia.

(*Report for Fiscal Year ending Feb.* 28 1907.)

Pres. J. Maury Dove, Alexandria, Va., April 11 1907, writes:

General Results.—Notwithstanding the strike in the book and job offices throughout the country, which was declared Jan. 1 1906, more than a year ago, and the great increase in the cost of labor and material, the gross receipts of the business and profits for the past year have exceeded those of the year previous and give fair promise of a much greater improvement during the present year.

The gross business for the year was $1,312,873, and the net profits (after depreciation) were $514,733. Of this amount, $314,733 were trading or regular business profits and $200,000 were extraordinary profits derived from the sale of the modern Continental patents (patents not originally capitalized) to the English corporation.

The total number of casting machines placed during the year just closed was 381, and the total number of keyboards placed was 571. A large number of machines placed in this country was in plants that had previously installed Monotypes.

Owing to the general stagnation of business in England dulrng the year a smaller number of machines was sold to the English corporation than the previous year. Since Jan. 1 of the present year, however, business in England has improved and the demand for machines has increased, and we are shipping them at present 50% more machines monthly.

Improvements.—With our largely increased factory facilities we are prepared to meet the greater demand that will surely be made upon us this year for both machines and supplies. The demand for supplies for new and existing plants is a rapidly growing one. We have been compelled to take the entire building in which we are now located in order to meet our growing needs. Our factory to-day is one of the most complete and up-to-date of its kind in the country.

Patents.—A great many important improvements were made during the year and will be protected by patents. A large number of new patents was also issued during the year. Every precaution is taken to properly protect our patent interests.

New Contract.—On Jan. 1 1907 we concluded a new contract with the English corporation, the former contract being canceled, for manufacturing its casting machines and keyboards covering a period of five years, thus reserving to our company the exclusive right for that period of manufacturing every Monotype sold in the world.

The sale of our modern European patents to the English corporation was consummated during the latter part of the year for the sum of $240,000, to be paid for in eight years, $30,000 per year, payments to be made quarterly, $7,500 each. All of said payments are evidenced by 32 promissory notes of $7,500 each, one maturing every three months until the number of 32 has been paid. Said notes are covered in our present financial statement under the head of bills receivable. The sale disposes of a territory, at a fair price, that we could not possibly cover ourselves in marketing our machines and gives, at the same time, to the English corporation double the market they had prior to acquiring these rights. Our company is also relieved of the payment annually of large and growing fees for taxes, maintenance, &c.

OPERATIONS AND FISCAL RESULTS.

American Can Company.

(*Official Statement of Feb.* 8 1907.)

The official statement made to the New York Stock Exchange upon the listing of $41,233,300 cumulative 7% preferred stock and $41,233,300 common stock says in substance:

Organization.—Incorporated March 19 1901 under laws of New Jersey. Authorized capital stock, $88,000,000, consisting of $44,000,000 cumulative 7% preferred stock and $44,000,000 common stock. Par of shares $100.

Rights of Preferred Stock.—The certificate of incorporation provides (in substance): The preferred stock shall be entitled, in preference to the common stock, to cumulative dividends at the rate of 7% yearly from the time of the issue thereof, and whenever the preferred stock shall have received such dividends for all such time, or whenever all deficiency or arrears for all such time shall have been declared in dividends and funds set aside for payment thereof, and the company shall have declared dividends on the preferred stock at the rate aforesaid for such last past dividend period, and shall have set apart funds for the payment thereof, then dividends on the common stock may be declared, payable out of any surplus or net profits then remaining. The preferred stock shall also have a preference over the common stock in any distribution of assets other than profits, until the full par value thereof, and 7% per annum thereon from the time of issue, shall have been paid by dividends or distribution. The preferred stock shall not receive any dividend from profits in excess of 7% per annum, nor any share

in distribution of assets in excess of said par value of the amount then unpaid of such cumulative dividends, but the common stock alone shall receive all further dividends and shares in distribution.

The preferred and common stock have equal voting power, except that the property cannot be mortgaged without the assent of two-thirds of the preferred stock outstanding.

The first dividend paid upon the preferred stock was 2½ % on Sept. 30 1903, since when dividends have been regularly paid at the rate of 5 % per annum. On Dec. 31 1906 the unpaid cumulative dividend amounted to 22½ %.

Organized to acquire several of the leading factories in the United States engaged in the business of manufacturing tin cans and packages. These factories were acquired practically free from debt, and the properties of the company are to-day free from debt, except a mortgage of $30,000, which is not due. The company operates 39 can factories, 2 detinning plants and 1 machine shop, located in Maine, Massachusetts, New York, Pennsylvania, Maryland, Virginia, Georgia, Louisiana, Ohio, Indiana, Michigan, Illinois, Iowa, Missouri, Minnesota, California, Oregon, Washington and Hawaiian Islands.

Y.; Indianapolis, Ind.; (detinning plant), Joliet, Ill.; Lubec, Me.; "Manhattan," New York, N.Y.; "Maryland," Baltimore, Md.; Maywood, Ill.; machine shop, Maywood, Ill.; "Miller," Baltimore, Md.; New Orleans, La.; New Castle, Pa.; "Pacific," San Francisco, Cal.; (detinning), Paulsboro, N. J.; Portland, Ore.; "Rudolph," Chicago, Ill.; Savannah, Ga.; "Seneca," Havre-de-Grace, Md.; "Somers," Brooklyn, N. Y.; Toledo, Ohio; "Union," Hoopeston, Ill.; St. Louis, Mo. (compare V. 81, p. 669; V. 82, p. 162).

Factories Leased.—Boston, Mass.; "California," San Francisco, Cal.; Cambridge, Md.; "Honolulu," Hawaiian Islands; "Horne & Danz," St. Paul, Minn.; "Illinois," Chicago, Ill.; Kansas City, Mo.; North Lubec, Me.; Philadelphia, Pa.; "Wagner," East Brooklyn, Md.; "Woodcock," Chicago, Ill.

The company's factories are fully insured, many of them supplied with sprinkler equipment, and others are being supplied with sprinkler equipment as rapidly as possible.

Principal products: Fruit and vegetable cans, meat and fish cans of all descriptions, lard pails of all kinds, cans for paints, varnishes, oils and similar products, coffee and spice cans, baking powder cans, &c., syrup and molasses cans, wax top cans for domestic packing, tin cans with wooden jackets for holding oils and bulky liquids, pieced and stamped tinware and galvanized ware, lithographed and decorated tin boxes and packages used for the packing of druggists' sundries, talcum powder boxes, tooth powder boxes, tobacco boxes and similar products. Various cans and packages made from black sheet steel, such as lye cans, powder kegs, &c.

There are, in addition, many specialties and other packages, amounting in the aggregate to a very considerable business. The company preserves all the tin scrap and clippings used in the manufacture of its goods, and collects them at two detinning plants, one at Paulsboro, N. J., and the other at Joliet, Ill., where the tin scrap is treated by an electro-chemical process, whereby the tin is recovered and the resulting black steel scrap is made saleable to steel works.

The machinery used by the company is in many cases automatic, intricate and of a special nature, rendering it desirable that the company manufacture and control its own special lines of machinery. This company, therefore, operates a large machine shop at Maywood, Ill., employing steadily from 250 to 300 men in the manufacture and repair of its machinery. The knowledge of such special machinery is therefore confined to the company's experts.

[The statements of earnings and balance sheets furnished to the Exchange are those already published in the "Chronicle" from the company's annual reports.] See V. 84, p. 337; V. 82, p. 332; V. 80, p. 1730; V. 84, p. 510.]

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Berkshire (Mass.) Street Ry.—*New Stock.*—The Massachusetts Railroad Commission has authorized this company, a subsidiary of the New York New Haven & Hartford RR., to issue $250,000 additional capital stock, to be offered stockholders at $100 per share, the proceeds to be used for paying floating debt and the purchase of property.—V. 82, p. 691.

Boston & Northern Street Ry.—*New Trustee.*—The directors have approved the substitution of the American Trust Co. of Boston, as trustee, in place of the Adams Trust Co., under the $15,000,000 refunding mortgage of 1904, subject to the approval of the appointment by the Massachusetts Railroad Commission.—V. 82, p. 1155.

Buffalo Rochester & Pittsburgh Ry.—*Bond Issue Approved.*—The shareholders on April 25 duly ratified the proposition to make a consolidated mortgage for $35,000,000, the immediate issue to be $3,000,000. Compare V. 84, p. 867, 930.

Calumet Electric Street Ry., Chicago.—*New Officers.*—The following officers and directors were recently elected:

President, Ira M. Cobe; Vice-President, J. W. McKinnon; Secretary and Treasurer, Frank H. Murray. Directors: L. E. Meyers, B. F. Harris, G. E. Shaw, J. W. McKinnon, Ira M. Cobe.—V. 83, p. 93.

Chattanooga Southern RR.—*Receivership.*—Judge Pardee in the United States Court at Atlanta on April 23 appointed W. W. Kent and E. C. Osborne as receivers for this road on application of the Pacific Construction Co. of California. The receivership, it is understood, is occasioned by the failure of the minority stockholders to accept in sufficient numbers the proposition made by the Louisville & Nashville RR. Compare V. 84, p. 748.

Chesapeake & Ohio Ry.—*Bonds Offered.*—Moffat & White, 5 Nassau Street, and Procter & Borden, Equitable Bldg., New York City, are offering at 90 and interest, yielding 4.55% to the investor, $600,000 Potts Creek branch 1st mortgage gold 4% bonds, dated July 1 1906 and due July 1 1946; interest payable Jan. 1 and July 1. Authorized issue limited to $1,000,000; outstanding, $600,000. Trustee, Central Trust Co. of New York. A circular says:

The above bonds are a direct obligation of the Chesapeake & Ohio Railway Co., secured by first mortgage on its Potts Creek Branch at a rate not to exceed $25,000 per mile. The unissued bonds are held for additional mileage on this line at the above rate per mile of completed road, not including spurs and second track. The company has built this line, extending from Covington, Va., southwest for a distance of about 25 miles, for the purpose of reaching an extensive iron ore region containing ore said to be the highest grade found in Virginia. The road is well located, and has no grades of consequence in the direction of the movement of iron ore and heavy traffic, and it is expected that it will be in full operation by July 1 1907. Ore contracted for by one iron company alone will probably suffice, at prevailing freight rates, to provide sufficient earnings to meet the fixed charges on the bonds outstanding.—V. 84, p. 626, 279.

Chicago & Oak Park Elevated Ry.—*New Trustee.*—See Lake Street Elevated RR. below.—V. 84, p. 569, 218.

Chicago & Southern Traction Co.—*New Securities—New Control.*—The "Chicago Economist" of April 20 said:

President W. S. Reed announces that the company has increased its capital stock from $2,000,000 to $5,000,000 and the bonded debt from $2,000,000 to $5,000,000. Mr. Reed has sold a controlling interest in the property to a Detroit syndicate made up of the following capitalists: C. J. Reilly, C. A. Black, Matthew Slush and J. M. Mulkley, President of the Detroit Salt Co. With the increased stock and bonds, it is the intention to extend from the present main line to various points outside the southern limits of this city, and also to extend the line to La Fayette, Ind., connecting there with the Ohio and Indiana lines. The road will be in complete operation as far as Kankakee within the next six weeks.—V. 82, p. 217.

Chicago Southern Ry.—*Financial Plan.*—Copies of the subscription agreement of the underwriting syndicate formed to complete the Walsh roads, together with the estimates for the completion of the Chicago Southern Ry., were made public on April 20. The syndicate managers are John R. Walsh, John N. Faithorn, of the Chicago Terminal & Transfer RR. and Orville E. Babcock. The syndicate, as was stated by the Clearing House Committee several days ago (V. 84, p. 930), is organized to raise $2,500,000 to complete the road and $1,000,000 of underwriting is offered at this time.

The subscribers will receive for this $2,500,000 the following securities:

$1,500,000 par value of the 5 % first mortgage bonds of the *Chicago Southern*, dated July 1.
$1,000 000 par value of 6 % 10-year debentures of the same railway.
$1,000,000 par value of 4 % preferred stock of the *Southern Indiana* Railway, cumulative after Jan. 1 1908.
$2,500,000 par value of the $10,000,000 of common stock of the Southern Indiana Railway, $1,000,000 to be used if desired to aid in refunding the collateral gold notes. (There are $4,000,000 of these 5 % coupon notes of the Chicago Southern Ry. They are due July 1 1907 and are guaranteed by the Southern Indiana Ry. See V. 81, p. 613, 725.)

The "Chicago Inter-Ocean" of April 21 said:

Of these securities, the stocks are the property of Mr. Walsh, but have been put up as part of the collateral for the $4,000,000 of 2-year collateral trust notes of the Chicago Southern, due July 1 1907, which will be refunded at that time by $4,000,000 of that company's 5s. This will release the stocks. The 5 % issue totals $5,500,000, and the remaining $1,500,000 is the security which is to be turned over to the syndicate. The debentures will be issued at the same time.

Of the subscription, Mr. Walsh and the former directors of his three defunct banks—the Chicago National, Home Savings and Equitable Trust Co.—have taken the bulk of $1,500,000, while of the $1,000,000 on the market the Clearing-House committee which had charge of the Walsh banks has agreed to take $250,000. Most of the remainder also is said to have been subscribed.

The statements which accompany the offer of the syndicate declare that it will require $922,450 to complete the Chicago Southern. Of the $2,500,000 to be raised it is planned to put aside $1,500,000 to complete the construction of the road and $1,000,000 to pay off its floating indebtedness and for interest and discounts.—V. 84, p. 930.

Chicago Union Traction Co.—*Deposits Asked.*—A committe composed of Frederick H. Rawson, William N. Eisendrath, Wallace Heckman, Edmund D. Hulbert, Azariah T. Galt, R. Floyd Clinch, George E. Adams, Charles L. Raymond, R. W. Hosmer, Charles W. Leland and George E. Marcy, on April 24 called for deposits of stocks of the North and Chicago street railroads with the Chicago Title & Trust Co., under the terms of the recent ordinance.

Mueller Certificate Decision.—See editorial on a preceding page.—V. 84, p. 930, 803.

Cleveland Electric Ry.—*Lines Abandoned.*—The company on Tuesday ceased to operate the lines on Central and Quincy avenues and began to tear up the tracks, but was prevented by the police. A temporary injunction was obtained from Judge Ford prohibiting the Forest City Ry. from operating the lines. In order to avoid the injunction, the Municipal Traction Co. on April 23, it is reported, transferred its lease of the Forest City Railway Co. to the Low Fare Co., but operation of the lines has not yet been resumed. Compare V. 84, p. 930, 867.

Cleveland Southwestern & Columbus Ry.—*Mortgage Filed.*—This company has filed to the Cleveland Trust Co., as trustee, its new mortgage securing $10,000,000 of 5% 20-year bonds (subject to call after ten years), issued per plan under "Cleveland & Southwestern Traction Co." in V. 83, p. 1590.—V. 84, p. 748, 569.

Columbus (O.) Railway & Light Co.—*New Director.*—David E. Putnam, Vice-President of the Commercial National Bank of Columbus, has been elected a director to succeed Charles H. Lindenberg, who resigned.—V. 84, p. 338.

Consolidated Ry.—*Merger with N. Y. N. H. & H. RR.*—See New England Investment & Security Co. below.—V. 81, p. 507, 102.

Dayton Lebanon & Cincinnati RR.—*Sold.*—At Dayton, O., on April 16 this trolley and steam road extending from Dayton to Lebanon, 35 miles of track, was bid in at foreclosure sale by J. F. Morley for E. G. Tillotson, Vice-President and Manager of the Cleveland Trust Co. and Chairman of the bondholders' committee, for $200,000, including $194,000 for the real estate and $6,000 for the personal property. The bondholders, it is said, will re-finance the property and complete the road 4 miles from Lebanon Junction to Dayton.—V. 81, p. 1436.

Duquoin Belleville & St. Louis Electric Ry.—*Mortgage.*—This company, originally incorporated as the Duquoin Rapid Transit Co., has made a mortgage to the Carnegie Trust Co., of New York, as trustee, to secure an issue of $2,000,000 20-year 5% gold bonds, dated Feb. 1 1907 and due Feb. 1 1927, without option of earlier redemption; denominations $500 and $1,000; interest payable Feb. 1 and Aug. 1.

The company, it is said, has a franchise covering 85 miles of road, commencing at Zelgler, in Franklin County, and terminating at Belleville, passing through Benton, Duquoin and Pinckneyville. The officers are: W. R. Hayes of Duquoin, President, D. R. Archer, Vice President; T. J. Howell, Secretary, and H. E. Ross, Treasurer.

Equipment Trusts.—*Record in the Past.*—See circular under Mobile & Ohio RR. below and compare editorials in V. 81, p. 1760; V. 82, p. 361, 839, 873, 1296.

Great Northern Ry.—*Interest on Subscriptions.*—The company, referring to the interest at 5% per annum allowed by it on all installments paid to May 1 1908 on account of the $60,000,000 new stock, gives notice that, owing to the small amount of interest accruing between April 9, when the first installments were payable on subscriptions under the terms of the amended circular (V. 84, p. 803), and May 1, when interest was payable according to the original circular of Dec. 11 last (V. 83, p. 1469), payment of interest accrued May 1 will be deferred to Nov. 1 1907, when it will be paid, together with the interest accruing from May 1 1907 to Nov. 1 1907.—V. 84, p. 803, 749.

Illinois Iowa & Minnesota RR.—*Meeting Adjourned.*—The meeting to authorize the consolidation with other lines under the name of the Milwaukee Rockford & Gary Ry., which was to have taken place on April 25, was, it is reported, adjourned for 30 days. Compare V. 84, p. 508.

Lake Shore & Michigan Southern Ry.—*Debenture Syndicate Dissolved.*—The syndicate headed by J. P. Morgan & Co., which underwrote the $35,000,000 25-year 4% debenture bonds issued in February 1906 (V. 82, p. 392) will be dissolved on May 1. The "Wall Street Summary" says:

Participants in the syndicate purchased the bonds at the time at 98½ and interest. The bonds were a part of a $50,000,000 authorized issue. It is understood that the syndicate disposed of only a small part of the bonds, and the balance will be turned over to the underwriters on the date mentioned.—V. 84, p. 753, 744.

Lake Street Elevated RR., Chicago.—*Resignation of Mortgage Trustee.*—The Equitable Trust Co. of Chicago, as successor June 24 1898 to the Farmers' Loan & Trust Co., as trustee under the mortgage of April 7 1893, gives notice by advertisement of its resignation from the trusteeship, to take effect July 1 1907 or earlier if a new trustee shall be appointed. —V. 78, p. 1549.

Lewiston Brunswick & Bath Street Ry.—*Sale.*—See Lewiston Augusta & Waterville Ry. above.—V. 84, p. 390.

Missouri Pacific Ry.—*Equipment Securities Offered.*—The equipment bonds and certificates which were described in the "Chronicle" last week (p. 931) have mostly been placed. Tailer & Co., 27 Pine St., are offering the unsold maturities, amounting to about $500,000, by advertisement on another page of this issue, at prices to yield the investor about 5½%. Compare V. 84, p. 931.

Mobile & Ohio RR.—*Offering of 5% Equipment Notes Guaranteed by American Car & Foundry Co.*—The Mississippi Valley Trust Co. and Francis Bros. & Co., both of St. Louis, are offering, at prices to yield the investor 5¾% interest, $1,291,000 5% equipment notes, dated Oct. 1 1907, maturing serially until Oct. 1 1914. Denomination $1,000. Coupon notes. Interest payable semi-annually April 1 and Oct. 1. Principal and interest payable, at option of holder, at office of the trustee, the Mississippi Valley Trust Co., St. Louis, or at the Guaranty Trust Co., New York City. The American Car & Foundry Co. guarantees the payment of these notes. (See advertisement on another page).

The above issue of notes will be ready for delivery on or about Oct. 1 next, and pending delivery of the definitive notes temporary certificates of the Mississippi Valley Trust Co. will be issued, exchangeable for notes on and after Oct. 1 1907. The issue will mature in semi-annual installments as follows: April 1 1908 to Oct. 1 1909, $94,000; April and Oct. 1 1910, $93,000; April 1911 to April 1912, $92,000. Oct. 1912 to Oct. 1913, $91,000; April and Oct. 1914, $90,000. A circular says in substance:

These notes are a direct obligation of the Mobile & Ohio RR., secured by a first lien upon the cars purchased from the American Car & Foundry Co., viz.: 1,000 thirty-ton box cars and 750 forty-ton gondola cars, for which payment will be made 15% in cash and the remainder in the above notes. The American Car & Foundry Co. will guarantee the payment of these notes, and said guaranty will be deposited with the trustee for the note-holders

We especially invite the attention of investors to the superiority of car trust obligations as a security due mainly to the fact that they are secured on the rolling stock, which is a necessity for the operation of the road, and therefore are generally recognized as an obligation that has to be provided for under any conditions, as evidenced by the fact that there are at the present time the following roads in the hands of receivers, Cincinnati Hamilton & Dayton Railway Co., Pittsburgh Shawmut & Northern Railroad Co. and Pere Marquette Railroad Co., all of which have oustanding equipment obligations which are being provided for, both principal and interest, according to their tenor. The following railroad companies reorganized between 1888 and 1905, either with or without foreclosure proceedings, all had outstanding equipment obligations, which in every case were provided for promptly, both principal and interest, although all other securities, with few exceptions, were reduced in rate or amount: Atchison Topeka & Santa Fe RR., Baltimore & Ohio RR., Central Railroad & Banking Co. of Georgia, Chesapeake & Ohio RR., Columbus Hocking Valley & Toledo Ry. (now Hocking Valley RR.), Kansas City Pittsburgh & Gulf RR. (now Kansas City Southern Ry.), New York Lake Erie & Western RR. (now Erie RR.), Northern Pacific RR., Philadelphia & Reading RR., Richmond & Danville RR. and Georgia Pacific Ry. (now Southern Ry.), Savannah Americus & Montgomery Ry. (now part of Seaboard Air Line), Toledo St. Louis & Kansas City RR. Co. (now Toledo St. Louis & Western RR.), Union Pacific Ry. The following railroads, after foreclosure, either paid their equipment obligations in full, or offered the holders an advantageous exchange of securities, which amounted to more than payment in full: Denver & Rio Grande Ry., Norfolk & Western Ry.—V. 84, p. 52.

New England Investment & Security Co.—*Stock Offered.*—Mackay & Co., Boston and New York, are offering at 92½ and accrued dividends, yielding the investor 4.32%, a limited amount of the present outstanding $10,000,000 4% preferred stock (tax exempt in Massachusetts), about $7,000,000 of which, it is said, has already been placed with the public.

The preferred dividends are guaranteed by the Consolidated Railway Co., which owns the entire 100,000 shares of common stock (no par value) and further protected by a three-party agreement between the New England Investment & Security Co., the Consolidated Railway Co. and the New York New Haven & Hartford RR. Compare V. 83, p. 492, 1102, 1474. The Consolidated Railway Co., it is understood, will shortly be merged into the N. Y. N. H. & H. RR., a meeting for that purpose to be held May 31.

Assets.—See President Mellen's letter of Oct. 16 1906 under "Worcester Railways & Investment Co." in V. 83, p. 1100. (The company's holdings of Worcester Railway & Investment Co. stock has since been increased from 36,971 shares to, it is said, about 64,000 shares, out of a total of 71.898 shares.—Ed.)—V. 84, p. 570.

National RR. of Mexico.—*Listed.*—The New York Stock Exchange has listed $42,600 additional 5% non-cumulative preferred stock, making the total listed to date $22,031,600, with $201,700 further additional to be added from time to time prior to Nov. 1 1907, making the total authorized to be listed $22,233,300.

Earnings for Half-Year ending Dec. 31.

	1905. Mex. Cur.	1905. U. S. Cur.	1906. Mex. Cur.	1906. U. S. Cur.
Gross earnings	$6,645,375	$3,322,687	$7,379,959	$3,689,980
Net earnings	2,483,038	1,241,519	2,686,898	1,343,449
Deductions—Taxes ($14,912), rental Mich. & Pac. ($12,423)				27,335
Balance				$1,316,114
Other income—Int. ($140,980), divs. ($212,803), misc. ($29,250)				392,033
Total net income				$1,708,147
Deduct—Int. on bonds ($1,005,480) and gold notes ($212,500)				$1,217,980
Six mos. prop. cost extending 5% gold notes				34,384
Six mos. proportion discount on bonds sold				6,946
Balance, surplus for half year				$448,837

—V. 84, p. 339.

New Orleans Railway & Light Co.—*Debentures Offered.*—The Inter-State Trust & Banking Co. of New Orleans, the trustee for the issue, is offering for sale $500,000 of this company's new $5,000,000 5-year 6% gold debenture notes, dated May 1 1907 and due May 1 1912, but subject to call from May 1 1908 to May 1 1910 at 103, and on May 1 1910 and any interest day thereafter at 101; denomination $1,000; interest payable Nov. 1 and May 1. The proceeds are to be used in the business of the company and for no other purpose. So long as the debenture notes remain unpaid, no new mortgage or lien of any kind shall be placed upon the property.—V. 84, p. 868, 339.

New Orleans Terminal Co.—*Offering of Guaranteed Notes.*—Potter, Choate & Prentice, New York, having sold about three-quarters of the issue of $2,500,000 2-year 6% gold notes, dated April 10 1907 and due April 10 1909, are offering the remainder at par and interest. The Trust Co. of America, New York, is the trustee for the loan, and the notes are guaranteed, jointly and severally as to principal and interest, by endorsement on each, by the Southern Railway Co. and the St. Louis & San Francisco RR., as well as secured by a deposit with the trustee of $4,000,000 New Orleans Terminal Co. first mortgage 4% bonds. See advertisement on another page of this issue.

Abstract of Letter from President C. C. Harvey, New Orleans, April 12 1907

In New Orleans the company owns 49 consecutive blocks in the heart of the city, lying between Bernadotte St., Basin St., Blenville Av., St. Louis St. and Canal Carondelet with the right to lay tracks through Basin St. to Canal St., where a passenger station is to be erected, a site that can not be surpassed in the city. There have already been constructed the following modern first-class buildings: One three-story brick freight office building, seven freight brick sheds, drip sheds, stock pens, round house, repair shop, stables, warehouses and other buildings for handling freight.

The main line of track extends from Shrewsbury to Port Chalmette, a distance of 14.2 miles, making a connection at Shrewsbury with the Illinois Central RR., the Yazoo & Mississippi Valley RR. and the Louisiana Railway & Navigation Co., at Pontchartrain Crossing with the Louisville & Nashville RR., at Terminal Junction with the New Orleans & Northeastern RR. and the New Orleans-Great Northern RR., and at Port Chalmette with the Louisiana Southern Ry.; a branch line from the East City switch extends to Canal St., 3.9 miles. The whole line, including double track, sidings and connecting tracks, aggregates 63.4 miles. Of the main line and sidings there are 10.45 miles laid with 85-lb. rails, the balance with 60-lb. rails. The main line is ballasted with furnace slag or cinders, with the exception of five miles, which is surfaced on river sand.

There is in course of construction (now about 65% completed) the Chalmette Slip, which will afford anchorage for nine average ocean steamers. The slip will be 1,500 feet in length, 300 feet in width and have a depth of 30 feet at low water. There will be fire-proof warehouses on either side, which are nearly completed. The receiving and shipping yard, in connection with the slip is planned to have 20 miles of side track.

The river frontage of the company at Chalmette extends along the east bank of the Mississippi River, about 2½ miles. The property runs back a considerable distance and consists of about 5,500 acres, much of which is admirably adapted for the location of industries. At the present time there is in operation at Port Chalmette a wharf 2,000 feet long, with a shed 1,828 feet long; one 500,000 bushel capacity grain elevator with electrical power house, besides 80 brick warehouses and an assorting shed. The rolling stock consists of: 7 Mogul engines, 8 6-wheel switch engines, 69 flat cars, 3 box cars, 1 oil tank and 5 coaches.

Double-track steel bascule lifting bridges have been constructed over the new Basin Canal and Bayou St. John, and there are steel bridges over all other drainage canals with the exception of the 17th St. canal, where there is a wooden trestle. It is proposed to erect at once on Basin St., fronting on Canal St., a handsome passenger depot 82 feet wide and extending back 235 feet, with a train-shed 700 feet long and 82 feet wide. The first floor will be used for public utilities and the second for our general offices.

The proceeds of the $2,500,000 2-year 6% notes sold to you are to be used for the construction of the proposed passenger terminal, and the completion of the Chalmette Slip, and the other improvements now in course of construction.—V. 84, p. 931.

New York New Haven & Hartford RR.—*Application to List.*—Application has been made to the New York Stock Exchange to list $3,254,500 additional capital stock, making the total amount to be issued and authorized to be listed under this and previous applications $99,069,000; also $13,911,000 Providence Securities Co. 4% 50-year guaranteed gold debentures of 1917.

Valuation of System.—John F. Stevens, who recently resigned as Chief Engineer of the Panama Canal Co., will, it was announced on Monday, "supervise some special work for the company." This is supposed to be the placing of a valuation on the property.

Shares Offered-Merger of Consol. Ry. Co.—See New England Investment & Security Co. above.—V. 84, p. 931, 804.

North-East Texas Ry.—*Receivership.*—Joint Receiver W. J. Moroney, under date of Dallas, Tex., April 18, has addressed a letter to the creditors of this road, which extends

from Redwater to Munz, Tex., 18½ miles, and also to the creditors of the Redwater Lumber Co., saying in part:

On April 13 1907 Harry Munz of Texarkana, Tex., and myself were appointed co-receivers of the above-named companies by Hon. E. B. Muse, Judge of the Forty-fourth Judicial District Court of Dallas County, Tex. Both these companies are owned by the same stockholders, and together constitute one plant, and for practical purposes they may be considered one company. The principal assets are a saw and planing-mill plant, railroad, standing timber, logging outfit and a large amount of valuable lands, aggregating $515,311, according to a conservative appraisement recently made by experienced and disinterested experts. This does not include notes, accounts and sundry other items of uncertain value.

I am advised that the liabilities will not exceed $150,000, of which more than half is secured by sundry mortgages. A receivership became necessary mainly because a recent fire so damaged the company's sawmill that operations were suspended and all income ceased. I have assurances from men of known responsibility that they are willing to purchase a sufficient interest to pay all debts as soon as the exact condition of affairs can be certainly ascertained and other necessary details arranged.

North Chicago Street RR.—*Deposits.*—See Chicago Union Traction Co. above.—V. 83, p. 1524.

Ocilla & Valdosta RR.—*Sale.*—This road, extending from Ocilla, Ga., to Broxton, 25 miles, and under construction to Fitzgerald, has been purchased by a syndicate represented by H. C. McFadden. "Savannah News" of April 17 said:

The new management took charge Monday, and will operate temporarily, until a new charter can be secured, under the old charter of the Broxton Hazlehurst & Savannah RR. The use of the present charter will be impracticable because the section of the road from Broxton to Hazlehurst was sold recently to the Georgia & Florida Ry.

Philadelphia & Western (Electric) RR.—*Foreclosure Sale May* 20.—The Trust Company of North America, Philadelphia, which was recently appointed trustee of the $15,000,000 bond issue in place of the Mississippi Valley Trust Co. of St. Louis, gives notice that the property will be sold at auction at West Chester, Pa., on May 20. Every share of stock and every bond is in the possession of the syndicate, headed by Mackay & Co. and Wm. C. Sheldon & Co. of New York. The foreclosure proceedings are merely a matter of form, with a view to the readjustment of the capitalization. The St. Louis interests, it is understood, have sold most of their holdings. The financial plan has not been definitely settled, but Joseph S. Clark, Second Vice-President and General Counsel for the Trust Company of North America, is quoted by the "Philadelphia Ledger" as follows:

Of the authorized issue of $15,000,000 first mortgage bonds $2,149,000 worth are outstanding (in the hands of the syndicate.—Ed.). Besides this, there are debts of $1,500,000. The company is capitalized at $900,000. This will be increased to between $3,000,000 and $4,000,000. About the same amount of the proposed authorized issue of $50,000,000 bonds will be actually issued.

The company was incorporated in 1902 to construct a double-track third-rail electric line between 63d and Market streets, Philadelphia, and Parkersburg, Pa., a distance of about 45 miles. About 12 miles of double-tracked road will be opened early in May and the syndicate intends to push the completion of the system, which will probably be more extensive than was originally intended.—V. 82, p. 693.

Portland (Ore.) Railway & Light Co.—*Mortgage.*—This company has filed a mortgage to the Trust Co. of North America, Philadelphia, as trustee, to secure an issue of $15,000,000 general mortgage bonds, of which it is proposed to issue only $1,500,000 at present, these to be used as collateral to secure an issue of $1,000,000 3-year 5% notes of $1,000 each dated March 1, 1907.—V. 84, p. 749, 627.

Providence Securities Co.—*Application to List.*—See New York New Haven & Hartford RR. above.—V. 83, p. 1525.

Raleigh & Southwestern Ry.—*Mortgage.*—A mortgage has been filed to secure $1,500,000 of 4% bonds to provide for the building of a road from a connection with the Piney branch of the Chesapeake & Ohio at or near Raleigh Station up the Piney River and tributaries, thence down any tributaries of the Guyandotte River in Raleigh or Wyoming counties; also from near Raleigh Station up Beavers Creek, thence into the valley of Glade Creek or any of its tributaries. The project is currently reported to be a Chesapeake & Ohio enterprise.

Rapid Transit in New York City.—*No Bids Received for New Subways.*—No bids were received by the Rapid Transit Commissioner on April 25, the time appointed for the opening of bids for the construction of the new subways. Compare V. 84, p. 869. President Shonts, of the Interborough Rapid Transit Co., however, wrote a letter offering to construct and equip at cost under proper conditions two extensions of the present system, one on the west side from Forty-second Street to the Battery, and the other on the east side from Forty-second Street to the Bronx, provided a reasonable return on the company's investment is ensured. See "New York Times" of April 26.—V. 84, p. 869.

Rio de Janeiro Tramway, Light & Power Co.—*No Lighting and Power Competition.*—The "Chronicle" recently published a statement, furnished to it by a prominent manufacturing concern, as holder of a contract for furnishing supplies, from which it appeared that a rival concern had been granted a concession for supplying light and power in the City of Rio de Janeiro, the false impression being no doubt occasioned by the confounding of the State of Rio outside of the Federal District, which includes the City of Rio de Janeiro, with the City of Rio de Janeiro itself. General Counsel of the company, Z. A. Lash, has issued the following detailed denial:

The report that Gaffre and Guinle had obtained a concession for lighting and power in the city of Rio de Janeiro is absolutely false. This report was officially denied in London and Paris after receipt of a cable from the Vice President and General Manager of the company in Rio de Janeiro. This table stated that Gaffre and Guinle have not obtained any concession in the Federal district. The Minister of Industries, Traffics and Public Works in Rio de Janeiro, on being applied to, confirmed the above statement. Gaffre has been granted a franchise by the State of Rio de Janeiro for some water-power development, but this franchise does not apply to the Federal district and has no connection with the city of Rio de Janeiro any more than a New York State franchise for Buffalo would apply to New York City.

The Rio de Janeiro Tramway, Light & Power Co. has the absolute monopoly for lighting, which was confirmed by the Supreme Court a year ago. It also has the monopoly for the transmission and distribution in the city of Rio of electric power, generated by water power, until 1915. This has never been questioned.—V. 84, p. 932, 804.

Sao Paulo Tramway, Light & Power Co.—*Report.*—Results for calendar year and 3 months ending March 31:

Year.	Gross.	Net.	Charges.	Dirs.(8%)	Bal., sur.
1906	$2,018,704	$1,368,163	$359,882	$599,970	$408,311
1905	1,908,405	1,273,832	311 205	599,591	363,033
3 mos.					
1907	$479,797	$158,125	-------	-------	-------
1906	420,871	86,605	-------	-------	-------

—V. 83, p. 1412.

St. Charles & St. Louis County Bridge Co.—*Foreclosure Suit.*—At Clayton, Mo., on April 17 the Commonwealth Trust Co. of St. Louis, as trustee, under the $400,000 mortgage of 1904, brought suit for foreclosure and the appointment of a receiver upon request of holders of $160,000 of the bonds, no interest having been paid thereon.

The bridge is a highway and trolley structure, 2,700 feet in length, extending from St. Louis to St. Charles, having been built primarily to bring the St. Louis St. Charles & Western (electric) RR. across the Missouri River. The Midland Bridge Co. of Kansas City, Mo., which constructed the bridge and which secured a judgment and mechanics' lien against it for nearly $18,000, is made a defendant.—V. 78, p. 703; V. 75, p. 78.

Southern Indiana Ry.—*Financial Plan.*—See Chicago Southern Ry. above.—V. 84, p. 932.

Terre Haute Indianapolis & Eastern Traction Co.—*Bond Issue.*—A mortgage has been filed to the Fidelity Trust Co. of Philadelphia, trustee, to secure, it is said, an issue of $10,000,000 25-year bonds dated April 1 1907.—V. 84, p. 869.

Toledo Railway & Terminal Co.—*Foreclosure Sale May* 28.—Notice is given by advertisement that the foreclosure sale will take place in Toledo on May 28. Upset price $2,000,000.—V. 84, p. 932, 627.

Trinity & Brazos Valley Ry.—*Bonds.*—Application was made on April 13 to the Texas Railroad Commission for authority to issue bonds to the amount of $1,500,000 on 14 miles of completed road into Waxahachie, and including improvements not heretofore valued by the Commission on the remainder of the company's lines south into Houston. The "Houston Post" said:

This will complete the line of that road from Waxahachie to Houston, a distance of 220 miles. The company has already completed the line from Teague to Fort Worth, using the Santa Fe tracks from Cleburne to Fort Worth, 120 miles. They will also use the tracks of the Katy from Waxahachie and Dallas and will be operating trains between these points on or about June 1 1907.

This company has shortened the distance 13 miles between Houston and Fort Worth, and has caused the fare on other roads to be correspondingly reduced, and has shortened the mileage in various points in North Texas. V. 84, p. 509.

Virginian Ry.—*Merger Approved.*—See Deepwater Ry. above.—V. 84, p. 694, 627.

Wabash RR.—*Listed.*—The New York Stock Exchange has listed $368,000 additional first lien 50-year 4% terminal coupon bonds due 1954, making the total listed $3,923,000.

Earnings.—For eight months ending Feb. 28:

8 mos.—	Gross Earnings.	Net Earnings.	Other Income.	First Charges.	Sundry Accts.	Improv'ts, Equip.,&c.	Bal., Sur.
	$	$	$	$	$	$	$
1906-07	18,236,963	5,440,125	775,595	4,371,415	16,290	1,700,000	128,015
1905-06	16,675,269	4,755,045	-------	-------	-----	-------	-------

—V. 84, p. 932, 869.

Washington Baltimore & Annapolis Electric Ry.—*Contract.*—See report of United Railways & Electric Co. under "Annual Reports" on a preceding page.—V. 83, p. 1525.

West Chicago Street RR.—*Deposits Called For.*—See Chicago Union Traction Co.—V. 83, p. 1349.

West Penn Railways.—*Earnings.*—The Municipal & Corporation Securities Co. of Pittsburgh, in recently offering a block of the first mortgage 5% bonds of 1905, reported earnings as follows:

Cal. Yr.—	Gross.	Net.	Bond Int.	Pref. Div.	Bal., Sur.
1906	$1,409,493	$635,517	$378,322	(5%)$137,500	$119,695
1905	1,060,238	480,480	326,675	----------	153,805

—V. 84, p. 451.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Albemarle & Chesapeake Canal Co.—*Possible Purchase by United States Government.*—The Congress which recently adjourned passed a "river and harbor bill" in which recognition is given to the project for the establishment of a public inland waterway between Virginia and North Carolina. The "Scientific American" of April 13 says in part:

The reports of the engineers making the surveys authorized by the Acts of 1902 and 1905 considered carefully all available routes, and decided that two were so nearly equal in advantages and disadvantages that the monetary consideration alone should form the deciding factor. These two routes are known as the Albemarle & Chesapeake Canal and the Cooper Creek routes, respectively, the former contemplating the purchase of the Albemarle & Chesapeake Canal which connects Chesapeake Bay via Elizabeth River with Currituck Sound; and the latter neglecting the purchase of that canal and digging a new one from Elizabeth River to Cooper Creek, a branch of the Pasquotank River which is an arm of Albemarle Sound. With the purchase price of the already existing Albemarle & Chesapeake canal at a figure not exceeding $500,000, the former is recommended. If the price asked is higher, the latter route is recommended. While no expression of opinion which is in any way official can be obtained from the canal company, it seems to be the general impression that the amount named is sufficient to make the purchase assured.

As the project stands at present, the surveys have all been made, and $550,000 appropriated to do the work on the third division; that is, the lower end of the route. This includes four miles of solid excavation from the Neuse River to Beaufort Inlet through Core Creek—the only solid excavation necessary in the entire route. If the Albemarle & Chesapeake Canal forms a part of it.—V. 77, p. 351.

Albuquerque (N. M.) Gas, Electric Light & Power Co.—*New Stock.*—This corporation filed at Santa Fe, N. M., on

March 26 a certificate of increase of capital stock from $200,000 to $500,000, of which a part is preferred.

Annual gas output about 20,000,000 cubic feet; No. of meters, 1,200; miles of gas main, about 15; electric department capacity, 250 arcs and 30,000 incandescent lamps. "The company is a close corporation—held by four people—nothing offered for sale." Pres., W. S. Hill; Sec., C. K. Durbin; Treas., O. S. Moore.

American Gas & Electric Co., New York.—*First Dividend.*—The directors on April 22 declared regular quarterly dividend No. 1 of 1½% on the outstanding $1,200,000 preferred stock for the quarter ending May 1 1907, and an additional dividend at the rate of 6% per annum from Jan. 16 to Feb. 1 1907, payable May 1 1907 to stockholders of record April 25 1907.

Earnings of Company Whose Assets Were Purchased.—See Electric Co. of America below.—V. 84, p. 222.

American Ice Securities Co.—*Amendment of Charter.*—The stockholders will vote on April 29 on authorizing changes in the certificate of incorporation, giving the company, among other things, authority as follows:

To manufacture, gather, harvest, buy and sell ice at wholesale and retail; to acquire by purchase, lease or otherwise, and operate, sell, trade and deal in all kinds of ice-manufacturing plants, ice-making machinery, &c., and deal in coal, wood, lumber, building and builders' material; to acquire by purchase or lease and construct and operate plant, machinery and appliances for the distilling of water, and generally to carry on the business of buying and selling water, including natural, mineral and other waters; to acquire, own, equip, operate and dispose of steamboats, steamships and vessels of every description, and to deal in and dispose of merchandise and commodities of all kinds.

Similar powers to those above named are possessed by the American Ice Co., the present operating company, and it is supposed the step to be taken is to provide for the merger of the old company when the consolidation can be made according to law, as well as the acquisition of other properties when deemed desirable.—V. 84, p. 933, 750.

American Pneumatic Service Co.—*Amendment of Charter.*—The stockholders will vote on May 1 on amending the company's charter so that it shall have the power to reinsure the bonds of others given to secure the performance of contracts in the course of its business. President Dillaway in a circular says:

Surety companies are now limited by the United States Government from taking any single risk exceeding 10% of capital and surplus without reinsuring. This company has already the necessary authority to carry on this business under the laws of the United States, and now has the opportunity of acting as a re-insuring company on surety bonds of the highest class and of the least risk, without the investment of any money or the employment or tying up of any of its active capital, or using any of its present earnings. If we are successful in getting this additional business it promises a large increase in our profits. The amendment of the charter last September (V. 83, p. 494) so as to permit the company to act as surety on the bonds of its subsidiary companies having contracts with the United States has resulted in a saving of over $18,000 per year in premiums.—**V. 84, p. 869.**

American Silk Co.—*Merger.*—This company, incorporated at Albany on April 10 with a nominal capital of $1,000, filed a certificate increasing its capital to $6,250,000, of which $2,750,000 is 7% cumulative preferred stock and $3,500,000 common stock. The company is organized for the purpose of acquiring about 30 silk mills, located principally in Pennsylvania, and it has acquired a controlling interest in the New York Silk Manufacturing Co. (V. 81, p. 1608, 1616), owning and operating mills at York, Carlisle, Fleetwood and Kutztown, Pa.; the Monarch Silk Co., with mills at York; the American Silk Co. of Pennsylvania, with mills at Reynoldsville; also the Clifton Mills and the business of Rogers & Thompson, silks. Bond issue, if any, not known.

A statement published by the "Journal of Commerce and Commercial Bulletin" on April 13, which is pronounced substantially correct, says:

It is stated that when the present plans are completed the company will have a capitalization of $10,500,000 of 7% cumulative preferred and $12,000,000 of common stock, a large part of which has already been underwritten. The Clifton Mills and the business of Rogers & Thompson, manufacturer so fthe famous "Rajah" and "Bond" silks, have been acquired, and will be taken over within a few days, and the remaining factories, all of which are modern, will be taken over as rapidly as pending arrangements can be completed.

The preferred stock issue is not to exceed $700 for each weaving loom and $350 per loom for spinning and throwing, including dyeing, finishing and printing plants, real estate, buildings and complete equipment, and $500 per loom for working capital. The company will have in addition ample cash working capital to purchase raw material at the best prices obtainable, and to manufacture and sell its production on a large scale.

Matthew G. Collins, General Manager of the York Silk Mills, will be the Manager.

H. W. Bennett & Co. of 20 Broad St. are promoting the enterprise. The Knickerbocker Trust Co. is registrar.

American Strawboard Co.—*Balance Sheet.*—See United Box Board & Paper Co. under "Annual Reports" on a preceding page.—V. 84, p. 750, 692.

American Telephone & Telegraph Co.—*Payment of* $20,000,000 *5% 3-year Gold Coupon Notes Maturing May* 1 1907.—These notes will be paid in New York at the office of the Manhattan Trust Co., 20 Wall St., or in Boston at the office of the Old Colony Trust Co., Ames Building. See advertisement on another page of this issue and compare V. 84, p. 273, 817.—V. 84, p. 933, 869.

Baltimore (Md.) Electric Power Co.—*Deposit of Bonds.*—The Baltimore Trust & Guarantee Co. of Baltimore and the Northern Trust Co. of Philadelphia are receiving deposits of bonds of this company and its ally, the Maryland Telephone & Telegraph Co. (V. 77, p. 2096; V. 79, p. 631; V. 80, p. 1061; V. 81, p. 268; V. 82, p. 283.) An exchange says:

Several weeks ago the companies sent letters to the bondholders asking that they deposit their bonds in connection with the carrying out of a new financial plan. Practically all the bonds are in. Details of the new plan have not been made public, but it is understood to be the intention to bring about closer relations and to provide funds for extensions to take care of the rapidly growing electric light business.

There have been rumors from time to time of the sale of the telephone and electric plants, but they have always been denied by those in authority.—V. 82, p. 283.

Bergner & Engel Brewing Co., Philadelphia.—*First Payment on Deferred Dividends.*—The directors on April 20 declared the usual semi-annual dividend of 4% on the $1,523,900 preferred stock, and, in addition, a deferred semi-annual dividend of 4% on the preferred stock, payable May 1 to stock of record April 20. This is the first payment on account of the 36% of dividends which accumulated in 1900-1904. The floating debt was paid off last year. Compare V. 83, p. 1522.

(B. F.) Berry Coal Co., Detroit, Mich.—*New Bonds Offered.*—As stated last week, the Detroit Trust Co., Detroit, Mich., is offering at par and interest the entire issue of $200,000 first mortgage 6% coupon gold bonds of $1,000 each.

These bonds are dated April 1 1907 and payable in ten annual installments, but are subject to redemption at 103 April 1 1908, or on any interest date thereafter. Interest payable April 1 and Oct. 1 at office of the Detroit Trust Co., whose President, Alexander McPherson, is the mortgage trustee. The principal stockholders are Benjamin F. Berry and Stanford T. Crapo of Detroit.

Security for mortgage: (1) 80 acres of surface near Granville, Putnam Co., Ill., with store, shaft, tipple, coal-washing plant, shop and miners' houses, &c.; (2) a lease running till July 31 1945 from the St. Paul Coal Co. (a subsidiary of the Chicago Milwaukee & St. Paul Ry. Co.), covering 2,560 acres of coal land located in Putnam County, Ill.; (3) valuable contracts to be assigned to the trustee: (a) for the sale of 2,000,000 tons ⅝-inch lump coal to the Chicago Milwaukee & St. Paul Ry.; (b) with the Chicago Portland Cement Co. fo the sale of 840,000 tons of raw slack. F. A. Ray, a mining engineer, estimates that the property contains 11,520,000 tons of merchantable run of mine coal, and will give a yearly output of 309,000 tons. "The company also has erected a coal-washing plant with a capacity of washing 600 to 1,000 tons of coal per day. Total valuation of mine, mining plant and coal washer, $452,850."

(J. G.) Brill Co., Philadelphia.—*Dividends Begun on Both Stocks.*—The directors on Tuesday declared initial dividends of 1¾% on the preferred and 1% on the common stocks, payable May 1 and June 1 respectively. These distributions are understood to be quarterly, though it was not officially so stated. They are paid on $5,000,000 of each class of stock. The old J. G. Brill property paid dividends steadily since its organization in 1869.

New Director.—Francis E. Bond, of E. B. Smith & Co., has been elected a director.

Earnings.—The "Philadelphia News Bureau" of April 10 had the following, which is pronounced approximately correct:

Earnings of the Constituent Properties for Calendar Year 1906.

	J. G. Brill Co.	*American Car Co.*	*G.C.Kuhlman Car Co.*	*J.Stephenson Co.*	**Wason Mfg. Co.*
Sales	$3,810,974	$962,484	$1,053,992	$1,080,894	$967,155
Net earnings	$401,035	$159,268	$170,348	$159,283	$46,781
Other income	78,461	.....	.....	325	725
Net income	$479,496	$159,268	$170,348	$159,608	$47,506
Bond interest	.....	.....	.....	20,000	250
Dividends	180,000	35,000	35,000	21,000	39,000
Surplus	$299,496	$124,268	$135,348	$118,608	$8,256

* Statement of Wason Manufacturing Co. is for calendar year 1905. For the year 1906 the company reports its net profits at "between $65,000 and $70,000."

Approximate Results for New Company on Basis of 1906.

Gross earnings	$8,000,000	Pref. dividends, 7%	$350,000
Net income	1,040,000	Balance (13.8% on com.)	690,000

The total net earnings of the Brill Co. and its subsidiaries for the year 1906 were $1,001,897. This amount, after providing for 7% dividends on the new preferred stock, would leave a surplus of over 12% on the $5,000,000 common stock. The only bonded debt is the issue of $400,000 first mortgage 5% bonds of John Stephenson Car Co. (V. 72, p. 187.)

The plants are all working to their full capacity and the company has $4,000,000 of orders on hand. As the capacity of the plants is approximately $8,000,000 per annum, the production of the company is practically booked up in advance for six months. Compare V. 84, p. 869, 751.

California Oilfields, Limited.—*Listed in London.*—The London Stock Exchange has listed this company's £300,000 5% first mortgage debentures of £100 each, Nos. 1 to 3,000 (registered), and a further issue of 135,000 shares of £1 each, fully paid, Nos. 250,001 to 385,000. Compare V. 83, p. 91; V. 81, p. 1377.

Charleston (W. Va.) Home Telephone Co.—*Status.*—We have been favored with the following under date of March 30:

Incorporated in West Virginia April 1 1902. Authorized capital stock is $200,000 common and $100,000 6% cumulative preferred; outstanding common $160,000; preferred $58,200. Par $100. Bonds outstanding $125,000 (authorized issue under mortgage originally $200,000, but now limited to $125,000 at present outstanding), dated April 16 1902 and due April 1 1922 without option of earlier redemption. Interest payable Oct. 1 and April 1 at office of Columbus (O.) Savings & Trust Co., trustee. Denomination $100 and $500. Annual sinking fund 2½% of the amount of outstanding bonds. There is now in this fund $13,200 bonds and $412 50 cash. As of April 1, sufficient pref. stock will be sold to pay all outstanding obligations and to provide about $25,000 for new improvements. The plant has operated for about 41% of the gross receipts. The net earnings for the year ending Oct. 1 1906 were $28,716. Deduct interest on bonds, $6,250; sinking fund, $3,125; dividends on preferred stock, $3,432; interest on borrowed money, $16,000 at 6%, $960; balance, surplus, $14,949. To March 1 1907 $35,014 from earnings had been expended for betterments. President, J. W. Payne; Sec. and Treas., W. W. Morrison.

Chase Rolling Mill Co., Waterbury, Conn.—*Increase.*—The stockholders of this company voted on March 30 1907 to increase the capital stock from $1,200,000 to $2,500,000. No bonds or mortgage. Of the new stock $600,000 is to be taken by the present stockholders, making outstanding $1,800,000, all of one class; par, $100. Company incorporated in Connecticut July 1900; operates a brass rolling mill. H. S. Chase is President and Frederick S. Chase, Treasurer.

Chicago Edison.—*Sale of Bonds.*—The first installment, amounting to $2,500,000, of the new 5% debentures has been sold and the remaining $2,500,000 were last week

offered in Chicago at 97¼. See full particulars in V. 84, p. 695.

Chicago Pneumatic Tool Co.—*Earnings.*—The results for the three months ending Mar. 31 were:

3 mos.	Net Profits.	Depreciat'n, &c.	Bond Interest.	Sinking Fund.	Dividends.	Balance, Surplus.
1907	$255,528	$42,717	$28,750	$12,500	(1%) $61,087	$110,174
1906	232,322	36,328	28,750	12,500	(1%) 61,087	94,657

Total surplus March 31 1907, $988,883, against $630,949 March 31 1906. —V. 84, p. 696, 389.

Citizens' Steamboat Co. of Troy.—*Offer to Purchase.*—The directors on Monday adopted a resolution to dissolve the company and to have the stockholders vote on the proposition in June next; also in favor of an offer by Charles W. Morse to the stockholders, through N. H. Campbell, Treasurer of the Hudson Navigation Co.

The offer is that if the stockholders will send their certificates of stock to Mr. Campbell, he will issue receipts therefor; that when all the stock is surrendered Mr. Morse will make a proposition to purchase such stock, which will be submitted to the stockholders for their action. If the offer be satisfactory, payment will be made for the shares deposited, but if not accepted, they will be returned to the stockholders. The certificates are to be sent in on or before May 15, and all certificates not purchased to be returned to the owners on or before June 3.

Of the stock ($250,000 at last accounts), over two-thirds, it is understood, is already owned by Mr. Morse and associates.—V. 82, p. 220.

Clyde Steamship Co.—*Amalgamation—Circular.*—See Consolidated Steamship Lines.—V. 83, p. 1231.

Columbus Citizens' Telephone Co.—*Increase of Stock.*—The stockholders on April 24 approved the increase of $500,000 in the preferred stock, also the increase of the board of directors from nine to eleven. D. C. Beggs and J. H. Mohler were elected to fill the new positions. Compare V. 84, p. 751.

Consolidated Steamship Lines.—*Exchange of Stock—Official Announcement.*—Circulars signed by Calvin Austin, President of this company, have been sent to the stockholders of the Mallory Steamship Co. (compare V. 83, p. 1594) and the Clyde Steamship Co. (see V. 83, p. 1038, 1231), respectively, informing them that "over a majority" of the $14,000,000 stock of the Mallory company and over $10,000,000 of the $14,000,000 stock of the Clyde Steamship Co. have been exchanged for stock and bonds of the Consolidated Steamship Lines, and adding:

The stock of (your) company is convertible into stock of the Consolidated Steamship Lines, share for share, and in addition thereto 4% collateral trust bonds of equal par value (*i. e.*, each $10,000 stock is exchangeable for $10,000 new stock and $10,000 new bonds.—Ed.). If you will promptly send your certificates to N. H. Campbell, Treasurer, Room 902, No. 43 Exchange Place, New York City, endorsed in blank and witnessed, he will send you in exchange therefor the stock and bonds of the Consolidated Steamship Lines under this arrangement.

An offer on the same basis, it is understood, will shortly be made to the minority shareholders of the Eastern Steamship Co. (total stock, $3,000,000.—V. 83, p. 1232), and the Metropolitan Steamship Co. (total stock, $3,000,000.—V. 82, p. 990), and probably before the end of the year to the stockholders of the Ward Line, the New York & Cuba Mail SS. Co.—total stock, $20,000,000.—V. 84, p. 394), and the New York & Porto Rico Steamship Co. (total stock, $8,000,000.—V. 84, p. 452, 871). If the entire stock of all the foregoing companies should be acquired, as aforesaid, the new company would have to issue $62,000,000 stock and $62,000,000 collateral trust 4s. Most of the constituent companies have outstanding bond issues of their own. The Hudson Navigation Co. (which see above) is not likely, it is said, to be included. See V. 84, p. 870, 393, 61.

De Long Hook & Eye Co., Philadelphia.—*Re-incorporation.*—The shareholders of this West Virginia corporation vote May 2 on re-incorporating under the laws of Pennsylvania.—V. 71, p. 238.

Electric Co. of America, Philadelphia.—*Report.*—This company, whose security holdings were recently sold to the American Gas & Electric Co. (controlled by the Electric Bond & Share Co.), reports as follows:

Cal. Year.	Income from Securities	Other Interest.	Charges, &c.	Dividends Paid.	Balance, Surplus.	Total, Surplus.
1906	$581,511	$11,455	$121,511	$299,781	$171,674	$1,099,322
1905	534,474	4,706	98,259	285,536	155,385	927,648

The special meeting to decrease the capital stock has been adjourned until June 5.—V. 83, p. 1593.

Gorham Manufacturing Co.—See Silversmiths Co. below. —V. 84, p. 573, 341.

Gottlieb-Bauernschmidt-Straus Brewing Co., Baltimore.—*Interest on Income Bonds.*—The directors on April 23 declared the usual semi-annual interest payment of 1½% on the second mortgage income bonds, payable on and after May 1 1906 on presentation of coupons No. 5 at the office of Mercantile Trust & Deposit Co., Baltimore. The same amount was paid semi-annually from 1904 to 1906, both inclusive. Compare V. 84, p. 162, 510, 628.

Grand Rapids (Mich.) Edison Co.—*Stock Decreased.*—The stockholders voted on April 15 to decrease the authorized stock from $1,200,000 to $325,000, to consist of $200,000 common stock (par of shares, $100), and $125,000 of 5% cumulative preferred stock (par, $20). Of the stock there is outstanding $602,500 common and $39,750 preferred.—V. 80, p. 1114.

Greene-Cananea Copper Co.—*Time for Deposits Extended to June 1.*—The time for making deposits of Greene Consolidated Copper and Cananea Central shares for the new stock of the Greene-Cananea Co., the holding company, has been extended up to noon of June 1.—V. 84, p. 870, 806.

Hudson Navigation Co.—*Acquisition.*—See Citizens' Steamboat Co. above.—V. p. 84, 823, 162.

Ingersoll-Rand Co.—*Listed.*—The New York Stock Exchange has listed $225,000 additional 6% cumulative preferred stock, making the total amount listed $4,725,000, and has authorized $75,000 additional to be added from time to time prior to Nov. 1 1907, making the total amount authorized to be listed $4,800,000. Compare V. 84, p. 806,511.

International Mercantile Marine Co.—*Listed.*—The New York Stock Exchange has listed the company's securities and has authorized additional amounts to be listed as issued and sold from time to time prior to Nov. 1 1907, as follows:

Name of Security—	Listed.	Issuable.	Total.
Mort. and coll. tr. 4s of 1922	$52,744,000	$22,256,000	$75,000,000
6% cum. pref. stock trust ctfs	51,731,000	8,269,000	60,000,000
Common stock trust certificates	49,921,800	10,067,200	59,989,000
Int. Navigation 1st s. f. 5s 1929	19,618,000	103,000	19,721,000

Report.—See a preceding page.—V. 84, p. 934, 341.

Kansas Breweries.—*Receivers.*—The Supreme Court at Topeka, Kansas, April 25 appointed Judge S. H. Allen, G. H. Whitcomb and Judge T. F. Garver as receivers for the property in Kansas of nine foreign brewing companies, (six of which hail from Kansas City, Mo., concerns and three are Milwaukee companies) upon the petition of the Attorney-General, who recently obtained an order from the Court restraining these companies from doing business in Kansas. The companies propose to fight the proceedings to the court of last resort.

Keystone Telephone Co. of Philadelphia.—*Sale of Notes.*—The Philadelphia "Financial Bulletin" of April 17 said:

Bioren & Co. have sold practically all of the $200,000 Keystone Telephone 3-year 6% gold notes recently offered by them at 98 and interest, yielding 6¾%. The authorized issue is $600,000. Compare V. 84, p. 870, 218.

Kilbourne-Jacobs Manufacturing Co., Columbus, Ohio.—*Increase in Dividends.*—This company on April 16 paid a dividend of 2½% on its $1,250,000 common stock for the purpose of placing the issue on an 8% annual basis, the January dividend having been only 1½%; it is proposed to pay 2% quarterly in July and October. A year ago the common shareholders received a 100% stock dividend, since which time they have had until now 1½% quarterly in cash. There is also $625,000 6% preferred stock outstanding. Compare V. 82, p. 1272.

Mallory Steamship Co.—*Amalgamation—Circular.*—See Consolidated Steamship Lines above.—V. 83, p. 1594.

Maryland Telephone & Telegraph Co.—*Deposit of Bonds.*—See Baltimore Electric Power Co. above.—V. 82, p. 283.

Massillon (O.) Iron & Steel Co.—*New Stock.*—This company, which was incorporated under the laws of Ohio in March 1900 and in February 1904 increased its capital stock from $150,000 to $500,000, on Feb. 18 1907 filed a certificate of increase of the authorized issue from $500,000 to $2,000,000. The company manufactures cast-iron pipe and fittings. H. A. Croxton is President and Treasurer.

Merchants' & Miners' Transportation Co., Baltimore.—*Deposits.*—Practically all of the capital stock has been deposited under the terms of the circular in V. 84, p. 752, 629.

Mexican Light & Power Co.—*Earnings.*—For 3 months ending March 31:

3 mos.—	Gross.	Oper. Exp.	Net.	Charges.	Bal., sur.
1907	$1,150,312	$463,519	$686,792	$450,000	$236,792
1906	846,892	438,468	408 424	284,352	124,072

—V. 84, p. 691.

Monongahela Water Co., Pittsburgh.—*Explanation of Dividend Omission.*—A statement has been sent to the stockholders explaining the failure to pay the regular quarterly dividend of 2% on the $2,600,000 capital stock, the rate of 8% per annum having previously been maintained for many years and the entire dividend record covering, it is said, a quarter of a century. The statement says:

This action was taken partly because of the very heavy expense being incurred by your company in connection with the appraisement proceedings now pending for the purchase of this company's property by the city of Pittsburgh, and partly because of the large reduction in water rents made by the city in 1906, which reduction was followed by your company under protest; said reduction now constituting one of your company's claims against the city under said proceedings.—V. 84, p. 935.

Montgomery (Ala.) Light and Water Power Co.—*Bonds.*—Cramp, Mitchell & Shober of Philadelphia recently received subscriptions for a limited number of the first consolidated mortgage 5s at 82½ and accrued interest. The bonds were all subscribed and are now quoted at 85 and accrued interest, at which price Eglinton, Hammond & Andrews of this city have been offering a small block. Compare V. 84, p. 871.

Nipissing Mines Co.—*Stock Reduced.*—The stockholders on April 22 voted to reduce the authorized stock from $12,000,000 to $6,000,000, the amount now outstanding.

Report.—Results of operations of the Nipissing Mines Co., the operating company, and of the holding company, for the 11 months ending April 1, were:

Nipissing Mining Co., Lim.		*Nipissing Mines Co.*	
Ore production	$1,053,299	Dividends on Mining Co., Lim., stock (July 11 1906 to March 25 1907)	$1,000,000
Interest on bank balances	8,232	Interest on bank deposits	636
Total income	$1,061,531	Total	$1,000,636
Cost of mining and all other expenses	195,436	Deduct: Dividends (16%) on stock ($6,000,000) July 20 1906 to March 25 1907	960,000
Net profit	$866,095	Expenses of administration	25,059
Surplus May 1 1906	624,628	Surplus April 1 1907	$15,577
Total	$1,490,723		
Dividends (paid to Mines Co)	1,000,000		
Net surplus on hand	$490,723		

—V. 84, p. 807, 752.

Ocean Park (Cal.) Water Co.—*Bonds.*—The "Los Angeles Times" in December last announced the authorization o an issue of $100,000 40-year bonds.

Old Colony Coal & Coke Co., Pittsburgh, Pa.—*Sale.*—This company's property, real, personal and mixed, is advertised to be sold at trustee's sale (subject to the lien of mortgage of June 30 1905 to the Mortgage Banking Co., trustee, $250,000) at the office of trustee J. W. Hanly, 302 Keystone Bank Building, Pittsburgh, on April 29. The "Pittsburgh Gazette" of March 6 had the following:

A meeting of the stockholders was held yesterday, at which a committe of five was appointed to arrange for the underwriting of a bond issue of between $300,000 and $400,000. The committee includes W. J. Ward, Treasurer; A. H. Schewe, James W. Melville, Samuel Garrison and Vice-President W. G. Cronkwright, the latter being Chairman. (Among the assets are 135,607 shares of $10 each of the Glen Easton Coal & Coke Co. —Ed. "Chronicle.")

Pocahontas Collieries Co.—*Consolidation.*—See Pocahontas Consolidated Co. below.—V. 82, p. 1273.

Pocahontas Consolidated Co.—*Consolidation.*—This company, having previously acquired (V. 82, p. 1273) all except $26,000 of the $3,000,000 of common stock of the Pocahontas Collieries Co., which has also outstanding $1,500,000 6% cumulative preferred stock and $1,250,000 first mortgage 5% bonds, has arranged, under plan of April 15 1907, to merge that company on the follow ng basis:

(*a*) $1,500,000 of new first mortgage 5% bonds will be exchanged for an equal amount of the preferred stock of the Pocahontas Collieries Co., said stock to be canceled.

(*b*) $1,250,000 of said bonds to be set aside to be exchanged for an equal amount of the present bonds of the Pocahontas Collieries Co., (V. 80, p. 225.)

(*c*) $3,250,000 of said bonds will remain in the treasury, subject to unrestricted sale or use in the future for the purpose of paying the present indebtedness of the Pocahontas Collieries Co., for developments or improvements, and the extension of the business.

(*d*) The mortgage of the consolidated company will permit of a total issue of $20,000,000 of bonds, but any increase above the $6,000,000 presently to be issued may only be issued for new property acquired, and to the extent of only 70% of the cost of such new property, and this mortgage shall be a first lien thereon.

(*e*) The consolidated company shall have the option of selling any portion of the bonds authorized under said mortgage for the purpose of retiring all its preferred stock at not exceeding 15% premium and accrued interest, but the face value of the bonds so issued shall not exceed the amount paid for preferred stock upon such retirement.

(*f*) The present $2,800,000 of preferred stock of the Pocahontas Consolidated Co. (6% cumulative, with a sinking fund of not less than 3 cents nor more than 5 cents per ton of coal mined) shall be delivered up and canceled and an equal amount of preferred stock delivered in lieu thereof. The new preferred stock shall be 6% cumulative, with a sinking fund of a minimum of 1½ cents and a maximum of 3 cents per ton on all coal mined after July 1 1910, the minimum to be not less than $40,000 per annum, and to be used for the retirement of the preferred stock at prices deemed reasonable by the board of directors; or, if this is impossible, to be invested in the bonds until the preferred stock may be retired upon fair terms.

(*g*) The present $4,513,700 common stock of the Pocahontas Consolidated Co. shall be surrendered for cancellation, and a like amount of the common stock of the merged or consolidated Company delivered in lieu thereof, and such common stock shall be entitled to all surplus earnings after providing for dividends and sinking fund on the preferred stock.

Assenting stock of the Pocahontas Consolidated Co. must be deposited with the Bank of Bramwell, Bramwell, Mercer County, W. Va.

Bonds, Etc.—See Pocahontas Consolidated Collieries Co. below.—V. 83, 1102,-272.

Pocahontas Consolidated Collieries Co.—*Consolidation Plan.*—See Pocahontas Consolidated Co. above.

Bonds.—Kean, Van Cortlandt & Co., 30 Pine St., New York City, it is understood, will offer for sale, in case the merger plan goes through, a block of the present issue of $6,000,000 new first mortgage 5% gold bonds of the "Pocahontas Consolidated Collieries Co.," the merger company. These bonds will be dated July 1 1907 and be due July 1 1957, but subject to call at 105; interest payable January and July. Denominations $1,000 and "convenient fractions." Sinking fund of 3½ cents per ton of coal mined, beginning July 1 1910, to retire a minimum of $100,000 bonds annually.

ABSTRACT OF LETTER FROM PRES. CHARLES S. THORNE, DATED NEW YORK, APRIL 10 1907.

Capitalization of Pocahontas Consolidated Collieries Co., to be Incorporated in Virginia or West Virginia.

	Now Issuable.	*Total Author.*
Bonds (see preceding plan.—Ed.)	$6,000,000	$20,000,000
Preferred stock (see preceding plan.—Ed.)	2,800,000	2,800,000
Common stock	4,513,700	5,000,000

Combined Average Annual Earnings, etc., of Constituent Companies for four years ending Dec. 31 1906.

Coal output (net tons)			2,027,010
Aver annual earnings	$1,139,649	Sink. funds and interest on bds. (Collieries Co.)	$116,864
Royalties and taxes	212,031		
Average net earnings	$927,618	Available for dividends	$810,754

Companies and Properties to Be Merged in Pocahontas Consolidated Coll's Co.

(1) The Pocahontas Consolidated Co. was incorporated May 20 1904 and has outstanding, fully paid, $2,800,000 6% cumulative preferred and $4,513,700 common stock. Upon the common stock dividends of 2% were paid prior to March 31 1905, 8% for year ending March 31 1906 and dividends of 6% per annum for the year ending April 1 1907. Absorbed the Norfolk, Angle, Lick Branch, Delta, Shamokin, Rolfe, Sagamore, Caswell Creek and Cherokee collieries (the last April 1 1905). The total leases held represent about 9,625 acres of coal lands and 1,500 acres of barren land, which is fully developed by the nine plants located on this territory. There have been erected 1,920 coke ovens. The remaining coal in the No. 3 Pocahontas vein unmined in this acreage is estimated at 74,000,000 tons. In the spring of 1906 increased its common stock from $2,640,000 to present amount and purchased $2,974,000 of the $3,000,000 common stock of the Pocahontas Collieries Co., chartered in March 1880.

(2) Pocahontas Collieries Co. The total leases held and coal lands owned represent about 10,375 acres of coal, only partly developed, the only plant in opreation being that located at Pocahontas Va., which is, however, the largest in the Pocahantas region. There have been erected 800 coke ovens. The coal in the No. 3 Pocahontas vein unmined in this acreage is estimated at 106,000,000 tons. The undeveloped territory extends about 10 miles westward from Pocahontas, Va., along Laurel Creek, of Bluestone River. The Norfolk & Western Ry. Co. is now building the Pocahontas & Western RR., to develop this property, and by July 1 1907 about 4 miles of this road should be completed to the new Boissevain plant, which the Collieries Co. has about completed. It is proposed to install along this branch road at least three additional coal-mining plants.

Recapitulation of Properties to Be Owned by Consolidated Company.

To be acquired from—	*Coal Acreage.*	*Barren Acreage.*	*Remaining Tonnage.*	*No. of Ovens.*
Pocahontas Consolidated Co	9,625	1,500	74,000,000	1,920
Pocahontas Collieries Co	10,375	625	106,000,000	800
Total	20,000	2,125	180,000,000	2,720

The plants are all situated in the Pocahontas Great Flat-Top coal region in Virginia and West Virginia, on the Norfolk & Western Ry., upon lands held under leases for 100 years, or with privilege of renewals on present terms for 100 years, subject to a royalty of 10c. per ton on all coal mined. These plants are all modern and fitted to handle a tonnage greatly in excess of the average of the past four years.

To finance the expenditures already made by the Collieries Co. for the installation of the Boissevain plant, and to provide for the construction of the additional plants, it is proposed that the new company shall create a mortgage, under which there will immediately be issued $6,000,000 of 5% gold bonds, viz., $1,500,000, to be exchanged for $1,500,000 preferred stock of Pocahontas Collieries Co.; $1,250,000 to be exchangeable for the present bonds of the Pocahontas Collieries Co., and $3,250,000 to be issuable for the purpose of paying the present indebtedness of the Pocahontas Collieries Co., for developments or improvements and for the extension of the business of the new consolidated company. (See further facts in plan under Pocahontas Consolidated Co. above.)

Procter & Gamble Co., Cincinnati.—*New President.*—William Cooper Procter has been elected President to succeed his father, the late William A. Procter. John Burchenall is now General Manager.—V. 83, p. 895.

Republic Iron & Steel Co.—*Description of New Plant at Youngstown, Ohio.*—See illustrated article in "Iron Trade Review" of Cleveland for April 18.

Earnings.—A statement of earnings is given in the Chicago "Inter-Ocean" of April 17 and April 20 as follows, but efforts to get it officially have been unavailing:

The Republic Iron & Steel Co.'s earnings for March were $509,628. After all deductions for interest, &c., there remained a surplus for March of $415,213. For nine months ended March 31 the surplus applicable to dividends was $2,816,791. Out of this was paid three dividends of $765,633 each, being 1¾% regular on the preferred stock and 2% on account of the accumulated dividends, a total of 5¼% regular and 6% accumulated, amounting in all to $2,296,901 and leaving a surplus of $519,890 for the three quarterly periods.

An official estimate of earnings for the current fiscal year ending June 30 1907 indicates that the company will have shown by that time, at the least calculation, $4,167,000 applicable for dividends on the preferred stock.—V. 84, p. 342.

Seattle (Wash.) Lighting Co.—*Bonds Offered—Status.*—N. W. Harris & Co., New York and Boston, and the Harris Trust & Savings Bank, Chicago, are offering at 97½ and interest $250,000 first mortgage 5% gold bonds of $1,000 each (c*), dated March 21 1904 and due March 1 1944, but redeemable on and after March 1 1910 at 110 and interest. Interest payable March 1 and Sept. 1 at office of N. W. Harris & Co., N. Y. Manhattan Trust Co., N. Y, trustee.

Abstract of Letter from Rufus C. Dawes, 2d Vice-President, Apr. 1 1907.

This company, a consolidation of the Seattle Gas & Electric Co. (the successor of the Seattle Gas & Electric Light Co.) with the Citizens' Light & Power Co., does the entire gas business of Seattle, Wash., and its suburb, Ballard, thus serving an estimated population of over 200,000.

Financial Statement.

Capital stock issued (preferred, $1,000,000; common $3,000,000)	$4,000,000
First mortgage 5s, including $422,000 bonds recently issued	$1,393,000
Reserved to retire a like amount of Seattle Gas & Electric Light first 6s due July 1 1912	729,000
In escrow to be issued for 80% of the cash cost of permanent extensions and additions	878,000
Total bonds authorized by mortgage	$3,000,000

Earnings for the Year ended Feb. 28 1907.

Gross earnings	$432,097	Bond interest for period	$92,517
Net over taxes	211,549	Surplus	119,032

[For the year ending Nov. 30 1906 the gross earnings were reported as $395,441 and the net earnings (over taxes) as $192,392.—Ed.]

The statement for 1907 will be much more favorable, owing to the rapid increase in the population of Seattle, and the extensive improvements and additions recently made to the company's properties, from which practically no earnings have as yet been derived.

The first mortgage 5% gold bonds are, in opinion of counsel, secured by a first lien on all property, franchises, &c., of the Seattle Lighting Co., subject only to $729,000 bonds on that part of the property formerly owned by the Seattle Gas & Electric Co., which bonds will be retired on or before July 1 1912. The $878,000 escrow bonds can only be issued to reimburse the company for 80% of the cash cost of permanent extensions and additions, and then only provided the net earnings for the preceding calendar year shall have been equal to twice the bond interest. The company recently sold a tract of real estate in the centre of Seattle for approximately $1,000,000, and this money has been deposited with the mortgage trustees, to be expended for permanent betterments and improvements, on account of which no bonds will be issued. The property is thoroughly modern, and to meet its growing business the company is constructing a new water and coal-gas plant with a generating capacity of over 2,000,000 cubic feet of gas per day. This plant will be ready for operation in May, and will cost approximately $600,000. The company has 222 miles of mains, and at least 20 miles of additional mains will be laid during the present year. The franchise in Seattle is satisfactory and, in opinion of counsel, unlimited in time. The franchise in Ballard runs for fifty years from Aug. 1901.

As shown by the Census of 1900, the population of Seattle, Wash., was 80,671. It is believed that the present population, including Ballard, which will probably soon be annexed, is 200,000. There are few cities that have more natural advantages or brighter prospects than the city of Seattle. Compare V. 79, p. 156.

Silversmiths Co. of New York.—*Merger.*—On April 20 a certificate was filed at Albany merging under this title, with $14,000,000 of authorized capital stock, the following companies, which are allied to the Gorham Manufacturing Co., namely, Silversmiths Co. of New York and the Silverware Stocks Co. of New York.

Edward Holbrook, who is head of the Gorham Company, is President of the consolidated company. John S. Holbrook and Herbert J. Wells are among the directors. Compare V. 84, p. 577 —V. 82, p. 1045.

Silverware Stocks Co. of New York.—*Merger.*—See Silversmiths Co. above.—V. 84, p. 577, 342.

The company, it is stated, owns extensive cement rock quarries about 4 miles from Riverside and proposes to build a cement plant with a daily capacity of 4,500 barrels at a new town-site to be known as Crescent City. The same interests have incorporated the Crescent City St. Ry. with $100,000 capital stock. Oakland capitalists are interested. The incorporators of both companies are: George W. Reed, P. C. Black, C. N. Reed, B. H. Griffin and C. T. Walker, all of Los Angeles.

Streets Western Stable Car Line.—*Report.*—The results for the year ending Dec. 31 were:

Year—	*Net.*	*Charges.*	*Pref. div.*	*Com. div.*	*Bal., sur.*
1906	$305,390	$81,102	(7%) $54,383	(2%) $76,694	$93,210
1905	320,701	89,193	(7%) 54,383	(2%) 76,694	100,431

The balance sheet of Dec. 31 1906 shows: Common stock, $3,834,700; preferred stock, $776,900; first mortgage bonds, $79,251 (decrease $48,000 during year); car lease warrants, $1,693,337 (decrease $79,251); bills payable, $70,000; total surplus Dec. 31 1906, $1,257,644, against $1,164,434 Dec. 31 1905.—(V. 82, p. 991.)

Union Oil Co. of California.—*Dividend Increase.*—The "Los Angeles Times" of April 20 says that the company will increase its monthly dividends beginning May 20 from 75 cents to $1 per share, or from 9% to 12% yearly. The rate was increased in Feb. 1905 from 2.7% per annum

(22½c. per share monthly) to 6% (50c. monthly) and in April 1906 to 9% per annum, or 75c. monthly. The Union Provident Co. and the United Petroleum, both holding companies for the Union, have increased their payments from 75c. to $1 and from $1 38 to $1 48 a month, respectively. —V. 83, p. 91.

Union Sand & Material Co., St. Louis.—*New Stock, &c.*—A certificate filed on April 15 by this Missouri corporation, increasing the capital stock from $1,050,000 to $3,000,000, "all full paid," it is stated, shows assets, $5,320,033; liabilities, $1,684,857.

About 98% of the stock of the St. L. Port. Cement Co., it is stated, was deposited under the recent offer, only one stockholder failing to come in within the time set. The Union Co., it is reported, also takes over the Memphis Sand & Gravel Co. of Memphis, Tenn., in the same deal, paying $300,000 for its assets, and has bought the property of the old St. Louis Blast Furnace Co., on the river front at the foot of Malt St., in Carondelet. The Memphis property is in the extreme north end of St. Louis and latter in the south end.

Compare St. Louis Portland Cement Co., in V. 84, p. 275.

United Copper Co.—*Details of Net Earnings.*—At a recent hearing in the case of Thomas M. Hodgens against President Heinze, the latter furnished the following particulars regarding the divisions of net income for the year 1906, thus supplementing the statement already published in the "Chronicle" (V. 84, p. 448), and also the same particulars since the company's organization on April 28 1902:

Receipts—	*Cal. Year 1906.*	*Since Organization.*
Interest on bonds	$49,500	$814,500
Dividend on securities held	2,395,970	5,931,565
Profits on securities held and contracts	2,504,000	3,354,770
Interest on loans	224,816	466,093
Total	$5,174,286	$10,566,928
Expenses	333,515	398,997
Net income	$4,840,771	$10,167,931

The "profits on securities held and contracts" in 1906, $2,504,000, included, it is stated, $1,700,000 on account of the variation of the market value of securities held.—V. 84, p. 755, 577.

Westinghouse Electric & Manufacturing Co.—*Offering to Stockholders of $5,000,000 of New "Assenting" Stock.*—A circular dated April 25 1907 offers to stockholders of record as of 12 m. May 4 the opportunity of subscribing, on the company's warrants, until 3 p. m. June 3 for $5,000,000 new stock, entitled to the same rights and priorities as the existing "assenting" stock, at $75 per share (par $50), to the extent of one share for every five shares of existing stock of any class held by them respectively.

Subscriptions must be made at the New York office of the company, 111 Broadway, accompanied by New York, Boston or Pittsburgh exchange for $10 for each share subscribed for. The balance will be payable in like manner during 1907 as follows: July 1, $10 per share; Aug. 1, $10; Sept. 3, $10; Oct. 1, $10; Nov. 1, $10; Dec. 2, $15. Full payment may be made at the time of subscription or any unpaid balance may be paid on any installment date. Interest at 5% per annum will be allowed on all payments from the date made up to the time the stock begins to carry dividends. Discount will also be allowed on installments anticipated. Stock paid for in full June 3 carries the dividend payable July 10 1907 and subsequent dividends; that fully paid for on July 1, Aug. 1 or Sept. 3 will receive the Oct. 10 dividend and that paid for Oct. 1, Nov. 1 or Dec. 2 the Jan. 10 1908 dividend. For the convenience of shareholders warrants for fractional shares will be purchased or sold at current market prices at the New York office of the company.

Official Circular.—President George Westinghouse, under date of April 25, says:

At a special meeting of the stockholders held on March 26 1906, $25,000,000 new assenting stock was created, making the total authorized share capital $50,000,000. Of this new stock, $12,500,000 was set aside for the conversion of bonds (V. 82, p. 755, 222) and the remaining $12,500,000 was reserved for other corporate purposes. There is enclosed an offer to the stockholders to subscribe for $5,000,000 of the assenting stock at $75 per share, a price within the limits of the provisions of the bond indenture, the sale of which will provide additional working capital as required.

The business of your company during the past year largely exceeded that of any preceding twelve months, and continues to increase. The orders entered during March 1907 by the East Pittsburgh works were $4,006,348 and by the subsidiary manufacturing companies were $379,229.

Orders Received by the East Pittsburgh Works and the Subsidiary Companies for Five Years Ending March 31.

1902-03.	1903-04.	1904-05.	1905-06.	1906-07.
$21,916,177	$20,822,010	$18,811,790	$28,154,664	$38,317,918

Value of unfilled orders March 31 1907 ..... $14,616,442

This great increase in your business, coupled with higher costs of labor and material, has necessitated a large increase in working capital. At the same time the amount invested in current accounts with customers for apparatus delivered or in process of erection has been correspondingly increased.

Value of Working Assets Feb. 28 1907, as Compared with Nov. 30 1905 (V. 82, p. 216.)

W. E. & M. Co. and Subsid'y Mfg. Co's—	*Feb. 28 1907.*	*Inc. Since Nov. 30 '05.*
Raw materials and supplies	$4,916,150	$2,162,132
Work in progress	7,355,533	4,053,258
Finished parts and completed apparatus	4,378,039	387,274
Goods on consignment for re-sale, &c	1,398,530	368,852
Accounts and bills receivable	11,431,076	3,776,500
Total "working assets"	$29,479,328	$10,748,016

Consolidated Income, etc., Account for 11 Months Ended Feb. 28 1907.

Gross earns. (shipments billed)	$30,659,579	*Deductions*—	
* Operating expenses	26,206,445	Interest on funded debt	$776,242

Net addition to surplus for the eleven months			$1,292,504

* Cost of shipments, including factory costs, selling, administration and general.

These results, excellent as they are, have been adversely affected by the extra cost of development of manufacturing facilities incident to a rapidly increasing production. With the increased facilities already provided, and those nearing completion, the production for the fiscal year beginning April 1 1907 should greatly exceed that for the past year.

The income of your company during the past year from interest, dividends and earnings on its investments, including those received from affiliated companies, foreign and domestic, was above 5% on the aggregate book value of all such securities. The management of these several companies have been brought to a high efficiency, with the result that the business of each has shown a large growth.—V. 84, p. 225.

Wagner Electric Manufacturing Co. *Increase of Stock.*—The stockholders will vote on June 12 on a proposition to increase the stock from $800,000 to $1,200,000.—V. 83, p. 1475.

Westinghouse, Church, Kerr & Co. of Canada (Ltd.), Montreal. *Incorporated in Canada.*—This company was incorporated on April 18 under the Canadian Companies Act with $2,500,000 capital stock in shares of $100 each. The incorporators are:

Peers Davidson, Advocate; Arnold Wainwright, Advocate; Alexander Ilisseti, Assistant Manager; Charles Francis Larkin, stenographer, and Oslas Cousineau, student, all of Montreal.

—A. M. Kidder & Co., bankers, of 18 Wall St., are issuing a special circular describing bonds which they offer investors at attractive prices. These securities return the purchaser from 4⅝% to 5½%, and include: Nassau Electric Ry. (Brooklyn Rapid Transit), Missouri Kansas & Texas RR. (St. Louis Division), the Railroad Securities Co. (Illinois Central RR.), Georgia & Alabama Ry. (Seaboard Air Line), Rio Grande Southern RR. (Denver & Rio Grande system), Fort Worth & Rio Grande Ry. (St. Louis & San Francisco system), Central RR. & Banking Co. of Georgia and the Chicago Rock Island & Pacific Ry. Co. The list also comprises a selection of guaranteed stocks exempt from tax.

—The Philadelphia banking house of Julius Christensen & Co., in the Drexel Building, is distributing a written and pictorial review of the Illinois Traction system. The description includes all the roads comprised in this great interurban railway, their routes and connections, and much valuable information of public interest relating to the cities and towns in the territory covered by the system. There are many half-tones of the public buildings and the industries of that section, and also portraits of each road's officials. The book is bound in pasteboard covers and is elaborately gotten up. Investors interested in the Illinois Traction property should write for a copy.

—The corporation of the Berkeley School, 72d St. and West End. Av., New York, announces that it has engaged Dr. Adolph W. Callisen as permanent Head Master, and has acquired and will take over the well-known Callisen School, of which Dr. Callisen was for many years the head and where hundreds of boys have been prepared for college and business life. From this date Dr. Callisen will spend several hours daily at the school to meet all who call and to make full preparation for the new term. The school-year will open on Sept. 30. William H. Brown is President of the corporation.

—The old established banking house of George Leask & Co. will move on May 1 to new offices on the sixth floor of the Trust Company of America Building, 37 Wall Street. This firm, founded by George Leask and Julian W. Robbins twenty-five years ago, leaves its old quarters on the ground floor of the Mills Building at 35 Wall Street on its 25th anniversary. The concern's high standing as large dealers in commercial paper, stocks, bonds and other securities is well known in this city. Mr. Leask's son, Edwin M. Leask, represents the house on the New York Stock Exchange.

—The Boston banking house of Hornblower & Weeks has completed arrangements to occupy new quarters in a building to be erected on the site of the old Howe Building, 60 State Street, which the National Shawmut Bank will shortly vacate. The proposed structure has been leased by the firm for thirty-five years; it will be six stories in height and will be especially adapted to the firm's requirements.

—Edward Ridgely, formerly a National Bank Examiner of New York City, has become associated with Warwick, Mitchell & Co., chartered accountants, at 79 Wall Street. Mr. Ridgely is a brother of William B. Ridgely, U. S. Comptroller of the Currency, and will manage the firm's auditing department.

—On May 1 Stone & Webster, the well-known street railway house of Boston, will open a Chicago branch office in suite 604 First National Bank Building. Arthur J. Veitch for some time connected with the bond department of Peabody, Houghteling & Co., will be their Chicago representative.

—We have received a copy of the 1907 edition of "Washington Securities," a compilation of financial statistics of securities dealt in on the Washington Stock Exchange. The book also contains a record by months, since Jan. 1 1901, of sales made at the Exchange, with the lowest and highest prices.

—Charles Schley & Co., investment brokers, of Milwaukee, Wis., announce their removal to the New Insurance Building, 90 Michigan Street. The partnership consists of Charles Schley and Ralph M. Friend.

—Schmidt & Gallatin, 111 Broadway, members of the New York Stock Exchange, announce with regret that, owing to ill-health, Mr. Eads E. Schmidt will withdraw from their firm on May 1st.

—The bond department of the Royal Trust Company Bank of Chicago has recently issued for gratuitous distribution a booklet on "Bonds as Investments; What They Are and Their Advantages."

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, April 26 1907.

General business is still on a large scale, though there are some indications of a decrease in transactions here and there. The situation, however, remains substantially as it had been for a long period, with the demand for most commodities good and prices firm. The monetary situation has recently become much more favorable and the weather more seasonable.

LARD on the spot has been easy in tone but changes in quotations have been slight. Trade has continued dull. Offerings from packers have been rather liberal. Small jobbing sales have been made of late at 8¼@8⅜c. for city and at 8.75@8.80c. for Western. Refined lard has been steady, with trade stagnant. Refined Continent 9.20c., South America 10c. and Brazil in kegs 11c. The market for lard futures at the West has been less active. Prices have been irregular but the fluctuations from day to day have not been very marked. In the main, however, the undertone has been rather easy, owing to the dulness of the cash trade. The receipts of live hogs, too, have been liberal.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery	8.62½	8.65	8.70	8.55	8.55	8.67½
July delivery	8.75	8.77½	8.82½	8.70	8.70	8.82½
September delivery	8.90	8.90	8.95	8.82½	8.82½	8.95

PORK on the spot has ruled steady, with trade dull and limited to small jobbing lots. Mess $17 50@$18 25, clear $17 75@$19 and family $19@$19 50. Cut meats have been steady. Trade has been quiet but stocks are light. Pickled shoulders 9½@10c., pickled hams 12@12½c. and pickled bellies, 14@10 lbs., 10¼@11c. Tallow has declined, owing to the dulness of trade and increasing stocks. City 5¾c. Stearines have been dull and easy. Oleo 9@9¼c. and lard 9¾c. Butter has advanced, owing to cold and stormy weather, which has interfered with the movement to market. The demand has been light at the advance. Creamery, extras, 34½@35c. Cheese has been moderately active and firm; State factory, fancy, 15c. Eggs have been less active and easier; Western firsts 17c.

COFFEE on the spot has been dull and steady. Rio No. 7, 6¾c., and Santos No. 4, 7⅝c. West India growths have been quiet and steady; fair to good Cucuta 8⅜@9½c. The market for future contracts has been irregular, within moderate limits. Early in the week the tendency was downward, owing to unexpectedly weak cables from Europe, continued dulness in the spot trade, liberal receipts, foreign selling and liquidation by tired local longs. Of late, however, the tone has been steadier, owing to buying by prominent local interests and covering of shorts.

The following are closing quotations:

April	5.60c.	August	5.45c.	December	5.45c.
May	5.60c.	September	5.45c.	January	5.45c.
June	5.50c.	October	5.45c.	February	5.45c.
July	5.50c.	November	5.45c.	March	5.50c.

SUGAR.—Raw has been quiet, with slight changes in prices. Centrifugal, 96-degrees test, 3.73c.; muscovado, 89-degrees test, 3.23c., and molasses, 89-degrees test, 3.01c. Refined has been in moderate demand and steady. Granulated 4.70@4.80c. Teas have been quiet and steady. Spices have been firm and in light jobbing request. Hops have been quiet and steady.

OIL.—Cottonseed has been firm, with an increased demand, partly for export. Prime summer yellow 47c. and prime winter yellow 52c. Linseed has been firm, owing to an increased demand and the strength of the market for seed. City, raw, American seed, 42@43c.; boiled 43@44c.; raw, Calcutta seed, 70c. Lard has been easy, owing to the dulness of trade and increasing stocks. Prime 74@76c. and No. 1 extra 58@60c. Olive has been quiet and steady; yellow 80@90c. and green 70@75c. Cocoanut has been in moderate demand and firm; Cochin 10¾c. and Ceylon 9⅜@9½c. Peanut has been quiet and steady; yellow 50@60c. Cod has been moderately active and steady; domestic 38@40c. and Newfoundland 40@42c.

PETROLEUM.—Refined has been active and strong. Higher prices are expected by some in the near future, owing to the increasing consumption. Refined, barrels 8.20c., bulk 4.75c. and cases 10.65c. Naphtha has been moderately active and firm; 73@76 degrees 18c. in 100-gallon drums. Gasoline has been active and firm; 86 degrees 21c. in 100-gallon drums. Spirits of turpentine has been quiet and easier at 69@70c. Rosin has been in moderate demand and firm; common to good strained $4 65.

TOBACCO.—The demand for Sumatra has been less active but prices have been firm in the main. Havana has been quiet but strong. Crop reports from Cuba of late have been conflicting. Trade in domestic leaf has continued quiet and there has been an absence of noteworthy developments in the market. The demand is less active than usual at this time of the year.

COPPER has been firm and more active. Lake 24¾@25c., electrolytic 24⅛@24¼c. Lead has been quiet and easy at 6c. Spelter has been quiet and steady at 6.65@6.70c. Tin has been quiet but strong; Straits 42⅜c. Iron has been active and firm; No. 1 Northern $23 20@$24 70, No. 2 Southern $22 75@$24.

COTTON.

Friday Night, April 26 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 76,608 bales, against 79,481 bales last week and 113,585 bales the previous week, making the total receipts since the 1st of September 1906, 9,190,155 bales, against 7,042,248 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,147,907 bales.

Speculation in cotton for future delivery has been a trifle more active and prices have advanced slightly, owing, in part, to manipulation of the May option by bullish interests and partly to some unfavorable crop and weather reports from the South and an active and stronger market in Liverpool. The spot sales there have continued large and reports are persistent that the demand for the actual cotton at the South is also excellent for the better grades, the supply of which is becoming, it is stated, so reduced that increasing premiums over the low grades are being paid. It is also stated that the lower descriptions are in better demand. Some reports are that unduly cold weather has made a good deal of replanting necessary in Georgia and Alabama if not in South Carolina, and that the season from being early at the start has now become somewhat backward. West of the Mississippi the temperatures at times have seemed to be somewhat too low and some replanting is reported there, but that portion of the belt has during the week been visited, on the other hand, by beneficial rains, so that in many parts of the State, at least, the drought would seem to have been pretty effectually broken. The receipts at the ports have been, on the whole, light, spinners' takings large and the exports, as a rule, greatly in excess of the receipts. In a word, the commercial situation of cotton has continued strong, mainly because of an unusually large consumption. Speculation, however, though somewhat larger than recently, has continued to be, in the main, quiet, the outside public still holding aloof. The May option, which was recently at such a marked discount under July, reached a premium over that month of 3 points early in the week and has since sold even with it or two or three points below. The fact that the price of May has been so well sustained, in the face of a very general belief that the number of notices to be issued on Friday would be large, had no small influence in sustaining and at times advancing the market. Liverpool, the South, Wall Street spot interests and room traders have all bought more or less, but of late there have been signs of liquidation, partly, it is supposed, for some of the leading bulls. Then, too, many who have bought May or July have sold the distant months, especially since the weather conditions have somewhat improved. To-day a decline of 11 points on May and 4 to 5 on other months was followed by a rally, when it was found that May "notices" for some 70,000 to 75,000 bales were being promptly stopped by leading bulls and others. Liverpool's quotations were disappointing, but the spot sales there were large. Furthermore, the weather at the South was rather cool, including Texas, for which still lower temperatures were predicted. Wall Street and the South bought here and so did some of the leading bulls. Spot cotton has been more active and firm. Middling upland closed at 11.30c., an advance for the week of 10 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	c. 2.00 on	Strict low mid.	c. 0.14 off
Strict mid. fair	1.75 on	Fully low mid.	0.32 off
Middling fair	1.50 on	Low middling	0.50 off

The above totals show that the interior stocks have *decreased* during the week 10,007 bales, and are to-night 21,160 bales more than at the same time last year. The receipts at all the towns have been 378,786 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

April 26—	1906-07 Week.	1906-07 Since Sept. 1.	1905-06 Week.	1905-06 Since Sept. 1.
Shipped—				
Via St. Louis	10,578	718,041	13,580	452,241
Via Cairo	1,846	204,320	2,808	188,847
Via Rock Island	1,982	74,567	219	41,110
Via Louisville	1,027	75,183	1,786	86,190
Via Cincinnati	1,046	49,745	1,656	50,351
Via other routes, &c.	2,481	412,662	3,682	229,404
Total gross overland	18,960	1,534,518	23,731	1,048,143
Deduct shipments—				
Overland to N. Y., Boston, &c.	3,191	152,627	1,462	129,006
Between interior towns	5,218	88,398	286	18,356
Inland, &c., from South	544	51,314	823	37,388
Total to be deducted	8,953	292,339	2,571	184,750
Leaving total net overland *a*	10,007	1,242,179	21,160	863,393

a Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 10,007 bales, against 21,160 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 378,786 bales.

In Sight and Spinners' Takings.	1906-07 Week.	1906-07 Since Sept. 1.	1905-06 Week.	1905-06 Since Sept. 1.
Receipts at ports to April 26	76,608	9,190,155	84,862	7,042,248
Net overland to April 26	10,007	1,242,179	21,160	863,393
Southern consumption to April 26	48,000	1,610,000	46,000	1,571,000
Total marketed	134,615	12,042,334	152,022	9,476,641
Interior stocks in excess	*a*21,280	301,277	*a*27,206	260,116
Came into sight during week	113,335		124,816	
Total in sight April 26		12,343,611		9,736,757
North. spinners' takings to Apr. 26	15 979	2,353,694	31,571	2,040,852

a Decrease during week.

Movement into sight in previous years:

Week—	Bales.	Since Sept. 1—	Bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening indicate that rain has been quite general during the week and that in some localities, particularly in districts of Louisiana and Alabama, the precipitation has been excessive. There are also complaints of too low temperature by some correspondents. As a result of the unfavorable weather, farm work has, as a rule, made rather slow progress.

Galveston, Texas.—Frost and cold weather have set the crop back considerably in Texas and some re-planting is reported. We have had excessive rain on three days during the week, the rainfall being three inches and thirty-two hundredths. The thermometer has averaged 66, ranging from 55 to 77.

Abilene, Texas.—We have had rain on three days during the week, the rainfall being thirty hundredths of an inch. The thermometer has ranged from 38 to 88, averaging 63.

Brenham, Texas.—Rain has fallen on four days of the week, the rainfall being one inch and ninety-eight hundredths. Average thermometer 64, highest 79, lowest 48.

Corpus Christi, Texas.—It has rained on three days during the week, the precipitation being seventy-four hundredths of an inch. The thermometer has averaged 63, the highest being 74 and the lowest 52.

Cuero, Texas.—There has been rain on four days during the week, to the extent of one inch and ninety-four hundredths of an inch. The thermometer has averaged 63, ranging from 46 to 82.

Dallas, Texas.—We have had rain on three days during the week, the precipitation reaching one inch and five hundredths. The thermometer has ranged from 41 to 81, averaging 61.

Fort Worth, Texas.—We have had rain on two days of the past week, the rainfall being fifty-three hundredths of an inch. Average thermometer 61, highest 82 and lowest 40.

Henrietta, Texas.—We have had rain on two days of the past week, the rainfall reaching five hundredths of an inch. The thermometer has averaged 66, the highest being 94 and the lowest 37.

Huntsville, Texas.—There has been rain on three days during the week, to the extent of one inch and eighty-six hundredths. The thermometer has averaged 62, ranging from 44 to 79.

Kerrville, Texas.—We have had rain on two days during the week, the rainfall being forty-three hundredths of an inch. Thermometer has ranged from 35 to 84, averaging 60.

Lampasas, Texas.—Rain has fallen on two days of the week, the rafnfall being sixty-eight hundredths of an inch. Average thermometer 61, highest 85 and lowest 36.

Longview, Texas.—We have had excessive rain on four days of the week, the rainfall reaching three inches and twenty-one hundredths. The thermometer has averaged 62, the highest being 80 and the lowest 43.

Luling, Texas.—Rain has fallen on three days of the week, the precipitation being eighty-eight hundredths of an inch. The thermometer has averaged 63, ranging from 45 to 81.

Nacogdoches, Texas.—There has been rain on four days during the week, the rainfall reaching eighty-eight hundredths of an inch. The thermometer has ranged from 39 to 75, averaging 57.

Palestine, Texas.—We have had rain on four days of the week, the precipitation reaching eighty-two hundredths of an inch. Average thermometer 67, highest 76, lowest 16.

Paris, Texas.—There has been rain on one day during the week, the rainfall being eighty hundredths of an inch. The thermometer has averaged 50, the highest being 59 and the lowest 40.

San Antonio, Texas.—We have had rain on three days during the week, the rainfall being one inch and ten hundredths. Thermometer has averaged 64, ranging from 46 to 82.

Weatherford, Texas.—There has been rain on two days the past week, the rainfall being forty-nine hundredths of an inch. The thermometer has ranged from 37 to 84, averaging 61.

New Orleans, Louisiana.—We have had a rainfall of thirteen inches and ten hundredths during the week, on five days. Average thermometer 64.

Shreveport, Louisiana.—It has rained on three days of the week, the rainfall being two inches and seventy-nine hundredths. The thermometer has averaged 63, the highest being 81 and the lowest 45.

Leland, Mississippi.—There has been rain during the week, the rainfall reaching sixty-nine hundredths of an inch. Thermometer has ranged from 40 to 70, averaging 52.3.

Vicksburg, Mississippi.—Rain has fallen on five days of the week, the rainfall being eighty-six hundredths of an inch. Average thermometer 59, highest 75, lowest 47.

Helena, Arkansas.—Weather too cold for farm work much of the week and little done. There has been rain on three days during the week, the precipitation being one inch and twenty-five hundredths. The thermometer has averaged 55.4, ranging from 43 to 78.

Little Rock, Arkansas.—The weather has been abnormally cold the past week and there are numerous complaints of poor stands and damage by cut-worms, necessitating extensive replanting. Rain has fallen on one day of the week, the rainfall being one inch and thirty-eight hundredths. The thermometer has averaged 59.5, ranging from 43 to 76.

Memphis, Tennessee.—Weather more favorable and cotton planting has made good progress, but the week closes cold and rainy. There has been rain on one day the past week, the rainfall being sixteen hundredths of an inch. Average thermometer 55.6, highest 76.3, and lowest 40.8.

Nashville, Tennessee.—We have had rain on one day of the past week, the rainfall reaching eight hundredths of an inch. The thermometer has averaged 59, the highest being 80 and the lowest 37.

Mobile, Alabama.—Heavy rains and lower temperature in the interior early part of week. Cotton planting is making moderate progress. We have had rain here on four days of the week, the rainfall reaching eight inches and twenty-four hundredths. The thermometer has averaged 63, ranging from 53 to 73.

Montgomery, Alabama.—Continued heavy rains and generally unfavorable weather have injured cotton considerably. Much re-planting will be required and good seed scarce. We have had rain on five days during the week, the rainfall being three inches and six hundredths. The thermometer has ranged from 47 to 78, averaging 60.

Madison, Florida.—We have had rain on two days of the week, the precipitation reaching two inches and fifty hundredths. The thermometer has averaged 65, the highest being 80 and the lowest 54.

Savannah, Georgia.—We have had rain on five days during the week, the rainfall reaching one inch and ten hundredths. The thermometer has ranged from 50 to 82, averaging 64.

Charleston, South Carolina.—We have had rain on five days of the past week, the rainfall reaching eighty-six hundredths of an inch. Average thermometer 62, highest 75, lowest 50.

Greenwood, South Carolina.—Rain has fallen on two days of the week, the rainfall being two inches and five hundredths. The thermometer has averaged 57, highest 68, lowest 46.

Charlotte, North Carolina.—We have had rain during the week, the rainfall reaching one inch and sixty-eight hundredths. Thermometer has ranged from 40 to 75, averaging 57.

The following statement we have also received by telegraph, showing the height of rivers at the ponits named at 8 a. m. of the dates given:

		April 26 1907.	April 27 1906.
		Feet.	Feet.
New Orleans	Above zero of gauge.	16.0	16.8
Memphis	Above zero of gauge.	21.3	29.9
Nashville	Above zero of gauge.	1 .5	9.9
Shreveport	Above zero of gauge.	3.8	11.9
Vicksburg	Above zero of gauge.	38.1	47.1

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, April 24.	1906-07.		1905-06.		1904-05.	
Receipts (cantars *a*)—						
This week	3,000		9,000		85,000	
Since Sept. 1	6,825,355		5,822,759		5,925,176	
Export (bales)—	*This week.*	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*
To Liverpool	2,500	182,781	1,000	185,786	2,500	187,542
To Manchester	.....	176,862	5,500	152,910	3,000	130,613
To Continent	4,000	293,981	1,750	268,146	4,750	252,767
To America	700	99,776	3,000	66,732	800	61,228
Total exports	7,200	753,403	11,250	673,574	11,050	632,150

a A cantar is 98 lbs.

This statement shows that the receipts for the week were 3,000 cantars and the foreign shipments 7,200 bales.

EUROPEAN COTTON CONSUMPTION TO APRIL 1.—By cable to-day we have Mr. Ellison's cotton figures brought down to April 1. We give also revised totals for last year that comparison may be made. The spinners' takings in *actual* bales and pounds have been as follows:

Oct. 1 to April 1.	*Great Britain.*	*Continent.*	*Total.*
For 1906-07.			
Takings by spinners.....bales.	2,366,000	3,600,000	5,966,000
Average weight of bales...lbs.	505	484	492.3
Takings in pounds	1,194,830,000	1,742,400,000	2,937,230,000
For 1905-06.			
Takings by spinners.....bales.	2,175,000	3,005,000	5,180,000
Average weight of bales....lbs.	499	482	489.1
Takings in pounds	1,085,325,000	1,448,210,000	2,533,535,000

According to the above, the average weight of the deliveries in Great Britain is 505 pounds per bale this season against 499 pounds during the same time last season. The Continental deliveries average 484 pounds, against 482 pounds last year, and for the whole of Europe the deliveries average 492.3 pounds per bale, against 489.1 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to April 1. Bales of 500 lbs. each. 000s omitted.	1906-07.			1905-06.		
	Great Britain	*Continent.*	*Total.*	*Great Britain*	*Continent.*	*Total.*
Spinners' stock Oct. 1	253	556	809	256	621	877
Takings to April 1	2,390	3,486	5,876	2,171	2,896	5,067
Supply	2,643	4,042	6,685	2,427	3,517	5,944
Consumption, 26 weeks	1,951	2,730	4,681	1,924	2,626	4,550
Spinners' stock April 1	692	1,312	2,004	503	891	1,394
Weekly Consumption 000s omitted.						
In October	74	105	179	74	101	175
In November	74	105	179	74	101	175
In December	75	105	180	74	101	175
In January	75	105	180	74	101	175
In February	76	105	181	74	101	175
In March	76	105	181	74	101	175

The foregoing shows that the weekly consumption is now 181,000 bales of 500 pounds each, against 175,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 240,000 bales during the month and are now 610,000 bales more than at the same date last season.

We are also advised that Mr. Ellison, calculating on the basis of an American crop of 13,500,000 bales, estimates that stocks of American cotton will be approximately 2,504,000 bales at the end of the season, as follows: at European mills, 1,000,000 bales; at European ports, 1,004,000 bales; and at American ports, 500,000 bales.

NATIONAL ASSOCIATION OF COTTON MANUFACTURERS.—*Annual Meeting.*—It has been announced by the Secretary of the National Assoeiation of Cotton Manufacturers that the eighty-second annual meeting will be held at Boston on April 24 and 25. Some of the papers expected to be submitted will cover the following subjects: "American Cotton Textiles in the Far East;" "Corporations and the Public Welfare;" "Cost of Maintenance and Depreciation in Cotton Mills;" "Hot Water Heating by Forced Circulation as Applied to Cotton Mills;" "Immigration of Textile Operatives;" Primitive Designs as Influenced by the Textile Arts;" "Proposed System for Cleaning Machinery;" "Reinforced Concrete Construction Especially Applied to Mill Use;" "Sea Island Cotton;" "The Tariff on Cotton Goods;" "Taxation and Valuation with Reference to Industrial Plants;" "The New Whitin Comb;" "The New York Cotton Contract;" "The Textile School a Future Necessity to the Industry."

The following officers were elected: President, William D. Hartshorne, agent of the Arlington Mills, Lawrence, Mass.; Vice-Presidents, Charles T. Plunkett, of Adams, and George Otis Draper of Hopedale, Mass.; directors for three years, William H. Loftus of Newark, N. J.; John W. Knowles of New Bedford and Henry F. Mansfield of Utica, N. Y.; director for two years, Edwin Farnham Greene of Boston; director for one year, Frederick A. Flather of Lowell; Secretary and Treasurer, C. J. H. Woodbury of Lynn.

JUTE BUTTS, BAGGING, &c.—The market for jute bagging has continued quiet the past week. Prices remain nominally unchanged at 9⅛c. for 2 lbs., standard grades. Jute butts dull at 3@4c. for bagging quality.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

Cotton Takings. Week and Season.	1906-07.		1905-06.	
	Week.	*Season.*	*Week.*	*Season.*
Visible supply on April 19	5,070,498	----	4,401,012	----
Visible supply Sept. 1	----	1,784,156	----	2,545,470

1904-05	2,000	24,090	26,000	26,000	367,000	393,000

According to the foregoing, Bombay appears to show an *increase* compared with last year in the week's receipts of 5,000 bales. Exports from all ports India record a loss of 21,000 bales during the week and since Sept. 1 show an *increase* of 199,000 bales.

SHORT TIME IN EAST INDIAN MILLS.—Recent advices are to the effect that the owners of the Bombay cotton spinning mills have decided by a large majority to work short time, in order to reduce the large unsold stock of yarn in China. It has been decided to close the mills three days a week, including Sunday, and work only thirteen hours a day. This arrangement will continue until June 15 next.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is firm for both yarns and shirtings. Spinners are considered to be well under contract. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 140,339 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK—To Liverpool—April 22—Carmania, 150 foreign	
April 23—Victorian, 3,145 upland, 853 foreign	4,148
To Hull—April 20—Toronto, 372	372
To London—April 19—Minnehaha, 250	250
To Havre—April 20—La Gascogne, 16 foreign	16
To Marseilles—April 24—Gallia, 272	272
To Bremen—April 24—Chemnitz, 141	141
To Rotterdam—April 22—Tronto, 135	135
To Antwerp—April 19—Finland, 500	500
To Barcelona—April 26—Holland, 1,335	1,335
To Genoa—April 19—Prinzess Irene, 1,795—April 23—Moltke, 2	1,797
To Naples—April 19—Prinzess Irene 373	373
To Leghorn—April 19—Calabria, 100	100
To Trieste—April 24—Francesca, 200	200
GALVESTON—To Liverpool—April 19—Iowa, 22,074	22,074
To Manchester—April 25—Anselma de Larrinaga, 6,951	6,951
To Belfast—April 23—Ramore Head, 423	423
To Havre—April 19—Masconomo, 5,465—April 23—Mincola, 11,941	17,406
To Reval—April 23—Ramore Head, 1,951	1,951
To Riga—April 23—Ramore Head, 110	110
To St. Petersburg—April 23—Ramore Head, 782	782
To Rotterdam—April 19—Lord Ormonde, 45	45
To Antwerp—April 25—Cayo Manzanillo, 2,425	2,425
To Barcelona—April 23—Sicilia, 1,347	1,347
To Genoa—April 23—Sicilia, 8,927	8,927
NEW ORLEANS—To Liverpool—April 22—Candidate, 8,669—April 25—Jamaican, 5,000	13,669
To Manchester—April 22—Cuban, 5,500	5,500
To Havre—April 23—Bordeaux, 3,019	3,019
To Bremen—April 24—West Point, 9,782	9,782
To Hamburg—April 24—Hopemount, 4,000	4,000
To Antwerp—April 20—Oxonian, 2,360	2,360
To Oporto—April 22—Jose Gallart, 4,700	4,700
To Barcelona—April 22—Jose Gallart, 1,851	1,851
To Genoa—April 23—Delphine, 7,730	7,730
SAVANNAH—To Bremen—April 20—Europa, 1,542	1,542
To Hamburg—April 22—Nessfield, 982	982
To Reval—April 20—Europa, 1,100	1,100
BRUNSWICK—To Liverpool—April 25—British Monarch, 7,329	7,329
BOSTON—To Liverpool—April 20—Michigan, 331	331
BALTIMORE—To Liverpool—April 22—Rowanmore, 2,368	2,368
To Havre—April 20—Hempstead, 10	10
PHILADELPHIA—To Rotterdam—April 13—Astoria, 800	800
PORTLAND, ME.—To Liverpool—April 13—Kensington, 28—April 20—Southwark, 50	78
SAN FRANCISCO—To Japan—April 23—Korea, 1,108	1,108
Total	140,339

The particulars of the foregoing shipments for the week, arranged in our usual form, are as follows:

	Great Britain.	*French ports.*	*Ger-many.*	*—Oth. Europe— North.*	*South.*	*Mex., &c.*	*Japan.*	*Total.*
New York	4,770	288	141	635	3,805	----	----	9,639

BREADSTUFFS.

Friday, April 26 1907.

Prices for wheat flour have been firm, influenced by the advance in wheat and unfavorable reports in regard to the wheat crop. At the mills flour quotations have been advanced. Trade here, however, has been so dull that prices have been to a large extent nominal. Dealers show as little disposition as ever to replenish their supplies. Export business has been stagnant and the shipments from the seaboard have been small. Rye flour has been quiet and steady. Corn meal has been dull but firm.

Wheat has continued to feel the effects of bad weather in the Southwest, where there has been too little rain and too much cold weather, and where, moreover, it is said the crop has been damaged. Reports differ as to the amount of the damage, but the consensus of opinion is now that it has been sufficient to warrant some advance in prices, although, as usual, it has doubtless been exaggerated. In addition, bad crop reports have come from Roumania and Hungary, and those from Spain have not been altogether favorable. It is significant, too, that European markets begin to place more credence in the reports of American damage, judging from the sharp advance there of late, particularly in Liverpool. That market, however, has also been influenced by the reports from Roumania and Hungary and the fact that offerings have been light. Another interesting factor contributing to the advance here has been a noteworthy increase in the export demand, which also seems to indicate that Europe is not altogether incredulous concerning the reports of damage on this side of the water. The weather at the Northwest has been so cold as to delay seeding of spring wheat. Seeding in the Canadian Northwest is said to be ten days behind, and some fear is expressed that the acreage may be curtailed, owing to more or less general floods in the valleys, which, if not serious, at least mean that there is so much water in those sections that it retards farm work. The Argentine shipments have also fallen off noticeably, although the total world's shipments last week, it is worth recalling, were very much larger than in the previous week and in the corresponding week last year. It is also true that the Northwestern receipts have been large, and light rains in Kansas have at times caused selling. On the whole, however, the market has been distinctly strong, flour has advanced at the mills, the rise in foreign markets has greatly encouraged the believers in better prices for wheat, and for the first time in a long period exporters really show some desire to take hold and do business, and the actual transactions with Europe have reached a large volume. To-day prices rose sharply on sensational reports of damage to the crop and general buying. The speculation was active and excited.

September delivery in elevator	82¾	82¼	83⅛	83½	83½	85

Indian corn futures have advanced under the stimulus of cold weather at the West, where farm work has been delayed. The speculation at the West has been active, and the strength of May has had a bracing effect on the later positions. The cash market has been strong, moreover, and at times the export demand has been active. The strength of the Liverpool market has had considerable effect here. The receipts at Chicago have continued small and contract supplies are still light. Leading Chicago operators have bought freely at times, and there has been a good demand at the West from commission houses. To-day prices advanced on the advance in wheat, a strong cash market and general buying.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Frl.

July delivery in elevator	48¾	48¼	48⅝	49⅛	49⅝	49¾
September delivery in elevator	48¾	48¾	49⅛	49½	50	50

Oats for future delivery in the Western market have advanced, owing to unfavorable weather and crop reports. The reports of damage have caused active buying by commission houses at times and shorts have covered freely. Much replanting will be necessary, it is stated. The cash market has been firm and active. The receipts have been light and the market has sympathized with the upward movement in wheat. To-day prices advanced on the rise in wheat, bullish crop reports, covering, and buying by commission houses.

GOVERNMENT WEEKLY WEATHER REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending April 22, summarizing them as follows:

The week ending April 22 1907 is the third consecutive week of abnormally cold weather in the districts east of the Mississippi River. The period from the 8th to the 22nd was abnormally cold throughout the country east of the Rocky Mountains; the last seven days had a mean temperature considerably below the normal in the Plateau regions and in all districts to the eastward, with the exception of Florida, the temperature was decidedly below the normal, the most marked deficiencies occurring in the central valleys. The general weather conditions of the week were unfavorable in nearly all districts east of the Rocky Mountains, but on the Pacific Coast and in the Southern Plateau region they were favorable. Freezing weather prevailed as far south as northwestern Texas, the central Mississippi and upper Ohio valleys, western North Carolina and to the New Jersey coast, with heavy frosts as far south as Arkansas and Tennessee. Except in the Gulf States and over the southeastern Rocky Mountain slope, where the precipitation was much above the normal, the week was generally dry, large areas in the central valleys and Lake region receiving no rain or only inappreciable showers. There was also a practical absence of rain on the northern New England coast, in southern Florida, southern Oregon and over the western portions of the central and southern Plateau regions and in California. The drought in the central Gulf districts has been relieved, but rain is needed over a large part of the upper Mississippi and lower Missouri valleys. Snow and sleet occurred over a large part of the central valleys on the 16th and 18th, and scattered hailstorms in the South Atlantic States on the 18th. There was much cloudiness in the South Atlantic and Gulf States, but ample sunshine in the central valleys.

The statement of the movement of breadstuffs to market as indicated below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since Aug. 1 for each of the last three years, have been:

THE DRY GOODS TRADE.

New York, Friday Night, April 26 1907.

A change in the weather to more seasonable conditions has helped local trade somewhat, but reports from the interior indicate that distribution is still held in check to some extent by low temperature. The general demand at first hands has ruled moderate, but still sufficient to disclose how clearly the market keeps sold up in the great majority of lines. Jobbers and the cutting-up trade, in their endeavor to secure prompt deliveries of some descriptions of cotton goods, have gone over the border to Canada, but have found conditions there much as here, supplies available for quick shipments practically nil. Last week it was stated that some irregularity existed in the division of the market most susceptible to the influence of the export trade; this irregularity is still apparent and the tone in cotton yarns is as easy this week as last. It has been noticeable that manufacturers in some directions are willing to book orders for the more distant deliveries at a considerable discount from prices current for spot or near positions, particularly in goods for converting purposes; but there is no evidence of weakness in finished fabrics or any delivery for which buyers are desirous of placing orders. Conditions outside of the actual market, such as the course of raw material, the financial situation, &c., play little part in current business; nor does it seem likely that they will become active factors for some time to come, or while the present scarcity of supplies continues. The woolen goods division shows few of the characteristics distinguishing cotton goods, and in this buyers have no difficulty in securing needful supplies.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending April 20 were 2,574 packages, valued at $193,186, their destination being to the points specified in the table below:

New York to April 20.	1907 Week.	1907 Since Jan. 1.	1906 Week.	1906 Since Jan. 1.
Great Britain	8	834	2	373
Other European	4	246	6	571
China	----	6,923	----	40,596
India	150	4,173	----	3,730
Arabia	----	16,223	2,917	12,911
Africa	4	3,295	442	3,555
West Indies	407	7,998	236	7,399
Mexico	17	763	28	679
Central America	360	5,252	300	5,119
South America	919	16,571	661	19,164
Other countries	705	12,665	195	4,611
Total	2,574	74,943	4,787	98,708

The value of these New York exports since Jan. 1 has been $4,714,786 in 1907, against $5,423,462 in 1906.

There have been reports of some inquiries coming to the market for heavy brown cottons for China, but they have failed to find expression in the shape of actual business, and export grades of both brown sheetings and drills continue irregularly in favor of buyers. Weights desirable for home consumption are still scarce and firm for near deliveries, with some sellers willing to consider bids for more distant positions at prices below current quotations. In print-cloth yarn goods this feature is quite noticeable, but both regular print cloths and other constructions are very firm for spots and for deliveries over the summer; regulars are quoted unchanged at 4½c. Business in prints has again been liberal in comparison with the supplies available, with sellers careful in taking forward orders. The printed fabrics also are easier to sell than to buy. Ginghams in all grades are strong, with some of the lower-priced dress ginghams advanced about 5%. As noted last week, bleached muslins are nearly all held at value, and on that condition orders are coming forward quite freely. Fine grades are not obtainable at first hands in any quantity, and many lower qualities have worked into a like position. The market for napped and coarse, colored cottons has not presented any new feature of importance, conditions being against buyers and current business moderate. Linings and other converted goods are in steady request at firm prices.

WOOLEN GOODS.—A slight improvement is reported this week in the orders coming to handfor men's wear woolen and worsted trouserings and suitings; but the increase has again failed to satisfy sellers' expectations. Most of the business coming forward is in the medium grades of woolen goods. These are as a rule well sold in qualities up to $1 50 per yard, and an occasional agent is so well placed that some advance in price is probable in the near future. The indications of greater favor towards worsted fabrics, recently noted, have hardly been forthcoming this week, the re-orders being of quite moderate extent. Sellers are evidently making progress with their spring lines for next year, but as yet few samples have been put out in the market. When samples are fully shown, all wool fancies will, it is expected, again figure prominently. Re-orders for overcoatings have been indifferent again, and this division of the market continues unsatisfactory. In woolen and worsted dress goods business has reached fully average proportions, voiles, panamas and broadcloths being in best request.

FOREIGN DRY GOODS.—Imported woolen and worsted dress goods and men's wear fabrics have passed through a quiet week without special feature. Silks and ribbons are firm, with a fair demand. Linens continue very strong for both immediate and more distant delivery. Burlaps are still tending upwards, with demand in excess of supply.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending April 20 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

STATE AND CITY DEPARTMENT.

News Items.

Cleveland, Ohio.—*Future Bond Issues Must Be Authorized by Vote.*—The State Supreme Court on April 16 sustained the ruling first made by Judge Phillips and later upheld by the Circuit Court that the city had reached the limit of bonds which could be put out under the Longworth Act (Sections 2835, 2835b, 2836 and 2837 of Revised Statutes) without first being authorized by a vote of the people. Improvements to be made hereafter can be provided for only by bond issues which have been sanctioned by the people, the law specifying that two-thirds majority is necessary to authorize. Local papers state that some of the bonds which were to have been put on the market are as follows: General sewers, $275,000; intercepting sewers, $275,000; new market house, $100,000; new city-hall, $250,000; parks, $275,000; new workhouse, $175,000; tuberculosis and contagious disease hospital at Warrensville, $143,000; two new fire-engine houses, $40,000; street-openings, $20,000; new appliances at garbage plant, $20,000, and boy's farm at Hudson, $10,000. In addition to these securities, upwards of ten million dollars of bonds are contemplated for rebuilding the Central Viaduct, for bridge building, for improvements on the lake front and for the abolition of grade-crossings.

Connecticut.—*House Passes Bill Regarding Savings Deposits in Banks and Trust Companies.*—The House has passed the bill regulating the investment of savings deposits of banks and trust companies which maintain a savings department. The text of this bill was given in full in V. 84, p. 949.

Maine.—*Amendments to Savings Bank Law.*—The Legislature of 1907 made numerous changes in the savings bank investment law by an Act approved by the Governor March 18. The law as it now stands is given below, that portion of the old law omitted being indicated by brackets, while the new portion is italicized.

SECTION 23. Savings banks and institutions for savings are restricted to and hereafter may invest their deposits as follows:

First, *a*. In the public funds of the United States and District of Columbia.

b. In the public funds of any of the New England States and of the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas [and] Nebraska, *California, Oregon and Washington.*

Second, *a*. In the bonds of the counties, cities and towns of any of the New England States.

b. In the bonds of cities and districts in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas [and] Nebraska, *California, Oregon and Washington*, having a population of seventy-five thousand or more, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein.

c. In the bonds of counties of twenty thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas [and] Nebraska, *California, Oregon and Washington*, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein except when issued in aid of railroads, provided that the net municipal indebtedness of such county does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

d. In the bonds of any city of ten thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas [and] Nebraska, *California, Oregon and Washington*, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein except when issued in aid of railroads, provided that the net municipal indebtedness of such city does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

e. In the refunding bonds of counties and cities above enumerated issued to take up at maturity bonds which were legal and constitutional when issued, provided that the interest has been fully paid on such original bonds for at least five years last prior to such refunding; provided, further, that such counties and cities can otherwise meet the foregoing conditions.

f. In the bonds and obligations of school district boards, boards of education and other corporate bodies within such cities, authorized to issue bonds payable primarily from taxes levied on all the taxable property in said district; provided that the population of the district is ten thousand or more, and the population and assessed valuation of the district are equal to at least 90% of the population and the assessed valuation of the city within which such district is located; provided, further, that the net municipal indebtedness of such district does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

g. In the bonds or obligations of any municipal or quasi-municipal corporation of this State, when such securities are a direct obligation on all the taxable property of said corporation.

Third, *a*. In the railroad bonds of this State.

b. In the first mortgage bonds of any completed railroads of the States of New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska.

c. In the first mortgage bonds of the Central Pacific, Union Pacific and Northern Pacific railroads.

d. In the mortgage bonds of any railroad leased to any dividend-paying railroad in New England upon terms guaranteeing the payment of a regular stated dividend upon the stock of such leased road and the interest on its bonds.

e. Street railroad companies are not railroad companies within the meaning of the foregoing clauses of this section.

f. In the bonds of street railroads constructed in this State prior to April 27 1895, and in bonds of street railroads in this State constructed after said date, and in the first mortgage bonds of any completed street railroad in the States of New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska; provided that in the case of street railroads constructed in this State after April 27 1895, and in the case of street railroads in the States above named, an amount of capital stock equal to 33 1-3% of the mortgaged debt shall have been paid in, in cash, and expended upon the road, evidenced by a certificate of the Railroad Commissioners of the State where the road is located, filed in the office of the Secretary of State of this State, that said percentage has been so paid in and expended in addition to the amount of the bonded debt; provided, further, that in such of the above States as have no railroad commissioners having supervision of street railroads the bank examiner of this State may ascertain the facts and if they meet the foregoing requirement may file certificate thereof with the Secretary of State: *provided, further, that when, for any reason, it is impossible to obtain a certificate that an amount of capital stock equal to one third of the bonded debt has been paid in, in cash, in lieu thereof, such bonds may be certified as legal for the purpose hereof, on satisfactory proof to the bank examiner that annual dividends in amount equal to five per centum per annum on an amount of capital stock equal to one third of the bonded debt has been earned and paid for a period of five years next prior thereto;* and all the expenses and compensation of the bank examiner for such service shall be paid by the railroad company seeking to make its bonds a legal investment under this section, whether the same are admitted or not. *No bonds secured by an open mortgage shall be legal under this section unless the mortgage provides that the total amount of bonds certified and outstanding under it shall at no time exceed seventy five per cent of the amount of cash expended upon the road.*

g. *In consolidated or refunding bonds which are of an issue to retire the entire funded debt under the conditions as applied to first mortgage bonds in clauses b, c and f of this sub-division, and which are secured by a first mortgage on the whole or any part of the system.*

Fourth. In the mortgage bonds of any water company in the New England States actually engaged in supplying any city or cities, town or towns, village or villages, or other municipal corporations, with water for domestic use and for the extinguishment of fires, whenever such company is earning more than its fixed charges and interest on its debts and its running expenses.

Fifth. In bonds of any corporation other than railroads and water companies incorporated under the authority of this State and actually conducting in this State the business for which such corporation was created, which are earning and are paying a regular dividend of not less than 5% a year.

Sixth, *a*. In the stock of any bank or banking association incorporated under the authority of the State.

b. In the stock of any bank or banking association incorporated under the authority of the United States, if located within the New England States.

c. In the stock of any railroad company of this State unencumbered by mortgage.

d. [In the stock of any dividend-paying railroad in New England.] *In the bonds, stock or notes of any railroad in New England which has earned and paid an annual dividend equivalent to five per cent on a capital stock equal to one-third of its funded debt for a period of ten years next prior thereto, and in the stock or notes of the New York Central & Hudson River, the Illinois Central, the Lake Shore & Michigan Southern and the Pennsylvania Railroad companies.*

e. In the stock of any railroad leased to any dividend-paying railroad in New England upon terms guaranteeing the payment of a regular stated dividend upon the stock of such leased road and the interest on its bonds.

f. In the stock of any corporation other than railroad and water companies, incorporated under authority of this State, and actually conducting in this State the business for which such corporation was created, which earns and is paying a regular dividend of not less than 5% a year.

Seventh, *a*. In loans secured by first mortgages of real estate in this State and New Hampshire to an amount not exceeding 60% of the value of such real estate.

b. In notes with a pledge as collateral of any [public funds or bonds of any kind or of any stocks] *funds, bonds, notes or stocks* which the bank or institution would, by this section, be authorized to purchase: *provided the market value of said collateral is equal to the amount of the loan.*

c. In notes with a pledge as collateral of any savings bank deposit book issued by any savings bank in this State.

d. In notes with a pledge as collateral [of the stock of any railroad or railroads mentioned in this section] *of such funds, bonds, notes or stocks as in the judgment of the trustees it is safe and for the interest of the bank to accept*, to an amount not exceeding 75% of the market value of such [stock] *funds, bonds, notes or stocks.*

e. In loans to any municipal corporation in this State.

f. In loans secured by a mortgage of such personal property as in the judgment of the trustees it is safe and for the interest of the bank to accept.

g. In loans to any corporation owning real estate in this State and actually conducting in this State the business for which such corporation was created.

Eighth, *a*. The term "net municipal indebtedness of counties" as used in this section shall be construed to include all bonds which are a direct obligation of the county less the amount of any sinking fund available in the reduction of such debt.

b. The term "net municipal indebtedness of cities and districts," as used in this section, shall be construed to include in the case of either not only all bonds which are a direct obligation of the cities, but also all bonds of the districts or boards within the same, as above enumerated, exclusive of any such debt created for a water supply and of the amount of any sinking fund available in reduction of such debt.

c. The number of inhabitants of cities and counties shall be determined by the last previous official census thereof, as established by the last United States or State census or city or county census taken in the same manner as United States or State census and duly certified to by the clerk or treasurer of such city or the auditor or treasurer of such county.

Ninth. All investments shall be charged and entered on the books of the bank at their cost to the bank or at par when a premium is paid.

SECTION 24. Any such bank or institution may hold real estate in the city or town in which such bank or institution is located to an amount not exceeding 5% of its deposits or to an amount not exceeding its reserve fund.

SECTION 25. No such bank or institution shall hold by way of investment, or as security for loans, or both, more than one-fifth of the capital stock of any corporation, nor invest more than 10% of its deposits, not exceeding sixty thousand dollars, in the capital stock or notes of any corporation, nor have more than 50% of its deposits in mortgages of real estate. This section and the two preceding do not apply to real estate, or other assets, acquired by the foreclosure of a mortgage thereon, or upon judgment for debts, or in settlements to secure debts. *This section does not apply to bonds enumerated in the first five sub-divisions of section twenty-three of this chapter.*

SECTION 26. Savings banks and institutions for savings may deposit on call in banks or banking associations incorporated under the authority of this State, or the laws of the United States, and receive interest for the same.

SECTION 27. The trustees shall see to the proper investment of deposits and funds of the corporation in the manner hereinbefore prescribed. No loan shall be made directly or indirectly to any officer of the corporation or to any firm of which such officer is a member.

Minnesota.—*Legislature Adjourns.*—The Legislature of this State adjourned April 24.

New York City.—*Estimated Cost of Improvements.*—Chief Engineer Lewis recently submitted to the Board of Estimate and Apportionment an estimate of the cost of improvements already authorized by the Board or now pending, or of which the Board has knowledge, or for which it will be called upon to provide before Jan. 1 1910. For description of bonds see V. 84, p. 766, 828 and 885.

Lakewood Township School District (P. O. Lakewood), Ocean County, N. J.—*Bond Offering.*—Further details are at hand relative to the offering on May 3 of the $15,000 5% coupon school-building-addition bonds mentioned in V. 84, p. 954. Proposals for these securities will be received until 8:30 p. m. on that day by the Board of Education. Denomination $1,000. Date June 1 1907. Interest semi-annually at the Lakewood Trust Co. of Lakewood. Maturity $1,000 yearly on June 1 from 1908 to 1922 inclusive. Bonds are exempt from taxation. Certified check for $500, payable to the Board of Education, is required. Bonded debt, including this issue, $34,000. Assessed valuation $5,066,125.

Latonia, Kenton County, Ky.—*Description of Bonds.*—We are informed that the $2,100 Park Avenue improvement bonds awarded on April 16 to the Central Savings Bank & Trust Co. of Covington at 104.523 (V. 84, p. 954) carry 6% interest, payable semi-annually. Denomination $100. Date April 16 1907. Maturity April 16 1917, subject to call after April 16 1912.

Latta School District No. 20 (P. O. Latta), Marion County, S. C.—*Bond Offering.*—Proposals will be received until 12 m., June 1, by J. C. Bethea, Secretary and Treasurer, for the $14,000 5% school-building bonds mentioned in V. 84, p. 954. Denomination $500. Interest semi-annually Jan. 1 and July 1. Certified check for 5% of the bonds, payable to J. C. Bethea, Secretary and Treasurer, is required.

Leesburg, Highland County, Ohio.—*Bond Sale.*—On April 13 the $4,000 4½% water-works bonds described in V. 84, p. 886, were awarded to Otis & Hough of Cleveland at 103.40 and accrued interest.

Lewisburg, Marshall County, Tenn.—*Bond Election.*—An election will be held April 30 to vote on the question of issuing $40,000 5% water-works-system bonds.

Lewiston School District No. 13, Cache County, Utah.—*Bond Offering.*—Proposals will be received until May 1 by Herman H. Danielsen, District Clerk, for $19,750 5% gold school bonds. Authority Chapter 14, Title 55, of Revised Statutes of 1898 as amended by Chapter 17, Laws of 1901, and Chapter 57, Laws of 1905; also vote of 63 to 4 at election held March 18 1907. Denomination $500, except five bonds for $50 each. Date July 1 1907. Interest semi-annually at the Lewiston State Bank of Lewiston. Maturity July 1 1927, subject to call after July 1 1912. Certified check for 5% of bid is required. The district has no debt at present. Assessed valuation 1906 $494,353.

Lloydminster, Sask.—*Debenture Sale.*—On April 2 $6,500 5½% debentures were awarded to Nay, Anderson & Co., of Regina, for $6,523—the price thus being 100.353.

Magnolia, Pike County, Miss.—*Bond Offering.*—Further details are at hand relative to the offering on May 15 of the $25,000 5% school-building bonds mentioned in V. 84, p. 954. Proposals for these securities will be received until 8 p. m. on that day by A. L. Lazar, Town Clerk. Authority, Section 3415, Code of 1906; also vote of 81 to 2 cast at election held April 8 1907. Denominations $100 and $500. Date June 1 1907. Interest annually at the Magnolia Bank. Maturity $100 yearly on June 1 from 1908 to 1926 inclusive and $23,100 June 1 1927. Bonded debt at present $24,800. Assessed valuation $718,777. Official circular states that no bonds have been contested and that there is no controversy or litigation pending affecting the corporate existence or titles of its present officials.

Mahoning County (Ohio) Road District No. 1.—*Bond Sale.*—On April 20 the $100,000 5% coupon road-improvement bonds described in V. 84, p. 766, were awarded to Rudolph Kleybolte & Co. and the Provident Savings Bank & Trust Co., both of Cincinnati, for their joint bid of 105.562—a basis of about 4.152%. Following are the bids:

5,200 4½% debentures dated May 1 1907. Maturity part yearly for thirty years.
1,771 21 4½% debentures dated Dec. 20 1906. Maturity part yearly for twenty years.

W. C. Perry is Town Clerk.

Nampa Independent School District No. 37, Canyon County, Idaho.—*Bond Offering.*—Proposals will be received until 8 p. m. May 18 by Ida Hammond, District Clerk, for $15,000 5% gold coupon school-building bonds. Authority election held March 14 1907. Denomination $1,000. Date June 1 1907. Interest January and July at the Hanover National Bank in New York City. Maturity June 1 1927, subject to call after June 1 1917. Bonds are tax exempt. Certified check for $500, payable to Ida Hammond, District Clerk, is required. Bonded debt, including this issue, $57,500. Assessed valuation $787,000.

Napoleon, Henry County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. May 20 by F. W. Hilgendorff, Village Clerk, for the following bonds:

$4,320 5% coupon Park Street special assessment sewer bonds. Denomination $864.
1,650 5% coupon Cary Street special assessment sewer bonds. Denomination $330.

Date March 1 1907. Interest semi-annually at the village Treasurer's office. Maturity one bond of each issue yearly on March 1 from 1908 to 1912 inclusive. New York draft for $100, payable to the Village Treasurer, is required. Purchaser to furnish blank lithographed bonds at his own expense.

Nashville, Tenn.—*Bond Election.*—A bill providing for the submission to a vote at the next general election of a proposition to issue $300,000 park bonds has been passed by the Council.

Newbern, Dyer County, Tenn.—*Bonds Voted—Bond Offering.*—An election held April 16 resulted in favor of a proposition to issue $25,000 5% school-building and $25,000 5% street-paving bonds. Proposals for these bonds will be received unitl 2 p. m., May 21, by Wm. A. Shibley, Cashier of Farmers' & Merchants' Bank of Newbern. Denomination $1,000. Interest semi-annually. Maturity thirty years. Certified check for $2,000, payable to the Mayor and Alderman, is required. H. J. Swindler is Mayor.

New Haven Township (P. O. New Haven), Huron County, Ohio.—*Corrected Maturity.*—In the offering published in last week's issue of the $15,000 6% road-improvement bonds, we gave the maturity of only $14,500 of the bonds—the $500 maturing May 7 1908 having been inadvertently omitted. The following is the correct maturity: $500 on May 7 in each of the years 1908 and 1909, $1,000 on May 7 1910, $1,500 on May 7 1911, $3,500 on May 7 1912 and $4,000 on May 7 in each of the years 1913 and 1914. These securities are coupon in form and are exempt from all taxation. The sale of these bonds will take place on May 7, and further details of the offerings will be found in V. 84, p. 955. Bonded debt, including this issue, $26,000. Assessed valuation 1906, $1,540,000.

Niborg, Turner County, So. Dak.—*Bonds Not Sold.*—No sale was made on April 22 of the $5,000 5% 20-year coupon water-works bonds described in V. 84, p. 830.

North Olean (P. O. Station No. 1, Olean), Cattaraugus County, N. Y.—*Bond Sale.*—The $60,000 2-26-year (serial) registered sewer bonds described in V. 84, p. 886, were awarded to W. J. Hayes & Sons of Cleveland at 100.15 for 4½s—a basis of about 4.486%. The following bids were received:

W. J. Hayes & Sons, Cleveland (for 4½s)----100.15
G. M. Hahn, New York (for 4.70s)----100.13
O'Connor & Kahler, N. Y. (for 4.75s)----100.041

Norwood, Hamilton County, Ohio.—*Bond Sale.*—On April 8 the two issues of 4½% 25-year sanitary and storm-water-sewer coupon bonds, aggregating $29,000, and described in V. 84, p. 648, were awarded to Weil, Roth & Co. of Cincinnati at 110⅜.

Okanogan County (Wash.) School District No. 9.—*Bond Offering.*—Proposals will be received until 10 a. m. to-day (April 27) by P. H. Pinkston, County Treasurer (P. O. Conconully) for $400 gold coupon building bonds at not exceeding 4% interest. Denomination $200. Interest payable at the office of the County Treasurer. Maturity five years. Bonds are exempt from taxation. Certified check for 1%, payable to the County Treasurer, is required.

Omaha, Douglas County, Neb.—*Bond Offering.*—Proposals will be received until 3 p. m. April 29 by Robt. O. Fink, City Treasurer, for $69,000 4½% coupon street-improvement bonds. Authority Section 198, Charter of 1905. Denomination $500. Date May 1 1907. Interest annually at the Fiscal Agency in New York City. Maturity $2,000 on May 1 in each of the years 1909 and 1910; $5,500 on May 1 1911; $6,000 on May 1 1912; $8,000 on May 1 1913; $10,500 on May 1 1914; $14,500 on May 1 1915 and $20,500 on May 1 1916. Certified check for $1,000, drawn on a national bank and payable to the City of Omaha, is required.

Oronogo School District (P. O. Oronogo), Jasper County, Mo.—*Bond Offering.*—Proposals will be received until 4 p. m., May 1, by J. L. Russell, Secretary School Board, for $6,000 6% coupon school-building bonds. Denomination $1,000. Date June 1 1907. Interest semi-annually at place to suit purchaser. Maturity twenty years, subject to call after ten years. Bonds are exempt from taxation. Bonded debt this issue. Assessed valuation, $216,380.

Palmer, Hampden County, Mass.—*Bond Offering.*—Proposals will be received until 7 p. m. May 6 by the Town Treasurer for $30,000 4¼% coupon grammar-school-loan bonds. Authority election held March 25 1907. Date June 1 1907. Interest semi-annually in Boston. Maturity $3,000 yearly on June 1 from 1908 to 1917 inclusive.

Paulding County (P. O. Paulding), Miss.—*Bond Offering.*—Proposals will be received until 12 m., May 6, by T. Q. Brame, County Clerk, for $35,000 5% court-house and jail-erection bonds. Denomination $500. Date May 1 1907. Interest semi-annual. Maturity May 1 1927, subject to call after May 1 1912. Certified check for 5% of the amount of bonds bid for is required.

Pittsburgh, Pa.—Washington Sub-School District.—*Bond Offering.*—Proposals will be received up to May 2 by Wm. G. Thomas, Secretary, or Edw. Davison Jr., President, for $60,000 4% bonds. Denomination $1,000. Date July 1 1907. Interest semi-annually at the Arsenal Bank of Pittsburgh. Maturity $5,000 yearly on July 1 from 1912 to 1923 inclusive.

Plano, Collin County, Tex.—*Bonds Registered and Sold.*—The State Comptroller on April 4 registered $4,500 5% water-works-improvement bonds. Denomination $500. Date March 1 1907. Interest annual. Maturity March 1 1947, subject to call after March 1 1922. These securities, we are informed, have already been disposed of.

Plymouth Township (P. O. Plymouth), Richland County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. May 21, by Albert Kirkpatrick, Township Clerk, for $15,000 5% coupon road-improvement bonds. Authority an Act of General Assembly passed April 22 1904. Denomination $500. Date May 21 1907. Interest semi-annually March 1 and September 1. Maturity $2,000 on Sept. 1 1908, $1,000 on Sept. 1 each of the years 1909 and 1910; $500 on Sept. 1 1911; $1,000 on Sept. 1 1912; $500 on Sept. 1 1913; $1,000 yearly on Sept. 1 from 1914 to 1920 inclusive; $1,500 on Sept. 1 1921, and $500 on Sept. 1 1922. All bids must be unconditional. Accrued interest to be paid by purchaser who will also be required to furnish blank bonds at his own expense. Certified check for $200, drawn on some bank in Plymouth, is required.

Providence, Providence County, R. I.—*Bond Sale.*—The $300,000 3½% gold school bonds mentioned in V. 84, p. 955, have been awarded to the Board of Commissioners of the Sinking Funds at par. Denomination $1,000, $5,000, $10,000 and $20,000. Date May 1 1907. Interest semi-annually at the City Treasurer's office. Maturity May 1 1937

Pueblo, Pueblo County, Col.—*Bond Sale.*—Reports state that this city on April 13 awarded an issue of $136,000 4½% 10-20-year (optional) refunding bonds to E. H. Rollins & Co. of Denver at 100.625 and accrued interest.

Ramsey County (P. O. St. Paul), Minn.—*Bond Sale.*—The following bids were received on April 22 for the $40,000 4% 7-year coupon refunding bonds described in V. 84, p. 955:

Scandinavian-American Bank, St. Paul----$40,100 10
Emery, Anderson & Co., Cleveland---- 40,000 00
Harris Trust & Savings Bank, Chicago----a40,000 00

a Less $290 expenses.

Robertson County (P. O. Springfield), Tenn.—*Bond Offering.*—Proposals will be received until 12 m. June 1 by Chas. E. Bell, Secretary, for $150,000 4% coupon pike bonds. Securities will be dated July 1 1907. Interest semi-annual. Maturity thirty years, subject to call after twenty years. The county has no debt at present. Assessed valuation $5,556,570.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Rushsylvania Union School District (P. O. Rushsylvania), Logan County, Ohio.—*Bond Offering.*—Proposals will be received until 1 p. m. May 11 by C. E. Huston, Clerk Board of Education, for $12,000 4% school-building bonds. Authority Sections 3991 and 3992 of the Revised Statutes of Ohio. Date May 18 1907. Interest semi-annual. Maturity as follows:

$1,600—one bond of $200 each six months from March 15 1908 to Sept. 15 1911 inclusive.
2,000—one bond of $250 each six months from March 15 1912 to Sept. 15 1915 inclusive.
2,400—one bond of $300 each six months from March 15 1916 to Sept. 15 1919 inclusive.
2,800—one bond of $350 each six months from March 15 1920 to Sept. 15 1923 inclusive.
3,200—one bond of $400 each six months from March 15 1924 to Sept. 15 1927.

Accrued interest to be paid by purchaser. Certified check for 5% of the amount of bonds bid for, payable to the Treasurer of the Board of Education, is required. These bonds take the place of those awarded on April 5 to the Citizens' Bank Co. of Rushsylvania and the Commercial & Savings Bank Co. of Bellefontaine (V. 84, p. 887), which sale was never consummated, owing to an error in the first advertisement.

St. Mathews School District No. 8 (P. O. St. Matthews), Orangeburg County, S. C.—*Bond Offering.*—Proposals will be received until 12 m., May 15, by the Board of Trustees

for $10,000 5% 20--40year (optional) coupon school bonds. Denomination $500. Interest annually July 1. J. H. Loryea is District Clerk.

Salem, Harrison County, W. Va.—*Bonds Not Yet Sold.*—No sale has yet been made of the $31,500 5% 34-year water-works, paving and sewer bonds offered without success on March 14 and again on April 11 1907. See V. 84, p. 410, for description of bonds.

Sandusky, Erie County, Ohio.—*Bond Sale.*—On April 25 the $22,000 4% 10-year coupon Monroe and East and West Park Street (city's portion) paving bonds, a description of which was given in V. 84, p. 829, were awarded, it is stated, to Seasongood & Mayer of Cincinnati for $22,289 50, the price thus being 101.315—a basis of about 3.841%.

Schenectady, Schenectady County, N. Y.—*Bond Offering.*—Proposals will be received until 11 a. m. May 28 by O. S. Luffman, City Comptroller, for the following bonds:

$30,000 4½% registered school bonds. These securities are part of an issue of $60,000 bonds maturing $3,000 yearly on June 1 from 1909 to 1918 inclusive and $30,000 on June 1 1927. The $30,000 maturing $3,000 yearly on June 1 1909 from to 1917 inclusive will be taken at par by the water debt sinking fund as an investment.

370,000 4½% registered sewer bonds. Maturity June 1 1927.

Authority Section 96, Chapter 371, of the Laws of 1903. Denomination $1,000. Date June 1 1907. Interest semi-annual. Certified check for 2% of bonds bid for, payable to the City Comptroller, is required. Accrued interest to be paid by purchaser. Bonds will be certified to as to genuineness by the United States Mortgage & Trust Co. and their legality has been approved by J. H. Caldwell, Esq., of New York City.

Scranton, Lackawanna County, Pa.—*No Action Yet Taken.*—We are advised under date of March 19 that no further action has yet been taken on the Mayor's recommendation to issue the $1,000,000 street-improvement bonds mentioned in V. 84, p. 528.

Second Drainage District of Pointe Coupee Parish, La.—*Bond Offering.*—Proposals will be received until 10 a. m. May 22 (date changed from April 27, owing to an error in original advertisement) by N. P. Phillips, President of Board of Commissioners (P. O. Torras), for $25,000 5% bonds. Denominations: 20 bonds of $500 each, 40 bonds of $250 each and 50 bonds of $100 each. Interest semi-annual. Bonds mature in 1925. Certified check for 5% of the amount bid, payable to the President of the Board of Commissioners, is required. Assessed valuation, $1,463,024. Real value, (estimated), $4,389,072.

Shawville, Pontiac County, Que.—*Debenture Offering.*—Proposals will be received until May 10 by W. W. Ireland, Secretary-Treasurer, for $25,000 5% 40-year water-works and sewerage-system debentures. Interest semi-annual.

Shelby, Cleveland County, No. Caro.—*Bonds Not to Be Issued at Present.*—We are informed that it has been decided not to issue the $115,000 water-works and sewerage bonds mentioned in V. 84, p. 588, until about July 1.

Sherburne County (P. O. Elk River), Minn.—*Bond Sale.*—On April 22 the $7,000 5% coupon drainage bonds described in V. 84, p. 956, were awarded to the Bank of Elk River at 101 and accrued interest. The following bids were received:

Bank of Elk River, Elk River..$7,070 | Minnesota Loan & Trust Co., M. M. Stoddard, Minneapolis.. 7,060 | Minneapolis $7,055

Snake River Valley Irrigation District (P. O. Shelley), Idaho.—*Bonds Not Sold.*—No sale was made on April 15 of $275,000 5% coupon canal bonds offered by this district. These securities are now being offered at private sale. Authority vote of 113 to 13 at election held March 16 1907. Denominations: 270 bonds of $1,000 each, three of $800, one of $700, two of $500 and three of $300 each. Date July 1 1907. Interest semi-annual. Maturity from 11 to 20 years, inclusive, as provided by the Idaho Irrigation Law. The district has no bonded debt at present. It consists of about 25,000 acres, with an average valuation of about $40 per acre. The estimated population is 3,000.

Syracuse, Onondaga County, N. Y.—*Bid Rejected.*—An offer of 101.12 and interest was received on April 24 from H. T. Leake for the $225,000 4% registered high-school bonds described in V. 84, p. 887. This bid was rejected.

Tecumseh, Johnson County, Neb.—*Bids Rejected.*—*Bond Offering.*—All bids received April 16 for the $12,750 4½% 10-20-year (optional) electric-light-plant bonds described in V. 84, p. 768, were rejected. Proposals are again asked

NEW LOANS

$250,000

City of Allegheny, Pa.,

Judgment Fund Bonds

Office of the Comptroller,
City of Allegheny,
April 18, 1907.

Sealed proposals will be received at this office until 3 p. m., April 29, 1907, for the purchase of the whole or any part of two hundred fifty thousand dollars judgment fund bonds of the city of Allegheny, Pa. Said bonds are a part of an issue of four hundred thousand dollars judgment fund bonds to be issued by said city. One hundred and fifty thousand dollars of which will be taken by the Sinking Fund Commission of said city of Allegheny. Said bonds will bear date April 1, 1907, and will mature as follows:

$16,000 00 payable April 1, 1912, and bonds in the aggregate amount of $16,000 00 payable on the first day of April of each year thereafter for a period of twenty-four years. Said bonds will be issued in denominations of one hundred dollars each or multiples thereof to suit purchasers.

The above bonds will bear interest at the rate of four per cent per annum Interest payable semi-annually on the first days of October and April in each year at the office of the Comptroller in the city of Allegheny, Pa., or mailed by check to the registered holder thereof wherever purchasers may select.

A certified check on a national bank payable to the order of the City Treasurer of the City of Allegheny, Pa., for five per cent of the amount of bonds bid for, must accompany each proposal. In case of award said deposit will at the time of delivery of bonds be credited on payment of bonds purchased; check will be returned to unsuccessful bidders. Purchasers must pay to the city accrued interest on bonds to date of depositing money.

The above bonds will be awarded to the bidder whose proposal will be most favorable to the city. The right is reserved to reject any and all bids not deemed for the interest of the city.

Bids will be opened by the Mayor and Comptroller in the office of the Comptroller in the city of Allegheny, Pa., on the 29th day of April, 1907, at 3:15 o'clock p. m.

All proposals must be indorsed "Proposals for City of Allegheny Bonds" and be addressed to

JAMES BROWN,
Comptroller.

NEW LOANS.

$1,000,000

City of Allegheny, Pa.,

$33,000 00 payable each year for a period of nineteen years thereafter.

$34,000 00 payable April 1, 1928.

$34,000 00 payable on the first day of April of each year for a period of nine years thereafter.

Said bonds will be issued in denominations of one hundred dollars each or multiples thereof to suit purchasers.

The above bonds will bear interest at the rate of four per cent per annum; interest payable semi-annually on the first days of October and April in each year at the office of the Comptroller in the city of Allegheny, Pa., or mailed by check to the registered holder thereof wherever purchasers may select.

A certified check on a national bank, payable to the order of the City Treasurer of the city of Allegheny, Pa., for five per cent of the amount of bonds bid for, must accompany each proposal. In case of award said deposit will at the time of delivery of bonds be credited on payment of bonds purchased; check will be returned to unsuccessful bidders. Purchasers must pay to the city accrued interest on bonds to date of depositing money.

The above bonds will be awarded to the bidder whose proposal will be most favorable to the city. The right is reserved to reject any and all bids not deemed for the interest of the city. Bids will be opened by the Mayor and Comptroller at the office of the Comptroller in the city of Allegheny, Pa., on the 29th day of April, 1907, a 3:15 o clock p. m.

All proposals must be indorsed "Proposals for City of Allegheny Bonds" and be addressed to

JAMES BROWN,
Comptroller.

NEW LOANS.

$1,000,000

CITY OF CHARLESTON, S. C.,

4% 30-Year Bonds

The City of Charleston proposes to offer One Million Dollars ($1,000,000) of 30-year bonds, with interest at 4 per cent, payable semi-annually, on the 1st of July and January, under the authority of an Act of the General Assembly, entitled,

An Act to authorize the City Council of Charleston, S. C., to issue Coupon Bonds at a rate of interest not exceeding 4 per cent per annum, for the purpose of taking up or exchanging the 4 per cent coupon bonds of said city, maturing on January 1 and July 1, 1909," approved on the 13th day of February, 1907.

And of an Ordinance of the City of Charleston entitled, "An Ordinance to provide for issuing Coupon Bonds with interest at the rate of 4 per cent per annum for the purpose of taking up or exchanging the 4 per cent Coupon Bonds maturing on January 1 and July 1, 1909," ratified on the 12th day of March, 1907; " in exchange for One Million Dollars ($1,000,000) of the aforesaid 4 per cent City of Charleston 4 Per Cent Coupon Bonds, maturing January 1 or July 1, 1909, with all coupons on the said bonds falling due subsequent to July 1, 1907, and for this purpose invites the following:

Sealed bids will be received by the City Treasurer on or before 12 o'clock on WEDNESDAY, MAY 15, 1907.

FIRST.—For the purchase of all or any portion of an issue of $1,000,000 of the aforesaid 30-year 4 Per Cent Bonds; the principal payable in 4 Per Cent Coupon Bonds of the City of Charleston, maturing January or July, 1909, with all Coupons thereon falling due subsequent to July 1, 1907; and any premium bid payable in cash; settlements to be made on July 1, 1907.

SECOND.—For the purchase of all or any portion of an issue of $1,000,000 of the aforesaid 30-year 4 Per Cent Bonds, payable in cash; said bonds, however, to be issued upon cancellation of similar amounts of the 4 Per Cent Coupon Bonds of the City of Charleston, falling due January 1 or July 1, 1909, which may be held by the City of Charleston, or purchased under the terms of the bid next hereafter called for.

THIRD.—For the sale of portion of the present issue of 4 Per Cent Coupon Bonds of the City of Charleston maturing July 1 or January 1, 1909, not exceeding $1,000,000, with all Coupons thereto attached falling due after July 1, 1907, payable in cash on the first day of July, 1907.

In the event of over-subscription at acceptable figures in any of the above cases a proportionate allotment will be made.

Each successful bidder will be required to deposit with City Treasurer within 24 hours a satisfactory Surety Bond or a certified check for 5 per cent of the amount of bid awarded to him as security for his compliance with the terms of the bid; and in the event of non-compliance, sealed bids to be called for at a period not less than 15 days for the amount defaulted on, and any loss to the city by reason of the re-sale to be deducted out of the deposit or to be paid by the makers or sureties on the bonds of bidders.

In the event of any bidder not depositing a certified check or a bond within 24 hours, the city to have the right either of cancelling the said bid and of accepting that of another bidder, or of holding the bidder liable thereon.

The city further reserves the right to reject any or all bids made.

These Bonds are exempt from State, County and City Taxes, and in the hands of banks in Charleston exempt their shareholders from all taxes to the extent of the holding as is now the case with 4½ per cent Brown State Bonds.

$27,677 04 4% registered temporary loan bonds. Denomination $5,000, except one bond for $2,677 04. Loan matures June 1 1910.
275,000 00 4% registered court-house bonds. Denomination $5,000. Maturity $20,000 on June 1 1926, $25,000 on June 1 1927, $35,000 on June 1 1928, $25,000 on June 1 1929, $15,000 on June 1 of each of the years 1930, 1931 and 1933; $35,000 on June 1 1934, $40,000 June 1 1935 and $50,000 on June 1 1936.
64,579 75 4% registered funding bonds. Denomination $5,000, except one bond of $4,579 75. Maturity $24,579 75 on June 1 1928 and $20,000 on June 1 of each of the years 1931 and 1933.

Securities are dated June 1 1907. Interest semi-annually at the County Treasurer's office in White Plains. Certified check for 5% of bonds bid for, drawn on a State or national bank or trust company, is required. These securities will be certified to as to their genuineness by the United States Mortgage & Trust Co. of New York City.

Westerville, Franklin County, Ohio.—*Bond Sale.*—On April 15 the $3,000 4½% 19½-year coupon electric-light-plant bonds described in V. 84, p. 651, were awarded to Otis & Hough of Cleveland for $3,070, the price thus being 102.333—a basis of about 4.322%.

West Seneca (Town), Erie County, N. Y.—*Bond Sale.*—On April 25 the $225,000 5% sewer bonds described in V. 84, p. 889, were awarded to Meadows, Williams & Co., of Buffalo, and Otis & Hough of Cleveland at 106.27.

Wilmington School District (P. O. Wilmington), Newcastle County, Del.—*Bond Offering.*—Proposals will be received until 8 p. m. May 13 by the Board of Education for $60,000 4% coupon school-building bonds. Denomination $1,000. Maturity $20,000 in each of the years 1913, 1914 and 1915. Bids must be made on forms prepared by the Board of Education. Harry J. Guthrie is Secretary of Board of Education.

Woodbury, Gloucester County, N. J.—*Bond Sale.*—No sale was made on April 8 of the $84,000 4% coupon sewer bonds described in V. 84, p. 830. The city subsequently changed the issue to 4½s, maturing $2,000 yearly from 1908 to 1913 inclusive and $3,000 yearly from 1914 to 1917 inclusive. The new issue was awarded on April 15 to Kountze Brothers of New York City at 100.68.

Woonsocket, R. I.—*Bond Bills Pass Legislature.*—The bills authorizing this city to issue $200,000 refunding and $200,000 funding bonds have passed both Houses of the State Legislature.

Wyandotte, Wayne County, Mich.—*Bond Sale.*—This city has awarded $20,000 5% coupon Oak Street paving bonds offered on April 11 to the Wyandotte Savings Bank of Wyandotte. Denomination $1,000. Date May 1 1907. Interest annually at the Wyandotte Savings Bank. Maturity $4,000 yearly on Nov. 1 from 1907 to 1911 inclusive. Accrued interest to be paid by purchaser.

Yonkers, N. Y.—*Bond Sale.*—On April 26 the two issues of 5% 2¾-year assessment bonds, aggregating $51,750, were awarded to the People's Savings Bank of Yonkers at 100.595.

York, York County, Neb.—*Bond Offering.*—Proposals will be received until 7 p. m., May 13, by George S. Newton, City Clerk, for $15,000 intersection-paving bonds at not exceeding 5% interest. Date May 1 1907. Interest semi-annually at the Nebraska Fiscal Agency in New York City. Maturity May 1 1927. Certified check for 2% of bonds bid for is required.

Youngstown, Ohio.—*Bond Offering.*—Proposals will be received until 2 p. m. May 6 by Wm. I. Davies, City Auditor, for the following bonds:

$50,875 5% Oak Hill Avenue paving bonds. Maturity $10,175 yearly on Oct. 1 from 1908 to 1912 inclusive.
14,250 5% Front and Canal Street paving bonds. Maturity $2,850 yearly on Oct. 1 from 1908 to 1912 inclusive.
1,295 5% sidewalk-contruction bonds. Maturity $259 yearly on Oct. 1 from 1908 to 1912 inclusive.

The above bonds will be dated May 13 1907. Interest semi-annually at the office of the City Treasurer. Bids must be made for each block of bonds separately and must be accompanied by a certified check for 2% of the bonds bid for, payable to the City Auditor. Purchasers must be prepared to take the bonds not later than May 13, the money to be delivered at one of the banks in Youngstown or at the City Treasurer's office.

AS AN INVESTMENT

There is nothing more safe, more sure, more profitable—in the telephone business—than the securities of an Independent telephone company operating our AUTOMATIC TELEPHONE SYSTEM—

BECAUSE it gives more service, better service, prompter service, more accurate service, than a manual system (and also an absolutely secret service, which no manual system can give), and

BECAUSE it costs less to operate, less to maintain, less to enlarge than a manual system, or

TO SUM IT ALL UP, the AUTOMATIC TELEPHONE SYSTEM produces a better telephone service, commanding a higher price, at less cost than inferior service can be produced for by a manual system.

THAT IS THE REASON WHY the AUTOMATIC TELEPHONE SYSTEM makes the securities of the company using it safe, stable and profitable, and why it has been adopted by the Independent telephone companies in the following cities:

Aberdeen S. D.	El Paso, Texas.	Medford, Wis.	Santa Monica, Cal.
Akron, Ohio.	Emaus, Pa.	Miamisburg Ohio.	Saskatoon, Sask., Can.

THE FINANCIAL SITUATION.

Politics seems to be a leading subject of discussion the current week. The chief conundrum has been the reported Tammany Hall arrangement. If that should turn out to be all it has been claimed to be, it would mean that the split in the Democratic Party had been healed and that New York had thereby become a fairly debatable State for that organization and its followers. But aside from that special advantage, would not a united Democratic Party mean a decided benefit to the country? We need at all times for the best good of the people to have two parties as nearly equal in numbers as possible. With the Tammany break continued there could be no hope for the success of the Democratic Party in any election—city, State or national; with the breach closed up there would be a nucleus about which an opposition could coalesce and Democracy once more have a fighting chance.

The existing situation of discord has been one circumstance among others that has made the Republicans confident of continued power and wholly reckless in policies adopted. They have felt that they had the country at their heels, that they could do with it as they willed in the matter of legislation, picking up every socialistic error afloat as the ball rolled on, confident that they could keep their followers, getting more and more numerous and powerful, consolidated by party machinery and by bold laws they were enacting, declaring it to be a crime to reject or violate any legislative edict adopted by their leader. That is about the character and direction of the road along which parties have been drifting. A good stiff political contest in coming elections might materially modify and perhaps wholly change the tide of affairs.

———

Some such result has gotten to be one of the possibilities the outlook has in store for the country by virtue of the defeat the attempted Kelsey removal has met with. The prevailing idea has been hitherto that the President was a marvelously popular man; in fact that all or nearly all the voters of both parties were intent on doing his will and following wherever he led. The vote on the Kelsey matter Thursday night left very little ground for any such opinion to be based upon. Of course, the attempt is and will be to charge the defeat of the proposed removal of Kelsey upon the Governor's unpopularity. That might have been urged with some degree of success had not President Roosevelt clearly and loudly not only espoused Mr. Hughes's attempt, but removed one Federal official who was believed to stand in the way of the Governor's plan and appointed another in his place who was expected to aid that endeavor; moreover, having thus put his own popularity at stake, he went further and threw in the scales the whole power of the United States Government and the appointments to office which were within his gift as President—and yet how disastrously he has failed. Ten Senators out of Mr. Roosevelt's own party voted against the proposition and only 17 in its favor; leaving the inference incontestable that the President's popularity is made up of the same unsubstantial stuff that Mr. Bryan's was.

———

We can find no particular alteration in conditions which tend to favor a renewed spasm of speculation. To be sure, there has been a moderate advance in market values of securities the past two weeks. We do not, however, look upon that fact as a sign of any permanent tendency in that direction. An individual, however, wishing to make a short venture, has in the conditions at the moment some encouraging features. In the first place, extremely low rates for call money open a free field for the time being for action such as has not existed for many previous months; then, too, security values are ruling very much lower than prevailed when the year opened, and many of them are much below intrinsic value; moreover, commercial affairs, taken as a whole, though in a less active state, are in the departments of iron, steel, copper, &c., not only prosperous to-day, but have a good prospect of continuance along the same lines.

But there is another side to this picture. The crops are reported in a serious condition by all authorities. There are reasons for the belief that our prosperity is on the wane. Proof of the truth of that statement is found in the exhibit of commercial failures for April compiled by Messrs. Dun & Co. this week. Whether we compare it with April 1906 or with the earlier months of the current year, it tells the same story and in so many ways. First of all, it seems that, though the aggregate number is about the same as a year ago, the total liabilities this year reached $11,082,096, against only $8,059,649 a year ago. Moreover, a glance at the detailed returns shows that the important increase in liabilities this year is largely from the augmentation of liabilities arising through manufacturing bankruptcies, that branch of industry reporting $6,060,341 in 1907 against but $2,122,328 in 1906. The volume of liabilities among general traders were also moderately larger than last year, the total being $3,485,251 against $3,190,302. For the four months of 1907 the aggregate liabilities of failed firms reached $43,157,687, which contrasts with $41,820,756 in 1906 and $38,119,371 in 1905.

———

A probable explanation of the decided falling off in the volume of exports of one of our leading cereal products—corn—the current fiscal year, is to be found in the annual report of Mr. Frank H. Mason, Consul-General at Paris. The radical decrease, as compared with the preceding year, in the outward movement of that important cereal has been a notable feature of recent monthly statements of our foreign trade; but the cause therefor was not readily ascertainable. The diminishing movement has particularly attracted attention for the reason that the United States is the world's main source of supply of corn (as it is of cotton) approximately 75% of the aggregate world's production coming from this country. Mr. Mason's report, however, seems to explain what to most people heretofore was largely a mystery. He states in effect that from all those handling American corn in France there are complaints that an excessive percentage of the cereal has arrived in a heated state, becoming so in transit from America, and arriving in a musty, damaged condition, greatly impairing its value and rendering it dangerous for certain uses. Instances, he intimates, are cited in French agricultural journals of large parts of cargoes being found to be musty or otherwise in poor condition, and frequently showing evidence of sprouting. According to Mr. Mason, the fact that much of our crop is harvested late in the fall (when the weather is cold and wet) and insufficiently dried when shelled

explains the condition in which it has arrived abroad the current season. He further says that a more rigid inspection here is necessary in the interest of the export trade, as corn from Argentina, which comes into direct competition with the American product, arrives in uniformly good condition.

If this criticism of the condition in which our corn reaches foreign ports was singular to France, it would not, on its face, appear to be of great importance, for that country takes from us a comparatively small quantity of corn or any other cereal. But if there is cause for complaint in France, how about the United Kingdom, Germany and other countries of Europe with whom the great bulk of our foreign trade in cereals is carried on? As already intimated, France absorbs an inconsiderable portion of our corn annually; and in the elapsed portion of the current fiscal year she has taken only about 1¼ million bushels against nearly 2¾ million bushels for the like period of 1905-06. But our exports to Great Britain have dropped from 39¼ million bushels in the 9 months of 1905-06 to 22¾ millions in 1906-07, shipments to Germany have declined from 21¼ millions to 10 millions, and the movement to the remainder of Europe exhibits an even greater ratio of decrease. On the other hand, Great Britain has drawn increasing supplies of corn from Argentina, from Russia and from Roumania, and it is to be presumed that Germany and other users, but not producers, of the cereal have done likewise. Does it therefore not seem reasonable to believe that Mr. Mason's report contains matter that should be seriously considered and a proper remedy applied? The loss in value of corn exports thus far in the current fiscal year (21½ million dollars) is more than the total falling off in value of breadstuffs sent out.

One feature with reference to money may make the long continuance of the condition of great ease at this centre a not wholly dependable circumstance. We are, to be sure, reaching, the season when accumulations of currency at New York from the interior is a usual movement. Since April came in that flow has been outward instead of inward. Moreover, Secretary Cortelyou (judging from his course hitherto) is likely to keep the Sub-Treasury from absorbing currency in coming months, although his holdings of cash in Sub-Treasury May 1 1907 was about 15 million dollars less than the amount so held at the same date May 1 1906 and about 23 million dollars less than it was May 1 1905. In view of these facts, domestic movements of money, it would seem, are not likely to affect the New York market adversely to a material extent.

The arrival in London on Saturday of last week of the unusually large consignment of $5,500,000 gold from South Africa gave rise to some speculation as to the effect which would be produced upon the London market of the disposition of this metal. If it should be wholly secured by the Bank of England, which has latterly had no active competitor for gold, it would contribute to an augmentation of its reserve and probably to lower discounts. If, however, the Bank of France should compete for the gold, and through such competition obtain any considerable portion of the metal, such success of the Bank might be an incentive for its bidding for further consignments as they arrived, and therefore the movement of gold to Paris might no longer be free or unobstructed. The cable on Monday announced that the Bank of England had bought only a little more than half of the consignment; and to get that it was required to outbid the Bank of France, paying therefor 77 shillings 9½ pence per ounce—an advance of half a penny on the previous market price. The Bank of France obtained $1,500,000 and the India Council took the remainder. Next week it is expected that a consignment of about $1,000,000 more will arrive from the Cape and possibly competition therefor will cause a further advance in the market price.

That the French Bank's requirements are greater than has been recently stated appears from mail advices, which indicate that the advances it made to London early in the year—in order to relieve that market and prevent an advance in the Bank rate, which was then threatened—amounted to $15,000,000; moreover, the balances of French bankers in London are said to be much larger than is generally supposed. Should, therefore, the Bank of France continue to draw gold against the remainder of its advances, and if the French bankers should recall their balances, it seems likely that not only will firm discounts be maintained in London, but even a higher price for gold than that now ruling may be established. This situation might possibly become so tense as to end in a considerable movement of gold to France from the United States.

The return of the United States Steel Corporation for the March quarter, issued the present week, is interesting both as showing that the unexampled activity in the steel trade continues unchecked, notwithstanding the many adverse developments affecting the prosperity of the railroad interests, the largest consumers of iron and steel products, and also as indicating that the Steel Corporation maintains unimpaired its marvelous record of profits. On the first point a tell-tale of prevailing conditions is furnished in the figures which report the unfilled orders on the books of the Corporation and its subsidiary companies at the end of the quarter, namely March 31. At that date, it appears, the unfilled orders totaled 8,043,858 tons. This is, with one exception, the largest amount ever reported at the end of any quarter of any year. On December 31 1906 the aggregate was somewhat larger, being then 8,489,718 tons. But prior to that date these orders had never footed up as much as 8,000,000 tons. The falling off in the total since December would appear to possess no significance, inasmuch as it is usual for the totals to run off a little in the March quarter, except, of course, when the start is from very low figures following a preceding period of depression. The same thing was observable a year ago when the unfilled orders, after being reported December 31 1905 at 7,605,086 tons, were given as 7,018,712 tons March 31 1906. It will be observed that the present year the figure for March is a full million tons larger than in March last year, and, as compared with the earlier years, the differences are still larger. On March 31 1905 the unfilled orders were 5,597,560 tons; on March 31 1904 they were 4,136,961 tons; and on March 31 1903 the total was 5,410,719 tons. Evidently, therefore, the plants of the Steel Corporation are assured of work for a considerable time to come, even if some reaction in the iron and steel trades should develop in the near future.

The dividend on the common stock of the Corporation has not been advanced, the declaration having been one-half of 1% for the quarter, the same as for preceding quarters since payments on these shares were resumed in 1906. But this restriction of the dividend is simply a matter of policy with the directors. The profits continue to be enormous and the company is continuing its practice of devoting very exceptional amounts of earnings for the purpose of building new plants and for making improvements and extensions. The March quarter never ranks as one of the very best quarters of the year in the matter of income, and therefore the present figures establish no new record in that respect. Present results, however, surpass those for the corresponding period of any preceding year, and they do not fall very much below the highest totals of other quarters. The net earnings are always given after deducting all expenses incident to operations, including those for ordinary repairs and maintenance of plants, employees' bonus funds and interest on bonds and fixed charges of the subsidiary companies. The net on that basis for the three months ending March 31 1907 is $39,122,492. It deserves to be stated, however, that a change inaugurated the present year in the matter of treating certain items in the accounts makes the amount smaller than it would otherwise appear.

Beginning with 1907, the requirements for certain renewals at blast furnaces are deducted before arriving at the net. In the final result this departure works no change, as the contributions to the reserve funds which come out of the net earnings are correspondingly reduced. But in taking the amount out *before* stating the net instead of after, the effect is to reduce by approximately $200,000 per month the amount of the earnings reported. Hence, for the three months the difference against 1907 on that account is $600,000. In other words, except for this change, the net would be approximately $39,722,000 instead of $39,122,492. On that basis comparison is with net of $41,750,126 in the December quarter of 1906 and with $40,125,032 for the June quarter of 1906, these having been the best previous quarters. Otherwise the present March results stand unexcelled. In that quarter of 1906 the net was $36,634,490, or $3,000,000 less than in 1907; in 1905 the amount was only $23,025,895, and in 1904, which was the period of extreme depression in the trade, it was but $13,445,231, or only one-third this year's amount. Out of the $39,122,492 net for 1907 the company contributed $6,405,869 to sinking funds and to the various depreciation, reserve, improvement and replacement funds, and then appropriated full $14,500,000 for capital expenditures made and to be made on authorized appropriations for additional property, construction and discharge of capital obligations. In other words, out of the quarter's net of $39,122,492, no less than $20,905,869 was applied towards capital expenditures or in reduction of capital obligations. The call for interest on Steel Corporation bonds was only $5,685,615, and the quarter's dividends on both preferred and common shares took no more than $8,846,432. Over and above all, a surplus balance for the three months remains in the sum of $3,684,576.

The advocates of lower passenger rates for the railroads quite generally urge that any loss of revenues by reason of reduced fares is certain to be compensated by an increase in the amount of travel. A moment's reflection, however, will convince any one that in thinly settled communities, where the demand for reduced rates is usually most insistent, the opportunity for an increase in travel is extremely slight. The number of inhabitants is so small that there is simply no chance to stimulate travel. However, it is not necessary to theorize when there are actual facts available, based on experience, to show the fallacy of the notion. In the recently issued annual report of the Grand Rapids & Indiana Railway, President Joseph Wood makes some pertinent observations bearing on that subject. Mr. Wood points out that the revenue received from passenger fares by his company increased from $1,232 per mile of road in 1897 to $2,613 in 1903, or 112%, an average increase per year of about 19%. On April 14 1904 the maximum fare on that road in Michigan was reduced from 3 cents per mile to 2½ cents per mile. The result was that from 1903 to 1905 the revenue received from passenger fares per mile of road increased from $2,613 to $2,636, or only 1.3%, an average of but 6-10 of 1% per year. For the entire United States, Mr. Wood notes, the passenger revenue per mile of road increased from $1,376 in 1897 to $2,054 in 1903, or 47%, an average of 8% per year. From 1903 to 1905 the passenger revenue increased from $2,054 per mile of road to $2,179, or 6%, an average of 3% per year, or five times the percentage of increase of the Grand Rapids & Indiana Railway, although the maximum fare on that road in 1905 was 2½ cents as against 3 cents in 1903. Mr. Wood well says it is an established fact that the volume of passenger traffic of a railroad is dependent upon the density of population and business conditions and not on the rate of passenger fare.

Mr. Wood also shows what an unfortunate condition the Michigan roads find themselves in. The total mileage of railroads in Michigan is 8,582 miles. It appears from the last published report of the Commissioner of Railroads of Michigan that for the year 1904 the stockholders of exclusively Michigan roads received dividends averaging 32-100 of 1%; that the railroads having the greater part of their mileage in Michigan paid dividends to their stockholders averaging 1.24%. Those roads having the smaller percentage of mileage in Michigan paid to their stockholders dividends averaging 5.6%. Mr. Wood says it cannot be charged that the railroads of Michigan are over-capitalized, and hence it would seem only just that stockholders of railroads should have a fair return upon their investment, provided the roads at the same time give the public at reasonable rates as good service as conditions justify. The money is invested under an implied condition that it should not be legislated out of a reasonable return on the investment. This is an argument, of course, that cannot be controverted.

The great increase in the operating cost of United States railroads is being strikingly reflected just now in the monthly and quarterly returns of many different roads. Some companies, favored by extraordinary amounts of gain—the Atchison Topeka & Santa Fe, for instance—are able to report improvement in net in face of a very large augmentation in expenses. But instances of the other kind are much the more numerous. Even the Southern Pacific Company, which previously formed such a conspicuous exception to

the general rule of decrease, and recorded extraordinary gains in net, this time in its return for March shows a heavy loss in net, amounting for the month to $568,908. Yet the gross earnings increased $1,115,786. The diminution in net follows entirely from the very great increase in the expenses, which were added to in amount of $1,684,695. An explanatory foot-note states that the interruptions to the regular movement of trains caused by unprecedented storms and washouts on the Pacific System lines of the company caused a congestion of traffic which added heavily to the expenses for overtime and for per diem payments for the use of delayed cars, &c. The expenses were also increased, we are told, by the greater rate charged per diem for the use of cars, greater cost of fuel, and increases in wage schedules, &c.

The New York Central statement for the March quarter made public yesterday also reveals very unfavorable comparisons by reason of the increase in expenses. Gross earnings for the three months were added to in amount of $496,515, but this was attended by an augmentation of $2,755,109 in expenses, leaving therefore a loss in net of not less than $2,258,594. This loss was offset to the extent of $767,834 by increased income from investments (larger dividend payments on Michigan Central and Lake Shore shares, &c.). but that still left a loss in net income of nearly 1½ million dollars—$1,490,760. At the same time fixed charges increased $203,096. As a consequence the sum available for dividends was reduced, as compared with the corresponding quarter last year, no less than $1,693,856. In fact the amount left for dividends was no more than $219,492, while at the same time the call for dividends was $814,507 heavier (amounting to $2,679,480) than in the same three months of 1906, owing both to the increase in the dividend rate and the increase in the amount of stock outstanding on which the dividend has to be paid. In other words, the company in this quarter failed to earn the 1½% dividend by $2,459,987. Of course the succeeding quarters are certain to show very much better results. While the increase in expenses will continue so far as it is based on the higher prices paid for wages and supplies, on the other hand certain special items of increase resulting from the severe winter and from floods, &c., will not be repeated in the remaining quarters of the year. It should also be remembered that, from April 1, on the company will be comparing with the period of the bituminous coal strike last year, which then had a decidedly unfavorable effect upon the company's traffic and income. After all has been said, however, it still remains true that the results for the first three months leave a large loss to be made good in the succeeding nine months.

The Pennsylvania Railroad return for the month of March is also notable for the large increase disclosed in the expenses. On the lines West of Pittsburgh and Erie an increase of $477,200 in gross has been accompanied by an addition of only $272,400 to expenses, leaving a gain of $204,800 in the net. But on the lines directly operated East of Pittsburgh and Erie, with $635,700 gain in gross, the addition to expenses has been $1,100,100, causing a falling off in net of $464,400. For the combined lines, therefore, there is a loss in net of $259,600, occasioned by an augmentation of $1,372,500 in expenses in face of an increase of only $1,112,900 in gross revenues. It is important, however, that the fact should not be lost sight of that comparison now is with exceptionally satisfactory returns in previous years. For instance, in March 1906 the combined lines showed no less than $2,789,200 improvement in gross and $1,257,600 improvement in net. Moreover, that followed $1,293,600 increase in gross and $644,500 increase in net on the combined lines in March 1905. In March 1904, though, there had been $551,500 decrease in gross and $1,104,600 decrease in net. Prior to that time the record had been one of large and continuous gains for many years. In the following we report the gross and net of the lines East of Pittsburgh and Erie for the last six years—being the only portion of the system for which we have the data for such a comparison.

Lines East of Pittsburgh.	1907.	1906.	1905.	1904.	1903.	1902.
March.	$	$	$	$	$	$
Gross earnings.	13,166,969	12,531,269	10,484,469	9,624,404	10,138,604	8,062,332
Oper. expenses	10,013,160	8,913,060	7,958,860	7,593,985	7,434,585	5,585,310
Net earnings	3,153,809	3,618,209	2,525,609	2,030,419	2,704,019	2,477,022
Jan. 1 to Mch. 31						
Gross earnings.	37,203,541	35,357,841	28,355,341	26,443,702	27,935,302	23,115,737
Oper. expenses	29,118,224	26,305,624	22,968,824	21,958,187	21,549,787	16,176,217
Net earnings	8,085,317	9,052,217	5,386,517	4,485,515	6,385,515	6,939,520

For the three months to March 31 the Pennsylvania the present year shows $1,845,700 gain in gross, with $2,812,600 increase in expenses on the Eastern lines and $1,334,700 increase in gross, attended by $1,211,000 increase in expenses on the Western lines. In brief, on the combined lines there has been $3,180,400 increase in gross, with $4,023,600 augmentation in expenses; so the company is $843,200 behind in its net for the three months.

There was no change in official rates of discount by any of the European banks this week; compared with last week, unofficial, or open market, rates were steady at London and at Paris and ¼ of 1% higher at Berlin and Frankfort. It was announced on Friday that an India Council sterling loan of £3,500,000 3½% stock had been issued at London at 98½

The feature of the statement of the New York Associated Banks last week was the unexpectedly slight gain of $146,900, instead of an important loss in cash. The surplus was increased by $641,950 to $12,346,775, as the result of a decrease of $495,050 in reserve requirements. Loans were contracted by $1,587,300 and deposits decreased $1,980,200. The bank statement of this week should reflect the shipment hence to Canada of $1,700,000.

Inactive speculation on the Stock Exchange and consequently a light demand for loans by commission houses contributed to a decline in rates for money on call early in the week to the lowest usually recorded in periods of extreme monetary congestion. Some calling of loans incident to dividend and interest disbursements and to payments on syndicate account, and also the transfer of deposits to a newly organized bank, caused an advance in rates on Wednesday to 4%, and thereafter the market was moderately active. Time loans were easier for the shorter and steady for the longer maturities, with a very small volume of business, and corporation notes were somewhat influenced by the new issue of Atchison bonds at a maximum rate of interest for this class of securities.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 4% and at 1%, averaging about 2¼%; banks and trust companies loaned at 1¾% as the minimum. On Monday loans were at 2½% and at 1%, with the bulk of the business at 2¼%. On Tuesday transactions were at 2¼% and at 1¾%, with the majority at 2%. On Wednesday loans were at 4% and at 2%, with the bulk of the business at 3%. On Thursday transactions were at 3% and at 2¼%, with the majority at 2½%. On Friday loans were at 4% and at 2½%, with the bulk of the business at 3%. Time loans on good mixed stock collateral were quoted at 3½% for sixty and 3¾% for ninety days, 4% for four and 4½% for five to six months; one feature was an advance in over-the-year money to 5¼%. Some business was done at 3½% for thirty days on industrial collateral. There was a fair demand for corporation notes of first class, such as Pennsylvania 4½%, due in November. There was a broader market for commercial paper, with good buying by Boston and other New England banks; the supply showed some increase and rates were 5½@6% for sixty to ninety day endorsed bills receivable, 5½@6% for prime and 6% and above for good four to six months single names.

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety day bank bills in London 3¼%. The open market rate at Paris is 3¼% and at Berlin and Frankfort is 4½%. According to our special cable from London, the Bank lost £433,330 bullion during the week and held £35,757,974 at the close of the week. Our correspondent further advises us that the loss was due to the comparatively heavy movement to the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports, £224,000 (of which £16,000 from Australia, £5,000 from Paris and £203,000 bought in the open market); exports, £140,000 (of which £40,000 to Paris and £100,000 to Constantinople), and shipments of £517,000 *net* to the interior of Great Britain.

The foreign exchange market was quite inactive this week, with a declining tendency until Wednesday, when there was a recovery, due to an increase in the demand for remittance and also to a meagre supply of bills. There was a good inquiry for mercantile settlements, usual at this season; long sterling reflected the easier London discounts, francs responded to the decline in exchange at Paris on London, and marks were firmer because of a rise in rates at Berlin on the British capital. Commodity bills were offered in small volume and they were promptly absorbed. There was no evidence of speculation in futures, the market being too narrow to encourage such operations. The recovery in the tone on Wednesday was in part caused by purchases to take advantage of the fast mail steamer, and when this inquiry had been satisfied the market became quiet, though with a firm tone. Relatively lower rates for money in New York than for discounts abroad continued to be an important factor in the exchange situation, and the apparently increasing demands by French bankers for gold in settlement for balances, which were being withdrawn from London, seemed to indicate that there would be no immediate change in the discount rate at the British capital. The advance on Monday in the price of gold in the London market to 77 shillings 9½ pence per ounce, as the result of the active competition between the Banks of England and of France for the metal from South Africa, which was offered on that day, appeared to indicate that hereafter gold withdrawals for export would be obstructed, through this device, if they should become important in volume.

Nominal quotations for sterling exchange are 4 84 for sixty day and 4 87 for sight. On Saturday of last week the market was firm and, compared with the previous day, long rose 10 points to 4 8330@4 8340, short 5 points to 4 8610@4 8620 and cables 10 points to 4 8650@4 8655. On Monday long fell 10 points to 4 8320@4 8325, short rose 5 points to 4 8615@4 8620, and cables declined 5 points to 4 8645@4 8650. On Tuesday long fell 5 points to 4 8315@4 8320, short 5 points to 4 8610@4 8615, and cables 5 points to 4 8640@4 8645. On Wednesday long recovered 15 points to 4 8330@4 8335, short 15 points to 4 8625@4 8630 and cables 20 points to 4 8660@4 8665. On Thursday, while long was higher at 4 8340@4 8350, and short was unchanged, cables were 5 points lower at 4 8655@4 8665. The market was strong on Friday at an advance of 10 points for long, of 15 points for short, and of 20 points for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

		Fri., Apr. 27	*Mon., Apr. 29*	*Tues., Apr. 30*	*Wed., May 1*	*Thurs., May 2*	*Fri., May 3*

The market closed on Friday at 4 8350@4 8360 for long, 4 8640@4 8645 for short and 4 8675@4 8680 for cables. Commercial on banks 4 8315@4 8325 and documents for payment 4 82½@4 83⅜. Cotton for payment 4 82½@4 82⅝, cotton for acceptance 4 8315@4 8325 and grain for payment 4 83¼@4 83⅜.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending May 3 1907.	*Received by N. Y. Banks.*	*Shipped by N. Y. Banks.*	*Net Interior Movement.*
Currency	$5,046,000	$6,747,000	Loss $1,701,000
Gold	904,000	1,116,000	Loss 212,000
Total gold and legal tenders	$5,950,000	$7,863,000	Loss $1,913,000

With Sub-Treasury operations and gold imports the result is as follows.

Week ending May 3 1907.	*Into Banks.*	*Out of Banks.*	*Net Change in Bank Holdings.*
Banks' interior movement, as above	$5,950,000	$7,863,000	Loss $1,913,000
Sub-Treas. oper. and gold imports	30,300,000	29,400,000	Gain 900,000
Total gold and legal tenders	$36,250,000	$37,263,000	Loss $1,013,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	*May 2 1907.*			*May 3 1906.*

FUTURE OF THE RUSSIAN PARLIAMENT.

More even than a year ago, we have seemed this season to be removed from authentic facts regarding the Russian Douma. Dispatches which have come from Europe, based presumably on the special correspondence of London newspapers, have presented the most contradictory views imaginable of the condition prevailing in this second Russian experiment in constitutional government. Pessimistic predictions have ranged from prophecies that the Douma itself would lapse into a hopeless clash of irreconcilable theories, to forecasts of an immediate and violent dissolution of the Douma by the Czar. It has not greatly helped matters that these professed views of the situation have conflicted wholly with one another. We suppose that the average American reader has simply given up the attempt to understand the situation at St. Petersburg.

Nevertheless, certain facts have come to light which are sufficient at least to throw some light on the nature of the situation. A couple of weeks ago M. De Martens, the well-known Russian expert on international law, and one of the Russian delegates at the Portsmouth Peace Conference in 1905, wrote to the London "Times" his personal views of the Parliamentary situation. He unhesitatingly pronounced the Douma incompetent for the work assigned to it. This judgment he based on the fact that speeches of a socialistic or revolutionary character had been made from its floors, that its members spoke not as Russians but merely as members of their several partisan groups, and, in particular, that only about one-fourth of the Douma membership had enjoyed a university education, many of the majority being actually illiterate. The conclusion which this diplomat reached in the matter was that the Douma must be immediately dissolved, and that the Czar must accompany the edict of dissolution by a new proclamation changing the basis of the franchise and calling a new Russian parliament under such conditions.

It was naturally pointed out, by people who did not share M. De Martens' pessimism, that he was himself connected with the Russian Foreign Office, and necessarily prejudiced in favor of the Imperial prerogative. The London "Economist," taking up his separate arguments, has pointed out with much cleverness that if the fact of occasional incendiary or revolutionary speeches in a parliament would condemn such a body, then the British Parliament in the days of Parnell ought to have been so judged; that if a spirit of narrow partisanship disqualifies a member for good work, then a considerable part of the parliaments now acting in other States must be declared inefficient, and, finally, that if the fact that a majority of the Douma were not men of high education does away with hope of intelligent legislation, then the same inferences ought reasonably to be applied against the American Congress, the record of whose members, extracted by the "Economist" from our "Congressional Directory," shows no such predominance of highly educated statesmen as M. De Martens may have imagined. We are ourselves entirely in accord with this view of the question; are inclined, indeed, to go further, and to say that when the experiment of parliamentary government is to be applied in any country for the first time, that representation which really embodies the actual status of the electorate is the best with which to make the experiment. If under such conditions the attempt at orderly parliament government breaks down, it is pretty safe to assume that the cause was the inadequacy of the electorate itself and their unreadiness for parliamentary government.

The charge of such unfitness has been made, both this year and last, against the Russian electorate, and the fair-minded man must admit that there is much on which to base it. But, on the other hand, it must be remembered that the granting of parliamentary suffrage to the Russian people was not an expedient adopted because, in the judgment of any statesman, it was a guarantee of ideal government, but because such a situation had arisen in Russia as could be removed only through the granting of suffrage to the people. The bureaucratic government had been subjected to a series of tests under each of which it had proved its own utter incompetency. The people, aware both of the incompetency and of the intrinsic weakness of this government, entered upon open revolution. Common sense, no less than the incentive of self-preservation, led the Czar to try the experiment of a Parliament. That it would work out in practice without trouble or friction was at no time expected by any experienced or intelligent man. The best that any one looked for was a troublesome period, in which the different branches of government, after repeated and prolonged friction, would discover the line of least resistance in their mutual administration of public affairs. This is the experiment which has been tried since the calling of the first Douma a year ago.

In so far as authentic particulars of this second Parliament have reached us, we are inclined to think that it has made a distinct advance in workableness over its predecessor. It is, to be sure, suffering from the vice which besets most of the Continental Legislatures—division into so many factions that agreement on any public question is impossible except through a combination of groups based presumably on mutual concession. In a membership of something like five hundred, the two largest party delegations represented consist respectively of one hundred and of ninety-six members, and in addition to these two factions, which occupy the opposite poles of social opinion, there are at least five other parties with sufficiently concrete membership to give each of them a distinct voice in legislation. In spite of this fact, it is notorious that what business the new Douma has done has been conducted on more intelligent and practical lines than was the case with the Douma of 1906. It has been pointed out that the present Douma has already been in session nearly as long as last year's Douma during the whole of its parliamentary life. This fact, and the repeated ending of what were reported to be irreconcilable disputes between Crown and Parliament, through harmonious conferences and conciliation, shows that at all events the experiment in Paliamentary work has not been without results. Unless something has been going on below the surface of which the outside reader can have no knowledge, it is difficult to see what ground there is for expecting another arbitrary dissolution by the Czar.

The slowness with which the Douma has proceeded in the enactment of practical reforms we cannot regard either as evidence of its present unfitness or as a sign that its future career contains no elements of

hope. On the contrary, it seems to us, as it seemed when the Douma was convened a year ago, that the point of extreme danger was a possible stampede of the delegates into such hasty, violent and radical legislation as marked the two or three first years of the French revolutionary assembly. What was the result of that experiment we all know; we also know, in the case of similar legislative experiments in Anglo-Saxon countries, that the logical outcome of a prolonged series of manoeuvres between the legislature and the sovereign was that each discovered and adopted as a matter of self-protection and intelligent policy the line of least resistance. Our own hope is—and we do not consider it unreasonable—that the Russian Parliament will take a leaf out of this chapter in the history of past legislative experiments and will play its part in constructive legislation without a collapse of either institution—royalty or representative government.

It is only reasonable to add, in relation to the repeated statements that the Czar is about to take fresh steps for the dissolution of the Douma, that the Imperial Government is not to-day in the position for such an experiment which it occupied when the Douma was dissolved last July. When that step was taken, the $440,000,000 external loan had been negotiated, closed, and completely arranged by Witte, and the Imperial Government was sure of steadily accruing resources during the next nine months. Installment payments on this huge loan were completed last February, and in the nature of the case the balance left available must from now on be more or less steadily depleted. Furthermore, the Imperial Party is perfectly well aware that the raising of another loan in France, especially in the present congested condition of the Paris money market, would be rendered flatly impossible by another collision with the Douma or another outbreak of popular revolt. The fact that, largely from the proceeds of this loan, the Imperial Russian Bank has been able within the past twelve months to add $100,000,000 gold to its home reserves, is undoubtedly important. It would be more important if the possible danger confronting the autocracy were known. The experience of the winter of 1905 showed what happens to such a home reserve when confidence in the stabliity of Russia's Government is shaken both at home and abroad.

THE NEW MOVE TO REDUCE PASSENGER RATES IN VIRGINIA.

Another move has just been made in the effort to reduce passenger rates in Virginia. The State Corporation Commission has issued an order fixing 2 cents a mile as the maximum passenger fare for all the larger and important companies having lines in that State. Some exceptions are made in the case of certain specifically enumerated companies, which are allowed to charge from 2½ to 3½ cents per mile, but these are simply a few very minor lines. Nominally the roads are divided into four classes or groups; actually everything of importance is put into the first group, where the maximum fare is fixed at 2 cents. That this is no misstatement of the facts will appear when we say that the first group comprises the Louisville & Nashville, the Norfolk & Western, the Southern Railway, the Chesapeake & Ohio, the Atlantic Coast Line, the Seaboard Air Line, the Richmond Fredericksburg & Potomac, the New York Philadelphia & Norfolk, the Washington Southern and the Virginia & Southwestern.

The movement to cut rates in Virginia has been under way for over a year, but has been hindered and delayed by numerous court impediments. We have referred to the matter several times in these columns as each new development came up, and a brief outline now of the events and happenings of the last fourteen or fifteen months will not be uninteresting. The first step was taken in the Virginia Legislature. But that body, in its zeal to force an immediate adoption of the 2-cent rate, over-reached itself, and accordingly the courts interfered. At its 1906 session the Virginia Legislature enacted a law with regard to the subject which was approved March 15 1906. The new law required the State Corporation Commission "to fix and prescribe a schedule of rates for the transportation of passengers by all transportation companies or corporations," and provided further that "until such rates are prescribed by the State Corporation Commission all transportation companies or corporations operated by steam shall at all times keep on sale at each and every station mileage books of 500 miles and over." The rate was not to exceed 2 cents a mile, and the mileage books were to be "good and valid for the use of any dependent household member of the family of the party to whom issued, dwelling under the same roof, within one year from the date of same."

The law is known as the Churchman Bill, and at the instance of its author the Attorney of the Commonwealth instituted suit against the Baltimore & Ohio Railroad to compel that company to place on sale mileage books of 500 miles each at $10 per book. The railroad company demurred on a variety of grounds as was pointed out in our issue of July 21 1906 (page 121), and Judge Henry W. Holt in the United States Court at Staunton, Va., sustained the demurrer and held the law unconstitutional as being in violation of the Fourteenth Amendment of the Federal Constitution. A little later the State Corporation Commission itself in another case—in an action on the part of the Attorney-General of Virginia to compel the Atlantic Coast Line Railroad to comply with the provisions of the new statute and to impose penalties upon it for its failure to perform its duty in that respect—also declared the Act void. In this the Commission was guided by a decision of the U. S. Supreme Court in 1899 (Railway Company vs. Smith, 173 U. S., 684), where a Michigan statute requiring railroad companies to keep on sale 1,000-mile books or tickets was declared unconstitutional, the Court holding that such an arrangement attempted a discrimination which operated in favor of those who are able to purchase tickets at what might be called wholesale rates. The Virginia Commission declared it was bound by that decision, since it emanated from the highest judicial tribunal in the country.

As narrated, however, by us last August ("Chronicle" of Aug. 4 1906, p. 236), the Commission after having announced its acceptance of the ruling of the U. S. Supreme Court, at once proceeded under its general powers and issued a notice requiring the railroads to show cause why they should not be compelled to make a flat rate of 2 cents per mile on all their passenger traffic without discrimination in favor of or against

any particular travelers. The present order is the outcome of that proceeding. Later the Atlantic Coast Line case reached the Supreme Court of Appeals in Virginia on appeal, and that Court also declared the Churchman law invalid, resting its conclusion, too, on the U. S. Supreme Court decision in the Michigan case —see "Chronicle" of Nov. 24 1906, page 1256. In the meantime the standing and legality of the Commission itself had been assailed because of the extraordinary powers conferred upon it, but on that point the Commission won a victory, the Supreme Court at Richmond, Va., on Dec. 6 having handed down an opinion that the Commission was legally constituted, and that the validity and constitutionality of the general scope of its powers were beyond question.

With all this litigation out of the way, and the Commission having had time to deliberate on its proposed course, it has now carried out the purpose it had in mind last July when it issued its notice to show cause, and, availing of its general powers, has given effect to the legislative intent by issuing the order referred to in the opening paragraph of this article, compelling the roads after July 1 to limit fares to a maximum of two cents a mile. The opinion and findings of the Commission are stated to cover forty sheets of typewritten matter, and the "Times-Dispatch" of Richmond devotes almost a full page to extended extracts from the same. Examination of the opinion shows that the Commission's conclusions rest, in the main, on very specious arguments and contentions, though the whole matter is dealt with in such a way as to give what the Commission says an air of more or less plausibility. For instance, the Commission argues that "even if such reduction is not fully compensated by the consequential increase in business, the roads will still be left, upon their intra-State Virginia business, such a margin of profit upon any fair value of the property employed as will enable their business to compare favorably in profitableness with any of the large or standard businesses of the country and not even approach anywhere near the legal limit of confiscation." The expression, "legal limit of confiscation," is rather significant as showing that the thought is about the legality of the acts of the Commission rather than whether they are inherently fair and just. But waiving that, we should like to see the "standard businesses" which would be content with the profits which the railroads are obliged to put up with—profits which kept most of them in a state of bankruptcy until within the last ten years and which apparently are fast driving them again in the same direction. The Commission gives it as its opinion that the revenues of the roads will not *necessarily* be diminished as a result of the two-cent rates, but *may* be increased. Thus, even the Commission is obliged to admit that an element of uncertainty attaches to the outcome, and yet, in a matter of such vital importance to the carriers, conjecture is treated as a certainty and allowed to sway the course of the Commission.

It had been urged by the carriers that prices of material and labor had greatly increased and are continuing to increase. This is assuredly a most serious matter, as is evident from current monthly returns showing augmentations in expenses in most cases far in excess of the gains in gross earnings. No more important problem ever confronted railroad managers than this one of the growth in operating cost. But the Commission dismisses the subject with the following Delphic utterance: "The most that can be said as to this claim when properly analyzed is that the profits on increased gross earnings are being absorbed by increased charges for labor and material, though the Commission is not prepared to find that even this is wholly true."

The Commission urges that some of the roads, as for instance the Southern Railway, are failing to accept and carry much intra-State Virginia traffic originating on their lines or tendered to them by connecting lines, and which is now making urgent demand upon them for transportation. It says that "if many of the roads which complain of lack of revenue would utilize fully, as they should, the improved facilities now owned by them, both of power and equipment, in the transportation of traffic already offered to them, the profit arising from increased business would soon take care of any increase in the cost of material or labor." But if a two-cent-a-mile rate is unprofitable in a sparsely settled State like Virginia, will the roads be better off or worse off by carrying an increased volume of such unprofitable business? And if the carriers find it impossible to handle all the business offered because of the lack of adequate facilities, will the present action of the Commission help them to raise the capital needed so as to extend their facilities in the proper degree? These are all pertinent considerations, and it remains to be seen whether this latest step in the effort to compel a reduction in rates will meet with any more success in the courts than the previous moves.

GAINS IN POPULATION LARGE, BUT RATE OF GROWTH DIMINISHING.

The Bureau of the Census in the Department of Commerce and Labor has recently issued an elaborate bulletin dealing with the population of the United States and bringing the figures down to 1906. The Census Department has been prompted to take this step by the fact that quite a number of States make a census of population midway between the decennial periods of the Federal Government. The last enumeration by the United States was in 1900. The State enumerations are for 1905, and therefore bring the results down five years later. These State censuses, too, ought to be reasonably accurate. If the bulletin, however, were confined merely to the States making returns, it would obviously be very incomplete. But in the case of those States where no census of population is taken, the census authorities at Washington have undertaken estimates of the population and by combining the two sets of figures they are able to present compilations of population covering the whole United States. A detailed statement is also given showing the population by States (including incorporated places having 8,000 or more inhabitants stated separately) for each of the years 1904, 1905, 1906. Altogether we therefore get the latest data available regarding population and obtain the facts in quite full form.

It appears that there are fourteen States which conduct an enumeration of population in accordance with the provisions in their constitutions. Florida, Iowa, Kansas, Massachusetts, Minnesota, New Jersey, New York, North Dakota, Oregon, Rhode Island, South Dakota, Wisconsin and Wyoming take a census in the "5" year of each decade, and one State, Michi-

gan, in the "4" year. In most cases these enumerations are made for the purposes of legislative apportionment. Few of the States attempt to secure information for statistical deductions, and previous to the present bulletin by the United States Census no effort had been made to combine and analyze the returns of all the States making such enumeration, although the aggregate obviously represents a large percentage of the total population of the United States. Mr. S. N. D. North, the Director of the United States Census, in his letter of transmittal to the Secretary of Commerce and Labor, takes occasion to state that the returns for the fourteen States which have a census in what he calls the "intercensal" period cannot be regarded as entirely satisfactory from a census standpoint. Methods of enumeration, tabulation and publication employed by each differ greatly, and the lack of uniformity becomes especially marked when the endeavor is to combine the returns. Obviously, however, these State returns are very useful nevertheless.

Speaking in a general way, the fact of most importance brought out by the statistics is that, notwithstanding the enormous additions to population through immigrant arrivals, the rate of increase in population is not gaining any—rather is diminishing. Making some slight allowance for divergence in dates, the aggregate population in 1905 of the fourteen States which make enumerations is found to have been 26,291,136, as against 24,085,556 by the United States Census of 1900. This gives an increase of 2,205,580, or 9.2% for the five years. In 1895 the enumeration of the same fourteen States (approximating the figures for Wyoming and North Dakota, which two States did not then make an enumeration, and making some adjustment in the figures of Michigan and New York so as to bring them up to 1895) gave an aggregate of 21,773,844. In other words, for the period from 1895 to 1900 the gain in population was 2,311,812, or 10.61%, against 2,205,580, or 9.2% for the five years from 1900 to 1905.

The estimates of population which the Census Bureau furnishes for the remaining States bring out yet more strikingly the fact that the *rate* of gain in population is not being maintained, even though the tide of immigration towards our shores is on a larger scale than at any previous period in the country's history. These estimates, it is pointed out, are not a census, and must not be so regarded. They are not based upon any detailed investigation of local conditions which would affect the movement of the population, except that, so far as possible, information regarding territory annexed and detached was secured from local officials, with conservative estimates of the population added or withdrawn by such changes. Comparisons are given, however, to show that although in individual cases computations of this kind in the past by the Census Bureau may have been wide of the mark, in a majority of instances they have approached very closely the actual figures. Moreover, where grand aggregates alone have been dealt with, the variations from the actual results have been so small as to be almost insignificant. In other words, these estimates of the Bureau can be accepted as the best substitute for an actual census.

The Census authorities compute that in the States not making an inter-decennial enumeration the population in the five years from 1900 to 1905 grew from 51,909,019 to 56,283,059. This gives an addition for the five years of 4,374,040, or a rate of increase of only 8.4% as against the 9.2% increase for the States collecting returns of population. Combining the two sets of figures, it is found that aggregate population of continental United States ("continental" meaning the United States without Alaska or any of the island possessions) in 1905 was 82,574,195 as against 75,994,575 in 1900. This shows a large increase as far as numbers is concerned, namely 6,579,620; but it will be noted that the per cent of growth is only 8.7, or 1.74% per year. In the ten years from 1890 to 1900 the rate of growth, according to the United States Census, was slightly over 21%, or 2.1% per year, while in the Census decades preceding the rate of growth was still higher. The decline from 2.1% per year in 1890-1900 to 1.74% per year in 1900-1905 obviously indicates an important falling off in the rate of growth. Even in mere numbers there appears to be no gain despite the increased immigrant arrivals. For the ten years from 1890 to 1900 population advanced from 62,802,432 to 75,994,575. This was an augmentation of 13,192,143 in numbers for the ten years. Dividing that by two would give an increase of 6,596,072 for each five-year period. This, it will be seen, is actually somewhat larger than the 6,579,620 increase in numbers found by the Census for the five years from 1900 to 1905.

As stated above, the Census Bulletin likewise contains figures of population for 1906 and 1904 in addition to those furnished for 1905. These also reveal some rather curious results; and if they can be relied upon tend further to accentuate the falling off in the *rate* of addition to population. For 1904 the inhabitants of continental United States are given as 81,261,856; for 1905, 82,574,195 (the same as above), and for 1906, 83,941,510. Thus, for the latest year the increase has been 1,367,315 and for the previous year it was 1,312,339. But according to the immigration figures given out at Washington it appears that no less than 1,100,735 immigrants were admitted to this country in the twelve months ending June 30 1906 and 1,026,499 in the twelve months ending June 30 1905. The estimates of population are for June 1 rather than for June 30, but the slight difference in date is not sufficient to vitiate their value for purposes of comparison. Deducting the immigrant arrivals from the increase in population, only 266,580 remains for growth in population in the normal way in the latest year and 185,840 in the year preceding, making for the two years, combined 452,420. At this rate, the increase for ten years, apart from that through immigrant arrivals, would be only about 2¼ million, or at the rate of not much more than 3% for the decade. We should like to see an explanation of these diminutive results in the absence of any epidemic or excessive death rate. Do the immigration statistics exaggerate the immigrant arrivals or do large numbers of the aliens landing here return to their native lands after a few years, or do some of them simply pass through the United States and eventually settle in Canada, or yet again has "race suicide" among our native-born population proceeded to the point where it would threaten extinction of the race except for the constant large accessions drawn from abroad?

Mr. North, the Director of the Census, makes one suggestion for increasing the utility of the State census

returns which is deserving of consideration. He expresses a hope that the next Federal Census will provide for some arrangement between the Federal Government and the States which take a census half way in the decade by which the Government will bear a portion of the expense in return for some supervision of schedules and reduction in the time which elapses before publication. Such an arrangement would serve to insure uniformity and greater accuracy and would doubtless also induce more States to undertake interdecennial enumeration of population. In the law providing for the Tenth United States Census there was a provision by which the United States Government agreed to refund 50% of the amount paid to all supervisors and actual enumerators by any State or Territory, and some sum in addition, provided that such State made its enumeration in the two months beginning on the first Monday in June of the year ending in a "5," and provided also that the returns were filed with the Government at Washington on or before the 1st of September following. Advantage of this section was at that time taken only by two States and two Territories and the provision was omitted from the Acts providing for the taking of the Eleventh and Twelfth Censuses. Probably an arrangement of that kind would be more generally utilized now. Co-operation between the States and the General Government in this respect would be very desirable, and if the cost is not too great it would be an important point gained to have a complete enumeration once in every five years in addition to the enumeration at the end of the decade. Population lies at the basis of everything, and population statistics, therefore, are invaluable.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—The public sales of bank stocks this week include one lot of 100 shares sold at the Stock Exchange and two lots, aggregating 74 shares, at auction. No trust company stocks were sold. The table below, given in our usual form, shows the actual sales of New York City bank stocks made during the week at auction and at the Stock Exchange. Extensive tables showing the bid and asked quotations, deposits, surplus, &c., of banks and trust companies in all important cities of the United States are published monthly in the "Bank and Quotation" Section, the May issue of which accompanies to-day's "Chronicle." Bid and asked quotations for all New York City bank and trust company stocks are also published weekly in another department of the paper, and will be found to-day on pages 1037 and 1038.

Shares. BANK—*New York.*	*Low.*	*High.*	*Close.*	*Last previous sale.*

x Sold at the Stock Exchange.

—The Banking Department of New York is now proceeding with an examination of all the trust funds held by trust companies in this state. Soon after assuming office, Charles H. Keep, State Superintendent of banking, found in looking over the affairs of his Department that there had been no examination of trust funds in the last ten years, and we are informed he had concluded even before the Douglass defalcation came to light, to issue an order calling for such an examination. Heretofore the Department's regular examination of trust companies embraced all the collateral held against loans and the other stocks and bonds included in assets. The Department's order will call for an investigation of the trust departments of all companies which hold trust funds either under will, as executor, as trustee or deposited by order of court or in escrow. Of course the New York City companies do most of that class of business with a few exceptions in other important cities in the State.

—F. Augustus Heinze, President Mercantile National Bank of this city, has acquired control of the Italian-American Trust Co. at 520 Broadway.

—An opinion, at variance with that given last December by former New York State Attorney General Mayer, was delivered on April 23 by present State Attorney-General Jackson, with regard to the law limiting loans to directors or officers of trust companies to not exceeding one-tenth of the capital stock of any such institution. Attorney-General Jackson's opinion was given in answer to a query made by State Superintendent of Banks, Charles H. Keep as to whether the law should be interpreted to include a loan to a firm or partnership of which a director or officer of a trust company is a member. Mr. Jackson is of the opinion that the restriction does apply in such cases. He points out that the law forbids a loan in a greater amount than that specified, "directly or indirectly," to such a director or officer, and states that "if the words 'directly or indirectly' mean anything at all, they are certainly plain and broad enough to extend the statutory restriction to a loan by a trust company to a firm or copartnership in which a director or officer of a trust company is a member. Each partner is individually liable for all the partnership indebtedness and this fact alone would furnish to the director or officer as strong a motive for an excessive loan of trust funds to the firm as would inspire such a loan to himself individually. In either case a trustee is placed in a position of conflict between individual interest and official duty which public policy and good morals would prohibit." He adds:

> I am aware that my opinion is at variance with that of former Attorney General Mayer, given your department upon the third day of December 1906, wherein a distinction is sought to be made between partnerships formed in good faith and partnerships formed in bad faith and the restriction of the statute limited to a case "where a partnership is a mere device and the loan, while made on its face to a partnership, is really made upon the sole credit of the individual who is a director." The statute makes no such distinction and the application of such a rule would be impracticable. If the loan to the co-partnership is a direct or an indirect loan to the director or officer, the question of good faith in the formation of the partnership or of the quality of the security is immaterial.

—Senator J. P. Allds' bill, amending the stock-transfer-tax law of New York State, was passed by the Senate on April 24 and by the Assembly on April 29. The bill, we understand, was introduced by Senator Allds, as Chairman of the Senate Taxation Committee, at the instance of State Comptroller Glynn. It provides that every firm, company, person or corporation conducting or transacting a brokerage business shall keep a just and true book of accounts wherein shall be recorded the date of making every sale, agreement to sell or transfer of shares, and every transaction in relation to stock, and the names of the parties thereto. These accounts are to be subject at all times to the inspection of the State Comptroller, or his representatives, between the hours of 10 a. m. and 3 p. m., and the Comptroller may enforce his right to examine the books by mandamus. Violations of the law are construed as misdemeanors and are punishable by a fine of from $500 to $5,000, and from three months to two years imprisonment.

—A bill providing for a tax on transfers of stock, similar to the law in operation in New York State, was reported in the Massachusetts House on April 24 by the Committee on Taxation. The proposed measure provides for a tax "on all sales or agreements to sell, or memoranda of sales or deliveries or transfers of shares, or certificates of stock, in any domestic or foreign association, company or corporation, whether made upon or shown by the books of the association, company or corporation, or by an assignment in blank, or by any delivery, or by any paper or agreement or memorandum or other evidence of transfer or sale, whether entitling the holder in any manner to the benefit of such stock, or to secure the future payment of money or the future transfer of any stock, on each share of $100 or fraction thereof, two cents." It is stipulated, however, that it is not intended by the Act to impose a tax upon an agreement evidencing the deposit of stock certificates as collateral security for money loaned thereon which stock certificates are not actually sold, nor upon such stock certificates so deposited.

—The admission of banks and trust companies to active membership in the New Orleans Stock Exchange has been provided for in a revision of the by-laws and constitution of the Exchange made at a meeting of the board of directors on April 24. The new law, the New Orleans "Times-Democrat" states, stipulates that each bank and trust company desiring to become a member shall be represented by one of its officers, who shall be elected by the board of directors of the Stock Exchange. No bank will be given

the privilege of having more than one officer on the floor of the Exchange, and the representative designated by each banking institution is to be elected as an individual. Expressions of disapproval were made against the new measure, its opponents contending that if a bank had a representative on the floor of the Exchange it would not require the services of a broker or brokers in handling its Stock Exchange business. John M. Huger, President of the Stock Exchange, is quoted as stating, however, that he did not believe that the admission of bank officers would hurt the business done by brokers or deprive them of any of their sources of revenue; he expressed the opinion that it would, on the contrary, broaden the Exchange, making it a much stronger organization, and put the big financial institutions in closer touch with the Stock Exchange.

—A bill relating to the supervision and regulation of banking in the State of Colorado, and providing for the appointment of a State Bank Commissioner, was passed at the late session of the Legislature, and was signed on April 13 by Gov. Buchtel. This bill was prepared by F. B. Gibson (Vice-President of the International Trust Company of Denver) as Chairman of the Legislative Committee of the Colorado State Bankers' Association, which organization endorsed the plan for State bank supervision and used its influence for the enactment of the measure. The new law is, on the whole, regarded as a most comprehensive and practical measure. One of its chief provisions makes it unlawful, after January 1 1908, "for any individual, copartnership or corporation (except national banks) to carry on or conduct within the State a banking business, or to advertise or hold themselves out as being engaged in or doing a banking business, or to use in connection with their business the word or words 'bank,' 'banking,' 'banker' or 'trust company,' or words of similar import, or the plural of any such word, or to solicit or receive deposits of money, or to transact any kind of banking business, without first having complied with the provisions of this Act and obtained a certificate of authority from the State Bank Commissioner; nor may the word 'trust' be used as a part of the name of any institution unless organized and qualified under the statutes providing for the organization of trust companies." It is also provided that individuals and copartnerships engaged in banking shall not be permitted to use the word "State" as part of the bank or firm name. Another feature of the new law is a provision for the resumption of business by banks temporarily suspended—a feature, Mr. Gibson states, which is not known to be incorporated in any other State banking law. This section is as follows:

"If the Bank Commissioner, upon taking charge of a bank, as hereinbefore provided, shall discover that said bank is only temporarily embarrassed for want of available funds, and that in his opinion the bank's assets are sufficient to pay its liabilities other than its surplus and undivided profits, leaving its capital unimpaired, or if the officers or stockholders of said bank will arrange to make good its capital, if impaired, he may defer applying to the court for the appointment of a receiver, and permit the officers and directors of said bank to arrange with its depositors and creditors for extensions of time for the payment of said depositors and creditors, and the resumption of business by said bank. And when said Commissioner shall be satisfied that the capital of said bank has been made good, and that it is solvent and has sufficient funds on hand to meet the demands to be made upon it in the ordinary way, and that it has arranged with its depositors and creditors for such extensions of time as will enable the bank to realize on its assets to meet such obligations, he may at any time within sixty days after so taking charge permit said bank to resume business, and in such case shall issue a new certificate of authority to said bank for such purpose. Provided, however, that said bank shall pay all the expenses of the Commissioner and his employees in so taking charge and looking after the affairs of said bank during the time such bank has been under his control, and shall also pay said Commissioner for the services of his office ten dollars per diem during said time."

The new law also stipulates that no director of any bank shall be permitted to borrow money from such bank in excess of 10% of the capital and surplus without the consent of a majority of the directors. It is provided further that the total liability to any bank of any person or company, corporation or firm, for money borrowed shall not exceed 20% of the bank's capital and surplus actually paid in; the liability of any bank for borrowed money or re-discounted paper is at no time to exceed the amount of actual paid-in capital.

—A New York Stock Exchange membership was transferred this week for $79,500. The last previous sale was at $79,000.

—At the annual meeting of the New York Chamber of Commerce on Thursday, Morris K. Jesup, its President for eight years, resigned, owing to impaired health, and was succeeded by J. Edward Simmons, President of the Fourth National Bank. A. Barton Hepburn, President of the Chase National Bank, was chosen to succeed Mr. Simmons as Chairman of the Executive Committee.

—There will be a meeting of the stockholders of the newly consolidated Trust Company of America, 135 Broadway, New York, on the 15th inst., to choose a new board of trustees of either twenty-four or thirty members for the enlarged company. At the first stockholders' meeting of the united concerns held last Monday, Oakleigh Thorne, President, was commended for his energetic work and ability in detecting and prosecuting Douglas, the defaulting loan clerk, and Dennett, his accomplice. On this point, John E. Borne, Chairman; H. B. Hollins and E. Clifford Potter, members of the company's Examining Committee, made the following report to the Board on Monday.

Securities of the market value of $570,000 were abstracted by the Assistant Loan clerk of the company. All these securities except those of the value of $63,000 have been recovered by the company. In making this recovery payments were made to the amount of $102,000 to various Stock Exchange brokerage firms who held the securities as collateral. This reduced the loss to $165,000, from which must be deducted the surety bond of the Clerk, amounting to $25,000. This further reduced the maximum net loss of the company to $140,000, which loss has been charged off. This last amount may be still further reduced through actions that will be instituted against those with whom the securities were pledged as collateral.

—The Union Trust Company of New York, William King, President, announces the completion of the fire and burglar-proof vaults of the Union Trust Safe Deposit Company at 425 Fifth Avenue, corner 38th Street. The institution recently opened its uptown banking office at this address.

—The Anglo-South American Bank, Limited, (head office London), has opened a New York agency at 69 Wall Street, under Charles A. Edwards' direction. Mr. Edwards was the London agent for the American Trading Company. The institution was formerly the Bank of Tarapaca and Argentina, Ltd., and has lately increased its capital stock by the issue of 100,000 new shares of £10 at a premium of £2 per share, and on which £5 per share is being called for payment. These shares have been fully subscribed for and the last call is payable on January 1 1908, when the bank's standing will be: nominal capital £2,500,000; paid up capital, £1,250,000; reserve liability of shareholders, £1,250,000 and reserve fund £600,000. Its branches are in Chile, Argentina, Uruguay and Hamburg.

—The Irving Trust Company of this city, of which Samuel S. Conover is President, commenced business on Wednesday at Chambers and Hudson streets. This new company represents an amalgamation of the interests of the Irving and Atlas trust companies, the union having occurred while both institutions were yet in a formative state. Its name, as heretofore stated, is to be changed to the Fidelity Trust Company as soon as the necessary legal authority is received. The institution has a capital of $750,000 and surplus of the same amount. In addition to President Conover, its officers are William H. Barnard and John W. Nix, Vice-Presidents; and Andrew H. Mars, Secretary.

—The lately formed National Copper Bank of this city started business on Wednesday the 1st inst. in the New Trinity Building, 115 Broadway. The institution has a capital and surplus of $2,000,000 each. The officers, as noted April 20, are Charles H. Sabin, President; John D. Ryan, Thomas F. Cole and Urban H. Broughton, Vice-Presidents; Walter F. Albertsen, Cashier, and Joseph S. House, Assistant Cashier.

—The Carnegie Trust Company, of which Leslie M. Shaw, ex-Secretary of the Treasury, is President, will move on Monday to its new banking rooms on the main floor of the New Trinity Building, 115 Broadway. The institution started business on Jan. 2d in temporary offices at the corner of Liberty Street and Broadway. Since ex-Secretary Shaw assumed executive direction on March 5th, its deposits have increased from $2,100,000 to $5,200,000. The company's experienced official personnel consists of: Charles C. Dickinson, Honorary Vice-President (formerly of the Colonial Trust Co.), Frank L. Grant, Vice-President (formerly of the Central Trust Co.); J. Ross Curran, Vice-President and Trust Officer (formerly of the City Trust Co.); Fred H. Parker, Secretary (late Examiner of Banks New York State); Lawrence A. Ramage, Trust Officer (formerly of the Central Trust Co), and William B. Averill, Assistant Secretary.

—The Importers' & Traders' National Bank has moved to temporary quarters at 303 Broadway, corner Duane Street, and it will remain there during the construction of

its new building on the old site at 247 Broadway, corner Murray Street. Their temporary offices were recently vacated by the Chemical National Bank.

—The Northern Bank, Broadway and Fourth Street, New York, opened a branch at the corner of 23d Street and Eighth Avenue last Wednesday.

—The uptown office of the Lincoln Trust Company of this city, at Broadway and 72d Street, opened but little more than four months ago (December 17), already reports deposits of over a million dollars. This branch is in charge of Cashier Charles B. Collins and Assistant Manager Nelson F. Griffin. The equipment of the banking rooms and safe deposit vaults is unusually attractive and complete.

—It is reported that the Stock Exchange creditors of Arnold Leo & Co., of this city, which suspended last April, have been paid in full. These creditors, it is said, had a prior claim on the firm's Stock Exchange seat, sold several weeks ago. The other creditors are reported to have received 50% of their claims.

—The Corporation Trust Co. removed this week from 135 Broadway to handsome offices on the second floor of the new Trust Company of America Building, 37 Wall Street.

—The Home Trust Company of New York will open for business to-day in the new Evening Post Building, 20-24 Vesey Street, this city. The main banking room is decidedly unique, following out, as it does, in every particular, the old English style of architecture. The wainscoting, fixtures, desks, chairs, &c., are built entirely of silvered quartered oak in quaint design. The room is lighted by old-fashioned art-glass lanterns, and has a red tiled floor, carrying out the old English idea. A massive manganese vault containing 700 safe deposit boxes for the use of its customers is also a feature. This institution has two Brooklyn offices, one situated at 184 Montague St. and one at Hamburg and Myrtle Aves. J. Edward Swanstrom, formerly President of Brooklyn Borough, is at the head of the company and associated with him are William C. Redfield and James N. Brown, Vice-Presidents; Harold A. Davidson, Secretary; Thomas W. Hynes, Treasurer; and E. Wilton Lyon and Wm. K Swartz, Assistant Secretaries.

—An agency of the Bank of Nova Scotia has been opened in this city, at 48 Wall Street, under the charge of W. H. Davies.

—The shareholders of the National City Bank of New Rochelle, N. Y., have ratified a proposition to increase the capital of the institution from $100,000 to $200,000. The new stock issued at par, $100 per share, is payable in July. The bank has surplus and profits of $90,000 and deposits of about $1,900,000.

—The New Jersey State Bankers' Association held its fourth annual meeting at Atlantic City on the 26th and 27th ult. The speakers included Congressmen Charles N. Fowler; New Jersey State Senator George J. Silzer, whose subject was "The Taxation of National Bank Stock in New Jersey; George E. Allen, professor of business practice, New York University; Governor E. C. Stokes of New Jersey, and former U. S. District Attorney James M. Beck. The newly-elected officers of the association are President Henry G. Parker, Cashier of the National Bank of New Jersey, at New Brunswick; Vice-President William C. Heppenheimer, President of the Trust Company of New Jersey, at Hoboken; Treasurer Edward L. Howe, Vice-President of the Princeton (N. J.) Bank, and Secretary (re-elected) William J. Field, Secretary and Treasurer of the Commercial Trust Company of New Jersey, at Jersey City.

—The consolidation of the First National and National Exchange banks of Albany, N. Y. became effective on Monday the 29th ult. The last-named bank is placed in voluntary liquidation, the enlarged institution operating under the title of the First National. Business will be continued temporarily at the banking house of the National Exchange Bank, 450 Broadway until the completion of the new building on the First National site. The consolidated institution has $600,000 capital and $200,000 surplus. Its list of officers will be found in our issue of April 13.

—James P. Stearns on Thursday resigned as President of the National Shawmut Bank of Boston. He will continue with the institution as Chairman of the board of directors. Mr. Stearns's successor as President is William A. Gaston, a member of the bank's executive committee.

—Robert F. Herrick has replaced W. R. Evans as President of the Winthrop National Bank of Boston.

—The Central National Bank of Philadelphia on the 2d inst. added $100,000 to the surplus, making that fund $2,500,000. In addition the bank has undivided profits of $240,000. A semi-annual dividend of 8% was declared on the $750,000 capital. The previous half-yearly dividend, declared last October, was 7%. Annual dividends of 12% had been maintained by the bank from 1876 until a year ago, when with the semi-annual disbursement of 6% an extra dividend of 1% was declared.

—The Logan Trust Company of Philadelphia, which commenced business on December 10 last year, has removed from the Crozer Building to its own building at 1431 Chestnut Street. The company has a capital of $500,000 and surplus of $125,000. It is under the management of Rowland Comly, President; Hugh McIlvain, Richard S. Dewees and Walter H. Lippincott, Vice-Presidents, and William Bradway, Trust Officer, Treasurer and Secretary.

—The directors of the Western National Bank of Philadelphia this week elected George E. Shaw to the presidency. Mr. Shaw had been temporarily acting as President since the death of Cornelius N. Weygandt in February. The board has also created the office of Vice-President, and has elected to the post Alfred J. McGrath, who retires as Vice-President of the Metropolitan Bank of New York. Mr. McGrath was at one time identified with the Merchants' National Bank of Philadelphia. The stockholders of the Western National recently approved a proposition to increase the capital from $400,000 to $1,000,000. Only $200,000 of the new stock, it is stated, will be offered for subscription, the purpose being to keep $400,000 in the bank's treasury for the present.

—In an effort to effect a reorganization of the failed Lincoln Savings & Trust Company of Philadelphia, a large majority of its stockholders have approved the recommendation made by the directors providing for an assessment of $10 per share on the company's 5,280 outstanding shares. The institution was closed on April 10 by the State Banking Department on account of an impairment of its capital. The amount which would be realized by the assessment, $52,800, will it is stated, more than offset the impairment, which is said to be estimated by the State Banking Department at $51,000. The first accounts reported an impairment of $57,000.

—The Tenth National Bank of Philadelphia plans the erection of a new building at 1645 North Broad Street. The structure will have only one story and will be 17 feet wide and 95 feet deep. It will be of classic Grecian design and will represent an expenditure of about $100,000.

—George D. McMorran, Treasurer of the Mercantile Trust Company of Pittsburgh, has been elected Treasurer of the Land Trust Company of that city. W. C. Zeigler, formerly Assistant Secretary of the Land Trust, has succeeded J. S. Brown, resigned, as Secretary of the Institution.

—Judge W. D. Patton of Uniontown, in an opinion handed down on the 24th ult., refused a new trial to the officers and directors of the defunct State Bank of Pittsburgh, and sentenced each to a fine of $300. The accused, it is stated, were convicted on a charge of receiving deposits when it was known that the institution was insolvent. In his finding Judge Patton said: "We are of the opinion that the jury was justified by the evidence in convicting the defendants under the Act of 1889. The defendants were technically guilty. However, the evidence clearly shows that they did not profit by receiving the money and did not do it with criminal intent, but hoping against hope that their investment in Washington coal lands would be profitable. The jury recommended the defendants to the extreme mercy of the court, and under all the facts and circumstances in the case, we feel justified in entering a perpetual 'stet' as to the imprisonment and imposing the maximum fine, which is double the amount received. In this instance the amount so received was $151.71, so each of the defendants is sentenced to pay a fine of $300 and costs."

—Thomas B. Riter, President of the Ohio Valley Bank of Allegheny, with which he had been identified since its

organization, died on the 22d ult. He was sixty-six years of age.

—The Provident Savings Bank & Trust Company of Cincinnati, Ohio, has accepted plans for a new fifteen-story building which it will erect at the southeast corner of Seventh and Vine streets. The building will occupy 94x94 feet. The entire lower floor will be used by the company, the upper portion of the structure being utilized as offices.

—In a report filed by the assignees of the Farmers' Bank of Canton, Ohio, which suspended at the time of the suicide of President H. G. McDowell on March 13, total assets are reported as $213,610 and total liabilities as $312,740.

—The Corn Exchange National Bank of Chicago will immediately begin to demolish the buildings on the northwest corner of Adams and LaSalle streets preliminary to excavation for and the erection of the new monumental building for their own uses. The cost of the structure is estimated in the millions, and it will be one of the most noteworthy on LaSalle Street. The Corn Exchange has $3,000,000 surplus and over $1,500,000 undivided profits. A portion of these funds will be used for the preliminary work until a comprehensive scheme for financing the complete undertaking is adopted.

—The directors of the Third National Bank of Louisville, Ky., at a meeting on April 30 elected Joshua D. Powers a Vice-President of their bank. Mr. Powers is also First Vice-President of the American Bankers' Association. He was formerly President of the United States Trust Company of Louisville, having served in that capacity from the time of its organization in 1902 until January of last year, when he resigned.

—An application to organize the American National Bank of Asheville, N. C., capital $300,000, was approved by the Comptroller on April 27. The petition was presented by J. H. Carter, J. L. Smathers, J. Q. Barker, William H. Woodbury, W. K. Merrick and C. M. Hickerson.

—A new Federal institution is being organized in New Orleans, La., in which a controlling interest will be held by the Hibernia Bank & Trust Company of that city. The name of the parent institution will figure in the title of the projected bank, which is to be known as the New Hibernia National. It is to have an authorized capital of $400,000. John J. Gannon, President of the Hibernia Bank & Trust Company, is spoken of as the probable head of the proposed bank. The application to organize was approved at Washington on the 22d ult.

—The banking house of Dexter Horton & Co. of Seattle, Wash., opened in its new quarters in the New York Block, on the 22d ult. The new banking rooms are finished in Pavonozzo marble, and are more than twice the size of the offices vacated, measuring 90x106 feet. The work of remodeling and refitting the offices commenced about a year ago was completed at the cost of, approximately, $100,000. With the exception of a few months, the bank was for more than thirty-six years located at Washington Street and First Avenue. The institution claims to be the oldest bank in Washington; it was established in 1870 under the name of Phillips-Horton & Co., and two years later assumed the present title. It has a capital of $200,000, surplus of $500,000, undivided profits (March 22) of $355,697 and deposits of $9,379,094. The officers are W. M. Ladd, President; R. H. Denny, Vice-President; N. H. Latimer, Manager; M. W. Peterson, Cashier; C. E. Burnside and G. F. Clark, Assistant Cashiers.

—Facts and figures showing the relative standing of San Francisco in the business and financial world one year after the earthquake and fire of April 18 1906 are the subject of a booklet prepared by the American National Bank of that city. In the matter of banking capitalization it is pointed out that San Francisco outranks many important Western and Pacific Coast cities combined. The clearings of San Francisco continue to expand, and the amount for the first quarter of 1907 at $599,365,000 compares with $541,457,000 for the same period in 1906. The gain, it is stated, would be considerably larger except for the fact that the Oakland banks, which formerly cleared through the San Francisco Clearing House, organized an association of their own in the summer of 1906. That the American National Bank itself is extending its activities is evidenced in a comparison of its deposits. These are now in excess of eight million dollars—$8,051,647 on March 22 1907—against $6,959,266 on September 15 1906, $5,998,432 on March 15 1906, and $4,938,629 on September 15 1905. The capital is $1,000,000, surplus and undivided profits $410,281 and aggregate resources $10,461,928. The management is made up of P. E. Bowles, President; Francis Cutting, E. W. Wilson and John W. Wilson, Vice-Presidents; George N. O'Brien, Cashier; E. J. Broberg, Assistant Cashier; and H. de Saint Seine, Manager Foreign Exchange Department.

—The Industrial Banking & Trust Company has been formed in Oakland, Cal., with an authorized capital of $500,000. The amount of capital to be paid in will not be determined before July 1, about which time the institution will begin business.

—The Royal Bank of Canada announces the forma removal of its head office from Halifax, N. S., to Montreal Quebec. For some time General Manager Pease has had his office in Montreal and that city has practically been the bank's headquarters.

—Announcement has just been made of the election of Aemilius Jarvis of Toronto to the presidency of the Sovereign Bank of Canada (head office, Toronto), Randolph MacDonald retiring. Mr. Jarvis is a thorough banker and as head of the Aemilius Jarvis & Co., bankers of Toronto, is well known throughout Canada and Europe. It has also become known that J. P. Morgan & Co. and the Dresdner Bank of Germany have obtained a large interest in this important Canadian institution. Although the Sovereign Bank has only been in operation since May first 1902, it has deposits of about $16,000,000, reserve fund and undivided profits of $1,255,000, resources of over $26,000,000 and a paid-up capital of $4,000,000. It operates 90 branches and sub-offices throughout Canada, and is the Canadian representative of the Commercial Banking Company of Sydney, Australia, and the National Bank of South Africa, Ltd. Duncan M. Stewart, who was Vice-President and General Manager has resigned the former office, and Mr. MacDonald has been elected in his place; Mr. Stewart continues as General Manager. The other officials are W. Graham Browne, Assistant General Manager and Manager of the Montreal Branch, and L. P. Snyder, Inspector. The New York Agency is located at 25 Pine Street, with C. E. Lanskail as agent.

—The Disconto-Gesellschaft, Berlin, in its attractively prepared booklet showing the December 31 1906 balance sheet, reports net profits for the year of $4,486,957, including $174,502 brought forward from 1905. This was appropriated as follows: 9% dividend on capital, $3,642,857; Tantieme of board of directors, $106,516; participations of managing partners, $426,065, and gift to David Hansemann Pension Fund for the staff, $35,714, leaving a balance of $275,805 to be carried forward. The bank has a capital of $40,476,190, reserve fund of $13,712,526 and deposits and current accounts of $90,482,707. The total resources are $205,449,245.

Canadian Bank Clearings.—The clearings of the Canadian banks for the month of April 1907 show an increase over the same month of 1906 of 14.7, and for the four months the gain reaches 9.3.

Clearings by Telegraph—Sales of Stocks, Bonds, &c.—The subjoined table, covering clearings for the current week, usually appears on the first page of each issue, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from other leading cities. It will be observed that, as compared with the corresponding week of 1906, there is a decrease in the aggregate of 18.5%. So far as the individual cities are concerned, New York exhibits a loss of 31.4%, Philadelphia 10.4%, and Baltimore 10.4%. Boston records a gain of 3.3%, Chicago 13.5%, St. Louis, 0.9%, and New Orleans 3.3%.

Monetary and Commercial English News

(From our own correspondent.)

London, Saturday, April 20 1907.

The Budget statement made by the Chancellor of the Exchequer on Thursday afternoon had been looked forward to with exceptional interest because it was expected that he would expound a very far-reaching and ambitious program. As a matter of fact, his Budget is far more moderate and makes much fewer changes than had been anticipated. The year ended with March last had a realized surplus of £5,399,000, which will be employed in the redemption of debt. For the new year, the year beginning with the 1st of April, the revenue on the basis of existing taxation is estimated at £144,190,000 and the expenditure at £140,757,000, showing an estimated surplus of £3,433,000. The Chancellor of the Exchequer reduces this surplus by two millions by lowering the income tax from 1s. to 9d. in £1 on all earned incomes, the possessors of which have incomes not exceeding £2,000 a year. Upon incomes above £2,000 a year, from whatever source derived, no change is made, and even under £2,000 a year incomes from investment remain liable to the full tax of 1s. in £1. As already said, the concession made to owners of earned incomes will cost the Exchequer a million and a quarter per annum, and in the present year an additional three-quarters of a million, owing to delay in collecting the income tax. Consequently, in the year the total loss will be £2,000,000. On the other hand, death duties of over £150,000 are to be increased. Ultimately it is expected that the increase will yield 1¼ millions sterling per annum; that is, will exactly equal the concessions made to earned incomes under £2,000 a year. But in the present year it is not expected that the gain will exceed £600,000. Thus the loss is reduced from £2,000,000 per annum to £1,400,000. At the same time, the sinking fund is increased by 1½ millions sterling. The ultimate result of these changes is that the surplus is reduced to £3,333,000.

Upon the whole, the Budget has been well received. There is some grumbling because, to prevent evasions of the income tax, the Chancellor of the Exchequer proposes to make changes which are denounced as inquisitorial. Probably, however, they will be found far less vexatious than they appear upon paper. With regard to the Stock Exchange, the Budget ought to prove highly popular, for it is likely to give a great stimulus to business. During the Balfour administration the sinking fund was practically suspended, firstly, because of the war; and, secondly, because money was diverted to carry out great public works, especially naval and military. Since the new Government came into power it has redeemed nine millions sterling of debt. But, although that has had a very beneficial effect in many ways, it has not brought new business to the Stock Exchange, since the debt redeemed consisted entirely of floating debt and mainly of Treasury bills. The Treasury bills have now, however, been brought down to such a very manageable proportion that it is not likely that any of the sinking fund will continue to be applied to them. The sinking fund, in all reasonable probability, will be applied to the purchase of consols, and if so a sinking fund of 15 millions sterling in the new year must have a very great stimulating effect upon the stock markets. In addition to this, it is to be observed that the San Francisco earthquake cost the British insurance companies in round figures 14½ millions sterling. The liabilities have now all been discharged, and therefore the insurance companies, instead of constantly selling as last year, will in the present year be constantly buying. In other words, the sinking fund and the insurance companies together will pour into the stock markets during the new year in round figures 30 millions sterling.

Money has become exceedingly easy. The rate of discount is barely 3⅜%, and day-to-day money is almost unlendable. It is true that about 3 millions sterling are due

to the Bank of France and that the re-payments have begun. But the bills held by the Bank of France fall due at different dates during the next two or three months. Consequently the shipments of gold will be spread over a considerable time. Against this, it is further to be recollected that the arrivals of gold from South Africa are now on an immense scale, and that the Bank of England consequently is growing extremely strong. It seems certain therefore that the Bank rate will be reduced on Thursday next. [The rate was reduced as expected—from 4½ to 4%.—Ed.]

The India Council offered for tender on Wednesday 70 lacs, and the applications amounted to 578½ lacs, at prices ranging from 1s. 4 3-32d. to 1s. 4 5-32d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 5-32d. per rupee were allotted about 12% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years.

Messrs. Pixley & Abell write as follows under date of April 18:

GOLD.—In the absence of any outside demand, the Bank has secured this week's free gold, amounting to about £500,000. This week's movements are as follows: The Bank has received £461,000, of which £455,000 is in bars, while £230,000 has been withdrawn, of which £200,000 is for Paris, and it is expected that more will go to the same quarter. £241,000 is expected from South Africa next week. Arrivals—Cape, £562,000; Australia, £156,000; Bombay, £61,000; Brazil, £13,000; West Indies, £15,000; total, £807,000. Shipments—Bombay, £75,550; Madras, £12,750; total, £88,300.

SILVER.—The market has been firmer again this week, and after being up to 30½d. for cash and down to 30⅛d., we close at 30 5-16d., with a steady tone. There has again been some Eastern inquiry, and with India a less aggressive seller, the position has improved. Rates from China are much firmer. Cash silver is again very scarce. Price in India, Rs. 77 per 100 Tolahs. Arrivals—New York, £102,000; Straits (coin), £352,000; China (coin), £47,000; total, £501,000. Shipments—Bombay, £222,500; Madras, £5,000: total, £227,500.

MEXICAN DOLLARS.—There is no business to report in these coin. Arrivals—New York, £10,000. Shipments—Nil.

The quotations for bullion are reported as follows:

c Incorrectly reported in previous issue as May 15.

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending April 27. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks (00s omitted)	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Reserve

Apr. 27..	51,165,0	223,071,0	60,547,0		259,284,0	13,989,0	138,310,2

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted April 27 to $4,396,000; on April 20 to $4,234,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending April 27, also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods.....	$2,950,779	$2,707,933	$2,454,820	$2,066,497
General Merchandise.....	14,719,525	11,604,540	11,429,115	9,711,372
Total.....	$17,670,304	$14,312,473	$13,883,935	$11,777,869
Since January 1.				
Dry Goods.....	$66,964,705	$59,206,609	$51,162,838	$44,960,377
General Merchandise.....	236,010,825	197,482,663	202,082,719	163,318,075
Total 17 weeks.....	$302,975,530	$256,689,263	$253,245,557	$207,378,452

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending April 27 and from Jan. 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week.....	$14,849,398	$12,836,330	$10,926,358	$9,157,870
Previously reported.....	203,054,908	199,750,490	169,866,950	156,695,338
Total 17 weeks.....	$217,904,306	$212,586,820	$180,793,308	$165,853,208

The following table shows the exports and imports of specie at the port of New York for the week ending April 27 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1	Week.	Since Jan. 1
Great Britain	$3,600	$3,600	------	$2,540,353
France	------	--------	------	331,087
Germany	------	--------	------	1,155,297
West Indies.....	24,600	378,600	$140	115,346
Mexico	4,000	7,000	3,321	53,611

Wall Street, Friday Night, May 3, 1907.

The Money Market and Financial Situation.—Owing largely to a dearth of other news, crop reports have been one of the most prominent topics of interest in Wall Street during the week. The reports were for the most part unfavorable, and wheat has further advanced as a consequence; but their effect in the security markets has been less marked. Prices, it is true, have been more or less irregular, but every railway stock which as been at all active closes higher than last week and a few issues have made a rather sensational advance. This movement towards a higher level is, in large part, a continuation of that noted last week, and therefore not due to outside interest in the market.

The announcement of an issue of $25,000,000 5% convertible bonds by the Atchison Company attracted attention chiefly on account of the rate. The weekly statements of the three most prominent European banks all show a considerable increase of loans and a smaller percentage of reserve than those of the previous week. The local money market has been somewhat firmer, call-loan rates having been quoted at 4% on Wednesday. Presumably, however, this was due to monthly settlement day and not to any change in market conditions.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 to 4%. To-day's rates on call were 2½@4%. Prime commercial paper quoted at 5½@6% for endorsements and 5½@6% for best single names.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £433,330, and the percentage of reserve to liabilities was 45.21, against 45.32 last week.

The discount rate remains as fixed April 25 at 4%. The Bank of France shows an increase of 1,700,000 francs in gold and a decrease of 375,000 francs in silver.

The New York City Clearing-House banks, in their statement of April 27, showed an increase in the reserve held of $146,900 and a surplus over the required reserve of $12,346,775, against $11,704,825 the previous week.

	1907. April 27.	Differences from previous week.	1906. April 28.	1905. April 29.
	$	$	$	$
Capital	128,100,000	----------	116,472,700	115,972,700
Surplus	159,990,500	----------	148,305,000	137,656,500
Loans and discounts	1,123,417,600	Dec. 1,587,300	1,039,210,500	1,097,902,100
Circulation	50,069,300	Dec. 37,500	51,138,400	44,149,200
Net deposits	a1106,183,300	Dec. 1,980,200	1,028,683,200	1,146,528,600
Specie	213,126,300	Dec. 2,003,100	186,734,300	217,715,100
Legal tenders	75,766,300	Inc. 2,150,000	80,803,900	85,582,300
Reserve held	288,892,600	Inc. 146,900	267,538,200	303,297,400
25% of deposits	276,545,825	Dec. 495,050	257,170,800	286,632,150
Surplus reserve	12,346,775	Inc. 641,950	10,367,400	16,665,250

a $31,648,600 United States deposits included, against $31,612,300 last week and $28,953,300 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $20,258,925 on April 27 and $19,607,900 on April 20.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market was dull and easier until Wednesday, when there was a recovery due to a demand for remittance and a small supply of bills, and the tone was generally strong thereafter, closing at the best rates for the week.

To-day's (Friday's) nominal rates for sterling exchange were 4 84 for sixty-day and 4 87 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8350@4 8360 for long, 4 8640@4 8645 for short and 4 8675@4 8680 for cables. Commercial on banks 4 8315@4 8325 and documents for payment 4 82½@4 83⅜. Cotton for payment 4 82½@4 82⅝, cotton for acceptance 4 8315@4 8325 and grain for payment 4 83¼@4 83⅜.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 19⅜*h*@5 19⅜*a* for long and 5 16⅞*a*@5 16⅞*d* for short. Germany bankers' marks were 94 9-16@94⅝ for long and 95 1-16@95⅛*d* for short. Amsterdam bankers' guilders were 40 31@40 33 for short.

Exchange at Paris on London to-day 25f. 15c.; week's range 25f. 16c. high and 25f. 15c. low.

The week's range for exchange rates follows:

	Long		Short		Cables	
Sterling, Actual—						
High	4 8350	@4 8360	4 8640	@4 8645	4 8675	@4 8680
Low	4 8315	@4 8320	4 8610	@4 8615	4 8640	@4 8645
Paris Bankers' Francs—						
High	5 19⅜*h*	@5 19⅜*a*	5 16⅞*a*	@5 16⅞*d*	----------	
Low	5 20⅝	@5 20	5 17½	@5 17½*a*	----------	
Germany Bankers' Marks—						
High	94 9-16	@ 94⅝	95 1-16	@ 95⅛*d*	----------	
Low	94¼	@ 94⅜	94 15-16	@ 95	----------	
Amsterdam Bankers' Guilders—						
High	----------		40 31	@ 40 33	----------	
Low	----------		40 1-16	@ 40⅛	----------	

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston selling, $1 per $1,000 premium. New Orleans bank, par; commercial, 35c. per $1,000 discount. Chicago, 5c. per $1,000 discount. St. Louis, 5c. per $1,000 discount. San Francisco, 20c. per $1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board include $5 000 Tennessee settlement 3s at 96 and $1,000 Virginia fund. debt 2-3s, 1991, at 93¼.

The market for railway and industrial bonds continues dull and generally featureless. Not only have the transactions been on an exceptionally limited scale, but fluctuations have been so narrow as to make a review of the market almost devoid of interest.

Atchison convertible 4s have been relatively active, and declined on the announcement of a new issue of 5s. Pennsylvania conv. 3½s, 1915, Southern Pacific 4s and Inter.-Met. 4½s have been relatively strong. Several issues sold ex. interest on the 1st.

United States Bonds.—Sales of Government bonds at the Board are limited to $7,000 3s, reg., 1908-18, at 102½. The following are the daily closing quotations; *for yearly range see third page following.*

	Interest Periods	April 27	April 29	April 30	May 1	May 2	May 3

*This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—The volume of business in stocks remains practically the same as last week, daily transactions averaging between 550,000 and 600,000 shares. The market was generally steady during the early part of the week, noteworthy changes having been rare up to the close on Wednesday. On Thursday there was an upward movement, in which the entire active list participated, led by the Union Pacific issues. On sales of about 2,100 shares, Union Pacific preferred advanced 8 points and sold 2 points above its previous highest price of the year. Within the week the common advanced 8½ points and it closed near the highest. Southern Pacific was strong in sympathy and advances of from 1 to 4 points have been general throughout the list. Northern Pacific covered a range of 5 points; St. Paul, Delaware & Hudson, Amalgamated Copper and Smelting & Refining from 4 to 5 points and Great Northern, North West. and Reading from 3 to 4, all closing at or near the highest. New York Central has shown a tendeney to weakness on its quarterly report just issued. New York Air Brake is the only active stock that closes lower than last week.

For daily volume of business see page 1046.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

STOCKS. Week ending May 3.	Sales for Week.	Range for week. Lowest.		Range for week. Highest.		Range since Jan. 1. Lowest.		Range since Jan. 1. Highest.

Outside Market.—Speculation in the market for unlisted securities ruled quiet this week with special activity in one or two stocks. The general tone of the market, however, was firm. Nevada Utah Mining and Smelting was one of the few active issues, the price advancing from 4⅞ to 6⅞. Later, trading quieted down and it sank to 5⅜. Boston Consolidated Copper, after an advance of a point to 29½, became animated and jumped to 30⅝, and to-day scored a further advance to 31⅜. Butte Coalition moved down from 27¼ to 26⅞ but advanced finally to 28⅜. Nevada Consolidated Copper sold up from 14⅜ to 15¾. Greene Consolidated Copper, on few transactions, gained a point to 26 but fell back to 24½. United Copper Common dropped from 62½ to 61 but recovered to 61⅞. Dominion Copper moved up a point to 7 and then sank back to 6⅝. Trinity Copper advanced from 21¾ to 23. Outside the copper shares, Manhattan Transit was a conspicuous feature, being affected by the news of a favorable decision by the Court of Appeals and the reported sale of $1,000,000 bonds. But after advancing from 5⅜ to 6½ it weakened and fell to 5¼, subsequently recovering to 5½. N. Y. & Cuba Mail S.S. dropped from 29¼ to 28. Standard Oil rose 4 points to 530, then declined to 525½. Waterbury Company common sank from 44 to 42¾. Western Ice from 34¼ moved down to 33 and to-day sold up to 35½. Chicago Subway advanced from 17¼ to 18, then dropped to 16⅞. It moved up again to 17½, easing off to-day to 17⅜. Atchison "rights" were traded in between ⅛ and 7-16. American Writing Paper preferred soldat 23 against 22 last week.

Outside quotations will be found on page 1046.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings. Week or Month.	Current Year.	Previous Year.	July 1 to Latest Date. Current Year.	Previous Year.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of April 20 1907. The next will appear in the issue of May 18.

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. *b* Figures are from Feb. 1. *c* These figures are for consolidated company. *d* These are results for main line. *f* Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. *h* These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept. 5 1906.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of April 27 1907. The next will appear in the issue of May 25 1907.

Grand Trunk Railway of Canada.

(Remarks for Half-Year—Tabular Earnings for Entire Year.)

At the shareholders' half-yearly meeting held in London on April 11 President Sir Charles Rivers Wilson said in part:

General Results.—The half-year ending Dec. 31 last, which we have under review to-day, has been uneventful but satisfactory. We have earned the largest income which has ever been recorded in any half-year and for the first time we are in a position to distribute 3% to the third preference shareholders. The gross receipts of the past half-year amounted to £3,584,847, compared with £3,288,993 in the December half-year of 1905, an increase of £295,854, or nearly 9%; the number of tons of freight and live stock moved increased about 9¾% and the number of passengers carried increased a little over 5%.

The gross receipts having been £3,584,846 and the working expenses £2,561,496, the net traffic receipts amounted to £1,023,350, being the first occasion on which they have exceeded £1,000,000 in a half-year. The net revenue credits amounted to £132,775, or a little more than £32,000 in excess of those of the corresponding period, due to our having on hand during the half-year a considerable balance of the proceeds of the last issue of 4% guaranteed stock, on which we were able, owing to prevailing financial conditions, to obtain a high rate of interest. The rentals payable and the interest on our bonds and debenture stock amounted to £614,096, leaving a balance of net revenue of £542,119; but from this there has to be deducted the deficiency on the Canada Atlantic Railway, less the surplus on the Detroit Grand Haven & Milwaukee Railway, or a net deduction of £18,654, so that the amount available for dividend out of the working of the half-year was £523,465, and, adding to this the balance of £16,077 carried forward last half-year, we have a total sum available of £539,542, and a resolution will be submitted to you authorizing the payment of the half-year's dividends on the 4% guaranteed stock and first and second preference stock, and a dividend of 3% for the year on the third preference stock.

Reduction in Cost of Maintenance, &c.—"Maintenance of way and structures" showed a considerable decrease, having been £513,674, against £625,060, a decrease of £111,386. This decrease is due to a considerable extent to the special expenditure which was made during the eight years ending December 1905 for the renewal of bridges. The amount charged for repairs and renewals of bridges and culverts for the past half year was only £6,921, compared with £114,438 in 1905, a decrease of £107,517. The amount at the credit of the renewal of bridges account, as shown in the balance sheet, is £52,796, which it is now estimated will be sufficient to complete the bridges covered by the original programme, after which the charges for bridge renewals will become of a normal character.

Controlled Properties.—The Grand Trunk Western and the Detroit Grand Haven & Milwaukee continue to give very satisfactory results. In each case the fixed charges have been paid and a substantial surplus has remained over. In the case of the Grand Tr. West. the surplus has been carried forward to the current half year, and will, no doubt, allow at the 30th June interest at 4% to be paid on the income bonds, as was the case last year, and in the case of the Detroit Grand Haven & Milwaukee some £15,000 or £16,000 has been credited in the accounts of the Grand Trunk towards the repayment of advances made in former years. The Canada Atlantic still lags behind, but we are confident as to its future, and in the meantime considerable sums are being spent—which accounts almost entirely for the present deficiency—in working the road up to the standard of the main line.

Progress of the Grand Trunk Pacific Ry.—The great railroad which we and the Government of Canada are constructing across the continent of North America will stretch almost entirely from the Atlantic to the Pacific, namely from Moncton, in New Brunswick, to a port that is being called into existence on the Pacific Coast, and that has been named Prince Rupert. The distance is about 3,600 miles, divided into almost equal parts between the Government of Canada and the Grand Trunk Railway. [See maps on pages 60 and 61 of "Railway and Industrial" Section.—Ed.] The divisions from Moncton to Quebec, 450 miles, and from Quebec to Winnipeg, another 1,350 miles, a total of 1,800 miles, is being constructed by the Government, and already contracts have been let on certain portions

of the road. From Lake Superior Junction to Winnipeg, 245 miles, the Government is at present working on the road, but the contractors have been slow, and I am afraid that there may be a greater delay in its completion than was anticipated.

As regards the Lake Superior branch of 200 miles, passing through a rather wild country, the work is well advanced, and there is no doubt it will be completed in the course of the present summer. Going westward from Winnipeg work is progressing speedily between that city and Edmonton, a distance of 790 miles, and there is no doubt that that portion of the road will be completed this year, but possibly not quite so soon as we expected, in consequence of the scarcity of labor; but that we shall get through to Edmonton some time this year I have little doubt. The delay of the Government contractors in completing their portion between Winnipeg and Lake Superior Junction may somewhat postpone the obtaining of a junction with our road.

When navigation is open the grain and other freight will be brought down to Fort William and be taken across the lake to our numerous ports on the Georgian Bay, and there connect with our road. During the close of navigation the freight will go by the main road, running direct from Winnipeg in the direction of Quebec. In order to obtain access to the Grand Trunk a branch will be built connecting the transcontinental road with North Bay, which is the northernmost point of our system. Surveys have been completed for the construction of that road, which is about, I think, 245 miles; but it is unnecessary for us to take the work in hand until the Government is more advanced with its work across that country. Contracts have been let for construction west of Quebec, but so far no work has been commenced beyond about 150 miles immediately to the west of Quebec. Some little time will, therefore, probably elapse before the Grand Trunk gets into direct connection with the Grand Trunk Pacific by means of the North Bay branch. On the other hand, we shall, within a short period, I hope, be able to communicate by navigation with the Grand Trunk Pacific route.

As regards the line beyond Edmonton, surveys have been made and a great portion of the road is already located, and the construction will be taken in hand as soon as possible; but this matter is less urgent than the completion of the road from the east of Edmonton. At Fort William our harbor and wharf accommodation will be very extensive and work is going on actively in constructing the necessary buildings and making the harbor. At Winnipeg we have made a satisfactory arrangement with our friends and competitors, the Canadian Northern Railway, to share with them the very extensive terminal accommodation. We have arranged with them to have a union station, and connected with that there will be extensive yards and also a large hotel.

The directors of the Grand Trunk Pacific have not been behindhand with the ordering of the necessary equipment, and no less than 2,650 cars had been delivered at the end of last year, and a further large number has been contracted for. We were hopeful that we should be able to carry a certain amount of the harvest this year from Edmonton and Winnipeg eastward, but owing, as I said, to the delay on the part of the Government contractors, I am not so hopeful as I was. In the meantime we understand that the elevators all along the road are absolutely gorged at the present time with grain. It is estimated that no less than 35,000,000 bushels of grain are stored with the farmers and at the elevators through the country waiting to be carried directly navigation is open. What the prospects of the harvest may be for this year it is impossible to say at the present time, but so far the conditions are not otherwise than favorable and it is satisfactory to know that, according to estimates, about 20 % more grain land will come under cultivation this year than last year, so that even if the harvest is less plentiful than was last year, probably that deficiency will be made up by the increased acreage under cultivation. As you are aware, the flood of immigrants is still flowing into the country. All through the winter, even in the worst and severest months, we have had news of train-loads of immigrants being deposited at points all along the road. At the 30th June last no less than 3,071 miles of railway were under construction in the country, and I understand something like 5,000 miles of new railway are under contract during the present year. These figures give you some idea of the present prosperity and future prospects of the country.

Successful Sale of 4 % Debenture Stock of Grand Trunk Pacific Ry.—In February last we made a first issue of 4 % debenture stock of the Grand Trunk Pacific Ry., guaranteed by our company. The moment was unpropitious; business was greatly disturbed; the Bank rate was 5 %, and some of the most important and wealthiest of the American railroads were borrowing on short-date notes at 5 %, at 6 % and, I am told, at even higher rates. We were able, however, without any difficulty, to place this 4 % debenture stock practically at par.

Passenger Rates.—Some misapprehension seems to have been caused owing to an announcement that the Railway Commissioners had made an order fixing the maximum rate for passengers per mile in the case of railways east of the Rocky Mountains at 3 cents per mile. An impression seems to have been created in some quarters that this arrangement would be detrimental to the interests of the company; but that is not the case. As a matter of fact, rates charged in Ontario and Quebec are not—except in some very unimportant particulars—in excess of 3 cents per mile. As a general rule they are below that amount, and therefore the effect upon the Grand Trunk—certainly at the present time—will be practically nothing. As regards the effect it may have upon the Grand Trunk Pacific, when that line comes into operation—well, for a considerable time to come, certainly, the profit will be derived from the movement of freight, and as regards the passenger traffic, there is not much loss to be apprehended in that direction, seeing that for some time to come our principal business will be that of introducing immigrants into the country.

The results for the entire calendar years 1903 to 1906 inclusive have been compiled for the "Chronicle" as follows:

OPERATIONS AND FISCAL RESULTS FOR 12 MONTHS ENDING DECEMBER 31.

Grand Rapids & Indiana Railway.

(*Report for Fiscal Year ending Dec.* 31 1906.)

President Joseph Wood, under date of Grand Rapids, Feb. 25 1907, says in part:

Funded Debt.—Your board authorized the sale at par and accrued interest of $188,000 of second mortgage bonds, which were sold in April 1906 to replace amounts that had been expended for additions and improvements and charged against income instead of capital account.

Earnings.—On the Grand Rapids & Indiana Ry. (423.15 miles) the gross earnings increased $294,955, or 8.2 %; freight earnings increased $182,659, or 8.1 %; tonnage increased 249,951 tons, or 9.2 %; tonnage of forest products, which was 42.4 % of the total, increased 7.9 %; tonnage of products of mines, constituting 26 % of the total, increased 17.6 %; the tonnage of coke increased 34 %, of bituminous coal 13.5 %, and of ore 49 %; ton mileage increased 40,341,902 miles, or 12.5 %. Average rate per ton mile was 6.7 mills, a decrease of .3 of a mill, due to the increased tonnage of lower class commodities, notably coke and ore Average number of tons per train was 283, an increase of 37 tons, or 15.1 %. The earnings from passenger traffic increased $100,001, or 8.8 %. Average rate per passenger mile was 2.8 cents, an increase of .1 of a mill.

Expenses increased $223,640, or 7.7 %, due principally to large expenditures for maintenance of way and equipment repairs. The ratio of expenses to earnings was 80.4 %, a decrease of 0.4 %.

Renewals, &c.—Eighty-seven freight cars were re-placed under our regular pool program for the year. There were 546 light capacity freight cars retired during the year and replaced with an equal number of new standard cars under a car-trust arrangement.

There were 2,275 tons of 85-lb. steel and 122,649 cross ties used for renewals, and 1,623.5 tons of partly worn rails and 20,691 cross-ties used in the construction of additional tracks and sidings. About 45 miles of track were ballasted with gravel, and three miles with slag. There was a net increase of 1.06 miles of first track, and a net increase of 6.3 miles in sidings. The traffic which it served having disappeared, the remainder of the Osceola branch (3½ miles) was discontinued and track removed.

Industrial Activity.—The industrial activity was very marked, as is evidenced by the fact that 48 new industries were located, as against 14 in the previous year, and 12.5 miles of spurs and sidings were constructed to serve them, an increase of 8 miles.

General Remarks.—The total tonnage of all lines was 4,143,345, an increase of 350,430 tons, or 9.24 %. The total ton mileage was 423,461,129, an increase of 45,869,568, or 12.15 %. The average revenue per ton was 72 cents, a decrease of 1.4 cents. The average rate per ton mile was 7 mills, a decrease of .4 mill. The total number of passengers carried was 2,327,597, an increase of 105,804, or 4.76 %. The average rate per passenger per mile was 2.6 cents, the same as in previous year. [Then follows an argument against the justice of reducing passenger fares by legislation, as has been done under the Act signed by the Governor of Michigan on April 18. Compare editorial remarks on a preceding page and "Passenger Fares" in V. 84, p. 932.—Ed.]

Taxes.—The Grand Rapids & Indiana Railway Co. paid into the State treasury in 1906 $526,989, its proportion of the double taxes assessed under the new tax law of 1901, and it is stated that the State gathered from its railroads from $8,000,000 to $9,000,000 for such taxes, which, under the present constitution can only be used for the support of public schools and school districts, many of which have few or no pupils.

The effect on your company's financial condition coupled with the largely increased cost of all articles used in operating railroads and the increase in wages for labor which was made in 1906, raises a serious question as to whether the Grand Rapids & Indiana Railway Co. can continue to make even the small return to its stockholders that it has been able to do since 1900.

Traverse City Leelanau & Manistique Railroad Co.—This company, reference to which has been made in former reports as being in financial difficulties, on April 23 1906 went into the hands of the Union Trust Co., of Detroit, as receiver, and the receiver has commenced foreclosure proceedings on its mortgage bonds. (Compare news item on a subsequent page.—Ed.)

Manistique Marquette & Northern Railroad Co.—As noted in the last report, the capital stock of this road was purchased by your company for $9,918. This asset has been reduced on our books to a nominal $1.

OPERATIONS AND FISCAL RESULTS.

All Lines Operated—	Gross Earnings 1906.	Gross Earnings 1905.	Net Earnings 1906.	Net Earnings 1905.

United States Steel Corporation.

(*Earnings for the Quarter ending March* 31 1906)

The following financial statement of the Corporation and its subsidiary companies, showing the earnings for the first quarter of the current calendar year, was given out on Tues-

day, after the regular monthly meeting of the directors. The "net earnings" in all cases were arrived at after deducting each month the cost of ordinary repairs, renewal and maintenance of plants and interest on bonds and fixed charges of subsidiary companies. See also note below. We append the results for quarters in previous years.

Dividend on common (½ %)	2,541,513	-------	-------
Balance, surplus	$3,684,576	$5,567,000	$2,573,407

Note.—Beginning with Jan. 1907 charges for certain funds are deducted before stating monthly net earnings. This change reduces by approximately $200,000 per month the earnings reported, as compared with the former method, and correspondingly reduces the charges shown as deductions from earnings for fund reservations. The balance of earnings after deducting fund reserves are not affected by the change in method. See annual report, V. 84, p. 634.—V. 84, p. 936, 876.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Alabama Great Southern RR.—*Listed in London.*—The London Stock Exchange has granted an official quotation to 156,600 ordinary shares of $50 each and 67,607 preferred shares of $50 each, in lieu of the "A" and "B" shares of the Alabama Great Southern Railway Company, Limited, heretofore quoted. Compare V. 81, p. 1722; V. 82, p. 159; V. 83, p. 1225.)—V. 84, p. 50

Atchison Topeka & Santa Fe Ry.—*Option to Subscribe for $26,000,000 Convertible 5% Bonds.*—The management announced on Wednesday that all shareholders of record May 10 will be permitted to subscribe at par, from July 5 to July 10, both inclusive, for an amount of 5% convertible bonds equal to 12% of their respective holdings. This will call for the issue of about $26,060,000 bonds of the $98,000,000 convertible bonds authorized by the shareholders on Jan. 30 1907. The proceeds will be used for extensions, additions and improvements (compare V. 83, p. 1468; V. 84, p. 219, 389). In 1905 and 1906 $47,714,000 convertible bonds bearing 4% interest were sold under the $50,000,000 authorization of 1905. (See V. 79, p. 2695; V. 80, p. 649; V. 81, p. 1174; V. 82, p. 391, 867.)

Regarding the present offering, a circular says:

By order of the board of directors, the privilege will be given to the holders of the common stock and preferred stock to subscribe, during the period beginning July 5 and ending July 10 1907, for an amount of the 10-year 5% convertible gold bonds equal to 12% of their respective holdings of stock as registered on the books at the close of business on May 10 1907. The bonds will be convertible prior to June 1 1913, at the option of the holders, into common stock of an equal par value. The subscription price of the bonds will be their par value and accrued interest, payable 30% at the time of subscription, 35% between Jan. 5 and Jan. 10 1908 and 35% between June 5 and June 10 1908, interest being adjusted at the time of payment of the last installment. Subscription warrants and a circular furnishing further details will be mailed to the stockholders.

Sale.—See Phoenix & Eastern RR. below.—V. 84, p. 101, 50.

Baltimore & Fidelity Warehouse Co., Baltimore, Md.—*Bond Issue.*—This company, incorporated under the laws of Maryland in March 1903 with $250,000 capital stock, recently filed a mortgage to the Fidelity & Deposit Co. of Maryland, as trustee, to secure an issue of $500,000 6% 30-year bonds. The company issues warehouse receipts against raw materials and manufactured products, whether stored in the company's own warehouses or on the premises of the manufacturer or owner.

President, Albert G. Ober; Treasurer, Thomas L. Berry, of the Fidelity & Deposit Co. of Maryland; Secretary and Manager, T. E. Witters. Office, Fidelity Building, Baltimore.

Bahia (Brazil) Tramway, Light & Power Co.—*Merger.*—The following from the "Philadelphia Financial Bulletin" is pronounced correct:
